FOUND IN A CELLAR.

Blood-Stained Garment Supposed to Belong to Minnie Williams.

DISCOVERY BY THE DETECTIVES.

The Supposition That the Missing Woman Was Murdered by Holmes Confirmed.

CHICAGO, July 22.—Eighteen inches beneath the uneven surface forming the floor in the basement of the Holmes building in Englewood was uncovered the blood-stained undergarment supposed to have belonged to Minnie Williams before her disappearance. It was dug up by Detectives Hulse and Fitzpatrick a few minutes after the regular force of workmen employed in excavating had abandoned their task for the day. In consequence of the find, the theory of Minnie Williams having been murdered received added force, and the work of excavating will be pushed with fresh impetus tomorrow. This evening when the workmen piled their tools in a corner and left the gloomy subway, the officers remained. There was one corner which had not been touched. It was the northeast corner of the section of the basement beneath No. 701 of the building, on the Sixty-third street front. "Let us see if we can find anything over there," suggested Fitzpatrick. Hulse proceeded to thrust his pick into the ashes. Finally the pick struck something in which it stuck. A piece of mottle cloth was drawn out. It was stained. When carried to the light it was found that the clothing was half a set of underwear, made for a woman. It was taken to Inspector Fitzpatrick, who made a careful examination and expressed the opinion that the stain upon the garment was blood.

During the day a second wall in the basement was found by the detectives. There are two doors leading into the apartment thus created, and each one was securely locked. It was reported today that Pat Quinlan and his wife had been arrested and given an experience in the "sweat-box." This report, however, was emphatically denied by the police. Quinlan was employed as a janitor by Holmes and is believed to know something about the alleged murderer's doings.

Miss Postel is back in Chicago after her trip to Toronto for the identification of the bodies of her children. She is now ready to tell all that she knows regarding the swindles and the measures to carry them out, but says she was kept in ignorance that any of them entailed death loss.

Bones and articles of clothing were turned up in the basement of Holmes's house today. Some of the bones were from the butcher shop, but others resembled those of a human foot. In a chest, holding secret belongings of Holmes, the police today found a vest identified as one long worn by Holmes, upon which were dark stains resembling blood. In a box were found a linen shirt and other articles of underwear. The shirt had the initials "G. H. D." worked in red letters. The box was found under the floor and was covered over with a layer of fire-brick. In the cellar, near where the bones were found, a woman's shoe was turned up, with evidence of fire on the bottom of the sole. The detectives announce that, in their opinion, the house not been constructed for the purpose of deliberate slaughter. More care than ever will be taken in searching the premises.

H. H. Holmes will be charged with the crime of murder in Chicago tomorrow. A warrant for his arrest on that charge will be sworn out by A. Minler, nephew of Julia L. Conner, of Muscatine, Ia. Holmes will be charged in the warrant with having murdered Mrs. Conner some time between the 1st of August and the 1st of November, 1892. The warrant will be served the instant Holmes is freed in Philadelphia.

Mr. Minler was moved to swear out a warrant by a letter from the father of Julia Conner, addressed to Holmes. The letter is as follows:

DAVENPORT, Ia., Nov. 1, 1892.

To H. H. Holmes:

Yours of October 1st at hand and contents carefully noted, and it astonishes us very much that you write to us making inquiry about our Julia L. Conner. We thought you knew all about her whereabouts and were thinking about writing to you to know where she was. We have never heard from her since last December. She then wrote us that she was going to leave Englewood on account of Conner making threats that he would take his child away. He said he would take her by fair means or by foul. Mr. Holmes, we were in hopes all the time that you were in communication with her and if anything was wrong we would hear from her through you. By your letter we are thoroughly astonished, as we know nothing of her whereabouts. We know not that she is dead nor alive. Your letter makes us very unhappy. Mr. Holmes, if you should hear anything of her please let us know and relieve the present unhappiness of an old father and mother.

Respectfully,

A. SUTHE.

This letter Holmes received, but concealed. It was written in reply to one sent by him or one of his confederates to Mr. Smythe. In a letter sent from Englewood the handwriting of Julia Conner had been imitated and her name forged at the bottom. The letter confirmed the statement that she was going to St. Louis.

One simple precaution will insure perfect felicity in domestic work. Use no other baking powder than Dr. Price's.

A Boy Miner.

SHENANDOAH, Mo., July 22.—L. R. Stalling, aged 19 years, was taken from Springfield to New Lexington, Ark., a little town on the Cotton Belt railroad, this evening, on the charge of stealing nearly $1000 from C. C. Von Ruff, county schools' funds. He admitted his guilt and gave up the remainder of his plunder, $120.

Bought a Railroad Cheap.

SALEM, Or., July 22.—The supreme court today affirmed the decision of the lower court in the case of the Farmers' Loan & Trust company of New York, against the Oregon Pacific railroad company. The Oregon Pacific road, 150 miles in length, together with all the rolling stock, franchises, etc., was sold at public auction in A. B. Hepburn, of Minneapolis, Minn., for $225,000 to satisfy the claims of creditors, which amounted to many times that sum, and the sale was confirmed by the circuit court. An appeal was taken, and the supreme court to day affirms the decision of the lower court.

The road and its equipments represent an outlay of about $11,000,000. The bonded indebtedness of the road was about $15,000,000.

INDIANS MASSACRED.

Great Excitement in the Jackson Hole Country.

MARKET LAKE, Ida., July 22.—Thirty men left Jackson's Hole in search all the Indians breaking the game laws of Wyoming. In Hoback canyon they surprised a camp of seventeen Indians, took them all prisoners and started with them for Jackson's Hole. In the canyon they tried to escape and all the Indians were killed except one papoose, who was brought into the Hole. There were 135 fresh elk skins in the camp.

Johnnie Carnes, a squaw man and the oldest settler in Jackson's Hole, has come over into Idaho and says every settler in Jackson will be butchered. There were 300 Bannock warriors on the Hoback river when Carnes was there, and he says all the squaws have been sent away and tracks are daily joining the main band. Jackson's Hole settlers are now intrenched and awaiting the attack. Unless cavalry get there quick, every settler between Jackson's Hole and the railway station is in danger of massacre.

REPORTS EXAGGERATED.

REXBURG, Ida., July 20.—Rexburg is the nearest and most direct line of communication with Jackson's Hole, where the recent troubles with Indians are reported. It is quite safe to say that much of the alleged trouble has been exaggerated, and have caused needless apprehension to many. At no time have the alleged difficulties reported to exist between the settlers and Indians at Jackson's Hole, or anywhere in that vicinity, assumed a serious outlook, and it is thought by the level-headed people here in Rexburg that the reports emanating from that district originated among a few would-be Indian fighters, who seek notoriety through the public press without risk of danger either to self or friends.

C. H. Hawley, deputy sheriff of Fremont county, Ida., has just returned from the vicinity of the alleged trouble, where he met twenty Indians who were trespassing in Fremont county, over which he had jurisdiction. He gave them notice to either quit the county or come with him. Without objection they left for Jackson's Hole, Wyo., and gave no evidence of displeasure in their forced retirement. Deputy Sheriff Hawley is of the opinion that there is nothing in the conduct of the Indians he has seen, and who belong to the same tribe as those who are reported to threaten the peace of the residents of Jackson's Hole, to create apprehension or fear for the safety of settlers in that vicinity or elsewhere.

From reliable sources it now transpires that the alleged trouble is not in Jackson's Hole proper, but sixty miles to the south and east. No fences have been destroyed or crops injured, nor have the Indians thus far menaced ranchers or their families. All they seek is to be let alone in the enjoyment of the privileges that the treaty with the United States guarantees them, and which they only understand. The presence of Special Agent Teter on the scene of trouble, it is thought, will result in allaying all further fears and an amicable settlement of all disturbing causes.

Price's Cream Baking Powder excels all others. A single trial insures use.

FROM BULGARIA.

Stambouloff's Grave Guarded—Cabinet Crisis.

LONDON, July 22.—The Sofia correspondent of the Times telegraphs:

The grave of Stambouloff is guarded by police, owing to threats which have been made to disinter the remains. The feeling here and in the large towns is one of disgust and dejection at the crime. The crown lawyers are actively prosecuting an inquiry, but complain that they are not receiving the necessary co-operation of the police. One of the men arrested named Tschelil, is stated to be a friend of Tsokeschiff. A letter was found in his residence stating that Stambouloff would soon be murdered, and that he was willing to commit the crime, but that others had been found to do the deed. Four persons, including Stambouloff's coachmen, are in prison, charged with the crime.

Vienna advices to the Times says: M. Sterloff, the Bulgarian premier and minister of interior, intimated yesterday to Prince Ferdinand his intention to resign, owing to the fact that M. Sterloff is not so friendly with Russia as recent events would tend to show. Premier Sterloff, in conformity with Prince Ferdinand's wishes, undertook to promote a reconciliation with Russia. The movement has gone too far, and the Russophiles are now apprehensive, and as the cabinet do not feel capable of checking the movement, may result in the sacrifice of Bulgarian freedom, M. Sterloff has proposed to resign.

The Durrant Trial.

SAN FRANCISCO, July 22.—The trial of William Henry Theodore Durrant, for the murder of Blanche Lamont in Emmanuel Baptist church last April, began this morning. Upon the conclusion he will be tried for the murder of Minnie Williams, committed in the same edifice. Nine were submitted to the courtroom but attorneys, witnesses and reporters.

The attorneys for the defense moved for a change of venue, with the privilege of renewing the motion if it should be found impossible to secure an unbiased jury, or should such a state of feeling be developed as would make a fair trial impracticable. During the court proceedings he displayed no feeling and little interest.

Mails Robbed.

VACHERIE, La., July 22.—The Mails has begun its work in St. James parish and already two persons, a man and his wife, have been found murdered. Sunday morning Stelian Hendlo and his wife, as was their custom, left their home on the Lemoie plantation, near Vacherie station, to visit their daughter who resides with her husband on Oak Alley plantation, about four miles distant. Stelian, before leaving, cleaned his shotgun and loaded it. The reason for doing this is not known, but the impression now prevailing is that he expected trouble. When the couple reached Oak Alley station, a lonesome place, they were fired upon and killed by the assassin, who was concealed by the roadside.

Russia and Greece.

ST. PETERSBURG, July 22.—A treaty has been concluded between Greece and Russia, by which a fixed import duty has been determined upon for Russian cereals, and Russia is given the monopoly of the kerosene trade in Greece. It is expected that this will have the effect of driving American petroleum from the Greek market.

Prof. Kedzie, of the National Board of Health, reports that Dr. Price's Baking Powder is superior in leavening strength and purity to all others.

INSULT TO INJURY.

Ambassador Eustis Not Allowed to See ex-Consul Waller.

WASHINGTON, D. C., July 22.—The negotiations with the French government respecting the case of ex-United States Consul Waller, under confinement in a Fresnes jail, are in a most unsatisfactory shape, in spite of the efforts of Ambassador Eustis to secure justice. It is becoming evident that if anything is to be accomplished it will be only by the display of a much more determined stand than has yet been assumed by our government. Letters received here from the prisoner show that he is still a very sick man. Many prominent men have interested themselves in the case. The two senators from Kansas, of which state Waller is a citizen, have been particularly energetic. The department some time ago instructed Mr. Eustis to see Waller and to procure a copy of the record of the court martial, upon the evidence on which he was convicted. The French government has absolutely refused the ambassador the right to see Waller personally, a very extraordinary attitude to assume where the rights of an American citizen are concerned.

YELLOW FEVER AND CHOLERA.

Reports Received at the Marine Hospital Service.

WASHINGTON, July 22.—The following are the latest advices to the Marine Hospital service: Dr. Burgess at Havana, July 19th, cables as follows: "Yellow fever is constantly increasing in Havana among strangers."

The United States consul at Hiogo, Japan, cables that cholera is prevailing.

For the week ending June 1st, in Tarsus there were 400 cases, 300 deaths, and 50 cases and 30 deaths in Adana, Asia Minor.

For the week ending June 8th, 500 cases, 350 deaths in Tarsus; 200 cases and 100 deaths in Adana.

For the week ending June 15th, 200 cases and 180 deaths in Tarsus, and 350 cases and 250 deaths in Adana.

Right Arm Paralyzed!

Saved from St. Vitus Dance.

"Our daughter, Blanche, now fifteen years of age, had been terribly afflicted with St. Vitus dance, and had lost the entire use of her right arm. We feared St. Vitus dance, and tried the best physicians, were to no avail. She has taken three bottles of Dr. Miles' Nervine and has gained 31 pounds. Her nervousness and St. Vitus dance are entirely gone, she attends school regularly, and has recovered complete use of her arm, her appetite is splendid."

TO PUT ON

needed flesh, no matter how hard to lose, take Dr. Pierce's Golden Medical Discovery. It works wonders in restoring the normal action of the diseased organs and functions. It builds the flesh up to a sound and healthy standard—promptly, permanently and healthfully. The weak, emaciated, thin, pale and puny are made strong, plump, round and rosy. Nothing so effective as a strengthening, restorative and flesh maker is known to medical science. Its value in wasting diseases, for all cases of lung trouble, and for all those who need the fat of cod liver oil and its fatty components, it ranks very again of the body to activity, spirits, energies and vigorous the blood so that the body feels refreshed and strengthened. If you are too thin, let weak, for instance, it may be that the food assimilates to at fault. A certain amount of bile is necessary for the reception of the fat foods in the blood. Too often the liver holds back this element which would help digestion. Dr. Pierce's Golden Medical Discovery stimulates, tones up and invigorates the liver, purifies the blood, and the muscles, stomach and nerves get the rich blood they need.

Spent Hundreds of Dollars with no Benefit.

M. J. COLEMAN, of Longport, Atlantic county, writes: "After suffering from dyspepsia and constipation with an awful misery for at least 15 years, I was induced to try Dr. Pierce's Golden Medical Discovery. I had spent hundreds of dollars for medicine and doctors' bills, and was the day to use it, for, as I have stated, I was in an awful condition. I said a dozen or twenty medicines, but I do not know, I do not care, what they are, and I do not care about anything more than the use of Pierce's Golden Medical Discovery, and defend it." M. J. COLEMAN, Esq.

Dyspepsia, Indigestion, Biliousness, Malaria, Chronic Diarrhœa, Chronic Bronchitis, Chronic Nasal Catarrh, Scrofula, Lingering Coughs, Wasting Diseases, Consumption (Scrofula of the Lungs), and kindred diseases, are cured by the "Discovery."

If any person who reads this is suffering from dyspepsia or constipation and will use your medicine as I have done, he will never regret it."
