TELEGRAPHIC.

DUNRAVEN EXPLAINS

An Account of the Late Race Between Defender and Valkyrie.

HE SAYS THE BETTER OF THE TWO.

Impossible, He Thinks, to Secure a Fair Race Under the Rules of the Cup Trustees.

LONDON, Nov. 8.—The Times this morning publishes an extract, which covers two and a half of its columns, from a pamphlet which the Earl of Dunraven is just issuing, giving a complete history and an explanation, from his standpoint, of the America's cup race, and containing also an appeal, which adds all the correspondence upon the subject which has passed between Lord Dunraven or his representatives and the American cup committee and other persons concerned in making the arrangements for the proposed contest.

Most of the matter contained in the pamphlet any specially has already been published, and it is announced that it is published now again in response to numerous requests for fuller information on the subject. Lord Dunraven's statement concludes with the following language:

"On the whole, my belief is that Defender is the better of the two vessels on the basis upon the Valkyrie III is the better in turning to windward. We never came on a run owing to the wind shifting so much during the first part, and we are thinking if Valkyrie's best sail, and seems to be Defender's worst, failing by her sailing against Vigilant, I consider Valkyrie III the better of the two in the point of sailing also.

The Times contains an editorial on Lord Dunraven's statement, which says: "The statement repeats many things which have been heard before, and is largely technical, but as affording the first connected and authoritative account from Lord Dunraven of the events which led to the situation it deserves the attention of every one interested. The general impression it leaves is that no effort, however strenuous, on the part of the trustees of the America's cup can possibly work a fair race on the conditions upon which they apparently hold themselves bound to meet.

"The letter dated September 17th, from Commodore Smith to Lord Dunraven, declaring it is impossible to secure a race free from interference, is only confirmative of the whole controversy. Lord Dunraven's report of the alleged alterations in the load water line of the Defender prior to the first race is most unpleasant story. It is also most regrettable that misunderstandings arose over Lord Dunraven's offer to recall the races.

"Altogether, the statement contains nothing to modify our previous judgment or to induce Englishmen to challenge again."

The Field also published Dunraven's statement, and says of it: "It is graphic and incisive, and has the breezy tone of a sportsman. It throws quite a fresh light on the proceedings connected with the race and the arguments adduced are fully convincing. Of course, the statement is made in reply to the report of the cup committee."

The editorial in the Chronicle says: "Though a more careful and just document we never penned, there is nothing in Lord Dunraven's statement that is really new, and there is nothing to alter, while there is much to confirm, our judgment that from first to last he has behaved with fairness and has met with too much chivalry in return."

Response to Bismarck.

NEW YORK, Nov. 8.—A cablegram from Berlin to a morning paper says: It has been officially announced today that his majesty, the kaiser, contemplates erecting an imposing monument to Bismarck, the staunch friend of the imperial dynasty and the real founder of the empire.

The grateful tribute of gratitude to the greatest diplomat of the age will stand at the entrance of the great Kiel canal, or, as his majesty named it at the opening, the Kaiser Wilhelm canal.

Bimetallic Resolution.

LONDON, Nov. 8.—The Berlin correspondent of the Times says the Bimetallic league has adopted a resolution that before an international conference is held on the subject of bimetallism the German government ought to debate with America and Paris.

Save worry and labor by using Price's Cream Baking Powder.

Nicaragua Canal.

NEW YORK, Nov. 8.—The Society of Naval Architects and Marine Engineers had a warm discussion over the Nicaragua canal at today's session of its convention. The question before the body was the proposition of presenting a memorial to Congress from the society asking favorable action on the Nicaragua canal project under the auspices of an American company and the proposition to present the memorial was defeated. Admiral Robert W. Meade, U. S. N., was chairman of a committee which had the matter in charge, and he made the following report: "In the judgment of this committee it would be proper for the president of this society to express such a memorial to the Congress of the United States in the name of the society when the report of the Nicaragua canal commission, appointed by the President of the United States is made public, provided said report is favorable to the canal."

CLEVELAND NOT TO BLAME.

Senator Brice Talks About the Election and the Next President.

PITTSBURG, Pa., Nov. 8.—"The results of the elections of 1895 make it almost certain that the nominee of the next Republican national convention will be elected President," said Senator Calvin S. Brice. In a reporter on a Pullman car on the Eastern express. The veteran statesman said he was going to New York. The senator continued: "If the next President is not a Republican the last election has at least added very much to the interest that will be felt in the deliberations of the Republican convention."

"Who will be nominated?"

"Well, sir, McKinley is a charming gentleman, able, popular and probably as magnetic as any of the candidates."

The reporter asked Mr. Brice if President Cleveland's policy was to blame for the wholesale Democratic disaster.

The senator hesitated a moment, and then said: "I don't think Cleveland is to be blamed personally for the tidal wave. Still, he will have to bear his share of the blame, as being part of the national organization and leader of the Democratic party."

"How about Germany?"

"Germany's all right. Your man Quay was beaten worse than Germany was last Tuesday, and he seems to be doing pretty well. No, Senator Gorman was not assassinated. Any man who thinks he is, is very badly mistaken."

Bloodshed Predicted.

KANSAS CITY, Nov. 8.—A special to the Journal from Vinita, I. T., says: A message from Tahlequah states that much excitement and intense feeling between political factions in the Cherokee Nation are prevailing and bloodshed will result unless compromised. The conditions are similar to those eight years ago, when many men were killed. The national party is contesting the election of Sam Mayes as chief on the Downing ticket, and the Indians are collecting in the capital armed to the teeth, determined to hold their friends.

RAILROAD MEN MEET.

Discussion of Rates in Montana and Utah.

CHICAGO, Nov. 8.—Officials of the Trans-Missouri lines held a meeting today for the purpose of determining whether or not they would cast their lot with the Western Passenger association and allow its agreement to cover their business up to Colorado common points. The meeting adjourned within a talking definite action, but the chances are strong that the lines will come under the association agreement.

The greater part of the day was taken up by a consideration of the association agreement and the lines got over it without any particular trouble. Tomorrow the rules of the association will be taken up.

The only disagreement today was over rates from Montana points to the Missouri river. The Rio Grande Western asked that the Union Pacific reduce its rates from Utah points to the Missouri river from $30 to $25, on account of its low rates from Montana points to Missouri river points through Utah. The Rio Grande Western claimed that as the matter now stands the rates from Montana through Utah to the river allowed a scalp on their Utah business, and they wished it removed. The Union Pacific demurred and the result was a long argument and no result at the end of it. It is probable that the matter will be taken up at the meeting again tomorrow.

No Strike Declared.

MILWAUKEE, Nov. 8.—According to Eugene V. Debs, president of the A. R. U., who is now confined in the Waukesha jail, no strike has been declared in the Great Northern system, and none is likely to be declared.

This statement is contained in a personal letter from Debs, written to the Waukesha jail last night, and received by a prominent member of the order in this city today. The letter is in reply to an inquiry regarding the status of matters on the Great Northern. Mr. Debs writes that the Milwaukee members may feel no concern as to the trouble on the Great Northern system.

Durrant's Sentence Postponed.

SAN FRANCISCO, Nov. 8.—Theodore Durrant was taken from the county jail to the superior court today for sentence for the murder of Blanche Lamont. The court granted a continuance until November 22nd, at the request of the prisoner's attorneys, who desired two weeks to prepare a motion and procure affidavits for a new trial. The charge against Durrant for the murder of Minnie Williams was, on motion of the district attorney, continued indefinitely. A large crowd awaited the arrival of the prisoner, but no demonstration was made.

Union Pacific Land Patent.

WASHINGTON, D. C., Nov. 8.—Secretary Smith has written a letter to E. Kibey Anderson, replying to various communications relative to the patenting of lands to the Union Pacific Railroad company. The secretary says that in view of the fact that Congress at its coming session will in all probability take action on the matter, he deems it inadvisable at this time to pass on such matters.

Waller Despondent.

NEW YORK, Nov. 8.—A special to the World from Washington says the family of ex-Consul John M. Waller have received a letter which has been permanently broken by his confinement in French prisons. His letters are all written in a most despondent tone. In letters dated September 30th from Clairvaux prison, just received, Mr. Waller writes that he never expects to see his family again, and states that this may be the last letter they will ever receive from him. It is evident that his health is extremely bad, for the French have transferred him from Clairvaux to Nimes and have placed him on hospital diet and allowance. It is expected that the state department will take some decisive action in the case before Congress meets as Mr. Waller's attorneys have been instructed to file their brief at once.

Shun deadly alum baking powders. Dr. Price's is a pure cream tartar brand.

NO CHANGE FOR THE BETTER.

The Situation in Turkey Remains Critical.

CONSTANTINOPLE, Nov. 8.—There is no change for the better in the political situation here, unless it rests on the fact that the Ottoman bank has advanced the Turkish government the sum of £1,500,000, which will enable the new minister of finance, Sakir Pasha, to provide for the most pressing needs of the government. The latter, it would seem, consist of filling out the army reserves just called out in the Porte's attempt to make some show of trying to restore order in Armenia; but there are so many other demands upon the Turkish treasury at the present moment that the money just advanced will not go a long way, even if it was placed to legitimate uses, which is not likely to be the case.

In the best informed circles here the situation is regarded as decidedly critical, and important developments are expected within a short time.

The Ambassadors of the powers do not regard the new Turkish ministry with favor; it is not expected to last long, and it is not then at that it will be able to do anything worth mentioning towards clearing the political atmosphere.

SINGULAR SITTING OF THE RELCHSRATH.

LONDON, Nov. 8.—The Vienna correspondent of the Chronicle records a stormy sitting of the Reichsrath, and of the rejection by the emperor of the election of Dr. Lueger by the anti-Semites as Burgomaster of Vienna. The Premier's announcement gave rise to unprecedented scenes. Lueger and Prince Lichtenstein made violent and acerbic speeches against the government. The public gallery was crowded with anti-Semites, who joined in the noisy demonstrations which came near to disorder, and which were expected for that reason. The House finally approved the rejection of Dr. Lueger's election by a majority of fifty-four.

In Honor of Sepoys.

BUFFALO, N. Y., Nov. 8.—Never has this city seen a more representative body of citizens than assembled tonight in the Buffalo club to do honor to Hon. Chauncey M. Depew. The dinner was tendered to Mr. Depew, not alone because of his prominence in affairs of commerce, but because of the special interest he always manifested in the welfare of this city. Hon. Edgar Jewett, Mayor of Buffalo, presided. Col. Wm. F. Cody was among the guests. The chief speech of the evening was that of Mr. Depew.

Bryard Criticised.

LONDON, Nov. 8.—The St. James Gazette this afternoon, referring to the address which United States Embassador Bayard made at Edinburgh yesterday evening before the Philosophic society, in which he denounced socialism and protection, says if Mr. Bayard is planning for his recall, adding: "His severe condemnation of the protective policy now prevailing in the United States, if an deliberation, is clearly a deliberate one."

FOR THE COAST DEFENSE.

Gen. Miles's First Report to the Secretary of War.

NEW YORK, Nov. 8.—A special to the Herald from Washington says: An unpublished exposition of the defenseless position of the coasts of the United States is made by Major General Nelson A. Miles, commanding the army, in his annual report to the secretary of war.

This report is the first that General Miles has committed in his capacity of "major general commanding the army" and considerable space is given up to the necessity of taking some steps to protect the sea coast.

It has been estimated that to fortify all our coasts would cost in the neighborhood of $125,000,000. To put the Pacific coast in a proper condition of defense would require in the neighborhood of 375 modern guns and mortars with their proper carriages and munitions. It has also been estimated that that work would be something like $21,000,000. General Miles has recommended in the past that $50,000 be appropriated to perfect time in strategic points necessary to be occupied for the defense of the Pacific coast; that $1,000,000 be appropriated for the establishment of a plant to be constructed under the direction of a board of officers of the army and navy to be ordered by the President for the construction of effective guns and war materials for both army and navy on the western coast, and that $25,000,000 or such portion of it as could be utilized in four years, be authorized to be expended for the construction of the most improved and effective guns and war materials as will be required on that coast. It is believed that General Miles makes recommendations of a somewhat similar character in his annual report. He has also urged the appropriation of a large sum for the erection of fortifications for the protection of the Atlantic coast. Suggestions are also made with reference to the great lakes.

The best cooks know that Price's Cream Baking Powder is purest and sweet.

Turks Fire a Massacre.

WORCESTER, Mass., Nov. 8.—The Hunchaghists here who are the leading Armenia revolutionists in America have received advices from Harpoot that plans have been perfected by Raoul Pasha, the military commander, for the massacre of every Christian in the valley of Harpoot and the valleys of Mounts Kara and Hoghs.

The Turks and Kurds have been stirred by the commandant, who will give the signal for the slaughter to begin as soon as Europeans made a move to occupy the country.

It has caused great excitement among local Armenians and a mass meeting is to be called and an attempt made to arouse public sympathy in the United States.

A Separate Silver Party.

SAN FRANCISCO, Nov. 8.—United States Senator John P. Jones is strongly of the opinion that there will be a separate silver party in the campaign of next year. The formation of such a party is to grow out of the coming silver conference at Chicago, he thinks.

TIRED, WEAK, NERVOUS, Could Not Sleep.

Prof. L. D. Edwards, of Preston, Idaho, says: "I was all run down, weak, nervous and irritable through overwork. I suffered from brain fatigue, mental depression, etc. I became so weak and nervous that I could not sleep. I could arise tired, discouraged and blue. I began taking

Dr. Miles' Nervine

and now everything is changed. I sleep soundly, I feel bright, active and ambitious. I can do more in one day now than I used to do in a week. For this great good I give Dr. Miles' Restorative Nervine the sole credit.

"It Cures."

Dr. Miles' Nervine is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at $1, 6 bottles for $5, or it will be sent, prepaid, on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.

For sale by all druggists.

WHAT AILS THE PEOPLE?

The True Cause of Most Physical Troubles Made Perfectly Clear.

"What are the principal ailments of the American people?"

This question was recently put by a reporter to Dr. Ephraim Cutler, whose name stands foremost in the ranks of the medical profession. His answer was:

"Bright's disease."

"The great increase of this fearful malady is attracting universal attention. Everyone is anxious to know how it is brought on. "What causes it, Doctor?"

The physician paused for a few moments before replying, and then said: "I can best explain that by a very simple illustration. Anyone who eats breakfast knows what it is to feel what is tired. Now, if the muscles of the body are partially changed to fat, it is called 'fatty degeneration.' In the same way when the human body, if the kidney secretions change into fat, it is called 'Bright's disease.' Bright's disease is fatty degeneration and not one person in twenty is free from some form of kidney or liver disease."

"May I ask if there is any cure at these complaints?" the reporter inquired.

"Yes," replied the doctor, "there is, if people will only take the right remedy at the right time. As a rule, it is only when they break down, lose appetite, find their complexions sallow, a constant white coating on the tongue, and the dismal eyes that they suspect anything is wrong. American genius has found it possible to arrest diseases of the liver and kidneys and no positive cure Bright's disease. The discovery of Warner's Safe Cure has been a God-send to the world. There are thousands of men and women who are alive today and are able to reach out a helping hand to one. This fact is now known and admitted by physicians in every portion of the Globe."

The words of the doctor are true and they demand the serious consideration of everyone who reads these lines. Bright's disease is, unmistakably, the most alarming of all our modern diseases. It often comes without warning, has few symptoms of its own, but shows the signs of almost all other complaints. Any man or woman who is at all "out of sorts," should see a physician if it is a well-known truth that "delays are dangerous."

The Very Best $1.00 Corset.

Made in white and French drab with satin strips, also in black satin.

No Brass Eyelets.

Sizes, 18 to 30.

$1.00

Equal in fit and quality to any imported corset, coming twice the money.

Made by Chicago Corset Co.
