Has the President's Policy Toward the Islands Changed?

ESTIMATES FOR TWO YEARS.

A Father's Fearful Crime.—Is to Mrs. Lease.—Reporters Excluded from Mexico.

WASHINGTON, Dec. 4.—Gresham declined this morning to talk in regard to the published report that the revenue cutter Corwin was to carry a message for the state department from San Francisco to Honolulu. There is reason to suppose that the story is substantially correct. Gresham was busy yesterday with the dispatches which are to go on the Corwin. Of what these consist, nothing can be learned. The fact of despatching the Corwin so hastily leads to a surmise that the administration has changed its policy toward the islands.

Yearly Estimates.

WASHINGTON, D. C., Dec. 4.—The book of estimates for appropriations for the fiscal years 1894 and 1895 was sent to Congress today. The amount estimated necessary to carry on the government for the fiscal year is $451,979,041, against the estimates for 1893 and 1892 of $421,614,216, and appropriations for 1893 of $432,454,625.

The estimates for 1895 are made up as follows: Executive, $393,280; legislative, $7,903,720; state, $1,858,000; judiciary, $1,239,850; war, $45,277,499; navy, $23,809,774; interior, $186,228,; pensions, $156,000,000; agriculture, $2,202,940; Indian, $10,579; justice, $3,276,880.

Expenses of territorial courts, Utah, increased from $59,000 to $76,000.

Will Come Up Early.

WASHINGTON, D. C., Dec. 4.—The bills for the admission of New Mexico, Arizona and Utah have all been reported favorably and will come up early for consideration in the House.

Senator Faulkner, chairman of the Senate committee on territories, says prompt action will be taken on the statehood bills by his committee.

The House report favoring the admission of Utah is of peculiar interest, because of the hitherto desperate opposition to admission on account of the predominance of the Mormon element. The reports and recommendations of judges and various commissioners are quoted at great length.

ANOTHER FIEND.

Would have Killed Them All But for His Wife.

EAST, Pa., Dec. 4.—Edward Carey, a mechanic, while under the influence of morphine, planned to murder his entire family and would have succeeded but for the timely arrival of his wife. He borrowed a revolver, and after sending his wife out of the house he began his murderous work. He first killed little Bertha while she was studying her school lessons, then sent a bullet through Walter's brain, as he lay on the bed, suffering from the morphine previously given by his infant.

Carey then tried to kill his oldestborn, a lad of 10, but he ran out of the house and called to his mother. The baby, Hazel, was the next to be slaughtered, but was saved by Mrs. Carey's arrival.

Carey shared a moment at his disposal with, then turned and put a bullet through his own brain. It is feared Mrs. Carey will loose her reason.

Mayer, who is charged by the insurance companies with poisoning the people in various parts of the country for the purpose of getting the insurance on their lives, was put on trial for his life this morning in the court of Oyer and Terminer, together with his wife, who it is claimed, was a party to the crimes. The courtroom was crowded long before the hour for court to open.

Mrs. Lease the Cause.

Prescribed Papers.

EL PASO, TEX., Dec. 4.—This morning the circulator of the *Mercury* was arrested by Juarez for leaving his paper on that side of the river. The *Times* has also been barred from Mexican territory. Reports from Durango regarding the battles between the rebels and federal troops are declared to be absolutely unreliable. There is no revolution except in the minds of an ambitious correspondent.

The *Herald* and *Tribune*, both afternoon papers, have been proscribed in Mexico. This afternoon the carriers were met at the international line by police officers and their papers taken from them.

DENVER, Dec. 4.—A copy of the Pronunciamento of the Mexican revolutionists was received at military headquarters today. It is addressed to the Mexican soldiers, and appeals to them, as brothers, who should not meet with arms in hand to destroy one another. Says the appeal: "You great army is ground to despotic tyrant; we want to be free or die, but not to be slaves. If you wish to avoid bloodshed join the revolution."

THE LEHIGH STRIKE.

A New Phase Created by the Telegraphers.

BETHLEHEM, PA., Dec. 4.—A conference between the joint arbitration committee, representing the boards of the states of New York and New Jersey on the one hand and representatives of the Lehigh Valley railroad on the other, was begun here today. General Manager Voorhees said: "The locomotives today along the line is fine and everything is in good shape."

An assessment of $1 each has been levied on all union telegraphers on the line in support of the strike.

ROCHESTER, N. Y., Dec. 4.—Fifteen men on the Lehigh Valley directed their reels today, influenced by the strikers.

HAZLETON, PA., Dec. 4.—The strike situation remains a new phase brought out yesterday by the Lehigh Valley officials, and as a result the latter are greatly encouraged. This was a movement on the part of the telegraph operators, which closed up the most important offices between Delano and Hickory. Two months the night despatchers and two other officers of the company here. The situation is now in the strikers' favor. Most of the men who quit bought are non-union men and the strikers are confident they will be able to induce new men from taking their places.

American Common Schools.

NEW YORK, Dec. 4.—The National League for the protection of American institutions have issued an address to the public in defense of the American free common school system. The address has particular reference to the movement in New York state to divide the public school funds on sectarian lines, vested almost exclusively in a religious denomination which for years has been insisting that public school system. It appears to all loyal Americans to co-operate in defense of the public schools.

Thrown Their Beds Overboard.

DENVER, Dec. 4.—A special to the *Republican* from Boise, Idaho, says: Wm. H. Claggett, who contested his seat in Congress in the United States Senate two years ago, has written a letter renouncing allegiance to the Republican party and joining his political fortunes with the Populists. His letter which is in reply to a letter from Senator Stewart of Nevada, declares that both of the old parties are bankrupt and unwilling to grapple with the financial questions of the day and serve the interests of the people.

Grand Master Sovereign was prevented unexpectedly from taking part in the inspection. The members expressed satisfaction with the operation of the system. The heads of departments will gradually remain here a week, and a big demonstration is to be held probably Thursday.

The French Government's Policy.—Pere Hyacinthe Explains His Idea—The Bank of England.

ST. THOMAS, Dec. 4.—As this dispatch is sent the Brazilian cruiser Nictheroy and America are preparing to sail under sealed orders, for some port in Brazil. The Nictheroy arrived here Monday and steamed outside Tuesday and Thursday, where excellent Hotchkiss target practice was done. The officers and crews of the Nictheroy and America are full of fight and most anxious for a brush with the enemy. Cable messages are said to have been exchanged here between the commanders of the Brazilian cruisers and the home authorities, and they are said to have been notified that Mello has left Rio to meet our ships. This has caused all the more enthusiasm among the crews of the Nictheroy and America.

NEW YORK, Dec. 4.—The Destroyer which was expected to sail this afternoon for Brazil was seized by deputy United States marshals. The seizure was made at the instigation of John N. PRESIDENT'S IDEA.

A New Church Consisting of All "Unclassed."

PARIS, Dec. 4.—Pere Hyacinthe, in a sermon yesterday, explained the object of his new religious society, composed of Catholics and Protestants, called the National Society of Evangelization. He appealed for a union of Catholics and Protestants, so realizing the idea of a new church, embracing all those known as Christians.

CHURCH AND STATE.

The Question Not Considered in France.

PARIS, Dec. 4.—Casimir Perier, in his announcement of the new ministry's policy, said the government would consider the creation of a women's provincial time, and would deal with the question of secularize. The government, he insisted, would undertake nothing which might tend toward the separation of church and state, as the country desired it, and would refuse all proposals for a revision of the constitution in the chamber of deputies. The declaration of the existing policy was warmly applauded, except from some of the socialist deputies.

The general discussion on the motion of M. Grousset, for general amnesty, was closed, and the chamber, by a vote of 297 to 233, refused to discuss the clauses of the motion. It will thus be seen that the new government only had a majority of 31 in the first engagement it had with its opponents.
