BOOM ON IN MINING STOCKS.

Terrific Trading in the Pit of the Exchange Today.

NO BETTER RECORD MADE.

Big Business in Eagle, Four Aces, Lower Mammoth and Bowers Extension.

It took nearly $40,000 to settle for stocks sold in the pit today, the brokers being so enthusiastic in their dealings as to bring about sales amounting to 75,500 shares. Roughly guessing, the day was perhaps the biggest in the history of the institution so far as values are concerned, while in point of volume of business, it was not far beyond any of its predecessors. Stocks of a higher order demanded good figures and got them, while small speculative securities were also freely dealt in, most of these figuring in the trading at very respectable quotations.

To begin with Daly threw out 100 shares at $1.04, while Daley followed with sales at 50½ cents, this price capturing 900 shares and one a trifle lower landing 200 shares. Eagle bobbled by its recent strike and registered an advance, the stock finding takers up to 24 cents and closing with a ready bid of 23½, while Four Aces followed at yesterday's figures and did business on this basis with sales for future delivery at 61 and 65 cents. Geyser-Marion was a seller at 82 cents and Lower Mammoth then upward the stock making transfers up to 75 cents and closing with a bid of 72. Northern Light was active down to a dollar, the stock having—although for what reason is not known. The stock closed strong there being a bid of $1 visible. Sunshine was dealt in at 48 cents, while Silver King dropped 50 shares at $46 a share and Utah, for declaring a dividend, did business above a dollar and remained in good demand at $1.02½.

In the unlisted stocks trading was equally active, with Bullion-Beck Tunnel the first seller, 1,000 shares going at 5 cents. Then came brisk business in Dexter at 21.25, while Eagle and Blue Bell sold at $3. Emerald at 12½ cents, Golden Eagle at 8½, Homestake at 4 and Hercules between 13 and 15 cents. Joe Bowers Extension was in popular demand at advancing figures and Little Pittsburg added materially to the trading in transfers at from 12 to 12½ cents a share. May Day contributed an odd hundred at 35 cents while Manhattan, a new one, made its appearance, and for its close proximity to the Lower Mammoth, sold at 1½ cents. This remark, however, reflecting in no wise on the property last mentioned. Minnie sold between 2 and 3 cents and Richmond Anaconda between 7 and 8, while Scanlan was dealt in at 13.25½. South Swansea at $1.21, and Star Consolidated at $1.24. The other sellers were Showers Consolidated, Success, Sun Beam, Sunbeam and Yalos, each and every one being recorded satisfactory recognition.

The closing figures were as follows:

LISTED STOCKS.

MARKET REPORTS.

NEW YORK MARKETS.

STOCKS AND BONDS.

New York, Jan. 18.—Reserves in the Bank of England's rate of discount from 4 to 3½ per cent excited a healthful influence on the London market, where quotations for Americans showed general improvements.

The New York market gave a decided manifestation of strength at the start, yesterday's downward drive in the investment stocks having influenced further bidfs of outside investment orders which were augmented by speculative purchases of the various operators in various shares.

The stock speculators broadened materially, the high level attained by the better known shares stimulating purchases of the low priced stocks. The professional element appeared to be more resigned to the upward tendency.

The short interests in sugar were taken into account, the stock rising above $1.22.

Burlington touched $1.29½, but sagged slightly.

The tendency of the stock market continued strongly upward during the forenoon and there was a revival of animation in shares which have been quiet of late. The Pacific stocks were bought heavily, Northern Pacific and Union Pacific moving up materially. Fluctuations of importance occurred in other parts of the list. Lake Erie and Western preferred rising 5½; Minneapolis and St. Louis 2nds pfd. 3½ and American steel, common and preferred, 2 points each. The London operations were healthy for the long account, and the change in front on the part of the foreign operators was an essential factor in the current movement of the market. Railroad bonds were in brisk demand and improved notably in spots.

MONEY.

New York, Jan. 19.—Money on call nominally 2@2½ per cent.

Prime mercantile paper 3@4½ per cent.

Sterling exchange steady with actual business in bankers' bills at 4.84¾@4.85 for demand and 4.82¾@4.83 for 60 days; posted rates 4.83½ and 4.86¼. Commercial bills 4.82@4.82¼.

Silver certificates nominally, 59¼@60½.

Bar silver, 59½.

Mexican dollars, 47½.

Government bonds steady. Fs, 107¾; new 4's reg., 128½; do coupon, 129½; 4's reg., 112½; do coupon, 112¾; 2's reg., 96½; do coupon, 97½; 5's reg., 111½; do coupon, 112¾.

SUGAR.

New York, Jan. 19.—Sugar raw, easy; fair refining, 3¾; centrifugal, 96 test, 4¼; molasses sugar, 3½; refined, dull.

CHICAGO MARKETS.

PRODUCE.

Hogs—Receipts, 11,000. Market steady to 5c higher. Bulk of sales $3.60@$3.65; heavy, $3.60@$3.70; packers, $3.60@$3.65; mixed, $3.57½@$3.65; light, $3.52½@$3.65; yorkers, $3.60@$3.65; pigs, $3.50@$3.55.

Sheep—Receipts, 1,000. Market steady; lambs, $4.00@$5.00; wethers, $3.50@$4.25.

OMAHA LIVE STOCK.

Omaha, Jan. 18.—Cattle—Receipts, 2,300. Market active and steady; native beef steers, $4.10@$5.35; Western steers, $3.90@$4.85; Texas steers, $3.00@$4.25; cows and heifers, $2.25@$4.25; canners, $2.00@$2.90; stockers and feeders, $3.10@$4.60; calves, $3.00@$5.75; bulls and stags, $2.50@$4.50.

Hogs—Receipts, 11,800. Market 5@10c higher. Heavy, $3.50@$3.65; mixed, $3.45@$3.55; light, $3.40@$3.55; pigs, $3.00@$3.40; bulk of sales $3.50@$3.55.

Sheep—Receipts, 3,000. Market steady. Native sheep, $3.90@$4.25; Western, $3.90@$4.20; yearlings, $4.30@$4.60; lambs, $4.90@$5.30.

DENVER LIVE STOCK.

Denver, Colo., Jan. 18.—Cattle—Receipts, 200. Market active and steady; beef steers, $3.75@$5.30; cows, $3.00@$4.00; feeders fresh sold to river, $3.20@$4.25; stockers on, $3.00@$4.00; bulls and stags, etc., $2.00@$4.00.

Hogs—Receipts, 500. Market slow and lower; light packers, $3.60@$3.65; mixed, $3.55@$3.60; heavy, $3.50@$3.55.

Sheep—Receipts, none.

SAN FRANCISCO MARKETS.

San Francisco, Jan. 19.—Wheat—Quiet. May, 79¾; cash, 79¾.

Barley—Inactive; nom. 87½; cash, 87½.

LOCAL MARKETS.

Salt Lake City, Utah, Jan. 19, 1899.

POULTRY.

Below are wholesale buying prices on poultry, butter, eggs and cheese. The selling figure is 10 per cent higher.

There is a fair demand for poultry with the prices about stationary. Dressed poultry comes, with heads and feet off, being figures as follows:

Turkeys, per lb	12
Hens	10@11
Roosters	.06

BUTTER AND CHEESE.

Dealers report the butter supply excessive with prices at a very low ebb.

Cheese, Utah (new)	.10

EGGS.

The egg market is well supplied, and fully equal to the existing demand, with prices declining.

GRAIN.

Wheat—59@62 cents per bushel.
Oats—$1.20@$1.25 per hundred.
Corn—$1.00 per hundred.
Cracked Corn—$1.10 per hundred.
Bran—60 cents per hundred.
Rye—80 cents per hundred.
Shorts—90 cents per hundred.

HAY.

Timothy—$10.00 per ton.
Mixed—$6.00 per ton.
Alfalfa—$6.00 per ton.

FRUITS.

APPLES—Good stock—Dull, in good demand, per bushel, 75@$1.00.

PEARS—In good demand, per box, $1.25 to $1.50.

LEMONS—California, per box, $3.50@$4.00.

A SPLENDID SHOWING.

Report of City Attorney for 1898—An Injustice Done Assistant Attorney.

The friends of Assistant Attorney C. H. Stewart feel that an injustice was done him by the resolution to abolish his office, as introduced by Councilman Robertson at Tuesday night's Council meeting. In the city attorney's report for the year 1898, which has just been submitted to Mayor Clark, a splendid showing is made which reflects great credit upon both Mr. Hall and his assistant. Much of the work has rested upon the shoulders of Mr. Stewart and to those familiar with the city affairs it is known that he has been untiring in his efforts in looking after municipal law matters.

A summary of the year's business, as shown by City Attorney Hall's report, is as follows:

Amount of damages sued for in 49 civil actions against the city, prior to January 1, 1898 ..... $267,272.52
During the year ending January 1, 1899, the amount of damages sued for in 49 civil actions against the city was 31,258.46
Total $298,530.98
Number of cases tried during the year 1898, 50. Those suits involved 219,505.49
The total amount of judgments recovered against the city for the year 1898, was 41,471.12

Schedule "A" is a list of two cases tried before Judge Hon. F. L. Williams, referee, and Hon. George Goodwin, judge pro tem., in which was involved the sum of $124,000.22.

Schedule "B" is a list of fifteen cases tried in the district court, in which was involved the sum of $95,419.48.

Schedule "C" is a list of thirty-three cases that were tried on appeal from the police court, the same being criminal actions, in which the city appeared as the plaintiff; these cases were mostly very old cases and the police department was unable, in most of them, to produce evidence to sustain the lower court. However, the city collected from these cases in fines and costs, the sum of $225.50, which amount was turned over to the city treasurer.

Schedule "D" is a list of thirty-eight cases pending for trial, January 1, 1899, in which is involved the sum of $75,[illegible]. As well as the title to several pieces of real estate, and part of the city's water rights in Parley's canyon.

The following is a list of the judgments had against the city, during the year 1898:

J. H. Smith et al (condemnation) $10,944.46
Pacific Fencing company 22,881.43
Total judgments as shown by schedule "A" $37,121.87
Maria H. Hindmarsh ..... $ 10.00
Martine Walsh 275.00
Peter F. Gore 25.00
W. H. Bells 400.00
Elias Fox 1,500.00
T. J. Powell 1,000.00
R. G. Scoville 225.00
Total judgments, as shown by schedule "B" $4,437.46

VERMONT'S ABANDONED FARMS.

(Burlington Free Press.)

After trying in vain to secure the occupation of its abandoned farms by foreign colonization, Vermont has found the most satisfactory solution of the problem to be the advertising of the existence of these lands in such a manner as to attract the attention of vigorous and thrifty young farmers who are not afraid to work. The number of deserted farms in this state has been materially reduced in this manner, and at comparatively small expense, and now that all sections of the country are known to be similarly affected no state need hesitate to advertise boldly to the world that it has a number of abandoned farms which can be purchased cheap, if, indeed, they cannot be had for the asking. In the meantime farms will continue to be abandoned farms some philosopher discovers how to stop people from leaving the rural districts for the cities.

WILL RESUME ON THE MORGAN

Another Park City Mine to be Put Into Operation.

ADJOINS THE DALY-WEST

Centennial-Eureka at Alta to be Opened Up—Scheme to Advertise Utah Mines.

Urged on by the seemingly excellent future awaiting the mines of Park City, the owners of the Morgan, adjoining the Daly and Daly-West, have practically agreed upon a resumption of operations. It bears the intention to open up this property and place it in a fair way to compete with its more renowned neighbors in the production of ore, and the payment of profits to those interested.

This much was decided upon at the annual election of officers held in this city last evening, at which time Messrs. R. C. Chambers, John J. Daly, H. E. Walker, James H. Hoyt, J. H. Walker, Jr., Henry Greenwald and Ezra Thompson were given places on the board. These men will hold a meeting early next week at which officers will be elected, and when this is followed, a regular policy for future work will be outlined, and orders issued to take up development where it was left off some time ago.

The Morgan is a silver-lead proposition, and so far as developed, has given good evidence of being a fair producer. Lying, as it does, continuous to properties that have won renown as producers, it has every chance of developing into a bonanza of the first order, and with such men as those above named at its head, the fondest expectations of all concerned doubtless will be realized.

THE CENTENNIAL-EUREKA.

Work to be Resumed on One of Alta's Promising Properties.

Nestled amid the snow-capped peaks of the Cottonwoods, in the old-time producing camp of Alta, is the Centennial-Eureka mine, the stockholders of which held a meeting in this city last evening. At it the company's articles of incorporation were amended so as to increase the number of shares from 100,000 to 250,000, and to reduce the par value of shares from $5 to $1 each. Following the transaction of this business, the directors met and decided to put 50,000 shares in the treasury as a working capital, at the same time authorizing the sale thereof, thus bringing to light a deal which carried off 5,000 shares immediately.

The Centennial-Eureka adjoins the famous old Emma on the southeast. The ground is all patented and in good condition, and it is the intention of the company to resume operations at once, in order to put the mine on a paying basis. To this end a contract will be let and work taken up in the shaft, which has already attained a depth of 135 feet and at which point there is a large body of soft iron ore mixed with lead and carrying some silver. The property is also provided with a tunnel between 200 and 300 feet long, through which thorough exploration will be pushed, but the mine's value may be fully demonstrated. Work will be resumed just as soon as meteorological conditions will permit.

To Advertise Utah Mines.

On the regular call today, members of the exchange voted to sustain W. M. Wantland in his efforts to produce a map of the Tintic and Mercur districts, revised and embellished to date, for general distribution throughout the sections of country in which there is an interest in Utah mining. This movement is to be promoted by the demand from outside points, for information concerning the mines, their locations, etc., and the inquiries from capital for good investments. Mr. Wantland proposes to get up a work of art, and one that will be self-explanatory, and to this end there will be appointed by a committee of five to be appointed by the governing board of the exchange.

Notes from Tintic.

(Mammoth Record.)

It is proposed to buy a Lucky Boy monument on the capital stock of the Homestake at the next meeting of the directors to be used in clearing the mine of water and running work.

The new hoisting plant at the Four Aces has been started up and works like a charm. Manager Murphy is now prepared to do some good work and will do it quickly and well. He is in front in the entire satisfaction of the stockholders. Some high grade ore is being hoisted and shipments will be resumed.

A shipment of one car of copper and one car of lead ore was made from the Lower Mammoth this week, the former going to Denver and the latter to Kansas City. The lead ore also carried silver and the latter 25 per cent lead and 35 ounces silver, both carrying a little gold. The station has got down on the 300 level and it is the intention of the company to continue the shaft another 200 feet. This mine is developing into a good, and regular monthly shipments may be looked for.

MINES AND MINING MEN.

The star Consolidated has applied for listing on the Chicago exchange.

A good strike of galena is reported in the Dillon at Dingman.

F. T. Farnsworth, manager of the Big Six, reports a good strike.

Three West of the Highland Boy arrived from Lower this morning.

The Mercur company will pay its regular dividend of $25,000 tomorrow.

The Utah Bullfrog company is out with a lurid prospectus, setting forth its objects and purposes.

It is now stated that rumors of a strike are responsible for Lower Mammoth's recent advance.

Judge A. T. Parsons was out at Morrison today inspecting work at the Sterling coal mines.

It is now proposed to increase the membership of the old stock exchange from 60 to 100.

The Ontario company has re-elected the old board of directors for the ensuing year.

The miners of the South Daley at Mercur have decided to erect a mill in the spring.

The Dalton mentioned in the issue of Tuesday afternoon, has filed its articles of incorporation.

As a sample case of the demand for work on the Ute Stock syndicate, it is stated that over 150 applications have been received, with R. Peyton as bonded for superintendent of the property.

Having marketed ore netting $26 per ton, the Polaris at Stockton, considers itself on a paying basis, and has decided to try to raise a subscription.

Col. S. H. Miller, manager of the Dexter, will return from Tonopah or Goldfield after having started up the new power plant.

The Tonopah Gold Mining company is doing a little development on its claims in Tintic Tuesday, Nov., and hopes to increase the work in a very short time.

BOOM IN THE METAL MARKETS.

Cast Iron Pipe Trade Suffers from an Attack of "Dumps."

OTHER BRANCHES FLOURISH

Foreign Inquiry in Foundry Iron is Heavy and Some Early Delivories Cannot be Made.

New York, Jan. 19.—In its review of trade conditions the Iron Age, as also dispatched authority on the iron trade with all today:

"The iron markets are in an extraordinary condition. A considerably growing number of dealers in many lines have either written or telegraphed to make up quotations in order to meet wired buyers. Still, this no longer has any novelty, and the industry is kept well to hand. Time is an article in demand and prices for late delivery are not sold in advanced records, even a few days ago, so large an advance is made.

"In the iron and steel world about half of the prices sold which transpire have to come out in the east. So far as foundry iron throughout the country is concerned, the inquiry not only is heavy, but some trouble have sound so considerably.

"The feeling that there is danger of a prolonged scarcity of pig iron is widening, but it would be understood much that it is likely to be only temporary unless the demand goes far beyond the present rate of output. The consolidation of the Norfolk & Western Pipe Plants in Virginia under the Virginia Iron, Coal and Coke company, now practically assured, will put the blast capacity there long the Pennsylvania in Alabama and Tennessee there is some chance of extension. There are a few available furnaces in the Shenango valley and one at Buffalo. Finally toward summer we may expect the large plants at Lorain and at Youngstown to fall in line.

"Some business has been done in steel billets in the central west and in the east at higher prices.

"It is announced that the American Wire company has contracted with the Federal Steel company for large quantities of billets and wire rods. Though the article is not yet available.

"Although relatively quiet, the steel rail market is stronger east and west. The demand for new material continues unabated and large blocks of bars and shapes for this purpose have been placed.

"In no department is the scarcity more pronounced than in plates. Our Chicago correspondent reports that the local mill has taken orders aggregating 10 thousand tons, of which 1,000 tons was for shipbuilding.

"The demand for structural material is developing. Very large bridge orders have been placed and now, too, the requirements for buildings are coming in. Good-sized amounts have been taken in Chicago and New York and some very liberal season contracts have closed to header with architectural iron works.

"One of the few industries which are still in the dumps is the cast iron pipe trade. Only lately a lot of about 4 thousand tons for Philadelphia was placed at a very low figure and current small lots are being taken at unremunerative prices. We understand that the condition in this branch, which is to be blamed by Pittsburgh of this city is making satisfactory progress. Another large banking house is working in the steel pipe consolidation to take in the great mills at Pittsburg and elsewhere.

"The boom in the metal market continues, copper, lead and spelter all having scored notable advances."

ABOUT CATARRH.

It is caused by a cold or succession of colds, combined with impure blood. Its symptoms are pain in the head, discharges from the nasal passages, ringing noises in the ears, it is cured by Hood's Sarsaparilla, which purifies and enriches the blood, soothes and rebuilds the delicate membranes and effects all the disagreeable sensations.

HOOD'S PILLS cure all liver ills. Mailed for 25c. by C. I. Hood & Co., Lowell, Mass.

The smallest things may exert the greatest influence. Dr. Wm's Little Early Risers are unequaled for overcoming constipation and liver troubles. Small pills, but oh, how mighty. F. C. Schramm, Kerbrock Building, sole agent, Fort Scott.
