ONE-DOLLAR NOTE.

Details of the Design for the New Certificate.

HISTORY AS INSTRUCTING YOUTH.

Not a Bad Idea on a Greenback—But You Must Wait a Year Before You See It.

WASHINGTON, July 18.—Claude M. Johnson, the chief the bureau of engraving and printing, today received from Secretary Carlisle his approval of a new design for the one-dollar silver certificate. Mr. Johnson, during the last year or more, has been engaged in working out an artistic silk design for a bank note, and his present achievement is regarded as a triumph. The details of the work was done by the well-known artist, Will H. Lowe, and the work of engraving the plates will be done by Charles Schlecht, who is now engaged in engraving the Fair diploma. Work on the design of the other several denominations will soon begin.

The design presents History instructing Youth. History is represented by a female figure in a reclining position, with her right arm around a youth and the left arm extended forward, pointing toward the city of Washington in the background, showing the dome of the Capitol and the Washington monument. The open pages of a book on the other end of the note contains the Constitution of the U. S. The border consists of wreaths extended all around the note, in each of which is the name of some prominent man, who has figured in the history of the country—a statesman, author, inventor, soldier or sailor.

The design was pronounced by all who saw it as truly a work of art. Mr. Johnson expressed great satisfaction in having secured, by the employment of the talent of Mr. Howe, a note which is a gem in design and a work of art. He claims that the money of the country should not only be as valuable intrinsically as the money of any other country, but should be better, from an artistic standpoint. He has been working quite hard for nearly a year to accomplish this result, it being difficult to educate engravers and designers out of the old, conventional form of note and secure a design that would give satisfaction from engraving which is absolutely essential, while being artistic. This design is one of a series of the silver certificates which will be produced by Mr. Lowe, Mr. Walter Shirlaw, of New York, and other artists. It is claimed by Mr. Johnson that the innovation in the work of designing bank notes will give great satisfaction to the country, and there is nothing artistic about the spotted make up of the present notes.

This new series of notes will probably not be issued within a year.

Would Relegate Bathe.

VICTORIA, B. C., July 18.—A sad drowning accident occurred here yesterday afternoon. Lizzie and Edward Ingman, children of E. Ingman, director of the parliament buildings at Victoria, went out to Jeriko to bathe. Seeing them about to go in, a man shouted to them to go further down the beach, owing to the strong current. They failed to hear him and both were soon swept away and were not again seen.

A Mail Robber Coming West.

CHICAGO, July 18.—Thomas C. Hilson, the mail robber, who was captured by the Central station detectives about a month ago, left for Denver last evening in the custody of Deputy Marshal John A. Logan, of Marshal Arnold's office. Hoolan is the man who escaped from Nashville jail while awaiting trial during court time. He was alleged to have been a member of a gang of mail robbers which operated extensively in the west and south.

THE SENATE.

WASHINGTON, D. C., July 18.—Mr. Carey called up the Senate bill to reserve for ten years in each of the several states 1,000,000 acres of arid lands to be reclaimed and sold to small tracts to actual settlers, and it was passed. The bill applies to the same states as the desert land law, and also to Montana and Kansas and to the states that may be formed out of the territories of Arizona, New Mexico, Oklahoma and Utah, when admitted.

The conference report on the naval appropriation bill was presented and also agreed to. An amendment was proposed by Mr. Dubois (Rep.) of Idaho, and agreed to, directing the secretary of the interior to contract for the construction of an irrigation canal on the Fort Hall Indian reservation in Idaho, the cost to be paid out of the money belonging to the Fort Hall Indians.

THE U. P. BEST.

Alleged Facts Showing that the Stockholders are Liable.

ST. LOUIS, Mo., July 18.—The *Republic* tomorrow will publish a page article to demonstrate that the stockholders of the Union Pacific railway are liable for the debt of the road to the United States government. A statement of a number of suppositious facts is made at which the *Republic* says there is so much of plausibility in them as they appear on the receipt of the government that to ignore them and proceed to a final settlement advantageous to the public without the most exhaustive scrutiny of the rights of the government against the stockholders would be negligency of the executive and legislative branches of the government. The suppositions as presented are among others that the company built the road for $58,000,000 and pretended that it cost $93,000,000, accepting from the government about $33,000,000 in bonds and land grants, when its own capital stock was sufficient to build and completely equip the road; that the stockholders did not pay cash money into the company's treasury for their stock as explicitly required by the letter of contract and the law of their incorporation, but built the road with the proceeds of the government subsidies, and pocketed the stock, the first mortgage bonds and the net profits, without rendering any account of these proceedings to the government; that by these and other acts before the date of redemption of subsidy bonds the company has become bankrupt, meanwhile having avoided the payment of interest to the government, as originally contemplated in the acts of Congress; that the government finds itself by this long series of fraudulent acts and fraudulent concealments deprived of the money due to it from the company, and finds itself charged with the payment of the money it owed to aid that the company also finds that it has the right of action against the stockholders as trustees who have violated their trust, and further finds that the stockholders living and the estates of those deceased are sufficient to easily meet the obligation created by the trust and its gross violation.

Greeham's Asiatic Dispatch.

LONDON, July 18.—A dispatch from Berlin says: The London correspondent of the Pesther Jozlapj declares that both Russia and the United States have done their utmost to avert war between China and Japan over Korea. The United States, the correspondent adds, has even exceeded the limits of friendly persuasion over China and Japan.

Anarchists Sent Up.

PARIS, July 18.—In the chamber of deputies today M. Ornel constituted the government's anti-anarchistic bill, claiming that if the measure became a law it would be an violation of individual liberty and of the freedom of the press. The time penalty was not repression, but was democratic reform.

M. Guerin, the minister of justice, said that the peril was increasing and that they must "against the abominable sect."

Hawaii a Republic.

AUCKLAND, N. Z., July 18.—Advices received here by steamer from Honolulu show that a republic was proclaimed in the Hawaiian islands July 4. Sanford B. Dole, the provisional president is the first president of the new republic.

Troops Ordered From Chicago.

CHICAGO, July 18.—At 8 o'clock tonight General Miles promulged his signature to the general order removing Federal troops from Chicago.

SPRINGFIELD, Ill., July 18.—Tonight Adjutant General Orendorff issued an order directing the entire Twenty-second brigade, Illinois state troops, and the first battalion of naval militia, to duty at Chicago, to return to their homes at once. Three thousand men remain on duty.

Murdered His Wife.

KISSIMEE, Fla., July 18.—Will London met his wife on the main street of the town today and terminated her with a hatchet. The woman's head was split in twain and the hatchet left in the wound. London fled, pursued by several people who had witnessed the murder. He was arrested and lodged in jail. London has accused his wife of infidelity.

Earthquake Shocks.

MEMPHIS, Tenn., July 18.—Three shocks of earthquake were felt here this morning. The first shock occurred at 5:37 and lasted four seconds, the second at 6:33 and the third at 7:30. The vibrations were from north to south. The shocks made tall buildings sway like a pendulum, but no damage was done. The shocks were plainly felt throughout the lower Mississippi valley.

COINAGE OF SILVER DOLLARS.

An Order to Keep the Mints Busy for Some Time.

PHILADELPHIA, July 18. — Mr. Preston, the director of the mint, today by direction of the secretary of the treasury, issued orders to mint authorities at San Francisco and New Orleans to begin at once the coinage of silver dollars, and during the present month to coin up to the ordinary capacities of the mints.

The silver to be first coined will be blanks and ingots, of which there is sufficient to coin about $1,500,000 at those two points and at Philadelphia.

As soon as this supply is exhausted, work probably will begin on the silver here, of which there is a year's supply at San Francisco and New Orleans, and probably five years' supply at Philadelphia.

So far as can be learned it is not the purpose of the government to extend the coinage of seigniorage beyond a few millions, but it is stated that after coining with the gold the seigniorage which may be necessary and reaching the adopted fractional silver, each of the three mints will probably be worked at its normal capacity on silver dollars for the next several months at least, and presumably to the end of the present year. Whether treasury notes will be retired as fast as received and silver substituted, so far as known, has not been determined.

Senators Charged with Perjury.

NEW YORK, July 18.—The *Herald's* Washington correspondent says:

"It was told today that despite the denials of speculations and even statements of senators who had been called before the investigating committee, it could be proved that in three instances at least speculation had been engaged in and that the three senators referred to had been guilty of perjury.

Victims of the Plague.

WASHINGTON, July 18. — Reports have been received at the marine hospital bureau from the consuls at Hong Kong and Canton regarding the prevalence of the plague in those cities. Consul Seymour writes from Canton that the deaths from May to June 9 in Hong Kong were more than 1,000. The deaths in Canton since the last of February are reported at 10,000.

Someone Look in Germany.

BERLIN, July 18.—The Samoans have sent Emperor William a petition praying that Germany seize the islands.

Strikers Sentenced.

LOS ANGELES, Cal., July 18.—Judge Ross this morning found John Howarth and Vaughner Colin Kelly guilty of contempt of court for violating a injunction at Barstow, and sentenced each to eight months in jail. The severity of the sentence was a surprise to many.

For Government Control.

WASHINGTON, D. C., July 18.—A bill for the purchase of all railway and telephone lines by the government has been introduced by Representative Wilson of Washington at the request of its author, Dr. F. W. Lewis of Fort Angeles, Wash.

From a Japanese Point of View.

YOKOHAMA, July 18.—It is officially stated that the British consul at Seoul, Korea, who claims to have been insulted by Japanese soldiers, was slipped because he was trying to pass the Japanese posts and enter the bivouac of the troops.

FOR UNION OF RAILROADS.

One Result of the Labor of the Managers' Association.

The Victory Achieved by Conservative Action Suggests the Idea of Uniting for Profit.

CHICAGO, July 18.—The great strike is likely to have the effect of uniting the railways, particularly those of the West, in a closer union than they have ever had up to the present. The General Managers' association handled the strike in a manner so satisfactory to all the roads concerned that they have begun to see why the same spirit of harmony which enabled them to make such a fight in dealing with the strikers could not be utilized to great advantage in traffic matters.

There is the strongest kind of feeling that all the roads should be concentrated in an effort to maintain rates and as far as possible diminish expenses.

The thing is largely in embryo as yet, but several schemes have already been proposed, the principal one of which is that all the roads west of the Missouri river shall be formed in an association similar to the Western Passenger Association, but at the same time entirely independent of that body, but working in harmony with it.

This would mean that the Union Pacific and Southern Pacific would be members of the association west of the river, while the Atchison would be a member of both associations.

THE TARIFF BILL.

A Request for Immediate Settlement of the Question.

CHICAGO, July 18.—The following telegram was forwarded to Washington this evening:

"Chicago, July 18.—To the Senate and House of Representatives, in Congress assembled:—The whole country demands that Congress conclude the pending tariff legislation immediately. Failure to dispose of the question quickly will work incalculable loss and irreparable injury to financial and industrial interests."

It was signed by two banks and eighty of the leading business firms, Marshal Field & Co., F. D. Armour & Co. leading the list.

THE STRIKERS PLEASED.

They Claim that the Southern Pacific Has Surrendered.

OAKLAND, July 18.—The following dispatch from Sacramento has been posted by the A. R. U. strike committee:

"Fillmore agreed to take back all men without prejudice. The company could not withdraw Pullmans without incurring a law suit. All trains annulled until further notice.

"J. H. DOUGLAS."

The last part of this dispatch greatly pleased the strikers here, who interpreted it to mean unconditional surrender on the part of the Southern Pacific. They say that pending the settlement of the question at issue between Pullman and the Southern Pacific company no trains will be run out of Sacramento.

The strikers are evidently a little premature in their opinions. According to railroad officials the trains were simply annulled today, because by a trick by the strikers, the switchmen at work were called to Woodland as witnesses in the case against the men charged with train wrecking.

In the Hands of Desperadoes.

ST. LOUIS, July 18.—G. P. Simpson, general manager of the Wells, Fargo Express company in St. Louis, reports that at 7:05 which he thought a gang of desperadoes headed by "Bill" Cook overpowered the agent of the express company at Red Forks, I. T., and secured a number of packages, the contents of which are not known. The gang then boarded the southbound passenger train on the Missouri branch of the Frisco Road which was stopped at Red Forks.

Gov. Hogg's Predictions.

AUSTIN, Tex., July 18.—Governor Hogg was presented with a gold watch today by officers of the state militia, and in his response took a gloomy view of the future. He predicted that within six weeks martial law will be declared in California, Kansas, Colorado and Illinois, and that the anarchists of Chicago would use dynamite and scatter the lofty buildings of the city with the hearts, lungs and lives of citizens.

HEART DISEASE.

Fluttering, No Appetite, Could not Sleep, Wind on Stomach.

"For a long time I had a terrible pain at my heart, which fluttered almost unmanageably. I had to sit up and could not sleep. I would be compelled to sit up in bed and hold good from my stomach until I thought every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. I could not sleep a room without resting. My husband thinked me to try

Dr. Miles' Heart Cure

and am happy to say it has cured me. I now have a splendid appetite and sleep well. The effects was long-lasting."—MRS. HARRY BUNTAIN, Pomeroy, Pa.

Dr. Miles' Heart Cure is sold on a positive guarantee first bottle benefits. Will convince you. 1 for $5, 6 for $5. Dr. Miles' New Heart Book, treating on Heart Disease and Symptoms, sent free. Sold by all Druggists.

Not Alone Catarrh!

But All Diseases Are Treated and Cured by Drs. Shores & Shores's New Treatment.

Read the Evidence Today From Patients Who Have Suffered Years With Bright's Disease, Dropsy and Heart Trouble.

A TREATMENT THAT IS CURING HUNDREDS OF PEOPLE DAILY!

Drs. Shores & Shores Have Their Own Manufacturing Laboratory, Where all Medicines are Prepared Under the Personal Care of a Registered Chemist.

INDIGESTION.

The fact is indisputable that a large proportion of the diseases of humanity arise from indigestion. When the stomach is weak and fails to perform its usual functions, then the liver is deranged, the circulation of the blood becomes sluggish, and the whole system poisoned. Under such conditions exposure to foul atmosphere generates typhoid, bilious or typhoid fever, etc. If you escape these, some special weakness will sooner or later develop itself, like kidney or liver complaints, chronic dyspepsia, rheumatism, or sending the sluggish blood will develop some latent taint of scrofula, pimples, blotches, boils disappear, and, if not corrected, sores and ulcers follow.

All this can be averted by purifying, cleansing, healing and invigorating to perfect physical condition those important organs of the body, the liver, stomach and kidneys. Drs. Shores & Shores can preserve your health and you can be comparatively free from sickness and disease.

MR. W. W. JACKSON, BOUNDARY, WEST MONTANA.

HE WAS BEDFAST.

For Years Suffering From Heart Trouble and Bright's Disease —A Remarkable Cure.

Mr. W. Jackson, who resides at West Boundary, was treated by many physicians for his trouble but no one seemed to understand his case, his son came to Salt Lake and explained his father's case to Drs. Shores & Shores and took with him medicine for his father's case. This was in March. During the past week Mr. Jackson walked into Drs. Shores & Shores office in the Harmon block and gave your correspondent the following description of his case:

He says: "I have resided in the territory for forty-one years, and I am known by every old settler, who I know will read my statement and profit by it. When I came to Drs. Shores & Shores I was a great sufferer from Bright's disease, dropsy and heart trouble, upon the last little exertion I would get short of breath, and a very sharp pain around the heart, palpitation and a buzzing sound in the ears, like a lot of bees singing in my ears. My back was weak, swelling of the limbs, and being so old sick, I was afraid I would never be cured. I was able to feel when I first received Drs. Shores & Shores's medicine and I can now say I am able to call at their office and thank them for their careful and successful treatment of my case, and to one and all I heartily recommend those physicians.

Mr. Jackson will answer all letters of inquiry regarding his case, addressed to West Boundary, Utah.

IF YOU CANNOT COME TO SALT LAKE

Write for the mail treatment. One of the physicians in personal charge superintends the mail department, by a system of close correspondence controls those out of the city quite as well as those who come to the office. Send for symptom blank. Medicines shipped carefully. Try this treatment.
