NEWS OF THE WEST.

A Notorious Counterfeiter and His Apparatus Gathered In.

A MOST IMPORTANT NOVELTY.

Boiling Water.—A Miners' Hospital for Cripple Creek, Colo.—Other Items.

The much-talked of flour mill for Carson valley, Nevada, is to be built at Job's, says the Carson Appeal. It will be built at Peter Hallmark's place on the east fork of the Carson River, it will be run by water power.

The first contingent of Horsemanship exiles made its appearance in Butte morning, says the Butte Gazette. Our people need better to go and stay at home will be as full as bright shines and as the streets are of mud.

A movement is on foot to establish a miners' hospital at Cripple Creek, Colo., and the promoters are going about to interest capital in the enterprise. W. S. Stratton, the Cripple Creek millionaire, has expressed his intention to donate $2,000 to the cause.

A sandy looking goat who is walking from Cheyenne, Wyo., to Gold Hill, Nev., on a wager, arrived in Iowa New Year's eve, says the Caldwell (Idaho) Tribune. He is to make the trip inside of ninety days but been on the road thirty. He expects to make the balance of the journey inside of forty days. He is confident of winning the wager, which is $500.

Says the Saratoga (Wyo.) Sun: Morgan Hughes, who is an electrician, says that a motor line between here and Walcott, such as one to would accommodate all passenger and freight traffic between the two points, could be built, stocked and put in operation for $50,000. If it is possible to build such a line as is needed for that sum, there will be no difficulty in interesting capital in the enterprise.

At Lebanon, Oregon, on Monday night, sheriff Marion Humphrey arrested "Dick" Davenport at his residence, eight miles from there, on a charge of counterfeiting dollars. The prisoner has served a term in the Oregon penitentiary for the same offense. Several plaster of paris moulds were found on his premises, and considerable money of his manufacture is now in the possession of the officers. He will be taken to Portland to await the action of the grand jury.

Theresa Bisson, the young woman who was arrested by Detective Murphy at Butte, on suspicion of knowing something about the burning of R. S. Reed's barn and stock on Thanksgiving night, was placed in the "sweat box" today with very satisfactory results, remarks the Anaconda Standard. In the course of a rambling examination she told a few things which have eventually fixed the guilt on a former employee of Mr. Reed's and strenuous efforts are being made to apprehend him.

When Grand Junction gets its system of mountain water, says the Star Times, the next move will be to put in public drinking fountains around the city, for men and beast, and some public spirited citizen one present to the city a fountain and drinking basin for the park, or some other public center, that will be an ornament to the town and a monument to the generosity of the donor. The greatest boon to man in the heat of summer is a draught of cool, pure, sparkling mountain water, such as we will have.

According to the Butte Inter-Mountain, the greatest problem that this legislature will have on its hands is that presented by the Carey bill donating one million acres of land to each of the arid land states under certain conditions. It, says the Inter-Mountain, the state wants the land it will develop upon the legislature to accept it and make provision for complying with the terms upon which it is offered. But whether it is to be accepted or not, a subject of such great importance must engage the earnest attention of the legislature.

George Ferris made a trip to Omaha last week, says the Hawkins (Wyo.) Republican, and purchased 8,500 acres of land of the Union Pacific company. The land is in a body and situated on the north or west side of the Platte river, in close proximity to Mr. Ferris's ranch northeast of town. He will hence be quite a land with a four-wire fence. He was forced to do this in order to save any winter feed for his stock near his ranch. There have been rumors into that country this winter until there is now over 70,000 cattle within a range of ten miles of Mr. Ferris's ranch.

One of the gentlemen connected with the Triumph Gold Mining company has returned to the city, says the Denver News, after a week's sojourn at Leadville. He reports the Triumph stock yet in the ore, the latter yielding in gold 30 per cent higher than the management had reason to expect. The bottom of the shaft is now 400 feet from the surface and 35 feet in the ore chute, which gradually grows firmer and more regular. Drifting will be commenced when the shaft reaches the bottom of the present contract, and then one more producer will be added to the Leadville list.

There arrived at La Grande station at 11:15 a.m. Friday, says the Los Angeles Express, a most important novelty, meaning a new era in locomotive propulsion. It was the nearest perfect oil burning locomotive that has yet been produced in America or probably any other country. Thursday afternoon was put on the 22nd of last month, and is the result of a long series of experiments. General Manager Wade has been a persistent investigator of locomotive oil burning for several years past, and the combination and Eastman trial of it in engine have given most gratifying results.

The Meaning of Sympathy.

It was a clever Frenchwoman who said, "Those who have suffered much are like those who know many languages. They have learned to understand and to be understood by all." It is an impossibility to fully sympathize with another's object unless it has been at some time our own. In trouble or grief we turn instinctively to those one whom we know has been through the same experience. It is the soul hungry longing for companionship that shows itself. The feeling is strong within us that "she will feel and know with me." Words like the meaning of sympathy."

SUPPORT HOME INDUSTRY.

These are the People Who Sell Home-made Goods!
