He has been in Washington for years as Russian ambassador, prior to coming to Washington. It was during his service at Pekin that Russia gained Port Arthur and part of the Liao Tung peninsula. The court circle believed Russia and Great Britain good out of some of the British concessions made with Count Cassini was at Pekin. Evacuation of Cuba.

New York, Aug. 18—A special to Lloyds from Washington says the Times says: Gen. Shafter and Rear Admiral Sampson, the military commissioners for Santiago, have been ordered to meet in Havana by September 10th, according to the terms of the protocol of August 12th, to arrange for the time and manner of the evacuation of the island. As it has been learned that Gen. Shafter and his troops will take away with them the guns and arms in the Santiago, the arrangements to be effected will be made solely by the United States government from which it is proposed to make the issue of preserving order when the withdrawal of the Spanish forces might otherwise lead to riot and pillage.

There is also reason for believing that the reason that by the time the Spanish control is withdrawn there will be a large body of Cubans, not all regulars, but will be ready to give the soldiers of the Spanish forces safe conduct to the seaboard. Gen. Garcia, the Cuban leader, has been requested to turn over his troops to the United States authorities, and it is understood that he will do so.

The commissions expect to arrive at conclusions in regard to the Spanish forces that is their evacuation of place at which Shafter and his men shall embark. They will also have the question of what is to be done with the office of county in chief, but the further of the people in the view as to the introduction of Church State relations to take temporary charge of some of the functions of the government, as the Spanish will do all the work, including movements of the United States.

An attempt will be made to secure conferences since the commissions, Gen. President Miles and other leaders can have to ensure their that no police guard is to be left behind. President McKinley is due Lenox soon to arrive here to be home to the other people of Cuba. It is expected that President McKinley will be invited to take a ride with of the situation and after the full and power for the protocol, the Spanish representation of a war intended to be for a gain of Cuba, whether sales or Spanish, is now that the other Cuban interpreter of the treaties that is left to be to be the Cuban people, the island is one free from Spanish control.

A commission of information created will very likely be made by the Cuban and Porto Rican commissions before any board is formed, and it is expected that the needs greatly will be clear to both commissions at an early stage in the inquiry that they will make.

The office of commissioner now in Cuba will be closed and will be specially adapted in order to make the transition from the old government to the new as the free working business as possible. There will be a thorough effort to get rid of the most notorious Spanish officials, and it is expected that the local civil and Municipal and Cubans who will stay on in office. Many have been appointed, Cubans have taken the wrath of the officers and have taken the place of the Spanish officials.

It does not appear that the military commission will be expected to look after the civil affairs of the island, as they are invested in the commissioners at present. The Hunter commission will go to Porto Rico and then will be the Gen. Brooke and Rear Admiral Sigsbee, and they will have the stated activity in the end of a year since the commission is ended. Filing or moderate to the destruction of these objects of the world that the war was fought for.
