FOR PROHIBITION.

A Petition to be Circulated by the Women of Utah

The NEWS has been requested to give space and publicity to the following, which explains itself:

The ladies whose names appear below, comprising a committee to secure signatures to the following petition—recognizing the saloon as the greatest enemy of the home—earnestly urge our sisters to sign the same and thus lend their influence towards the destruction of the terrible evil, and beg that their sisters throughout our Territory cut out the petition and circulate it in their respective communities for signatures. As early as possible send the petitions signed to Mrs. W. H. Thomas, 56 Seventh East street, Salt Lake City, Utah.

MRS. L. C. KENDRY,
DR. ELLEN B. FERGUSON,
MRS. A. PARKER,
MARY A. PARKER,
MRS. M. ISABELLA HORNE,
MRS. O. S. FAYSON.

We undersigned, women over eighteen years of age, residents of the Territory of Utah, respectfully pray your honorable body to submit to the legal voters at the same election at which the proposed Constitution is submitted, the following proposed article, as a separate article, to wit:

ARTICLE——PROHIBITION.

To be submitted to a separate vote of the people as provided by the schedule and ordinance.

SEC. —. No person, association or corporation shall, within this State, manufacture for sale or gift or a beverage, any intoxicating liquors, and no person, association or corporation shall import any of the same for sale or gift, or sell or offer or keep the same for sale, or gift, barter or trade as a beverage.

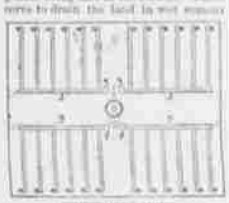
The Legislative Assembly shall by law prescribe regulations for the enforcement of the provisions of this article and shall thereby provide suitable penalties for the violation thereof.

And your petitioners will ever pray.

ABOUT IRRIGATION.

How to Make It Successful—A System To Cut In Texas Described.

There is little reason to doubt the value of a subirrigation in equalizing the distribution of water in the soil. To make it successful one must, however, use a perfect supply of water and a set of pipes or drains perfectly arranged. Where stones abound a simple system of subirrigation is quite common. Only any ditches are dug at modest distances apart and filled with small stones to within 18 inches or so of the top, thick plants being laid at the bottom. These serve to drain the land in wet seasons



SUBIRRIGATION PLANS.

and to hold moisture in droughts. In very dry weather water can be run into the upper part of this system of drains and allowed to run down through. In hot, dry countries where few stones are found perforated pipes are used. Mr. W. B. Marshall of Texas thus describes a system in quite general use in sections of that state:

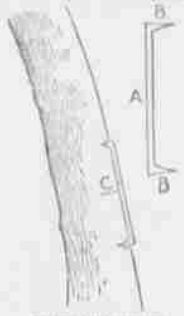
The water is distributed by means of pipes placed in the ground below the reach of the plow. These pipes may be of tile, perforated metal, of clay tiling, or they may be made of cement in a continuous line and the stems perforated at intervals to allow the water to run out and wash into the soil. Subirrigation by this method effects a great economy of water. All that need pass just whenever is wanted to produce the best results. There is no baking of the surface and comparatively little loss from evaporation. One thousand gallons will water properly and sufficiently as many trees or plants by this method of distribution as would 5,000 gallons by surface application. The windmill is located outside of the lot. Water is conducted to an iron pipe to the reservoir, a cypress tank with a capacity of 5,000 gallons. This is located in the center of the plot irrigated.

FIG. 2 gives a cross section, in which O represents the tank, or reservoir, 1-2 and 4-4 small posts in which the header pipes terminate, 5 and 5 header pipes and * * * distributing pipes. Figures 3-3 are 4 inch header pipes made out of cement. They connect with posts 1-2 and 4-4, located near the reservoir. These posts are cedars, because durable. The lines * * * are the lateral pipes. These are 2-3 inch cement pipes and are perforated, a three-thousandth inch hole being made every eight feet, alternately on either side. In applying the water a full inch is admitted into one of the posts, when the water rises nearly over the surface covered by the system of pipes connected therewith. As will be seen, there are four sections of pipes to cover the whole lot. Each section has a gate as seen. The lateral pipes (* * *) are 50 feet apart, are closed at the end, as are the header pipes. There is no cause to the pipe except the small gratings seen in the laterals. It will be seen that a stick of water passing into the pipe at a point considerably over one the median connected therewith. Posts, square and other form may be set along the lines of the pipes, and grape vines between the rows. The pipes used in this system are of cement perforated at intervals.

Rural New Yorker believes that the pipes would be comparatively worthless if small grains were sown extensively with irrigation. The Hon. R. Cole, who practiced this plan on a large scale, succeeded in a series of years in a rather cheap fashion and thus from his years. Thus only manure, and prices of water simply water could be use in Orange County.

How to Fill Leaking Vessels.

In filling over bottles from generally spill and waste to which bottles and some way of preventing the running should be adopted. A correspondent in



FILLING A LEAKY VESSEL.

the old New England Farmer of five years ago proposed where to be useful. Insert your funnel in bottle, a tube of tin tube as each thick and 12 inches long in the shape of Fig. A. Put the side of the tube at C. Without the tube, they in the tube to the point D, and the fluid will flow from the opposite side. When the tube is saved nearly through, the air may be withdrawn, the tube removed and the vessel constructed from the fluid cut.

Mechanical Jewelry.

The Japanese Indian, in the several ways of wearing the hair, dance whether or they are used, while or unless. Officers and other attach a similar significance to the wearing of certain articles of jewelry, as the Japanese women, who, upon the birth of the first child, assume a wedd more beauty, conceded by could cost rose and Pearl wrought horse of metal. If the child is a girl, this ornament is worn on the street. If a boy, it is placed on the head. Those women, young and old, are fond of trinkets and wear a multiplicity of head and neck ornaments, or and in those made of gems and a more enabling paste, said to be composed of ground rose leaves. Brooches and necklaces of the latter kind are formed in sets in regular variety and are remarkable not more for variability, but on account of their gaudy and taring patterns.—New York Advertiser.

Proviso.

"Pshaw!" said the Brooklyn Grocery Medical, "it is a wonderful cure, I know, even when it has no effect on the patient's stomach." Every effort was made to be injured, when the remedy came, I be sure not life as an example to do so.

"I must show my good how badly the Texas man," he said while shooting a single one a ranger of arrows at the mark of Flying.

"I know how to end this of expedition himself," said a spectator to the trouble. "The fire has be juggling to be ready for us all long after time."

The old man and Dickens, who must not lose anything to repose for non-judged days.—Youth's Companion.

Sic Go the Best Laid.

The little creature which bears the distinction of exterminating lay mole, (hare) and other lands infested with the million, which literally swarm "Orchard Lotted." There are several species of these animal vermin, all possessing the characteristics of having a nose segmented into, each segment provided with a pair of legs. Cuvier incorporates—"Landed Round"—they are perfectly harmless.—St. Louis Republic.

PIONEER MONUMENT.

Bear River City, South Jordan, Cedar Bluffs,

PINE VALLEY AND HOUSTVILLE

Send Reminders of Their Respects for the Dead Man Who Founded Utah.

CARD FROM THE FIRST PRESIDENCY.

Salt Lake City, Jan. 5, 1895.

Notice is hereby given that multitudes in the neighborhood to be entitled in Salt Lake City in memory of Brigham Young and the pioneers will hereafter, and until further notice, be acknowledged through the columns of the DESERET NEWS. It is expected that societies for the collection of funds for this worthy purpose will be established in each ward in all the Stakes, and that said funds, with the list of names of the contributors, will be forwarded as frequently as convenient to Heber M. Wells, secretary of the Brigham Young Memorial Association, Salt Lake City, who will see that none are properly acknowledged in the manner stated. We earnestly hope that the people will respond generously and promptly to this call so that it possible the monument may be completed, dedicated and unveiled to the public by the 6th day of next October.

WILFORD WOODRUFF,
GEORGE Q. CANNON,
JOSEPH F. SMITH,
First Presidency of the Church of Jesus Christ of Latter-day Saints.

ACKNOWLEDGMENTS.

The Brigham Young Memorial association has acknowledge receipt of the following contributions to assist in the building of the Pioneer monument:

From Bear River City, Box Elder State:

[illegible]	[illegible]
Total	$ 10 00

From Salt Lake City:

J. F. Nuttall, 5th ward	$ 1 00

From Sugar House ward:

[illegible]	[illegible]
Total	$ 1 00

From South Jordan ward:

[illegible]	[illegible]
Total	$ 1 00

From Pine Valley, St. George Stake:

[illegible]	[illegible]
Total	$ 1 00

[illegible]	[illegible]
Total	$ [illegible]

From Hyrum ward, Summit Stake:

[illegible]	[illegible]
Total	$ [illegible]

And the following named Brighams contributed to the cause:

[illegible]	[illegible]
Total	$ [illegible]

Previously acknowledged:

[illegible]	[illegible]
Total	$ [illegible]

Today's acknowledgments:

[illegible]	[illegible]
Total	$ [illegible]
Grand Total	$ [illegible]

"SMALLEYS" TO RENT.

20 cents for hour, 35 cents an each hour thereafter. They cost more, but are so much more cool on this Summer of the wonderful strength of our newly light weight bicycles—they are so far—that we can well afford to put them into our sporting department instead of a lower cost machine. Smalleys Spalding to rent is something new, but we don't intend to allow the man or woman who comes to us to have a bicycle a poor machine. The Best! The best to buy at retail—that's what we offer.

GRAND BICYCLE OPENING Saturday, the 30th of March. Refreshments will be served, and Chamberlain's Full Orchestra will furnish the music.

Mr. Frank Thatcher, H. E. Cardinal, Gilbert, Angell, Dean Smith and the Tandemists of the racing team will be on hand to welcome their friends. All wheelmen throughout the Territory are invited to attend. Open house from 8 a.m. until 10 p.m.

Western Hardware Company,

17 to 19 EAST FIRST SOUTH STREET.

ASSESSMENT NOTICE.

The Mono Gold Mill and Mining Company.

Location of principal office of business, Salt Lake City, Utah.

NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Directors, held on the 20th day of March, 1895, an assessment of one cent per share was levied upon the capital stock of the corporation payable in United States gold coin, to the secretary, at the office of the company, room 3, Walker Bros. building, Salt Lake City, Utah, on or before the 20th day of April, 1895, and in accordance with the provisions of law and the order of the Board of Directors, so much of said stock as may be necessary will be advertised for sale at public auction, and unless payment is made before, will be sold on Saturday, the 11th day of May, 1895, to pay the delinquent assessment, together with costs and expenses of sale.

By order of the Board of Directors.

F. S. JOYNER,
Secretary.

Salt Lake City, Utah, February 21, 1895.

NOTICE TO CREDITORS

In the Probate Court of Salt Lake County, Utah Territory, in the matter of the estate of Lorenzo Wells, deceased.

NOTICE IS HEREBY GIVEN AT THE undersigned, executor of the last will and testament of Lorenzo Wells, deceased, to all persons having claims against said deceased, to exhibit the same with the necessary vouchers, within four months from the date hereof, to the said executor at his residence, 1 Eighth East street, in Salt Lake City, Salt Lake County, Utah Territory, or to the undersigned at the office of Messrs. Dickson & Dickson, Dooly Block, Salt Lake City, Utah Territory.

CHARLES F. PEARSON,
Executor of the last will and testament of Lorenzo Wells, deceased.

Dated Salt Lake City, Utah, March 1st, 1895.

NEW EDITION OF THE LATTER-DAY SAINTS' HYMN BOOK

FOR SALE BY THE Deseret News Pub. Co.

PRICES: 35c. TO $1.25.

TRUSTEE'S SALE NOTICE.

WHEREAS WILLIAM A. CARLIN AND Rosa B. Carlin, his wife, of the county of Salt Lake, Territory of Utah, by their trust deed of mortgage dated the 1st day of June, 1891, and recorded June 10, A. D. 1891, in Book 25 of Mortgages, page 161, records of said County, did mortgage to Rosa B. Carlin, to secure the payment of the sum of $1,000 and interest thereon, the following described real estate situate in said County, Utah Territory, to wit: [illegible] and whereas default has been made in the payment of said principal and interest, and the same has become wholly due and payable, and the said Rosa B. Carlin, the legal owner and holder of said mortgage, has duly made and filed her election to declare the whole of said principal and interest due and payable, and has duly made and filed her notice of such election in the office of the Recorder of said County, and whereas the said mortgagors have failed to make any payment on said mortgage since the same became due, and have failed to pay the taxes on said premises for the year 1894, and the said mortgagee has paid the same, and the said mortgagors have failed to repay the same, and have failed to pay the costs and expenses of said mortgage, and the said mortgagee has duly made and filed her affidavit of such default in the office of said Recorder, and has duly published and posted a notice of the time and place of sale of said premises, and has duly published and posted a notice of the time and place of sale of said premises, and has duly published and posted a notice of the time and place of sale of said premises
