MINING, BUSINESS AND STOCKS.

TINTIC PROPERTY CHANGES HANDS

James C. Jensen of Heber Purchases Ground of Lower Mammoth Extension Mining Company.

At a meeting of the stockholders of the Lower Mammoth Extension Mining company yesterday, the action of the board of directors of the company in selling the remaining property of the company to James C. Jensen of Heber was ratified. The company sold its Anita Lode mining claim, known as mineral survey No. 4536, for $4,000. Other pieces of property of the company have been sold from time to time until the company is no longer the owner of property.

The board of directors of the company was also instructed to disincorporate the company and wind up its affairs. The board of directors also posted a dividend of 1½ cents a share, payable Oct. 20, books to close on Oct. 15. It is probable that after paying all the necessary expenses, the amount remaining for the stockholders may be greater than the dividend and an extra dividend will be declared.

The company was capitalized with 200,000 shares. J. R. Murdock of Heber City, president of the company, is the owner of 76,000 shares.

STOCKS SLOWER BUT STRONGER.

Carisa is Sent Lower on Local Mining Exchange This Morning.

The leaders in the local stock market were stronger today, while the market throughout was slow. The volume of business fell off greatly and was much lower than on yesterday. Carisa was trimmed up by the market this morning and from 80 cents the stock was knocked down to as low as 74 cents. It was at 75 cents at the close of the market.

Colorado remained unchanged today at the lowest price it has reached this year. It sold at $1.40 and 1,100 shares changed hands at that price. Iron Blossom was somewhat stronger this morning and developed an upward tendency. Sioux Consolidated developed the greatest strength it has shown in several days. The stock was strong around 70 and 71 cents, and 9,500 shares were disposed of.

Of the smaller stocks Grutli and Bullock were the most active. East Tintic Development and Grand Central are still unchanged.

The total number of shares disposed of this morning was 57,970, while the amount represented by the transactions was $18,977.25.

On the curb market there was but little trading. Mammoth sold at $1 and $1.02½. Ohio-Kentucky was offered at 70 cents.

ORE IS HIGH IN SILVER.

Silver Island Property to Ship Some High Grade.

I. E. Pratt, secretary of the Silver Island Coalition Mines company has just returned from the property. He declares that the company has now 800 sacks of high grade ore awaiting shipment and within a few weeks the first of the ore will reach the Salt Lake smelter.

According to Mr. Pratt the ore will average at the present price of metals, $111.64 in silver; $30.89 in lead; $15.45 in copper and 20 cents in gold. The company has also found considerable high grade ore in its Emancipator claim at a point 400 feet south of the Emancipator tunnel and also 150 feet south of the tunnel.

SAYS PIOCHE WILL BOOM.

Strike Reported in Old Foster Property in Pioche District.

According to a letter received this morning by Manager Owen A. Bailey of the Demijohn company, a strike of high grade has just been made at the Foster property close into the town of Pioche. The letter says that four feet of ore has been found under the lime hill and that it is believed that it is an extension of the famous old Meadow Valley vein from which millions were shipped in the early days. Alex Colbath of Salt Lake City is the superintendent of the property. He has interested D. D. Houtz of Provo in the property and since early in the year they have been pushing work.

It is further declared in the letter that things are on the move in Pioche as they never have been before. The starting of work on the Ohio-Kentucky and the Nevada-Utah properties has added new life to the community and more work has been started on other claims.

At the Demijohn the drift on the 200 foot level has run into shale, manganese and decomposed lime such as has been the capping to the ore in other parts of the mine. The management feels confident that within a few days it will bear of the opening of a new vein of ore in this promising little property.

At the Pioche Golden Prince the company has installed a new 60-horsepower engine and this is being used on the compressor while the old 25-horsepower gasoline engine is being used for hoisting. The property is pushing work with greater energy than ever before, and it is declared that some big things may be expected from this property.

SIERRA IN GOOD ORE.

Company is Confident of Breaking Into Large Body.

The Sierra Mining company, which is operating with quite a force of men on the Cook property, joining the old Miller estate in American Fork canyon, has encountered about 2 feet of pay ore in a drift run from a winze which has been sunk in the main working tunnel, and the management is confident that one of the large characteristic ore bodies of the section is about to be broken into. Assays from the ore encountered give 30 per cent lead, 20 oz. silver and $2.40 gold.

OHIO MILL TO START WITHIN THREE WEEKS

Trestle Rigging Up and Half of the Plant Will Be Ready for Ore When Trestle is Finished.

Work is being pushed at the Ohio Copper company mill at Lark to have the machinery of the first half of the plant in readiness to be placed in commission as soon as the trestle work is finished connecting the car tracks from the mine with the mill. This it is expected will be finished within the next three weeks.

The last two cars of steel necessary to complete the trestle work are on the way to Salt Lake City and have passed through Denver, so that it is a matter of but a short time before they will reach Salt Lake City. The rigging for the trestle work is all up in readiness for the steel.

When Colin McIntosh, general manager of the Ohio Copper company was at the plant Tuesday the men were just finishing up the transformer house. This will be the completing link for the starting of the first two units of the plant. With half of the mill completed the company will be able in a few weeks to be handling over 2,250 tons of ore a day.

While the work on the mill has been progressing the work at the mine has been pushed just as rapidly and the property is in shape to send out a large tonnage at the start. The management believes that by the last of next month the company will be earning money above the running expenses.

Work has been started on the third unit of the mill and before the end of the year at least one of the units will have been finished. When the mill is completed it is believed that it can handle in the neighborhood of 4,500 tons of ore a day.

New cars have been ordered for use in the Mascotte tunnel and some of them are now at the mine. Everything is being placed in readiness as rapidly as possible.

The starting up of the mill means that another dividend payer will shortly be added to the already large number at Bingham.

CONCENTRATES.

The last fire was drawn at the Tintic smelter yesterday according to reports from Tintic. The Dragon mine from which fluxing material was derived has also been closed.

D. H. Brown, metallurgist of the Canadian Copper company, Copper Cliff, Canada, one of the foremost authorities on the Metallurgy of Nichol, is in the city. He is making a visit to the western smelters.

The Lion Hill Consolidated Mining company of the Ophir district has just received a check from the smelter for a 52-ton carload of ore that netted the company, after taking out smelting and freight charges, $716. Work has been started on another car which will arrive in a week or ten days. This one, Supt. St. Clair says, will be about one-third better.

The Sioux Consolidated is reported to have struck eight feet of ore in a drift off the 450 foot level. This means a new era for the mine as the ore is found deeper than heretofore. Just how good the ore is General Manager C. E. Loose says he does not know. Conditions he declares are favorable for opening up some new ore bodies in the property.

The Peacock Copper Consolidated mining company has completed the advertising necessary in connection with its application to patent its claims in Beaver county. According to Manager L. H. Block work was discontinued sometime ago on account of possible conflicts. This has now been settled and the company is in a position to proceed.

It is believed that the lowest cost record of the production of copper that has ever been made by a mining company will be made for the quarter ending today, by the Nevada Consolidated. It is understood that the 15,000,000 pounds of metal produced for the quarter will average close to 5 cents a pound. This beats the Utah Copper record of a little better than 9 cents a pound. This quarter it is believed that the Utah Copper has lowered its cost to close to 8 cents a pound.

Articles of incorporation for the Greenhorn Mining company were filed yesterday with the secretary of state. The company is capitalized at $100,000, with shares at 10 cents each, half of which is preferred and the other half common stock. In the treasury are placed 352,000 shares. The company will exploit 12 claims in the Ohio district, Piute county. The officers are: James Courtney, president; A. D. Hardy, vice-president; E. M. Neher, secretary and treasurer. The officers with A. McCurtain, B. F. Moss, Joseph Wahl and William Lambert compose the directorate.

HENEFER COMPANY TO INSTALL WATERWORKS

(Special Correspondence.)

HENEFER, Summit Co., Sept. 28.—A company has been formed here with a capital of $10,000 to lay a pipe line to furnish spring water for the town. The spring has been secured, and the first officers elected as follows: Alma E. Richins, president; R. A. Jones, secretary, and J. W. Richins, treasurer. It is the intention of the company to rush the work this fall.

The crops have nearly all been secured, some little damage was done by excessive rain in August and early in September, but it might have been worse.

CHICAGO WINS.

BULLS BOOSTED UNION PACIFIC

New York, Sept. 30.—The opening dealings in stocks were active but prices moved only slightly from last night's level. Mixed gains and losses were shown by all the active stocks. Pittsburg, Chicago, Cincinnati & St. Louis advanced 1 and Republic Steel and Westinghouse Electric ¾. Persistent selling of United States Steel coupled with further liquidation in Wabash preferred sent prices in some instances well below yesterday's closing. Wabash preferred losing 2, Denver & Rio Grande, United States Steel, Amalgamated Copper, Pressed Steel Car and American Woolen 1.

The bulls then took up Union Pacific and Chesapeake & Ohio and forced an advance of 1¼ and 1⅝ respectively which resulted in most stocks getting up a fraction above last night. Some of the leaders did not hold and the market was irregular at 11 o'clock. Westinghouse Electric first preferred gained 5 points, Mackay Companies 1½ and American Sugar 1.

Chesapeake & Ohio's further rise to 89⅝ and Union Pacific to 210 were supplemented by 1-point advances in Atchison and Norfolk & Western. The list was unresponsive and later sagged back. Louisville & Nashville lost 1¼. Reading, Western Maryland Certificates, American Ice, American Cotton Oil and Central Leather preferred 1. United States Leather preferred advanced 1¼ and International Harvester preferred 1⅛.

Bonds were firm.

The market worked gradually up to the high level for the Pacific stocks, Union Pacific crossing 210. Speculation was dull at times to the point of stagnation, the market showing the absence of many traders at the military parade.

Union Pacific, Southern Pacific and United States Steel monopolized the limit dealings and sold at their best prices for the day. The rise ran to 1¼ in Southern Pacific and Union Pacific. Cleveland, Cincinnati, Chicago & St. Louis and American Car preferred also advanced 1 and International Harvester preferred 2. Delaware & Hudson was 1¼ lower and Erie first preferred 1.

The market closed easy. The advance in Union Pacific was pushed a little further. United States Steel went a fraction higher than last night and Canadian Pacific rose 1. Selling was then renewed and prices receded, in some cases touching low levels for the day. Pennsylvania and Colorado Fuel fell 1, Northwestern 1¼ and Pullman 2¼.

Money on call rose to 4 per cent, the highest rate since early in 1908.

LIVESTOCK.

CHICAGO.

Chicago, Sept. 30.—Cattle—Receipts, estimated at 6,500; market 10c higher. Beeves, 4.10@8.50; Texas steers, 3.85@5.10; western steers, 4.00@6.75; stockers and feeders, 3.15@5.25; cows and heifers, 2.10@6.00; calves, 7.00@9.00.

WOOL.

ST. LOUIS.

St. Louis, Sept. 30.—Wool, firm. Western and territory mediums, 23@28, fine, medium, 22@24; fine, 13@19.

PRODUCE.

CHICAGO.

Chicago, Sept. 30.—Trading in the wheat pit early was dull and prices held fairly steady. The September delivery displayed relatively more strength than the deferred months owing to buying by shorts. That option opened unchanged to ⅛ higher at 1.06 to 1.06⅛, sold off to 1.05⅝ and then rallied to 1.06⅞. December opened a shade to ¼@⅜ lower, at 99⅝ to 1.00, and advanced to 1.00¼.

Corn prices declined still further on account of renewed profit-taking brought out by the favorable weather for the maturing of the new crop. December opened ¼ to ¾ lower at 58⅞ to 58¾ and sold off to 58.

Excited covering by shorts in September oats caused wild fluctuations in the price of that option at the start. First quotations ranged between 46 and 48, a gain of 1⅛ to 2⅛ compared with the previous close. The volume of trade, however, was small on account of a scarcity of offerings. The deferred months were inclined to drag on account of realizing sales. December opened a shade lower at 38⅛, sold at 38⅜ and then eased off to 38⅛.

Provisions were firm because of buying by shorts based on a falling off in hog packing compared with a year ago. Prices at the opening were 2½c lower to 15c higher.

During the final half hour, September made a sensational advance from around 1.07 to 1.20 on efforts of shorts to cover. The price jumped by leaps of a cent or more. Future deliveries were not affected to any extent by the bulge in the current month. December advanced to 1.00⅞. The close was at a gain of 14c for September, the final figures being at the top and at a loss of ⅛c for December, last quotations on which were at 99⅝@¾.

Corn—September dropped 3⅛c in the final half hour on profit-taking and December sold off from 58¾ to 57⅞. The close was weak, with September off 2⅝ at 61⅛ and December down ⅝@¾ at 57⅞.

Close—Wheat—Sept., 1.20; Dec., 98⅝@⅞; May, 1.02⅝@¾.

Corn—Sept., 61⅛; Oct., 60⅞; Dec., 57⅞@58⅛; May, 60¼.

Oats—Sept., 38; Dec., 38⅛@⅜; May, 41¼.

Pork—Sept., 25.20; Oct., 22.15; Jan., 18.25; May, 18.00.

Lard—Sept., 17.12½; Oct., 12.92½; Nov., 11.32; Jan., 10.67½; May, 10.45½.

Ribs—Sept., 11.75; Oct., 11.32; Jan. and May, 9.37½@9.60.

Rye—Cash, 70@73; Sept. and Dec., 70.

Barley—Cash, 49@66.

Timothy—Sept., 4.00; Oct., 3.90; March, 4.20.

Clover—Nothing doing.

BUTTER AND EGGS.

Chicago, Sept. 30.—Butter—Steady. Creameries, 26½@29; dairies, 22@26.

Eggs—Steady, at mark, cases included, 18; receipts, 6,329 cases; firsts, 22½; prime firsts, 24.

Cheese—Firm. Daisies, 15½@⅝; twins, 14½@15; young Americas, 15½@⅝; long horns, 15½.

SUGAR AND COFFEE.

New York, Sept. 30.—Sugar, raw, steady. Fair refining, 3.75; centrifugal, 96 test, 4.25; molasses sugar, 3.40.

Refined—Steady. Crushed, 5.85; powdered, 5.25; granulated, 5.15.

Coffee—Quiet. No. 7 Rio, 7¼; No. 4 Santos, 8½@9.

PROGRAM COMPLETE FOR THE ENGINEERS

American Institute of Mining Engineers to be Held Here Oct. 7, 8 and 9.

The following arrangements have been made covering the movement of members of the American Institute of Mining Engineers during their visit at Salt Lake City, Oct. 7 to 9:

Thursday, Oct. 7.—The party, occupying special equipment, is scheduled to arrive in Salt Lake City via the Denver & Rio Grande railroad, about 7 a. m., by which line they will be handled to Bingham, special, in train consisting of baggage car, diner, two Pullman sleepers and one stateroom observation car, leaving Salt Lake City at 8 a. m., returning to arrive Salt Lake City at 6 p. m. Shay engine with suitable equipment will be on hand at Bingham on arrival of special to take the party over the Copper Belt railroad and Bingham High line.

On the return trip from Bingham stops will be made at Bingham Junction and Murray, allowing the party sufficient time to visit the smelters at those points. Superintendent A. B. Apperson of the Denver & Rio Grande Railroad company will accompany the special train on the trip from Salt Lake and arrange the entire movement to meet the wishes of the party. Members desiring to study any of the special features at Bingham can do so, leaving the special train at that point and returning on the regular train arriving Salt Lake City at 5:45 p. m. On arrival at Salt Lake City from Bingham train will be immediately delivered to the San Pedro railroad and parked at their Union depot over night. On the evening of Thursday, Oct. 7, after returning from Bingham, the party will be entertained at an instrumental and vocal concert to be given in the tabernacle, beginning at 7:30 p. m.

Friday, Oct. 8.—From the Union depot the special train will be handled via the San Pedro railroad to the different smelters and concentrators in the vicinity of Garfield, leaving Salt Lake City at 8 a. m., returning to arrive at Salt Lake City at 3 p.m., and be parked at the Union depot. Arrangements have been made with the Denver & Rio Grande company to furnish a pilot to accompany the special train from Salt Lake City to Garfield smelters and concentrators and return.

Reception and Entertainment Committees—R. H. Bradford, J. M. Callow, Ellsworth Daggett, E. E. Nelson, R. S. Oliver, R. Forrester, C. C. Crimson, H. R. Ellis, Samuel Newhouse, Salt Lake City; D. C. Jackling, L. Hanchett, J. C. Dick, C. H. Doolittle, R. C. Gemmell, L. S. Cates, E. P. Jennings, M. M. Johnson, Samuel Newhouse, R. Forrester, G. Lavagnino, C. W. Saxman, B. F. Tibby, E. A. Wall, Thomas Weir, J. B. Risque, C. E. Allen, G. W. Metcalf, S. R. Woodbridge, Bingham; A. J. Bettles, L. Hanchett, F. G. Jenney, D. C. Jackling, Samuel Newhouse, R. Forrester, C. W. Whitley, P. B. Tracy, R. C. Gemmell, Garfield; C. W. Whitley, Geo. W. Heintz, P. E. Barbour, Bingham Junction and Murray; Geo. D. Blood, E. W. Durfee, F. W. Sherman, F. T. Williams, Park City; P. J. Donohue, J. H. McCrystal, I. N. Dunyon, J. C. McCrystal, G. W. Riter, Col. C. E. Loose, C. E. Allen, Tintic district. R. C. Gemmell, John Dern, C. W. Whitley, financial committee. L. Hanchett, R. C. Gemmell, Ellsworth Daggett, committee on arrangements.

Saturday, Oct. 9.—The Utah Society of Engineers will entertain the visiting members of the American Institute of Mining Engineers with sight-seeing trips in Salt Lake City, visit to the Utah state fair and side trips to canyons and Saltair beach. Special train equipment will be delivered by the San Pedro company in time for movement east via the Denver & Rio Grande railroad, leaving Salt Lake City at 8 p. m. The Utah Society of Engineers has been invited to appoint a committee to accompany the visiting members of the American
