WESTERN UNION TELEGRAPH LINE. EASTERN. PHILADELPHIA, 7.—The Reading Railroad Company suspended all the Brotherhood engineers employed upon the Germantown and Norristown branch, to-day. They are to be paid two days' time in which to decide upon remaining in the employ of the company at the cost of leaving the Brotherhood. This evening a large meeting of the Brotherhood was held at which delegates were sent from more than seven railroads of the United States and Canada. To-night other delegates are arriving, and the question of resistance to the demands of the railroad company is certain to be decided before Monday noon. The foreign delegates, interviewed to-night, say that the existence of the Brotherhood of Locomotive Engineers is at stake in this contest. High Water. Changed His Determination. The World's Washington special says there seems to be no doubt that Chamberlain has reconsidered his determination to step down and out of the State House of South Carolina as soon as the troops are removed from there on Tuesday. He has decided to await the result of the issue in New Orleans, and to remain in the legislature until the removal of the troops. The whole southern policy is awakening a better feeling among many of the republicans. More About the Benders. KANSAS CITY, 7.—The Journal of Commerce contains an article in reference to the Bender butchers which says it is positively stated that the Bend family was captured by a band of vigilantes and lynched while attempting to escape from Kansas. The statement is based on the confession of one who participated in the lynching. All the facts in the case are said to have been known to Governor Osborne and Senator York ever since the occurrence. The Charges Against the Late Consul General Seward. CHICAGO, 7.—The Tribune's Washington special says a San Francisco dispatch says a communication has been read here from the Consul General at Shanghai withdrawing the charges against the late Consul General Seward, which must have brought the alleged charges to a close. The communication is a reiteration in detail of the charges. The letter says, substantially, that an American named Peace was the master of a small vessel, thought to be engaged in illegal trading with the Philippine and other islands, but really a pirate. This plunder was brought to Shanghai and sold. This was denounced to Seward, then Consul General. Peace was about to be denounced as a pirate, when through the intervention of Seward he was released, and escaped. Contrary to the consul regulations, Seward was acting in regard to the vessel in a manner which is now open nearly half of the American settlements, valued at many hundred thousand dollars, and although he went to China poor, he is now very rich. The Consul General at Shanghai signs this letter. Chamberlain Interviewed. COLUMBIA, S. C., 7.—Gov. Chamberlain was interviewed by an Associated Press agent, on his arrival, to-day, as to his intentions for the future. He said he could not state definitely, as he had not had time to consider them, but in general of the sort he would be. He said he would not regard the withdrawal of the troops as affecting his legal rights. Whatever effect it might have on his practical ability to maintain them, it would probably be his duty to hold his office until he was removed from it by force. In answer to the inquiry as to his course if Hampton should convene the legislature immediately, he said he could only say he intended to pursue a course consistent with a firm belief in the justice of his position, and pause without regard to personal consequences. The "Keonoke" Wreck—Suspicion of Feul Play. BOSTON, 7.—The Herald will publish an article, to-morrow, to the effect that there are grave suspicions that William H.
