HOMES FOR THOUSANDS

To Latter-day Saints Who Desire Good Places to Make Comfortable Homes. A Good Opportunity to Accumulate Means to Pay for Them Without Incurring the Bondage of Debt.

One hundred thousand dollars to labor wanted.

Fifty miles of the Alberta company's canal to be built, for which half will be paid in cash and balance in excellent prairie land, at $5 an acre, with free water for two years to first settlers on these lands.

Lands are to be settled in manner of settlement form, in order to afford settlers the benefit of ward organizations, including day and Sabbath schools.

All labor will be contract work, at ten cents a cubic yard for earth work. Gravel, stone and solid rock to be paid for in proportion.

An industrious, abstemious man, with team can earn a good farm, town lot and cottage in one year.

Lands to be settled are adjacent to a railway. Plenty of coal for fuel near at hand.

President C. O. Card, writing to the First Presidency under date of September 28th, says that work has commenced on the canal; that parties in Utah desiring to do work this fall would do well to bring their teams and wagons by railroad. By doing this they could be at work on the canal in less than a week after starting. Speaking about whitening teams, he says that hay, if needed, will not answer. It is too, and heifers, it can be out there as late as a month from the date of his letter; that he has will be feeding on the canal, as for miles in the immediate vicinity grass is born six to twelve inches high. When work cannot be done on the canal, men can be hired in home for themselves. He advises men to come with their teams, leaving their families until the spring, by which time houses may be provided for them. Parties desiring to join the new settlers in making homes, who may not care to do work on the canal, can obtain land through President Card.

TO MUSTER OUT ROUGH RIDERS

War Department to Discharge the Torrey Lads from Service.

Lieutenant Colonel Carmen Officially Notifies Governor Wells of Such Intention—Welcome News to Utah People.

The Second United States volunteer cavalry is to be mustered out of service without delay. Such is the information that came to Governor Wells last evening in the following dispatch from Colonel Carmen:

"Tampa Park, Fla.,
Oct. 11, 1898, 8:05 p. m.

"Governor Heber M. Wells, Salt Lake City, Utah:

"Colonel Torrey just telegraphed me from Washington that our regiment will be mustered out here, the men receiving travel pay.

"JOHN G. CARMEN,
"Lieutenant Colonel."

ORDERED BY SECRETARY OF WAR

Washington, Oct. 11.—Secretary Alger today issued an order for the mustering out the Second United States volunteer cavalry, otherwise known as Torrey's rough riders. The order will probably be issued in a few days to Colonel Carmen, at Tampa, where the regiment will be mustered out in Jacksonville and most of them will return at once to their homes in the Rocky Mountain region.

A Tribune special says that Col. J. L. Torrey, commanding the regiment, has been in Washington for several days past endeavoring to secure the discharge of the sick men in the regiment and such others as having families dependent upon them, desire to return to their homes now that the war is ended. Col. Torrey proposed to the war department that to all veterans that made, enquiries should be brought in from the states from which the regiment was originally recruited, or the department discharge this inadvisable, the regiment was ready to obey orders of the war department. Whatever they might be, and to remain in the service as long as was deemed advisable.

The secretary of war, after considering the matter for twenty-four hours, gave his decision that the interests of the service would be considered by the mustering out of the entire regiment.

He reasoned from the fact that it has been decided to muster out all the volunteer cavalry, first on the ground of the expense of maintaining cavalry regiments for garrison purposes, that the First and Third had already been mustered out, and that the Second had been retained as long as there had been any necessity for its service, because there seemed to be no possibility that their services might be needed.

He spoke of the fact that a large element of the regiment, whose enlistment personnel is well known at the war department, are either family or relatives of the Rough Riders, and certainly regarded in the favorable discharge of the Second, and to be in a world to more to the interests of the service, from which they were taken, than the granting of the request that they should remain in the position in which they were engaged prior to their patriotic response to the call from the President.

Colonel Torrey has so far recovered from the typhoid fever, which for a long time seemed to be the one thing he was afraid of, that he is able to walk without crutches or a cane, and while not quite as good as new, has been in condition to command his regiment in the saddle, and in the recent observer would not appear as having suffered so much. He said last night:

"There is no better regiment in the service than mine and now in camp at Jacksonville which has a finer record and the admirable discipline and soldierly qualities. On our trip to Jacksonville no guard was placed over any of the men, and a soldier disgraced himself or his command or deserted, and since our arrival in camp the regiment has been subjected to the police in the city. The men are a specially sturdy patriotic contingent of Western cowboys, only desiring to know where they are and then obeying them like soldiers.

"We were naturally greatly disappointed at not having an opportunity to engage in the Santiago campaign, but we have done our duty where we were. We have not asked to be mustered out. We have only asked when the government desired of us as the way of service, that. A act will be the when I saw how tenderly that he had found the sick men of the regiment, the Second United States volunteer cavalry. That was a compliment which my officers and men will appreciate.

Colonel Torrey said that there was considerable sickness in the regiment, it was chiefly due to the infection of typhoid from a Southern railroad adjacent which the regiment had carefully complied with every sanitary regulation, such from having a hospital corps of 40 men, 24 hours in the tents and policing under the corp commanders, and the commanding officers having every day made personal inspection of the sanitary arrangements.

He spoke in the highest terms of Louis-Au Carmen, who commanded the regiment during his illness, and of Capt. Bloom, recently promoted from lieutenant, and who at the time of the organization of the regiment was a sergeant and declined a majority, on the ground that he desired to win his spurs.

Robespierre Bouquet.

The visiting railroad officials and local celebrities were dined last night at the Alta club. E. H. Harriman, one of the magnates from New York, was host. The dining room was finely decorated with palms, flowers and ferns, and the table which was covered with cut glass and shining silver was loaded down with the choicest fruit. The dinner was in Chef Nicholas best style. The following were the guests: Messrs. E. H. Harriman, H. G. Burt, Robert Gray, Farnam Williams, A. W. McCune, E. H. Enos, Le Grand Young, Henry G. Nickels, George Q. Cannon, Jr., Frank Stephens, Charles Ely, Mr. Berry, D. E. Burley, J. C. O'Malvey, Lawrence Grant, D. C. Adams, Dr. Pinkerton, H. M. McCornick, W. H. Bancroft, Alex Miller, M. L. Schiff and Mr. Clark.
