LOCAL AND OTHER MATTERS.

THERMOMETER 45 degrees Fr in the shade, at 1 p.m. to-day. Fine day.

THEATRE.—This evening, for the benefit of Professor J. C. Thomas, a very attractive bill will be presented. The performance will commence with Byron's popular comedy of "Not such a Fool as he Looks," with Miss Walters as "Susan Mold," Miss Kent as "Felicia Craven," Mrs. Bird as "Mrs. Merton," Mr. Coggwell as "Sir Simon Simple," Mr Thorne as "Murtgaroyd," Mr. Graham as "Mr. Mold," and Mr. Dudley as "Frederick Gantley." Next come selections by Croxall's brass band. Then a grand concert—songs, duets, choruses and overtures. To be followed by a stump oration by Mr. Harris. The whole concluding with the farce of the "Dead Shot," in which Messrs. Graham and Thorne, and Misses Carter and Simons will appear. During the evening the orchestra will perform, overture, Le Dieu et Bayadere, Auber; galopp, Champagne, Lumbye; and polka, The Marguerite, H. Laurent. A bill that ought to draw.

FILLED.—We are informed that all the home missionary appointments for yesterday were filled by the Elders with promptness and punctuality, and the various meetings were remarkably well attended, betokening an increased interest among the people in matters pertaining to the latter-day work. A very excellent spirit prevailed in the meetings held yesterday, so far as we have been informed.

UNIVERSITY OF DESERET.—A new term commenced at the Deseret University today, Prof. Park, principal, Prof. Bishop and Miss Cook, assistants. There is room for a few more pupils, and as the Principal and his assistants are first class in their profession parents cannot do better than place their children under their tuition if they wish them to have the best instructors and instruction the Territory affords.

AN INVENTION.—We have been shown, by William Boaz, the model of an invention, the object of which is to protect the firemen while operating on a burning building and also to prevent fire from spreading to buildings contiguous to those that may be already in flames. The machine is designed to be of sheet iron and, as shown in the model, will consist of a number of square divisions, each part telescoping into the other, as they graduate in size, the largest being at the bottom and the smallest at the top. These can be raised, by means of a crank, to any desired height, and sustained at the necessary elevation by means of springs. The invention of Brother Boaz, who is in his 79th year, has the appearance of practicability, and is worthy the consideration of the engineers of the fire brigade, and others whose business it is to see that the facilities for the prevention and extinguishment of fires be rendered as ample and efficient as possible.

"BE Kind to Auld Grannie," by Mrs. E. F. Thomas, at the Concert to-night, at the Theatre, at the benefit of Professor Thomas.

THAT BENEFIT.—The bill provided for Professor Thomas' benefit is one of the best that has been offered to the public for a long time. The grand feature of the entertainment will be the concert in which some of the sweetest singers in Utah will take part. Besides the musical performances—vocal and instrumental, the comedy of "Not Such A Fool As He Looks," and the delectable farce of the "Dead Shot" will be presented. Variety is said to be the "spice of life," and Prof. Thomas' bill comprises changes sufficient to suit tastes of every class.

The beneficiaire is doing much towards making the Theatre an attractive and desirable place of public amusement and is deserving of a bumper house as appreciative of his energies in this direction.

For choice selections by Croxall's brass band go to Professor Thomas's benefit at the Theatre to-night.

OLLAPODRIDA.—To-morrow evening the grand ollapodrida concert at the "Institute," for the benefit of the Ladies' Library Association fund, comes off, when the public will be regaled with a splendid selection of musical gems.

D. A. AND M. SOCIETY.—The board of directors of this association held a meeting on Saturday evening, at which the premium lists for the next fair, for three classes, were presented and read. This looks like taking time by the forelock this year. This early action in the matter of premium lists will give ample time for parties who purpose exhibiting to prepare articles for competition.

COMPLIMENTARY BENEFIT.—The programme of the grand complimentary benefit tendered to Mr. John Chamberlain will be found under the head of special notices. Quite an array of talent will participate in the entertainment, and the affair will doubtless be a fine musical treat. The complimentary has been tendered to Mr. Chamberlain as a mark of appreciation for his valuable services as Organist for the 15th Ward Choir.

INFORMATION WANTED of the whereabouts of Reuben James, aged about 20. When last heard from he was in the mines in the West Mountains. Any person knowing his whereabouts will confer a favor by addressing Jabez Dangerfield, Salt Lake City.

Western papers, please copy.

"MY Father's Coming Home, Mother," a beautiful ballad, and chorus, will be sung by Miss Park and chorus to-night at Professor Thomas's benefit.

HIGH BRED STOCK.—Col. Peter Saxe writes to us from Farr's Hotel, Ogden, Feb. 8, that the next day he expected to arrive there 61 head of short-horn Durham cattle, direct from the blue-grass counties of Kentucky, over three-fourths of them heifers under one year old, the balance one and two years old, catalogued by a printed and written pedigree. They are from four of the most noted breeders in Kentucky. Being young, of course more can be brought in a car, and they can be sold at a less price. He will sell at low profits and on accommodating terms. He designs to stay with the herd at Ogden 10 or 12 days, and keep them at Hon. Lorin Farr's yard near home.

Col. Saxe has brought west 52 head of blooded stock in 1871, 56 in 1872 and 61 in 1873, total 169, and of that number 29 have been purchased by residents of this Territory.

The Col. says truly if the Utah farmers supply themselves with females as well as males of good strains, first class pure stock can be produced here as well as grades.

REFLECTIONS.—Here is what Brother John S. Fullmer, of Springville, Utah County, has to say upon this subject:

"In repersusing the DESERET NEWS of the 21st of October last, I noticed an article headed 'REPLACING TEETH,' by several scientific gentlemen, I suppose, as a new discovery. I will state a case of my own, which occurred as long ago as 1821 or 1822. I was then a boy, about fifteen years old. One of my lateral incisors was showing symptoms of decay, and became very troublesome. I called on our family physician and had it extracted. The vacuum was so unpleasant in my mouth, that I got the idea of replacing the tooth. I accordingly scraped and cleaned it with my penknife, and, after proper preparing, put it back in its place, and replaced my teeth with my own hands. The doctor told me it would do no harm, but I determined to try the experiment anyhow, and I have no recollection of its troubling me to any extent. Although, in a few days it served me as well as any of my other teeth, and lasted for at least ten years, and no one could have discovered any difference between it and any of my other teeth as to color or firmness in the sockets."

TAMARINDS.—We are in receipt of a quantity of excellent preserved tamarinds from Mr. George Nebeker, which he brought with him from the Sandwich Islands. They are of good quality and make one of the best acid drinks in existence, being of great benefit in cases of fever.

FORTY PER CENT.—We are informed that the administrators of the estate of the deceased Mr. Bowers, who committed suicide near the Hot Springs some time ago, have declared a dividend to creditors of forty and a half cents on the dollar. Exclusive of this we are also informed that there are some mining claims, belonging to the estate of deceased, which have not yet been adjudicated.

GO TO Prof. Thomas' Benefit to-night and hear Miss Walters sing "Way down in Maine."

CONGRESSIONAL.

SENATE.

WASHINGTON, 10.—Pomeroy rose to a personal explanation. He said he embraced the first opportunity to make a statement personal to himself, and in justice to the officers and members of that body. Senators and the public were aware of the deep and successful conspiracy laid to accomplish his defeat. It was a scheme of villainy unparalleled. He denied, now, every statement affecting his integrity, and pronounced all the allegations made against him specifically false. He had never entered into any agreement with any member of the Kansas legislature, and had never paid a dollar to any member to vote for him. He asked that a special committee, composed largely of his political opponents, be appointed to investigate, in the fullest possible manner, all charges against him, so as to make a report before his term expires, the committee to have power to compel the attendance of witnesses. He concluded by offering a resolution for the appointment of a select investigating committee of five. The resolution was adopted.

EASTERN.

NEW YORK, 10.—The trial of Scannel for the murder of Donahue began to-day.

Early this morning Dr. Hugh Williamson was dangerously shot by a man named Quiest, during a scuffle growing out of an attempt of Williamson to mollify Quist, who was angry with his wife on her returning from a party with Williamson.

WASHINGTON, 10.—In a caucus of the Republican Senators this morning, Anthony presiding, on the subject of the business now pending in the Senate, a committee was ordered and appointed by the chairman, to report at a future meeting what measures should have precedence, the general object being to act upon those of most public importance, with the view of avoiding the call of an extra session, the prevailing sentiment being against such extra session. Some senators declare that the President should not be forced to call an extra session owing to any fault or negligence of Congress to transact the necessary legislation.

CINCINNATI—The tow boat *Petrel* was stuck in the Ohio River on Saturday night. The captain swam ashore, but he was so chilled that he died in a few hours. Seven of the crew were drowned.

EUROPEAN.

LONDON, 10.—The following dispatch has been received here by a Reutez telegram, marked urgent, and as it was not delayed by the censor at Madrid, it is believed to have some foundation:

"MADRID, 10.—King Amadeus has manifested a disposition to abdicate the crown, in which case he will resign his power into the hands of the Cortez. The city is quiet."

MADRID, 10.—Bands of Carlists have appeared in the province of Ledo.

The Senate, by a vote of 59 to 6, passed a resolution of confidence in the ministry.

The government has created an ordnance department.

The bill for the abolition of slavery in Porto Rico will be discussed to-day.

A snow storm yesterday extended throughout the northern provinces.

INDIGESTIBLE BREAD.—The reason why those baking powders in the market adulterated with Alum, Chalk, Earth, and other substances make bread and biscuits very indigestable, is because they harden the gluten of the wheat and render it less soluble. Now this is not the case with Dr. Price's Cream Baking Powder; its purity and perfect combination enable it to render all articles easy of digestion, besides preserving their natural taste. Those who have not should test them, as also his elegant Special Flavoring, so strong, so pure, so true. d67 1w s4 2 w2 1
