BOOK BINDING AND PAPER RULING

GEORGE Q. CANNON, EDITOR & PUBLISHER.

☞ OUR SUBSCRIBERS in the country can at any time ascertain the date on which their subscription expires by referring to the numbers attached to their name on their paper, i.e., 1 4 3 means the day, fourth month, third year, or April 1st, 1873, 15-7 2 means July 15, 1872, &c.

Those names having no numbers close with the end of the volume.

Subscribers understanding this will be able to renew their subscriptions prior to that time so that their papers may continue without interruption.

BREVITIES.

Don't fret, for fretting, instead of relieving from trouble, will lay on you heavier burdens.

Cato said, "I would much rather that posterity should inquire why no statues were erected to me, than why they were."

Amos Lawrence said, when asked for advice: "Young man, base all your actions upon a principle of right; preserve your integrity of character; and, in doing this, never reckon the cost."

A lady in Clinton, Iowa, gave a burglar a very severe flogging with a dust-brush the other night. She said she wouldn't have done it if she hadn't been under the impression that it was her husband just getting home.

Here is a prospectus of Oil City by a Titusville paper: "A small, gnarled, howsy, knotty, barebacked, up-and-down-humped, round shouldered, gaify, precipicy, and generally shot-up, scooped-out, ravined, inflexible, irregular, greasy and slabsided shanty town."

Struggle on to victory. Never give up when you are right. A frown is a muscular contraction, and can't last long. A laugh of derision is but the modified bark of a cur. If you can be laughed out of good, or the good out of you, you are weaker in intellect than the fool, whose argument is a guffaw, and whose logic is a sneer.

No process is so fatal as that which would cast all men into one mould. Every human being is intended to have a character of his own, to be what no other is, to do what no other can do. Our common nature is unfolded in unbounded diversities. It is rich enough for infinite manifestations, and to wear innumerable forms of beauty and glory.

In Mississippi, when an editor goes abroad for a few days' pleasure, he apologizes to his readers the next week in this way: "Our editor has been visited with those plagues, the chills which not unfrequently in Mississippi shake a man up like mixed drinks are shook. In consequence of these aforesaid chills no editorials and few locals appear."

Some wags were walking around an agricultural implement store, and they chanced to see in the rear a dressed hog hanging by a hook in the wall. "Ha! ha!" cried they to the young man in attendance, "what sort of an agricultural implement do you call that?" "That," said he, "is a patent combined root-grubber, corn-sheller, apple-grinder, gate-lifter, double-action, back-spring sod plow; but I guess you won't one, for it takes a mighty smart man to manage 'em."

At Lynn, Massachusetts, all comparisons are based upon shoe-leather. A cobbler, having applied for admission to an Orthodox church at that place, the deacons held a consultation over the candidate. Says one deacon to another:

"Well, Bob G—— wants to join our meeting."

"Yes, do you know anything against him?"

"Well, no. But before you take a final vote on him, I'd just like to show you a job of cobbling he did for me, that's all."

People talk about hard times, and well they may. An exchange ventures a few plain words on the situation, and here they are for the benefit of our readers:

"We are fast becoming a nation of schemers to live without genuine work. Our boys are not learning trades; our farmers' sons are crowding into cities, looking for clerkships and post offices; hardly one American girl in each hundred will do housework for wages, however urgent her need; so we are sending to Europe for workmen, and buying of her artisans millions worth of products that we ought to make ourselves. We must turn over a new leaf."

A funny incident occurred at a Detroit barber's the other day. An old negro arose from his seat to take one of the barber's chairs, when looking at one of the pier glasses, he saw as he supposed, another gentleman about to take the chair. The old darkey at once apologized for rising out of his turn, and was about to sit down when he noticed his image about to do the same. He again rose, and the mysterious stranger followed. This was repeated two or three times, much to the darkey's disgust, and he finally yelled out: "If it's your turn, why don't you sit down?" amidst shouts of laughter from the rest of the customers.

SPECIAL TO THE DESERET NEWS.]

By Telegraph.

PER WESTERN UNION TELEGRAPH LINE

EASTERN DISPATCHES.

The Geneva Conference—More About Livingstone—The Supplemental Article—More Strikes—Conventions and Political Speculations—Strengthening the South Gulf Coast—Destructive Storms.

NEW YORK, 13.—The *Times* special from London says the position of the government on the treaty creates great political excitement. The general expectation is, that there will be an adjournment of the Geneva conference.

The *Herald's* London special says a Bombay telegram contains information from Arab sources, that Livingstone is well, and that Stanley is at Ujiji and is coming to the coast with Livingstone's letters. It appears that Livingstone traversed the north end of Lake Yamganka, on the way to Ujiji, where obtaining stores he returned to Unyandemende. He refuses to leave the country, intending to explore the underground passage between the Lakes Unyandemende and Nolasa.

A Washington special says the supplemental treaty article, adopted by the Senate, concludes as follows:

In consideration that the President, by and with the advice and consent of the Senate, consents to the establishment of a new feature of international law, for the guidance of both nations, to the effect that either of the contracting powers shall be held responsible for the acts of its citizens as against either government, in favor of any belligerent power with which the government may be at war, he will make no claim on the part of the United States in respect to indirect damages as aforesaid before the tribunal of arbitration at Geneva.

BOSTON, 13.—The convention for the 5th district, elected delegates to Baltimore not instructed.

WASHINGTON, 13.—The National Republican executive committe met at the capital to-day. There was a very large attendance, and several letters from prominent Republicans in different States were read, those from Virginia and North Carolina taking a very favorable view of the prospects of the party in those States in the coming August elections. Senator Wilson tendered his resignation as vice-president of the committee. Gov. Cook, Judge Edmunds and Fred. Douglass were elected a resident committee. It is thought Col. Alvin Crocker, of Fitchburg, Mass., will succeed Senator Wilson as vice-president of the committee.

NEW YORK, 13.—About ten thousand iron and metal workers will strike today for eight hours.

INDIANAPOLIS, 13.—In the Democratic convention to-day, M. C. Kerr and John S. Williams, both Democrats, were nominated for Congress from the State-at-large. Geo. W. Julian, who had been talked of for one of the Congressmen at large, declined in a letter to one of the delegates, saying he believed he would be able to labor more effectually for the cause, if independent, and should do so to the extent of his ability. Williams was nominated on the first ballot, and Kerr on the second. Resolutions were adopted endorsing the Cincinnati platform and letter of acceptance, declaring the Baltimore convention should endorse the Liberal Republican nominees, and instructing the delegation to vote as a unit, in accordance with the decision of a majority of the convention.

LEWISTON, Maine, 13.—The Maine Republican State convention met here to-day; J. W. Porter presided. Gov. Perham was re-nominated by acclamation, and Duval G. Spring and Alex. Campbell for electors at large. The resolutions re-affirm the principles enunciated by the Philadelphia convention, and cordially endorse the nomination of Grant and Wilson.

WASHINGTON, 13.—The reported meeting of Democrats here, to take steps to nominate a straight Democratic ticket in the event of the Baltimore convention endorsing Greeley, it appears, was, if held at all, merely informal, that the number of persons was not so large as reported, and the alleged proceedings had no significance.

The war department is strengthening its forts on the South Gulf coasts; and the navy department is placing large supplies of stores at all the naval stations on these coasts, in accordance with the desire of government to be prepared for any emergencies.

The secretary of the interior has appointed general B. R. Crowen, John L. Delano, and J. W. Wham, commissioners to visit the hostile Indians who are threatening the Northern Pacific railroad.

MILFORD, Pa., 13.—A tornado, yesterday, in this section, unroofed houses, uprooted trees, and killed a quantity of stock.

BINGHAMPTON, N. Y., 13.—There was a terrific storm of wind and rain here yesterday afternoon. Robinson's menagerie and circus tents were blown down while crowded with people, and a cage with animals was overturned. The crowd was terribly frightened, but nobody was seriously injured. The lightning struck the Congregational church, the Fourth ward schoolhouse and four other buildings. A number of unfinished buildings were blown down.

At Rawlinsville, N. Y., the lightning struck the school house, killed a little girl named Merritt, and stunned several others.

BOSTON, 13.—During a terrible thunder storm last night, Hugh Graham was killed by lightning, in Lexington; Mrs. Fisherty and Mrs. O'Brien in Waltham, and Lewis Ball in Acton.

WESTERN DISPATCHES.

Burglars—Democratic Primaries—Incorporation.

SAN FRANCISCO, 13.—J Burton caught two burglars breaking into his residence, on Mission street last night, fired two shots at them. He has found one of the bullet holes, the other the burglars appear to have carried away with them.

The movement in favor of calling primaries for the election of delegates to the Democratic State convention by the members of the new county committee, instead of allowing them to be appointed by the present county committee, is so strange that it is probable that the committee will be compelled to rescind their resolutions and yield the point.

The only incorporation this week, thus far, is the Victoria and Imperial Tunnelling and Mining Co., Little Cottonwood district, Utah; capital, three millions.

Stocks in the Mocking Bird and Ely districts, Nevada, is being placed quite rapidly on this market, at two dollars a share. There is considerable interest manifested in the result of the experiment being made by the conductor of the company of the Ely district, in putting up the English roller crushers, instead of stamps, as, if successful, this will greatly reduce the expense of reducing ores in the Pacific States. The directors of the company are very confident of success, but old mill men generally look on the new process with considerable doubt.

From the Raymond and Ely mine $29,600 has already been received this month. Stocks closed quiet and weak, only a few of these in the Ely district showing anything like firmness.

EUROPEAN.

The Ascot Cup—Alabama Claims—Copenhagen World's Fair.

LONDON, 13.—The Ascot gold cup was won by "Henry;" "Flavonius," second, "Hannah," third.

In the Commons this evening, Horsman gave notice that he would soon ask Gladstone whether the documents to be presented to parliament, relative to the *Alabama* claims, would explain why no record was kept of the proceedings of the joint high commission.

MADRID, 13.—The cabinet has resigned. The newspapers assert that a coalition of Carlists and Internationals in Spain is forming.

COPENHAGEN, 13.—The Word's Fair was opened to-day by King Christian.

A RAILROAD WATCH.

Travelers by Railroad frequently find their watches completely demoralized by the continuous jar of the train. To overcome this difficulty has long been a problem with watchmakers, and it is now successfully accomplished in the new grade made by the

AMERICAN WATCH CO. OF WALTHAM.

This Watch is made in the most substantial manner, on the most approved principles, and combines all the recent improvements. It has a new micrometrical regulator, by which the slightest variation can be easily corrected. It is carefully adjusted, and may be entirely relied on to run accurately, wear well, and ENDURE THE HARDEST USAGE, without any derangement whatever. We confidently recommend this watch to the trade and the public as the BEST WATCH FOR THE PRICE IN THIS MARKET.

The full trade-mark engraved on the plate of each watch is

"AMERICAN WATCH CO., CRESCENT-ST., WALTHAM, MASS." and it is distinctively known as the CRESCENT-ST. Watch.
