JOHN DOE ET AL.

Whole Family Joins in Message to the City Council.

"John Doe" and his family have been heard from again and this time they take exceptions to the new rules recently adopted by the Utah Light & Railway company relative to places where the cars shall stop and take on and let off passengers. The following communication in regard to the matter was received by City Recorder Moreton yesterday afternoon to be submitted to the city council:

Salt Lake City May 25, 1907.

To the Honorable the City Council and Mayor of Salt Lake:

The Utah Light & Railway company have posted a notice that they will stop for passengers at only such points as they themselves elect.

Please pass an ordinance instructing them to take on and let off passengers wherever the passengers may choose, to turn their business over to someone that will, and oblige,

JOHN DOE,
And all his relatives.

The new regulations were made purely in the interest of the public, and will undoubtedly result in much faster and more expeditious service, especially on the longer lines that reach to the suburbs.

RHEUMATISM

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, Prop., Sullivan House, El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c, and $1.00. Sold by Z. C. M. I. Drug Dept., 112 and 114 South Main St B

STAGE DRIVER ARRESTED.

Accused of Driving Horses Unfit for Work of Any Description.

A mail stage driver, named Sheffield was arrested yesterday, at Richfield at the instance of State Inspector F. E. Clark of the state board of health on the charge of inhuman treatment of his horses. Dr. Clark found the horses with their shoulders covered with running sores because of ill fitting collars, and also discovered that the animals were half starved, no grain being given them. The horses were used to haul the mail stage over long, rough routes, and when not in service were turned loose to forage as best they could. The stage people claim that the trouble is due to the system of competitive bidding for carrying the mail, the figures of the successful bidder being so low that in order to make any money, the horses can only be half fed.

STOP GRUMBLING

If you suffer from Rheumatism or Pains, for Ballard's Snow Liniment will bring quick relief. It is a sure cure for Sprains, Rheumatism, Contracted Muscles and all pains—and within the reach of all. Price, 25c, 50c, $1.00. C. R. Smith, Tenaha, Tex., writes: "I have used Ballard's Snow Liniment in my family for years and have found it a fine remedy for all pains and aches. I recommend it for pains in the chest." Sold by Z. C. M. I. Drug Dept., 112 and 114 South Main Street. B

FLORAL DISPLAY ON TEMPLE BLOCK

Beautiful Verdure Characteristic Of Tabernacle Grounds Creates Comment Among Tourists.

UNIQUE AND ARTISTIC SHOW.

Under Supervision of Expert Floriculturist From Germany it is One of Finest Small Parks in West.

With the advent of spring, the beautiful verdure characteristic of the temple and tabernacle grounds is attracting the favorable comment of the thousands of visitors and tourists who are shown around there. And particularly today, after the abundant rainfall, is the entire square agreeable to the eye, making the poetically inclined recall to mind, the following stanza from Spenser's "Faerie Queene:"

"No daintie flowre or herbe that growes on growndd,
No arborett with painted blossoms drest
And smelling sweete, but there it might be fownd
To bud out faire, and throwe her sweete smels al arownd."

The gardener, W. F. Neumann, an expert floriculturist from Hamburg, Germany, is in charge of the grounds, and the intelligent care, not to speak of ingenuity exhibited is an assurance of continued excellence in the maintenance of their topographical beauty. The grass plats are laid out with symmetrical curved lines, and kept in cleanly shaven lawns free from dandelions and other parasitic vegetation. There are some 350 trees that unconsciously suggest to one Thomas Gray's exclamation, "Ah, pleasing shade!" whose rustlings bear "a voice in every wind," as he contemplated a distant prospect of Eton college. These trees include such varieties as box elder, elm, the common and the weeping ash, linden, cedar, pine, the beautiful white birch, etc., that are kept free from pests and in a healthful condition.

UNIQUE DESIGNS.

Gardener Neumann is taking special pains with his flower beds which are laid out with an eye to the attractive both in style and in pattern, as well as in originality. He has altogether 24 of these beds, covered by some 50 varieties of floral exhibits, including geraniums, roses, the moom flower, lobelias, pansies, fuchias, asters, fox glove, sweet alysium, betunias, asurantas, guaphaliums, echeverias, and many other varieties whose botanical designations are unfamiliar to the lay ear, but whose colors and odors are a source of pleasure to every observer. A unique design spread out on the bank of turf south of the temple railing, is that of a beehive, flanked by two crossed American flags, the entire figure being about 10x8 feet, with "Utah" surmounting the whole. The letters of the "Utah" are composed of a red flower called asuranta, surrounded with a border of small pieces of broken granite. The bee hive is of a drab colored flower commonly know as "Hen and Chickens," but technically echeveria, bordered by the granite chips. The flowers composing the flags are the lobelia and asurantas.

GIGANTIC BUTTERFLY.

Another and specially noticeable flower bed is laid out adjoining the bureau building, in the shape of a gigantic butterfly. The wings are of purple, white and yellow pansies, arranged in such contrast as to show off the combination most strikingly, while the body of the insect is of echeveria, and antennae the same. Another flower bed is laid out in the form of a star, with a varied assortment of floral display within its borders; and at other places where they may be displayed to advantage, flower beds of different shapes may be found. Then there is a large harp shaped bed that is worthy of special notice, composed of pretty flowers, ingeniously arranged. Within the temple grounds proper, there is quite an array of flowers that will be in full bloom shortly, including the rose of Campignon, a lovely crimson flower, and other attractive varieties. The shrubs about the square are well arranged and of considerable variety. Altogether, it is doubtful if there is another park in the west that presents an appearance more agreeable to the artistic sense, more agreeable to the eye than the Temple-Tabernacle square in this city.

It is a sure cure for constipation and malaria fever, which is substantiated by what it has done for my family." Sold by Z. C. M. I. Drug Dept., 112 and 114 South Main Street.

HUNDRED YEAR CLUB.

Cleveland, O., May 29.—Chief Chemist Wiley of the United States department of agriculture, in an address before the graduating class of Case school of applied science today, said:

"I belong to a 100-year club, any member of which who shall die before he is 100 years old will be expelled in disgrace.

"The present generation is going to live much longer than the one which came before this because it knows more about the laws of hygiene, diet and surgery.

Strength and Endurance

Are factors of the greatest success.

No person can do full justice to himself without them.

In no season of the year are they more easily exhausted than in the spring.

We need not discuss the reason for this here. It's enough to say there is one, and that Hood's Sarsaparilla gives strength and endurance, as thousands annually testify.
