BILLIARD AND POOL ROOM EVIL

The City Solons Will Endeavor to Abate it by Legislation.

The ordinance submitted by City Attorney Hoge at the meeting of the Council on Friday night which is intended to abate the evil of saloon-keepers allowing minors to play billiards and pool, promises to provoke a lively discussion at the Council session tomorrow night. The law prohibiting the sale of liquor to minors is plain enough, says the committee on police, but the saloon men get around it by selling youths the privilege of playing pool and billiards at a consideration sufficiently remunerative to allow a few drinks of whisky to be "thrown in."

San Francisco is contending with the same evil at the present time says a paper of that city. C. H. Holbrook, secretary of the California Society for the Prevention of Cruelty to Children, has petitioned the board of supervisors to close up a number of resorts where boys spend their earnings. He asks for the adoption of the following order: "It shall be unlawful within the city and county of San Francisco for any proprietor, keeper, bartender or clerk, or any other person having charge of control of any saloon, bar, billiard or pool room, or of any other public place, or place open to the public view, to permit any person under the age of 18 years to play, engage in or be present at any game of billiards, pocket pool, pin pool or cards, and it shall likewise be unlawful for any person under the age of 18 years to engage in any such game in such places within the city and county aforesaid."

They Were Fooled.

Lightning rod agents have been billing some of the residents of Summit county, and have got away with about a thousand dollars. Alexander Fife, of Hennefer, P. C. Krause, of Echo, James Salmon, of Coalville, and Fred Peterson, of Wasatch, were among those who were fleeced by the city tongued agents. The lightning rod dispensers were arrested, but got off free.

A CELEBRATED SHAKER.

Elder Evans Was the Head of a Colony of Celibates Who Never Quarrelled.

Elder Frederick W. Evans, the celebrated Shaker, who died here at New Lebanon, N. Y., on the 6th of March, was eighty-five years old and an Englishman by birth. He came to this country in 1823. He was a brother of George H. Evans, who instituted the great land reform that helped elect Jackson as President, and who also advocated the abolishment of imprisonment for debt and the establishment of the rights of women. In 1850 Frederick W. Evans, then a member of Robert W. Owen's club, known as the Socialist club, visited New Lebanon to enquire into the mode of life among the Shakers. He was a materialist at the time. He found a community of some six hundred souls living in perfect harmony among themselves and at peace with the world.

He was so favorably impressed that he joined the community and became in the course of time the presiding elder. Under Elder Evans the community continued to thrive. He was a student, lecturer, author, thinker and put his ethics to practical application. All the members of this New Lebanon family are centaiaes. The heads of the settlement were Elder Evans, another elder and two sisters. No elections were ever held, all changes in administration being in accordance with what appeared to be the fitness of things; that is, the right men and women always seemed to land on top, there being no rivalry.

Elder Evans and his people believed that all men were as divine as Christ. The Bible was neither accepted nor rejected. The Shakers picked out what seemed to them proper and left alone what they did not care to accept. Elder Evans and his associates were believers in spirits, and nearly all the steps they took in the affairs of the colony were in obedience with what they termed "the voice of the spirit." The spirit always gave them good advice, and the colony at last accounts was as little given to quarreling as of yore. It is a co-operative community, all working for the common good, and the presiding elders and sisters ministering to the various wants of the colonists.

POSTAL CARD INNOVATION.

Communications to Europe and Reply for Four Cents.

The following information is given regarding the new postal cards designed for use between the United States and Europe:

To the card proper is annexed a paid reply card which will enable a person in this country to communicate with friends in Europe and receive an answer for four cents. The cards are a little smaller than the single ones now in use and are almost identical with the reply postal cards recently brought into use in the United States alone.

The law permitting the use of foreign reply cards was agreed upon in 1891 at the conference of the Universal Postal Union in Vienna. A number of European countries immediately began to introduce them, but the United States failed to avail itself of the advantage until very recently.

THE "PICKLE" CONTEMPT CASE.

Judge Zane is Against the Defendants and Imposes a Small Fine.

In the matter of the "pickle" contempt proceedings, the arguments of counsel in Judge Zane's court did not finish until a late hour on Saturday afternoon. The proceedings, it will be remembered, were instituted by Marshal Heaton against Sheriff McQueen, Deputy Sheriff O'Brien and H. E. and W. H. Booth, as previously stated in these columns.

There was also argued a motion by the Illinois Glass company and other creditors to dissolve the attachment in the case of W. A. Chapman vs. the Salt Lake Pickle company, which was the attachment issued to the United States marshal prior to the levy of the sheriff, out of which the proceedings in contempt arose. This motion was made on the ground that the attachment was improperly issued and that it was sued out by the plaintiff exclusively with the defendants and was being so prosecuted.

In rendering his decision in the contempt case Chief Justice Zane said, in substance: It appears to me that the manner in which the defendant secured possession of the pickle factory was clearly an interference with the keeper in charge and with the process of the court. Of course the possession of the court and the property was in the custody of the law under the direction of the court. If I interfered with the interference would be with the process of the court. I am inclined to hold it as a contempt of court. If counsel was not satisfied with the original writ they should have put their writ in the hands of the marshal, and he would have made their levy subject to the first levy. But instead of doing this the junior writ was put into the hands of the sheriff. I have no doubt but that Mr. Gray knew that the property had previously been levied upon and if he did know it he did wrong. Some courts would punish such an act most severely, but the case was not brought against him. This does not excuse the sheriff though, if he was acquainted with the facts, but it is probable that he was not. The deputy sheriff knew it, though, and so did Mr. Booth. The objection has been made that the writ was not fair, but it looks fair upon its face. Still this would not excuse these parties even if the affidavit is defective, as it appears to be. Under the circumstances, though, I am not disposed to make the punishment severe. I only desire to uphold the dignity of the court. The court is an institution of the people and must be respected. I shall fine Mr. H. E. and W. H. Booth and Deputy Sheriff O'Brien $15 each.

DISSOLUTION OF ATTACHMENT.

As to the motion for the dissolution of the attachment his honor stated that he would sustain the motion.

The convictions for contempt only applied to the levy made at Brighton factory and not to the property seized in the city.

On request of the defendants a stay of five days was allowed.

RAILS FOR THE YEAR 1893.

Five Hundred and Fifty Miles Contemplated for Utah.

Information comes from New York to the effect that conservative railroad men believe that about 10,000 miles of new track will be laid in the United States this year. This is about the average for the last ten years, but besides the large number of railroads projected, many of the old lines are laying large amounts of double track. The increasing demands of traffic exclusive of World's Fair business have forced these extensions on established roads. On the new project the *Railway Age* has compiled a table. The Pacific coast is represented as follows: Railways under construction, surveyed or projected—

State.	Lines.	Miles.
Arizona	2	300
California	11	952
Idaho	1	110
Montana	4	250
New Mexico	3	400
Nevada	1	40
Oregon	3	225
Utah	4	452
Washington	11	540
Wyoming	1	100

There were 425 projects in all, with a total mileage of 27,795. An unusual percentage of the above will be built according to the estimates of rail manufacturers and rail contractors. Among the 425 projects also is an encouragingly small percentage of blackmailing enterprises. Most of them are absolutely necessary for the development of new territory, and the balance have some show of reason in their projection. Probably 300 out of 425 will be built within two years. It is a noteworthy fact that every state and territory is represented among the 425 projects.

Rates and Arrangement—Rio Grande Western Railway.

Rates same as last year and are at least one fare for the round trip to Salt Lake; from far points rates are lower; see nearest ticket agent R. G. W. Ry. for exact rates. A Conference special will leave Ogden daily from April 3rd to 9th at 8:30 a. m.; leaves Salt Lake on return trip at 5:30 p. m. The run will be made in both directions in one hour, and train will stop at all intermediate points. Train formerly leaving Silver City at 6:55 a. m., passing Payson, Spanish Fork, Springville, Provo, American Fork, Lehi and other intermediate points will, commencing April 1st, run at an earlier hour so as to arrive at Salt Lake promptly at 10 a. m. Returning, train will leave Salt Lake at 5 p. m. instead of 4:35 p. m. as heretofore. All other trains will run on present schedules.

Tickets at the greatly reduced rates limited to April 15th will be sold from April 3rd to 9th inclusive from Ogden, Silver City, Springville, Binghamton and intermediate stations. From all other points tickets will be on sale from April 2nd to 9th, limited to April 20th. Street cars make connection at Rio Grande Western depot for the hotels and the Temple Square.

Being Beautiful

is the least of being—that's all right for us hardware folk; we only think of being good and of how many nails we can give for a dollar. But with the women it is important to be too sweet for anything, and the MAJESTIC RANGE or RELIABLE GASOLINE STOVE will sweeten the temper of any woman. They too have wound their way into the hearts of many a housekeeper solely on their own merits.

They may not be as beautiful as some, but who looks for beauty in a range? It is quality and price that are looked for, and the Majestic Ranges and Reliable Gasoline Stoves possess both, something never before found.

When not too busy drop in on us and we will tell you the little we know about steel ranges and gasoline stoves.
