FOR LOCAL HARMONY

Chairman Dosey Sending Out An Important Circular.

THE FOLLS THE PLACE TO "BOLT."

"Cinderella Tolly" of the "So-Called Independent Republicans" Severely Scored.

Chairman Dosey of the Republican State committee is sending out the following rather plain English circular to county and precinct chairmen of his party:

Dear Sir—Since the meeting of the Republican State central committee a movement has been commenced which, if tolerated, is calculated to destroy Republican supremacy in Utah.

At a mass meeting of so-called "Independent Republicans," held at Ogden City on September 3rd, 1896, a committee was appointed for the purpose of calling an Independent Republican convention. The committee has acted and issued a call in accordance with the resolution appointing them.

The ostensible reason for taking this step, which may result in complete Republican defeat, is the action of the Republican State central committee providing for two State conventions, one to nominate Republican presidential electors, the other a Republican convention for Congressman in Congress. It is claimed by these "Independents" that the committee overstepped its powers when it called two conventions, and that the call for the purposes for which each convention was to be held.

For the first time in American political history the claim is seriously made that the object for which a convention is to be held should not be stated in the call for the convention, but that it should be allowed to assemble, and though called under the authority of a party to carry out the purposes of that party, should have the right to decide for itself whether or not it would support the party or aid in carrying out its purposes. Further it is seriously contended that the regularly constituted committee of the party had not the right or authority to take the necessary action to preserve the rights of the party, and of the voters who desire to support the candidates of the party.

It is doubtful if there has been issued in any state of the union a call for a convention which does not clearly and specifically announce the purpose for which the convention is to be held, and it is absolutely necessary that these calls should be specific to enable the voters to select delegates who will give expression to their wills. Any other procedure would result in confusion and disorder and would be destructive of party discipline and organization.

The right of a party to preserve its existence, if it can, is undeniable, and the State committee has only taken such action as it was its bounden duty to take. Every Republican voter who desires to vote for Republican presidential electors is entitled to have the opportunity of doing, and the committee, as a Republican committee, was in duty bound to furnish that opportunity.

The calling of two conventions is severely criticised. The committee was governed by a desire to promote harmony. They were aware that the Republicans were seriously divided on the presidential question, and many an address their open hostility to the published sentiments. The committee determined to try to keep the quarrel over the propriety out of the convention by which congressional, legislative and county candidates were to be nominated, and thus bring together to support of these local candidates Republicans of every shade of opinion. This course they believed would result in the best of the positions to the polls every Republican could vote to be pleased.

The committee respectfully submits that the proper course for those to take who cannot support the candidates of their party is to exercise the right of "bolt" at the polls, and not to use their privileges in a way which gives support and comfort to the enemy. If men who claim to be Republicans join hands in Democratic jubilation meetings, and hold conferences with Democrats for the purpose of devising ways and means to aid in the election of Democrats, and can at the same time have the right to dictate and control the policy of a Republican committee and the destiny of the Republican party, then it must be conceded that party ranks and discipline are a farce and the party had better turn the control of its affairs over to its opponents.

The Republican state committee does not propose to adopt an extraordinary policy will receive any such support from the mass of the party. Honesty and fair dealing actuated such a course, it is believed.

The committee believes that the vast majority of the Republican voters of the State are sincerely desirous of being represented in the next Congress by one who will support protection and reciprocity as well as "free silver," and will not be down any attempt to divide the party locally.

The committee appeals to Republican voters to stand by it in its effort to secure harmonious local action, and it believes that every Republican who loves his party and supports its principles will oppose the attempt now being made to divide the party, and insure Democratic success.

The fruits of the long struggle for Republican supremacy in Utah should not be frittered away by unwise decisions.

The committee, therefore, calls upon the several county and precinct committees to stand by it in its efforts to secure Republican harmony, and to do all in their power to accomplish this result.

The great and material interests of the State, the development of which are vital to the happiness and prosperity of the people, demand that we should stand firmly by the Republican party which alone represents the principles of protection, reciprocity and liberal legislation for the benefit of the poor, and which promotes the people of Utah have always supported and recommended, and in connection with which the full restoration of silver as money of ultimate redemption can alone be successfully maintained.

United action by Republicans will mean the election of a Republican senator, congressman, legislative assembly and the control of the large county of the country.

The committee expects all Republicans to do their duty.

Respectfully,
JOHN E. DOSEY,
Chairman.

THE MURDER TRIAL.

Belief That It Will Be Given to the Jury Monday.

COLEMAN AND HIS WIFE TESTIFY.

Evidence Tends to Show That Swift Was in League with Stimson Against Coleman.

Special to the NEWS.

OGDEN, Sept. 12.—The fifth day of the trial of Messrs. Coleman, Warner and Wall for the shooting of Dick Shannon near Vernal last May commenced this morning. Interest increases in the trial daily, the court again being crowded. A strong defense is being made. It is expected the trial will conclude on Monday and that the jury will get the case that night.

Several witnesses took the stand yesterday afternoon to prove that Coleman always avoided, and that after the shooting the latter said, "Wall and Warner are not to blame; Coleman is to blame for it all; he was to bring five hundred dollars and you can see what he has done."

The direct examination of E. B. Coleman, the defendant, was commenced last night, but only a few preliminaries had been gone into when the court adjourned. Coleman today related the story to Bell. The evidence tends to show that Swift was in league with Milton against Coleman. The first two shots came from Milton's tent and were fired at Wall and Warner. It was about sunrise when the Coleman party arrived at the camp. They rode in on a trot but were not whooping. They were commanded to halt and immediately two shots were fired. Warner and Wall got off their horses and being in the trees started to shoot.

Both Milton and Stanton were outside the tent when they arrived, but entered it before they were shot. He and the other two defendants surrendered themselves to the sheriff. It was known when the direct exam as to closed, and as the witness was feeling weak, he being in failing health, cross-examination was postponed until afternoon.

Mrs. Coleman took the stand and testified to her husband's leaving for Uintah county. Mrs. Wall, another defendant, told a very entertaining story that given by C. I. man. He was ordered to do violence. He never expected any trouble and was surprised when he was commanded to halt and was fired upon. He believed that he life was in danger and that he had to protect himself. Coleman never fired a shot. He was some distance away from the shooting. Upon resuming after luncheon the cross-examination was commenced, and at 3 o'clock was still in progress.

UNTOLD MISERY FROM RHEUMATISM

C. B. King, Water Valley, Miss., tested by

Ayer's Sarsaparilla

"For five years I suffered untold misery from rheumatism. I take every known remedy, tested the best physicians, visited Hot Springs, Ark., three times, spending much time, various baths, and spent estate only temporary relief. My limb was wasted away so that I weighed only eighty (80) pounds; my left arm was hanging over side of stage; the muscles

being twisted up to knots. I was reduced to mere myself, except with assistance, I could only hobble about by using a cane. I tried Ayer's Sarsaparilla, and after using six bottles I could walk without a cane. The pains, times, were so acute, that I could scarcely stand only by using a cane. I used the medicine regularly, and now I am free from all symptoms of rheumatism. I feel as well as ever in my life, so subject, in particular, to the pain only temporary relief. After trying everything, and suffering the most excruciating pain, I began to take Ayer's Sarsaparilla. Inside of two months I was able to walk without a cane. In three months, my limb began to strengthen, and in the course of a year I was cured. My weight has increased to 195 pounds, and I am now able to do my full day's work as a railroad engineer."
