MINES AND MINING.

The Usual Mode Of Procedure On Change Today.

TRANSACTIONS HERE VERY FEW.

Sevens and Sixth Sevens Cover the Day's Business—News from the State Line.

As has been the case for some time past and will likely remain so for some time to come, the business transactions at Change today were very much behind. The call of listed properties failed to bring out a single sale and it remained for the unlisted stocks to record the trading of the day. Thus they did in sales aggregating 200 shares, Sevens contributing 200 shares and Sixth Sevens 100. The only change in the quotations worthy of note, was the movement of Anchor to bringing from yesterday's asking figure of $1.10 to $1.05. Mammoth remained as strong as ever.

The closing figures were as follows:
