MINING, BUSINESS AND STOCKS.

THIS WEEK'S STOCK SALES

Local Market Closed in Splendid Shape.

THE WHITE METAL DID IT.

Daly-West Increased Nearly $4.00 a Share Since Monday—Trading Spirited on 'Change Today.

The week ends with mining stocks in splendid condition. The market had not been in as good condition for some time and the change for the better is caused by the very acceptable raises noted during the week in the quotations for silver. The stock of the silver producing mines has been materially enhanced in value. This fact is particularly demonstrated by the actions of Daly-West. On Monday forenoon the closing bid for it was registered at $42.87½, while on the open board today it transferred at $46.75, an advance of nearly $4 per share during the week. The stock was in strong demand today, and the opinion was freely expressed that if the price of the white metal does not react, it will reach $50 per share before the expiration of another week. Lower Mammoth ended slightly lower; Con. Mercur failed to recover from its bearish attack and closed eight cents lower. Sacramento came into the pit today in strong favor.

Up to yesterday afternoon a sluggishness prevailed on the floor of the stock exchange, but then business began to pick up and this forenoon the bidding was quite animated at times. The trading was well distributed even among the speculative class.

The totals for the week were low, amounting to 246,792 shares, which brought $142,071.25.

The quotations and sales of the day were as follows:

IN THE BUSY CAMP OF TINTIC

New Management Now in Charge Of Eagle and Blue Bell.

PUSHING WORK VIGOROUSLY

Two Shifts Busy at the Lower Mammoth—Leasers on Bullion-Beck Ground Doing Well.

Special Correspondence.

Eureka, April 23.—Harrison Clement has been made superintendent of the Eagle and Blue Bell mine and has taken charge. John H. McChrystal will remains at the mine until Mr. Clement becomes familiar with the workings. J. B. Creighton, of the Tesora, will be assistant superintendent and Wm. T. Deams will have charge of the underground workings. The force is being gradually increased and the drifts will be opened in the south end to intersect the east and west ore channels. The future promises great things for the Eagle and Blue Bell.

The camp of Mammoth shipped last month over 6,000 tons of ore.

Two shifts are being kept busy at the Lower Mammoth mine under Supt. William Ball, in sinking the shaft. Good shipping ore is still being taken from the 1,100 and 1,500 foot levels and sent to the smelters.

Harry McFate and Gus Franke are more than pleased with the lease they have taken on the Bullion-Beck property. They have struck a lot of good ore.

By a cave-in in an old stope at the Star Con., work was delayed for a day this week.

A contract for 100 feet of drifting will be let on the Old Colony to connect with the east fissure of the Lower Mammoth.

D. D. Hanks, et al have taken a lease on the 1,000-level of the Bullion-Beck and are producing a good quality of ore.

A car of silver-lead ore will be shipped from the Little Chief property in a few days.

The water is being pumped out of the South Swansea property at Silver City and when this is accomplished sinking will in all probability be resumed.

Fred and August Schmidt, formerly owners of the La Reine mine, have secured a good lease at the Carisa and are now busily engaged in taking out a fine quality of copper ore. There are several leasers in this property who are making money owing to the fair treatment they are receiving at the hands of the owners, who only hold out one-third of the ore value as royalty.

A new boiler has been installed on the Emerald property at Robinson, and everything is moving lively there. The mine is undergoing a great deal of development work.

COPPER BULLION SHIPMENTS

United States Mining Company Sent Out Four Car Loads.

The copper bullion shipments made this week from the independent smelters in the valley were about the same as usual. The United States Mining company dispatched four carloads, 241,869 pounds; the Highland Boy four cars, 242,000 pounds, and the Bingham Consolidated forwarded its regular amount.

VALIDITY QUESTIONED.

Patent for the Walcott Claim, Bingham, May be Set Aside.

A case is pending in the U. S. land office in which the Bazouk Mining Co., of Bingham, seeks to have the patent granted George W. Keel, trustee for Butterfield Mining Co., for the Walcott lode claim, set aside. The grounds for the contention is found in the allegation of the Bazouk company that the development work upon which application for patent was based, was not performed by or in the interest of Keel, or for the benefit of the Walcott claim, but on ground other than the Walcott, for and in the interest of the Butterfield Mining Co.

Mr. Keel, during the trial, admitted that the work relied upon was done by the Butterfield company, that he simply held the Walcott in trust for said company, as its manager, and as such caused the work to be performed.

Upon this showing, E. W. Senior, who appeared for the protestant, asked leave to amend the complaint, which was granted. The amended pleadings set up that the whole patent proceedings were void for the reason that Keel applied as trustee without disclosing his trust, and for and in the interest of an alien corporation, which, under the laws of the United States, cannot patent mining ground.

The attorneys for the Butterfield company asked a continuance until July 22, which was granted.

ORE AND BULLION.

Settlements for the Week as Reported by McCornick & Co.

The ore and bullion settlements for the fiscal week ending last night, as reported by McCornick & Co., amounted to the sum of $369,871, as follows:

	Ores.	Base bullion.	Gold bars.
Saturday	$ 26,800	$ 30,800	......
Monday	35,571	24,200	......
Tuesday	41,700	45,000	......
Wednesday	12,600	32,900	......
Thursday	22,200	31,700	$10,800
Friday	26,700	28,600	......
Totals	$165,871	$193,200	$10,800

AT THE BLACKBIRD.

Drifting in Progress on the 300 Foot Level.

Manager M. J. True, of the Blackbird Copper company, operating in Copper gulch, Beaver county, said this morning that good progress is being made with development work there. The forces employed are doing some drifting on the ore bodies on the 300 foot level.

PRODUCERS' ASSOCIATION.

Organization Committee Will Hold a Meeting on Monday.

The committee on organization of the proposed Utah Ore Producers' association are scheduled to hold a meeting next Monday afternoon. The meeting will be held in the directors' room of the Utah National bank.

At this time, Secy. Daly stated today, the date for the next meeting of the producers will be held.

Prof. J. E. Talmage and Clarence E. Allen are expected to deliver short talks on subjects of interest to mining men at the next gathering, which will probably be held at the Commercial club.

GEO. ROBINSON ARRIVES.

Contracts for Yampa Plant to be Let at Once.

Manager G. H. Robinson of the Tintic Mining & Development company, returned from the east last evening.

The contracts for the construction of the new matting plant for the Yampa mine at Bingham will follow in a few days.

MAY ENTER BINGHAM.

Possibility of a Sale of the Wall Mining Property.

The representatives of the United States Smelting company of Colorado, who have been piloted about Bingham by D. C. Jackling during the past few days have taken their departure, Messrs. Penrose and McNeill, going on to Grant's Pass, Ore., and Mr. Jackling returning to the Centennial state.

The party made an inspection of the properties owned in the "Old Reliable" camp owned by Col. E. A. Wall. Their investigations may result in the launching of another big enterprise.

Col. Wall intimated today that while an offer had been made him he had not fully concluded to accept the terms. It is quite porbable, however, that a deal will be consummated.

PRICES OF SILVER.

White Metal Has Recorded Startling Advances This Week.

Silver took another flight today and reached the highest point touched since last September. It is quoted at 53⅛ cents per ounce and the prediction is made that it hasn't stopped yet. Many of the talent are very hopeful of it landing at 60 cents before it goes down again; but this remains to be seen. On Monday the metal was quoted at 50⅜ cents; Tuesday it went up to 50¾ cents; Wednesday it made a leap to 51½ cents; yesterday it took wings and landed at 52⅝ cents.

Copper has been quoted during the week at 14 cents per pound and lead at $3.90.

Buckbee's Idaho Venture.

The American Mines company, says the Boise Statesman, has made a substantial payment on the bond it holds on the Lucky Ridge group of mines in Pearl. The property was owned by Finley Monroe of Emmett to whom the payment was made through a Boise bank. In a letter received in the city from A. Buckbee, the president of the company, he stated the property has been equipped with one of the best hoisting and pumping plants in the district.

Tintic Ore Shipments.

Special Correspondence.

Eureka, April 24.—The shipments from the Tintic district are on the increase. The number of cars of ore this week amounted to 145. The Centennial-Eureka and Grand Central leading the list. The gradual rise in the price of the precious metals will add to the list of shippers and the prospects of the district are growing brighter daily. The following mines are the producers this week:

Bullion-Beck, 4; Centennial-Eureka, 43; Carisa, 10; Dragon Iron mine, 17; Eagle and Blue Bell, 5; Gemini, 13; Grand Central, 27; La Clede, 1; Lower Mammoth, 4; Mammoth, 11; Star Cons., 2; Victor, 3; Yankee Cons., 5; total, 145.

Sacramento Dividend.

As stated some days ago in the "News" that they would do, the directors of the Sacramento Gold Mining company met yesterday afternoon and posted the usual monthly dividend of $5,000. The books close this evening and the date of payment is Friday, May 1.

Advertising Beaver County.

"A Story in Copper, Illustrated by Pick and Drill," is the title page of a prospectus just issued from the press by Manager Ben T. Lloyd for the Copper Mountain Mining and Milling company. The book is probably the neatest thing of the kind ever circulated in Salt Lake. While it was gotten up expressly for the benefit of the Copper Mountain, which is recognized as being one of the most valuable mines in the Beaver county copper belt, it contains a world of information concerning this great mineralized region. It contains about 20 half-tone illustrations.

WEEK IN BINGHAM.

Dips and Spurs Gleaned from the Bulletin Columns.

The Storey mine will soon market 200 tons of good ore.

Today the Erie will send out a carload of nice ore, following one that went last week.

The New Red Wing upper incline is being put in order and work is likely to soon be resumed there.

Roger's mill bin is nearly full of Columbia concentrates and a 60-ton shipment will be made first of the week.

Col. E. A. Wall with a party of five was here Tuesday examining properties in which he is interested. There are rumors that a big mining deal is on.

Manager Joe Kauffman of the Mt. Aetna will put a force at work as soon as supplies can be hauled to the mine. The road should be open by the 1st of May.

Next week the Kempton will have added 200 tons to Bingham's shipments, following a 300-ton lot, the last of which reached the Copper Belt upper bins Tuesday.

If the ore body lately tapped on the 1,400 level of the Brooklyn mine holds out much longer it will prove the biggest strike ever made in that locality. It is already making an immense showing, with no signs of petering.

Ed McCarrick during the past two weeks has been putting his Frida and Papea claims in shape for working this summer. They are located on east ridge of the main canyon, back of Dewey mill. Present developments are making a promising showing.

Word came from the Dalton & Lark early in the week that the flow in the long tunnel had so far subsided machine work had been resumed. The flow is having a marked effect in the mine, lowering its flood-level at the rate of 3½ inches in a single night.

Olson & Co., owners of the Commonwealth, adjoining the Phoenix, have advanced their crosscut tunnel about 43 feet. It is now close to vein, and should soon cut it according to indications, at several hundred feet depth. Olson & Co., are confident the claim will abundantly repay them for their work.

Last Sunday the Silver Shield, which is extending the old Franklin (Niagara) tunnel by permission of the United States company, broke into its own territory at 4,800 feet from tunnel's mouth. Following the vein the tunnel is now running on about two feet of good copper-iron ore, and it is anticipated that it will soon be in the same character of rich ore that was taken from upper workings until flooding compelled a cessation of operations there.

As the property will soon be thoroughly drained by the tunnel and is to be extensively worked this season, it will no doubt soon be hitting the market with large and regular shipments.—Bulletin.

MINING CONCENTRATES.

The Stockton Gold Mining & Milling Co. has a car of high grade ore at the sampler today.

J. M. Hamilton has returned from a trip to Nevada. He visited Deep Creek where he has extensive interestes.

H. S. Joseph, manager of the Carisa mine, visited that Tintic property yesterday.

The Daly-Judge is marketing about 60 tons of ore per day.

S. S. Clawson departed last night for New York on mining business.

A telegram received from Senator A. B. Lewis, states that his arrival home has been delayed until next Monday.

Supt. Frank Keith of the Bamberger-De Lamar mines, is up from De Lamar, Nev.

It is reported that the fianl payment will be made by the Annie Laurie Mining Co., for the Golden Star mine, Gold Mountain district, on next Tuesday. The sum aggregates $100,000.

Treasurer A. A. Ball, of the Annie Laurie mine is up from Kimberly.

L. H. Outzen, manager of the Annie Laurie Extension mine, has gone to St. Louis in the interest of that Gold

A Boston paper says: "The changes made in the directory of the United States Mining company have been in contemplation some time, and it is likely that more new interests may go into the board. The street takes kindly to the new names." The same publication in another place adds: "United States Mining gains in speculative favor. There is a mint of money in the board of directors, and where the mint is men gather about for gain."

Broker Milton Joseph departed today on a trip to the eastern states.

Asst.-Supt. Parley L. Williams, Jr., of the Highland Boy mine, at Bingham, was in from camp today.

Secy. L. G. Brown of the Erie Copper mine is expected home from the east in a few days.

Manager W. C. Orem came in from the York mine in Bingham las night. He reports that excellent progress is being made with development work.

Broker H. B. Cole expects to go east on a business trip soon.

Supt. Claude Wheeler of the South Swansea, at Tintic, had his right leg badly crushed at that property yesterday. A big sinker pump was being moved into the hoist when it slipped from the truck and caught Mr. Wheeler, pinning him to the wall. He came in from camp for treatment last night.

Taylor & Brunton reported the receipt of 11 cars of ore today, 10 from Tintic and one from Nevada.

Another raise in silver today.

Salt Lake Bank Clearings

Salt Lake clearings for the past week as compared with the same week a year ago were as follows:

	1903.	1902.
April 20	$ 660,020.75	$ 778,787.17
April 21	460,108.87	554,146.41
April 22	436,310.95	503,929.41
April 23	446,487.43	492,527.14
April 24	420,200.39	439,837.54
April 25	366,542.84	358,901.78
Total	$2,789,651.22	$3,128,129.45
Decrease	$ 338,478.23	

TRADE VERY MUCH IMPROVED

Responded Promptly to Better Weather Conditions.

SOME BRANCHES BACKWARD

Collections Not Quite So Good as Might be—Outdoor Work is Active.

New York, April 24.—R. G. Dunn & Co.'s weekly review of trade tomorrow will say: "Trade responded promptly to better weather in many sections of the country, notable activity appearing in seasonable lines of wearing apparel, yet wholesalers report conservatism as compared with earlier months this year, although business is more active than it was a year ago. Some branches are still backward and there is more or less complaint regarding collections, while renewals are frequently asked.

"Outdoor work is being vigorously prosecuted, agricultural communities endeavoring to make up lost time, and structural undertakings call for large quantities of lumber and building materials, sustaining quotations. Labor problems are being carried on with celerity. Lake navigation has had the expected effect in reducing rail freight congestion and shipments are more prompt, yet there is no diminution in the splendid increase of gross railway earnings, which thus far show a gain of 13.1 per cent over last year's figures, for April, and 25.3 per cent over 1901.

"Three facts are especially noteworthy as to the situation in the iron and steel industry. Scarcity of coke is no longer cause for complaint; on the contrary, in some cases deliveries are so large as to threaten accumulation, and predictions as to the permanence of high prices have ceased.

"While dry goods markets have enjoyed a better spot demand because of fine weather, conditions at the leading textile mills have not materially improved. Increased orders are chiefly confined to specialties. Last week's slight improvement in heavy woolens has been barely maintained. Clothiers complain of tardy deliveries of samples, which may affect subsequent business.

"New England manufacturers of boots and shoes report a seasonable lack of new business, and further contracts from jobbers are not expected during the next fortnight. Increased activity and strength have come in Chicago packers of hides with the advancing season.

"Fluctuations in quotations of the great staples have been less extensive during the past week, with a slightly higher level as the net result, and only a fair degree of activity.

"Failures this week were 166 in the United States, against 212 last year, and 15 in Canada, compared with 18 a year ago."

BANK CLEARINGS.

Bank clearings throughout the United States and Canada for the week ending Friday, April 24, 1903, were:

Salt Lake City	$ 3,000,558
Total, United States	2,156,068,307
Outside New York	844,747,450

CANADA.

Total	$ 50,218,462

LOCAL TRADE IS VERY FAIR

Indications Point to a Brisk Summer in Realty Circles.

NEW CORPORATION RUMORS.

Talk of the Formation of a Big Real Estate Company to Comprise Local Men Only.

Trade throughout the city is reported as fair in all departments. The railroad developments of the past week have probably done more to stimulate activity in real estate than in any other branch of business. On every hand are heard expectations of a brisk summer in realty circles. Rumors are afloat of the possible formation of the biggest real estate corporation yet organized in Utah, one to consist of leading capitalists, who will form a company for the purpose of seeing that real estate "snaps" are not taken up by outside boomers. If the company is formed on the lines proposed, it will have a board of directors, consisting of a number of the leading financial men of the city.

Brokers report the week as fair in local stocks. The advance in the price of refined sugar has had the effect of stiffening Utah common, and it has advanced to $4.20 bid with no deals in sight. On the stock exchange $4.35 was asked.

The latest quotations are as follows:

Deseret National bank	$288.00
Z. C. M. I.	162.00

* * *

Salt Lake stands thirtieth in this week's list of cities in Bradstreet's report, with the clearings quoted as $3,000,5558. The decrease is 8.4 per cent. New York shows a decrease of 31 per cent; Providence, 11 per cent; Augusta, Ga., 31 per cent; Hartford, Conn., 12 per cent; Topeka, 12 per cent; Lowell, 17 per cent; Decatur, Ills., 18 per cent. The average decrease of clearings in the country for the week is 20 per cent.

* * *

Work has begun on the 35x101 foot addition to St. Mark's hospital, and the architects, Ware & Treganza, will begin to let contracts early in the week. The addition is to harmonize with the main structure, and will include four floors and a cellar basement, and cost all told $25,000. The first floor will be devoted to the main culinary equipment, dining and bedrooms for the servants. The second floor will include the women's ward, and suitable private rooms. The third floor will contain the surgical ward and necessary rooms, and on the fourth floor will be the railroad ward, two operating rooms, a sterilizing room, X-ray room, and private rooms. There will be all told 63 rooms on the four floors, and each floor is to have its own diet kitchen. The interior will be hardwood flooring and plaster finish.

* * *

J. J. Stewart has bought a building site in Popperton from Judge Colburn.

* * *

Building permits were issued during the week as follows: J. W. Culley, 174 C street, brick cottage, $2,000; M. A. Wardrop, 534 east Fifth South, brick addition, $600; Mrs. Ada White, corner L and Fifth street, brick cottage, $1,000; E. B. Wicks, Eighth East and Palm avenue, frame cottage, $300; T. G. M. Smith, 468 south Third East, frame addition, $25; McCartney & Butler, Graeber avenue, two frame cottages, $1,800; Mrs. J. McCabe, 1310 south Lincoln avenue, frame barn, $150; James C. Watson, Jr., 552 south Fourth West, brick addition, $500; Mrs. Ann Donaldson, 165 west Seventh South, frame addition, $100; Mrs. Lavagnino, Somerby street, two frame cottages, $2,000; total, $7,935.

* * *

J. C. Cutler, Jr., sold last evening, 25 shares of Greeley sugar stock at $125 per share. The company pays an annual dividend in May.

* * *

General Supt. Read of the street railway, on being asked today what he thought of the proposition to remove the tracks from South Temple street, and park it for a boulevard, replied that owing to the suddenness of the notice he was not prepared to say off hand what would be done. He could tell better after the return of Mr. McCune who is now in New York on his way to this city from Peru. The company has expended a good deal of money in building and equipping the South Temple street line, and besides has an interest in the line of high tension poles set up through the center of the roadway. At all events, Mr. Reed did not think the line would be given up, west of E street, whatever might be done east of there. Mr. Read also stated that if the city council would allow the company to build a double track on First street from State east, he would maintain a single, instead of a double track north of the Eagle Gate to First street. Whether abutters on First street will object remains to be seen.

* * *

Real estate men report that opportunities in Salt Lake realties are being sought. Many investors are buying unimproved lots for speculation, and not a few citizens who have scraped a little means, are buying lots whereon to build, having become tired of paying high rents. One prominent real estate firm has expressed some apprehension lest the recent railroad transactions should force another boom on the community—a condition of things that many people wish to see switched to one side. Landlords are taking advantage of the promising prospects to push up rentals, tenants are loudly complaining against the advance, characterizing it as unjustifiable, and for the reason there is a general movement of people to "build for themselves" and not squander their means in rent paying. Real estate men say that it will pay capitalists to build several hundred small or moderate homes, either to rent or sell, and that prospective residents are being turned away into the new west because of the scarcity of houses and high rentals in this city.

DOWN WENT RAILROADS.

As They Led Other Stocks Soon Followed.

LOSSES SMALL FRACTIONS.

Liquidation in Metropolitan Street Railway Decided the Market in Favor of Lower Prices.

New York, April 25.—Prices of the standard railroad stocks took a downward course at the opening. Losses were restricted to small fractions, however. The strength of the Mexican railroad stocks and the smelting stocks was due to the continued rise in silver. A number of specialties also showed small gains.

The wavering tendency of the market was decided in favor of lower prices by the liquidation in Metropolitan street railway. That stock declined 3 points to 129. Chicago Union Traction preferred dropped 10 points. The good bank statement rallied the market but decided pressure to realize met the advance and carried prices back to the lowest. Declines of a point or more from last night's level were made by the prominent Pacifics, grangers, southwesterns, trunk lines and some minor stocks.

The closing was active and weak.

MONEY.

Time money steady. Sixty and 90 days, 4 @4½ per cent; six months, 4½@4¾ per cent.

Money on call steady, all loans at 3 per cent.

C. A. TRIPP, G. P. A., Missouri Pacific Ry., Salt Lake City, Utah.

Best Meals On Wheels.

There is where the Rock Island shines—in its dining car service.
Not even the swellest of New York's swell hotels offers anything finer. Their prices are higher, of course, but the food, and cooking and the service are no better.
Try the Rock Island next time you go to Kansas City, Chicago or St. Louis and get new ideas of how a dining car should be run.
Mid-day luncheon, 50 cents.
