DESERET EVENING NEWS.

5 O'clock -EDITION.-

TRUTH AND LIBERTY.

NO. 226. TUESDAY, AUGUST 18, 1896, SALT LAKE CITY, UTAH. VOL. XXIX

SEWALL OR WATSON?

Populists Will Not Withdraw Their Candidate.

A MEETING OF THE MANAGERS.

Ingersoll Bolts Stocks the Democratic Nominee Can't Hard to Stop Aside.

WASHINGTON, D. C., Aug. 18.—Senator Butler, chairman of the national committee of the Populist party, arrived today to attend the meeting of Populist managers. Only five members of the executive committee are here, the others have sent excuses. It was decided, even before the executive committee met, that the national headquarters will be in Washington. Dispatches that the reason in Washington, adjusting the Democratic headquarters will be secured. The executive committee will listen to no proposition looking to the withdrawal of Watson from the ticket. Butler said it would not stand for what Bryan done before the people, neither holding the Populist party responsible together of anything she would have prevented by the combination of the whole democratic party, or the Populists. Sewall was not to represent the Populists, he said, and under no circumstances will they consent to vote for him. He thinks Watson stands better chance of being the next vice-president than Sewall.

Bryan is in Chicago today to try with his efforts to his own state since the national convention that he has had little correspondence with the members of the notification committee.

Joseph Dabney, a member of the Democratic national committee of North Carolina, is in the city to see if a compromise could be made among the party leaders to bring about an adjustment of the difficulty in that state. Dabney had a conference with Senator Jones. Jones and Butler then consulted. It was evident that Dabney at the Democratic situation is not very promising. Butler was seemingly worried with the situation. "We can't stand a second Vice-President," he said, "without something like what we might be case." One of the Democratic leaders spoke very positively about the matter. He said Butler thought he was the Democrats in a tight place and could give a hard argument. He would find they would make a straight fight. They did not expect to win, but they would stay by nothing. The appearance of Senator Morrill of Wisconsin, at the national congressional headquarters was one more for congressmen. It was announced recently that Mr. Morrill would support Bryan, but this is the first appearance of the senator at the headquarters of the committee of which he is a member.

INGERSOLL'S VIEWS.

OMAHA, Neb., Aug. 18.—Eugene V. Debs has written under date of Aug. 15 a letter to George P. Garrison of Chadron, Neb., setting forth his views in other and fusion between Democrats and Populists. Debs said:

"Without the support of the Populists the Democratic party could not win. Mr. Sewall can well afford to go side-tracked a union of the two great forces and ensure the election of the people's candidate. Mr. Bryan is the part of Sewall would make him a greater man than the Vice President. Failing to accept the People's party made recognition by giving them vice-president, the national ticket, there will be dissatisfaction which may culminate in open revolt especially in the Southern States, where the Populists have suffered all sorts of indignities at the hands of the Bourbon Democracy, and this party will Bryan his election and put McKinley and gold-bugism to power. There is a vast difference between Bryan and the Democratic party. If the latter's only ambition is to swallow the People's party, as it has done the Greenbackers, and get possession of the offices, their design will and should be thwarted. I would far rather see McKinley elected than have another Democratic administration."

In Encouraging Immigration.

NEW YORK, Aug. 18.—A dispatch to the Herald from Panama, Colombia, says:

The Herald's correspondent in San Juan Del Sur, Costa Rica, says that Costa Rica has authorized the executive to expend $100,000 in encouraging immigration.

The Herald's correspondent in Managua, Nicaragua, says that John Baker, son of United States Minister Baker, has concluded a contract with the Nicaraguan government to extend the line of transportation in Nicaragua, both by land and across the lakes Managua and Nicaragua.

John Palmer Gannon has left for the United States and Europe, via Panama, on a secret mission.

BOTHACHER DIES.

The Wound Inflicted by the Assassin Proves Fatal.

CINCINNATI, Ohio, Aug. 18.—Prof. E. Bothacher, assisted by Attorney Charles Lonny yesterday morning, died this morning. The charge against Lonny was changed to murder. It is now a case of self-defense will be made. As Lonny is a good boxer he blows were surprised by him using a knife when attacked by the professor. Bothacher, one of whom at least was intoxicated. It appears that the wounds from an inside case of knife and was in no condition to move even a single antagonist with satisfactory results.

RACE YACHTS COLLIDE.

The Sailors Dismasted by the Motor—Fatal Accident.

SOUTHSEA, Aug. 18.—The Atlas, Britannia, Galatea and Meteor started this morning on a race for the Vice Commodore's cup. Not long after the start the Meteor collided with Baron Von Seebach's American Isalda. The latter was dismasted and several of her crew were knocked overboard and Baron Von Seebach was severely injured by the falling of the rigging that he was taken to a hospital at Hyde mountains.

All the members of the crew of the Isalda were saved by boats from other yachts.

Baron Von Seebach died shortly after having been removed to the hospital. He was a German navy commander, a member of the Reichstag and the Prussian Diet. He had been in Parliament about 25 years; was a leading man in Reichstag affairs and a leader of the free conservative party. Although comparatively young he was unanimously recommended to fill by the state cabinet for the post of minister of Bremen, but his appointment because the emperor had taken a fancy to Dr. Nigel.

In passing the committee next the king sprite Britannia and Meteor were almost abreast of the Isalda and narrowly escaped a collision. The Britannia actually dashed herself to avoid the Isalda and the Meteor struck the Isalda, sweeping her from stem to stern with the bowsprit. The Isalda's mainmast and sails crashed overboard, carrying nearly all the crew of the Isalda and crushing Baron Von Seebach. The Britannia and Meteor immediately lowered and toward their boats for the assistance of the men struggling in the water. The Atlas and the other yachts did the same. Baron Von Seebach, when pulled out of the water, was found to have a bad cut on his head and bleeding from the ears. He was taken on board a steam yacht, which immediately made for Ryde, but died on the yacht, not after reaching the hospital, as first announced.

The Isalda, in addition to being her mast, etc., had her bows stove in and was towed back to Southsea. Both crews were rescued.

The Isalda is a 25 rater built by the Herreshoffs and originally the property of Prince Leopold of Germany, for whom she was built. She was subsequently sold to Baron Von Seebach. She was taken to England in April last year. She is the twin ship of Howard Gould's Niagra, which she defeated several times.

THE TROUBLE IN CRETE.

Turkish Governors Deny the Stories About Their Soldiers.

Europe Pays Too Much Attention to the Complaints of the Christians.

NEW YORK, Aug. 18.—A dispatch to the Herald from Canea, Crete, says:

There are three cities of importance here—Canea, Candia and Retimo. Your correspondent has seen the military governors of all three and asked them what they had to say in reply to the accusation of the Christians that the Turkish soldiers are unreliable and given to pillaging.

Abdulah Pasha, in Canea, indignantly denies that Turkish soldiers so much as thought of pillaging. He would not hear of even the possibility of such a thing.

Hassan Pasha, governor of Candia, said: "The statement as to pillaging by soldiers is grossly untrue—is totally without foundation."

Col. Hussei, governor at Retimo, said that the Turkish soldiers are guiltless of any of the offenses of pillaging attributed to them without proof. The charges of pillage, he said, are invention.

One of the consuls, not of this place, who has had great experience, says: "The whole trouble is that Europe is paying far too much attention to the Christians. The Christians by nature loves dramatic situations. He loves to cherish the idea that Turkey is about to attack him and that he is in personal danger. He delights in making a great show of entrenching himself behind sandbags, guns bristling about. He loves to sitting in a cafe and seating upon the fearful rah he is running, and the magnificent courage he made when the Turks were making a massacre every Christian. He searches in vain for a correspondent of the Turkish deputy and if so he is furious."

According to many persons a large responsibility lies with the consuls, who are supposed to be the eyes and ears of encouraging Turkish states in present attitude. In the opinion of these persons the solution of the Cretan question lies in the withdrawal of all the consuls. They point out that the effect would be instantaneous.

One opinion was found strongly pronounced in Canea, Candia and Retimo. It is that the present condition is intolerable and that so long as it lasts danger will exist. All who spoke thoroughly believe that a rally of the Porte to the demands of the Christians should arrive, Delay they know means the stirring up of Mussulman fanaticism, propagating bad blood and making a serious question still more difficult. The insurgents, assuming to the governor of this city, have gone off towards Candia, with what purpose he cannot say. One thing is clear, he said, it is that the rely of the Porte should arrive at once. Colonel Hussei has refused to let people leave here. He was asked why. His reply was: "I am quite prepared to let them go anywhere, but not otherwise. They probably want to settle into the mountains and fight."

Mr. Bertram Smith, who has come out as an agent for the English and American men who enlisted the Cretan band, has gone to Candia. He says he has seven hundred persons to begin and more to come. Money is needed with an urgency that few who have not seen the misery can realize. Many people are appealing to him for money to assist idles and ammunition in the purchase horse. What the people want is bread, not rifles.

IT WAS EXAGGERATED.

NEW YORK, Aug. 18.—A dispatch to the Herald from Canea, Crete, says:

The story of an engagement at Candia recently is not confirmed, but the Turks have taken advantage of the report to make a raid. For instance, it is reported that the Turks lost eight cannon, whereas they saw more than ever. The British war ship Hood never left Candia yesterday and will be somewhere today. Admiral Noel, the Collingwood, Captain Burrows. The Russian gunboat Rossiglia has arrived here to relieve the Gromoboy.

RAILROADS IN CHINA.

Preliminary Contract for the Construction of a Line

BETWEEN PEKING AND HANKOW.

A Request to Induce Li Hung Chang to Visit Chicago.

CHICAGO, Aug. 18.—A movement is on foot among prominent citizens of this city to extend an invitation to Li Hung Chang, the Chinese viceroy, to have him stop over a couple of days in Chicago, while on route to the Pacific coast.

Col. M. B. Jaffaris, C. E. of Hampton, an American promoter of railroads in China, has been in town the past few days and he has helped along the movement. In a conversation with a reporter last night, Col. Jaffaris said:

"I am returning now to perfect the plan for building the longest railroad in the empire. A year ago last June I left London for China, for the purpose of investigating the needs and prospects for railroads there. I returned with the preliminary contract for constructing a line of railroad from Peking to Hankow, a distance of 700 miles. It will be built largely by foreign capital. Two-thirds of the line has been contributed by the Chinese merchant companies and the other third contributed by those in America. The contractors of the railroad will require a bonds of $3,000,000 each. A test work about 72 miles in American money.

"China has at present only 185 miles of railroad owned and operated by the imperial government. One reason for the laziness of the investments of foreign capital is that there are no laws which will make it secure. I am now returning to lay the papers in the Li for from the emperor allowing the construction of the road, to see that it conforms to the requirements of the investments of the Anglo-American capital. Americans up to the present time have seen more backward about investing in China than other capitalists and have made no effort to send agents there to investigate. But that condition is changing.

"The trip of Li Hung Chang through Europe and America will result in the right development of railroad systems in China. He is a man of great intelligence and appreciates the wonderful advantages to be gained through modern methods of transportation.

"Since Tse Tai has resigned the general manager of railroads and of the development of mines and other industries in China. He is not only a warm personal friend of Li Hung Chang, but he is the partner in the Chinese Merchant company and other great enterprises.

"All stories of Li Hung Chang's deposition from power in China are false. He is the greatest man in the empire next to the emperor, and the mission to St. Petersburg was the greatest honor that could be conferred on any subject of the empire. The Chinese viceroy will pass through Chicago September 6 or 7 with his thirty-eight ministers, secretaries and other men of similar greatness on his way to the Pacific coast. He will first be entertained in New York where President Cleveland, John W. Foster, ex-minister to China, and a committee will receive him. From there he goes to Philadelphia to be the guest of Ex-Minister John Russell Young, and other gentlemen at that city, at the Union League club. After that he goes to Washington.

SAVED BY A DOG.

The Faithful Animal Wakes the People and Prevents a Fire.

CLEVELAND, Ohio, Aug. 18.—A pointer dog saved the lives of three men and four children at a fire at 1008 L. Prince street yesterday morning. P. Fisher and family lived there. The fire was making rapid headway and the occupants of the room were asleep. Suddenly the dog, which sleeps near the hired man, smelled the smoke and realized the danger which threatened his human friends. He leaped upon the bed in which the man slept and started to lick his face. The awakened him and he in turn aroused another man. One of them seized one of the barking children and ran down stairs with him. The other man leaped out of the window to the ground. Soon afterwards Fisher was awakened and he ran up to the left over the kitchen to save the three other children. The fire by that time was spreading rapidly and the kitchen was in flames. Fisher threw the three children, who had not yet opened their eyes, down the stairs to the ground floor before they were hardly awake. None was injured by the fall, though the men of one of them were slightly injured. The faithful dog in the meantime was in the yard and could not be induced to leave. There was little time to save him and the poor beast perished in the flames.

G. A. R. ENCAMPMENT.

The Arrangements Now Almost Completed.

ST. PAUL, Minn., Aug. 18.—But two weeks remain for the preliminary work for the thirteenth encampment of the Grand Army of the Republic and the local arrangements are almost completed, so far as the local committees are concerned. Letters thus far received warrant the estimate that no less than 20,000 veterans will be in line on the day of the big parade. The parade will be for the veterans only, the commander-in-chief having advised positively that there shall be no carriages in line. Many inquiries have been received as to the time Commander-in-Chief Walker will arrive in St. Paul, and the announcement is made officially that he will not arrive until the morning of Tuesday, Sept. 1.

Already nearly two hundred unions of various army organizations have been booked to be held during the encampment week. One of the most notable of the week will be the secretary's information brigade, an organization having been perfected among the high school boys, to patrol the city and to give information and directions to visitors, the boys being stationed at each street corner, their uniform white caps enabling the visitor to find any proper help in a time of need. The Lyceum Leagues have secured quarters in the Ryan hotel and will keep open house to their companions and friends.

The Alliance reception on Sunday promises to be a great affair, as the Alliance for the occasion and Gem will be held simultaneous receptions to the ladies of the various military societies and their friends. The general Grand Army reception will have the Delta quarters building for a center and will extend for half a mile along Summit avenue with numerous stations decorated for the occasion.

The week will end with a reception by the Daughters of the American Revolution to the visiting ladies.

THEY RETIREDAW.

Two Silver and the Wisconsin Democratic Law.

MILWAUKEE, Wis., Aug. 18.—Senator Vilas and Hair W. Jones, the silver men who have declared their intention on behalf of the Democracy of Wisconsin to conduct a suit in the Supreme court for the purpose of seeing being as unconstitutional the anti-Democratic law passed by the legislature, have notified Chairman Pick of the Democratic state central committee that they had decided to withdraw from the case. The reason given for their retirement is that the action of the Democratic party in endorsing the cause of free silver has convinced their interest in the advantage to the party, to be gained by the amendment of the act.

NEW HENRY WARD BEECHER DIE.

NEW YORK, Aug. 18.—No change is reported in the condition of Mrs. Henry Ward Beecher at her home in Orange street, Brooklyn. Mrs. Beecher was relieved by the excessive heat of last week and is quite ill.

CABINET MINISTERS MEET.

Important Matters Discussed at Gray Gables.

Minister Bonny to Leave May and Himself a Persona non Grata.

CHICAGO, Aug. 18.—A special to the Tribune from Buzzards Bay, Mass., says:

Attorney General Harmon was at Gray Gables yesterday and left on the late train last night. While here he met Secretaries Carlisle, Olney and Lamont, these four members of the cabinet being at Buzzard's Bay at the same time.

There is no doubt some important matters were discussed, notwithstanding the statement that the visit more of so many cabinet ministers at this particular time is purely of a social character.

There are several reports in circulation of what passed at the meeting, one being the advisability of issuing a statement with relation to the Tilton party and that secretary Smith's position was also considered.

Spain's alleged claim for damages is also thought to have been considered. The last mail Calderon Carlisle sent a printed copy of his brief to every leading government official in Washington may have caused complaint. The brief was prepared at the direction of the Spanish minister. It is said to be practically a direct attack on the administration on the part of the Spanish minister under cover of the attorney's brief. Should Carlisle keep silence, Minister Dupuy de Lome might find himself unpleasantly a persona non grata.

Troops for Cuba.

NEW YORK, Aug. 18.—A dispatch to the Herald from Madrid says:

The first embarkation of 14,000 troops for Cuba will commence at Santander on August 25, terminating on August 26. The second will take place from August 30 till Sept. 6, after which date the cavalry embark. By September 11, the whole expedition of 40,000 will have left the peninsula.

IT TOOK HIM A YEAR

To Travel Round the Earth and See the Sights.

MANCHESTER, Conn., Aug. 17.—John J. Brough, a well known merchant of this town, aged 45 years, has returned from a trip around the world which consumed exactly a year. Mr. Brough traveled on a bicycle, he never was passed. Of the 20,000 miles covered by him, 4,000 were by water, 12,000 on his wheel, and the rest by railroad in the different countries. Mr. Brough sailed from New York August 17, 1895, and he was accompanied on his start by his brother-in-law, Byron B. Forsythe of Black Creek, Canada. The two landed at Queenstown, Ireland, and while on a tour of the island, Mr. Forsythe fell from his bicycle and received a compound fracture of his arm. His companion proceeded alone. He visited Scotland, North and South Wales and many places in England. From London he went by water to Dieppe, in France, then wheeling to Holland and Germany.

In Frankfort he won a fifty-mile bicycle race and with it a prize of $100. In Italy he rode his wheel from Rome to Naples. At Constantinople he was in trouble for three nights and two days for being without a passport. Later he went to Sicily. From Sicily he went to Egypt. Later he found himself in Arabia and then made his way via Bombay to Calcutta. From the latter city he made a journey to the Straits Settlement. Then to Rangoon, to Burmah and on to China. From China he went to Japan and Yokohama. Sailing from that Japanese port he reached San Francisco.

Piano Manufacturers Fail.

CHICAGO, Aug. 18.—The plant of the Hallet Piano company was closed by the sheriff today on judgments aggregating $39,173. The assets and liabilities are listed by the first at $90,000 and $64,000 respectively, but the creditors are inclined to the liabilities will exceed the assets. The failure is ascribed to the extreme dullness of the trade.

FOUND DEAD IN BED.

Doctor W. H. H. Sharp Died Alone in His Rooms at Murray.

DEATH OCCURRED ON SATURDAY.

Coroner's Jury Returns a Verdict of Death From Heart Failure—Epileptic Fatal to a Hemorrhage.

At 9:30 this morning the lifeless body of Dr. W. H. H. Sharp, a well known dentist and for many years a resident of this city, was found in his rooms at Murray.

The circumstances attending the death are strangely unknown, as at the time the deceased was living alone, his housekeeper having left for Spanish Fork on Thursday last.

This morning some of the neighbors discovered there was something wrong with the doctor's horse which was in a stable near the house. Upon investigation the animal proved to be suffering from thirst, and this circumstance caused further investigation. Some member of the party attended to the wants of the horse, while others went to the house to inquire after Dr. Sharp.

An entrance was gained to the doctor's apartments and the investigators were horrified to find Mr. Sharp lying on the bed dead, with considerable blood on the pillow which had been emitted from the mouth.

Coroner Offenbach was immediately notified and he hastened to the spot, summoned a jury and held an inquest, the verdict being rendered to the verdict that death resulted from natural causes.

It was found upon investigation by the coroner that Mr. Sharp was last seen alive and well on Friday, but no one had seen him since. Saturday morning's paper had been taken into the room presumably by Dr. Sharp, but Monday and Monday morning's papers were both lying on a window where the carrier was in the habit of leaving them.

From these facts it was concluded that the deceased had been taken sick on Saturday and during that day or night and passed away from the effects of a fit. The blood on the pillow led the jurors to believe that death was the immediate result of a hemorrhage and the verdict was issued accordingly.

The funeral occurs at 3 o'clock this evening, the ceremonies being thus hurriedly performed on account of the condition of the body, which had lain so long as to make longer keeping impossible.

At the time of his death deceased was 60 years old and will be well remembered by old residents as having had an office in the mining boom, last east of the NEWS office, where he carried on a dentistry business for many years.

CANNOT STOP EVERYWHERE.

Bryan Receives Many Letters Urging Him to Speak.

UTICA, New York, N. Y., Aug. 18.—When Mr. Bryan arose this morning, he found a great many letters containing invitations from various cities to speak. He said: "This is the very reason I don't want my route made known. I shall speak at as many places as possible and as often as the campaign committee directs me, but I cannot stop at every place."

AT SYRACUSE.

SYRACUSE, N. Y., Aug. 18.—Syracuse is one of the cities visiting Bryan to stop. Two thousand spectators were present at the reception last night and the hotel lobby remained empty this morning. "There ain't been so many people here since Martin Van Buren visited here."

This statement recalls the historical fact that the only other Presidential nominee that ever visited this particular spot was Van Buren, Mr. and Mrs. Bryan, Mr. and Mrs. Perkins went to Spring Lake this afternoon on a fishing expedition. Tomorrow Bryan will take a trip into Onondaga. Mr. Bryan is looking and feeling better already. Mr. Bryan's voice was in prime condition today.

Alleged Murderer Arrested.

CHICAGO, Aug. 18.—Eugene Hart, who is wanted at Austin, Texas, for the murder of his wife and two children about a month ago, was arrested at the Dalles tonight by detectives. The girls with which the crime was committed was found on his person and blood stains were still visible on his straw hat. The arrest was brought about through information furnished the police by John C. Pendleton, a former resident of Austin, who recognized Hart yesterday morning around the open board of trade. Hart admitted he was the man wanted.

Won Against the League.

CLEVELAND, Ohio, Aug. 18.—Capt. Oliver Tomsic of the Cleveland baseball team came out of his memorable fight against the national league today with flying colors.

Judge Noble declared the fine illegal and continued in force the injunction to prevent the league from interfering with the Cleveland team or its captain.

The Seizure Sustained.

HALIFAX, Aug. 18.—Judgment was delivered by the chief justice in the admiralty court today in the case of the American fishing schooner Frederick Gerring, sustaining the seizure and ordering the vessel forfeited to the Canadian government. The Gerring was seized for fishing within the three mile limit.

Germany's Gold Democrats.

BELLOW FALLS, Vt., August 18.—Four hundred and fifty delegates were present when the gold Standard Democratic state convention met today. Delegates to the Indianapolis convention were chosen. The platform after asserting the firm adherence of the convention to the "time-honored principles of genuine Democrats with renewed assurances of abiding regard for the welfare and prosperity and business of the people," reaffirms unchanged fidelity to the platform of Vermont adopted in state convention on March 27, 1895, opposing free coinage except by international agreement.

Fusion in South Dakota.

MITCHELL, S. D., Aug. 18.—The Populist state central committee decided that it ought to determine whether a state convention will be held or not by a state ballot. Senators Pettigrew and Kyle received the union deal. It was decided unanimously to endorse the Populist state ticket and the resolutions of the Chicago convention, Bryan and Sewall. The Populists expect to carry the entire state.

Interchange in Royal Circles.

CHRISTIANIA, Christiania, Aug. 18.—Princess Maud, daughter of Nagen, the eldest son and heir apparent of the king of Italy, is betrothed to Princess Helene of Montenegro, the third daughter of the reigning prince of Montenegro.

Weakness in Silver Certificates.

NEW YORK, Aug. 18.—Further weakness in silver bullion certificates developed today, the price receding to 67 on dealings of $127,000 and showing a decline of 1 per cent from yesterday. The decline is variously attributed to the weakness of eastern (foreign) exchanges and to the falling off in the demand for the metal from those countries and to the disposition to realize on silver at this market. Today calls on silver were offered at 71 good for the balance of the year, for 1 per cent.

Committed Suicide.

HOT SPRINGS, Ark., Aug. 18.—J. C. Williams, of Montana, shaved himself in the street four times with a knife. Failing to end his life in that manner, he jumped head first into a deep well, breaking his neck.

A HEAD END COLLISION.

Railroad Accident at Cache Junction This Morning.

Several Cars Demolished—Train Crew and Passengers Escape Unhurt.

Special to the News via Deseret Telegraph.

LOGAN, Utah, Aug. 18.—There was a head end collision at Cache Junction this morning between the Butte express and a freight. The freight was standing on the main line and the Butte express, three hours late, collided with it. The freight sent a Roman nose, but the air brake of the express failed to work. The mail and express car was badly damaged, the platforms were torn off either end and both ends were off. One engine was partly off the track and a flat car on the freight was broken in two. Two squaws riding between the cars were hurt internally. One will die. The book scamped. The train crews and passengers were not hurt.

ON THURSDAY NEXT.

Relief Society and Woman's Day at Saltair.

Thursday, August 20th, under the management of the Relief Society and other associations and women of the state, promises to be a very attractive day at the lake. Speeches from such prominent men as Governor Wells, Senator Cannon and Judge King is an important time like the present will be of great interest. Then the sentiments from some of the women voters will be an interesting feature, for what women are going to do with the franchise is one of the problems of the day. Some good strains. The Hippodrome will be always a drawing card. The program will be an entertaining one in many respects, with dancing and music will while away a few hours, and the Carnival of Madrid will conclude the evening—certainly the program is sufficiently unique to bring together one of the largest gatherings of people that Saltair has ever had.

Prof. Apuadee Here.

In company with Mr. John James, of the local Centrion association, Prof. Wm. Apuadee of Chicago and Miss Jenkins of Denver made a brief call at the NEWS today. Professor Apuadee gives a lecture and entertainment on music and poetry in the Assembly Hall on Thursday evening. It is a most enjoyable program. He is a man past middle life, with silver hair; he is of commanding presence, a good conversationalist, and a master of elocution, as well as one of the world's leading instructors in music; hence a rare treat is in store for those who attend the Assembly Hall on Thursday evening. Last evening he was at Spanish Fork, where he delighted an audience which packed the hall to its utmost. This evening he will be at Ogden, and comes back to Salt Lake tomorrow.

Tabernacle Choir Notice.

The regular rehearsal will be held at Unity hall Wednesday night of this week. All members should be present to receive tickets for Friday's outing to Saltair, also to get tickets to the Assembly Hall concert on Thursday evening. Tickets will be ready for distribution at the rehearsal, but cannot avoid it this week.

E. STEPHENS.

Pleasantly Surprised.

A jovial crowd of young people took possession of the residence of Rev. Dr. Arnold last evening, the party gathering as a surprise on Miss Bessie Eurgent. A delightful evening was spent with games and conversation, closing with dainty refreshments. The Eurgent goes East this week to pursue her course at Kook college.

POLITICAL REALMS.

Ogden Making a Hard Pull For the Republican Convention.

LOOKS LIKE SHE WILL GET IT.

Logan, Provo, Nephi, Manti and Moab Will assist Also Bidders for the Big Event.

Where will the Republican State Convention be held? Manti and Moab? Perhaps, two Sanpete towns, are both after it, though rather than let the prize secure them they are willing to compromise one with the other and get into territory that has been largely ignored in the distribution of the political honors in the past. Nephi, the little Gibraltar of central south Utah, thinks it has transportation and other advantages not possessed by its aforementioned sister cities over the mountains. Besides it claims to be a distinctively strong protection center, the home of many sheep men and admirers of McKinley. Further up the valley is Provo with its railroad, hotel and opera house accommodations building for the same political gathering. But say many who oppose the selection of the Garden city, it has received more than its share of the party's conventions in the past. Next comes Ogden with an apparently excellent show of carrying off the prize. The strongest argument heard against it is that the Standard, the leading Junction city paper, is for Bryan, Sewall and silver. Logan would like very much to win the race. The only objection urged against Logan is that it is too near the north pole. The State capital has not been seriously considered, but from present indications it may come more to successful should Ogden fail.

Political Pointers.

County Collector Spencer apparently has a good chance for re-nomination.

Hon. Richard Mackintosh lustrously talked of as a member of the Democratic State executive committee.

Harry McCallum has not yet gone East to see McKinley at Canton. The date of his going is now somewhat uncertain.

As time passes the nomination of David Evans as a candidate for Representative in Congress on the Democratic ticket seems to grow more and more certain.

Should November's political whirlwind sweep McKinley into the Presidential chair, Dennis Clay Eichenor of the city may count on a federal appointment. And so may—

It is stated on reliable authority that the Republican national committee will spend no money in Utah through the regular state organization. This course appears to have been definitely decided upon.

County Attorney Whittemore intends that if McKinley is elected silver will be remembered inside of ten months. He avers that Major McKinley told him as much on his recent visit to Canton.

The Great Campaign, edited by S. A. Kenner is to make its appearance in the near future. Last year it bristled with bright, political points and no doubt it will be as entertaining and sharp this year as ever.

This is a time when the Utah goldite "doth play the trumpet to his purpose; and by his hollow whistling in the leaves foretell a tempest and a blustering day" when the Republican state central committee shall meet and arrange for convention work.

The NEWS man Calvin Reasoner said last evening that he had been industriously at work for a long time in collecting data for a political history of Utah. He said also that he had succeeded in accumulating a vast amount of information on the subject.

Provo Engineer Joseph L. Hewlins was nominated at Provo and elected, and next year Frank J. Cannon was nominated here and elected. Provo is naturally a winning center, and the Republican convention had also better be held here, to place the party on an equal footing with the opposents.

The bet of $20,000 to $10,000 that McKinley will carry every northern and western state, and $10,000 to $5,000 that McKinley will carry Indiana by 50,000 majority, and $5,000 to $500 that McKinley will be elected, and $5,000 to $500 that Bryan does not get as many votes as Tilden received in 1872, has been taken by William Sherman Funston, of Shelbyville, Indiana, who in return offers to bet $50,000 to $10,000 that McKinley does not carry one state west of the Allegheny mountains or south of the Ohio river, and $20,000 to $10,000 that McKinley does not carry five states in the Union.

Saltair Beach Notes.

This is Z. C. M. I. day at Saltair. A program of sports will be carried out this afternoon, commencing at 5 o'clock.

The Carnival of Madrid goes again tomorrow night and Thursday, positively for the last time.

The Fifteenth ward goes to Saltair tomorrow. In addition to a first class program to be given in the afternoon, the Carnival of Madrid will be repeated at night.

Thursday of this week is Relief Society and Woman's day at Saltair. President Frank J. Cannon, Governor Heber M. Wells and Judge William H. King will each give a short speech, in addition to which will be some excellent musical exercises, vocal and instrumental, the whole to conclude with the Carnival of Madrid—for the last time.

Invitations are out for the Armadee banquet at Saltair tomorrow (Wednesday) night.
