RESORTS DID BIG BUSINESS.

Salt Lakers Celebrated the Fourth By Seeking Pleasure on The Outside.

DAY A QUIET ONE IN TOWN.

Accidents Were Few and Far Between—Street Cars Were Taxed To the Utmost.

The Fourth of July passed off this year in Salt Lake with a comparative quietness which fairly broke the record. There was, of course, lots of noise, but in comparison with the din of previous years when there were no restrictions on the ebullitions of local youth, the noise faded into insignificance. There were five accidents from explosions, and two runaways. The casualty list is as follows:

Walter Griggs, 14 years of age, of 265 south Fifth West street, face cut from bursting powder can.

Joseph Wade, 13 years of age, of 112 north Fifth West street, shot in right hand with toy pistol.

Lawrence Fahy, aged 23, of 410 south Second West street, fingers badly lacerated from explosion of can of powder.

Mrs. Kenneth C. Woolley and mother, of 332 east Foudth South street, former burned on breast from explosion of giant fire cracker; latter, nervous shock.

HOW ACCIDENTS HAPPENED.

In the Griggs case, the boy had touched off the fuse attached to the can of powder, but a spark got into the can before he got away, and several stitches were required to sew up the gash cut in the boy's face. In the Fahy case, the explosion was premature, and the boy's hands were badly cut and his face was burned. The Mesdames Wolley were standing at Main and Second South streets when a Eureka miner named Lee Anderson threw a lighted cannon cracker in front of them. The explosion shocked both women into insensibility, and ruined the dress of one of them. Anderson was arrested. Physicians report a number of cases of burned fingers, but nothing serious; and in the two runaways no one was hurt, though the vehicles were badly demoralized.

DAMAGE BY FIRE.

The fire department had but two calls, but they were of no special consequence. One was the explosion of a fireworks' stand on east Second South, and the other was a grass fire in the rear of 237 south Eleventh East street. A fire, started by fireworks, it is supposed, burned over 150 acres of land at Twelfth South and Thirteenth East streets, doing $2,500 damage, and an effort is being made to locate the responsible parties. It is believed that the precautions taken by Chief Bywater of the fire department in clearing out alleys before the Fourth, prevented not a few incipient conflagrations.

RESORTS CROWDED.

During the morning the town was filled with people, the popping of the cracker was a constant quantity, and the incoming trains brought many rural visitors. But towards noon, people seemed to realize that there was really nothing going on in town, and then there was a frantic desire to flock to the resorts. So the trains and the street cars to these places were packed full of pleasure seekers all the afternoon and evening. From 8,000 to 10,000 people went to Lagoon, and packed the place so full that navigation was attended with difficulties. The employes of the road and the resort had a strenuous time of it in caring for the throng. The attendance at the Salt Palace was another record breaker, owing to free admission and free fireworks to children. The attendance during the afternoon and evening, was estimated at 6,000. Prizes were awarded for various contests. The races at Agricultural park also drew thousands of people who enjoyed the scene, and at Liberty park there was also a record breaking crowd a large part of which remained to enjoy the fireworks in the evening. Picnicing was the order of the day, and the absence of the fire cracker was noticed with gratification. Calder's park was profusely decorated with flags and bunting, and while the afternoon crowd was not very large, the attendance increased during the evening. Great crowds went out to Saltair where it is estimated that 10,000 people inhaled the inland sea breezes. A few people went up to Fort Douglas, but nothing was going up there beyond the national salute of 45 guns at noon, and retreat in the early evening.

STREET CARS TAXED.

Citizens who remained in town sent up rockets during the evening, and otherwise manifested their patriotic fervor. The street car service was "rushed to death," but responded with plenty of cars and plenty of service, and did so well, that the morning papers which seem to take a perennial delight in "jumping on" the management on every occasion and no occasion, had no complaint to make. It was the remark this morning, that the streets in the business section of the city looked much cleaner than is usual on the morning of the 5th of July, and it was also remarked that the proclamation of the mayor was quite effective in shutting off those usual incidents which so often result in casualty and disorder.

L. L. NUNN'S BOYS.

Provo Capitalist Hires a Special Train To Visit Sick Engineer.

Because one of his "boys" was dying back at Niagara Falls, L. L. Nunn, the Provo capitalist and Telluride Power plant man, at the cost of $500 hired a special train at Ogden Monday in an effort to overtake a missed Union Pacific train. Owing to some delay and a faulty engine the race was abandoned at Green River, Wyo., and Mr. Nunn goes east on the regular train yesterday afternoon.

To quote one of the engineers at the power plant in Provo canyon this morning, Mr. Nunn has possibly the largest "family" in the world, and all boys at that. For several years he has been picking up bright young fellows at different points throughout the country and educating them at his own expense. These young men he calls his boys. Word reached him yesterday that Mr. F. C. Hutton, one of his boys, who has made a splendid record in the electrical engineering world, was dying at Niagara, where he had been recently transferred from Provo canyon. Mr. Nunn lost no time in starting out on his long journey to the bedside of the sick man. "Would Mr. Nunn do that for any of his boys?" was asked the engineer. "You bet he would," was the response, "he is just that kind of a man."

TEA

How very different tea and coffee are; and yet how they go together!

Baseball Players and Foot Racers

Louis J. Kruger, ex-champion long distance foot racer of Germany and Holland, writes, Oct. 27th, 1901: "During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction. Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c, $1.00 bottle. Sold by Z. C. M. I. Drug Dept. B

SENATOR SMOOT IN IDAHO.

Delivered Oration at Nampa Yesterday—Will Return Home This Evening.

Senator Smoot of Utah was the orator of the day in a big Fourth of July celebration at Nampa, Idaho, yesterday. It will be remembered that the senator recently received an urgent invitation to speak there on Independence day and that a few bigots of the Dubois stripe entered their "solemn protest" against his appearance under such distinguishing circumstances. But the people knew who they wanted and had who they wanted. According to all reports they came from far and near and gave attentive ear to all he said.

Senator Smoot is expected home from Idaho this evening.

"THE LINE BEAUTIFUL."

Lehigh Valley Railroad. Delightful route to New York, Philadelphia and Atlantic Coast Resorts. Five through trains daily. Dining cars; a la carte. Connects at Buffalo and Niagara Falls with all trains for the West.

NO NEED FOR ALARM.

Vivian Mariger Surprised at Stir Over His Absence.

Vivian K. Mariger, whose absence from his home since Saturday has caused some concern on the part of his parents, returned yesterday. He was much surprised at the stir, and explained that he had sent a message home by a friend Saturday to explain that he had gone to one of the canyons, and was enjoying himself so much that he had decided to stay a day or two. The message had failed to reach its destination and this was the source of the alarm. Mr. Mariger is 23 years of age, and a son of L. C. Mariger, manager of the "Seeing Salt Lake" cars.

LEGAL BUSINESS IS INCREASING.

County Attorney Christensen Files Report of Work Done in His Office.

COVERS THE PAST SIX MONTHS.

During That Period 572 Cases Received Attention—Praise for Deputies.

The report of County Atty. Christensen for the first six months of his administration has been filed with the county commissioners and shows a large increase in the legal business of the county and also in the revenues of the office. There were 572 cases handled by County Atty. Christensen and his assistants, Mr. Hanson and Mr. Lyon, during the six months just passed, while during the first six months of last year there were only 132 cases handled in the office.

COMPARATIVE INCREASE.

Following is the report of the county attorney in full:

"Last week closed the first six months of our term and the reports from our department for each of those six months are before you. They speak for themselves. A comparison between the six months in 1904 shows the following:

"Cases commenced in 1905 (as per report on record in this office) as follows: January, 83; February, 47; March, 92; April, 125; May, 128, and June, 97. In the year 1904 (as per report on file): January, 8; February, 38; March, 25; April, 22; May, 18; June 20.

"The revenue from this department to the county treasurer for the term just passed, as compared with the corresponding months in 1904, has increased nearly 400 per cent. The fact is, that the business of Salt Lake county has very greatly increased.

"Mr. Hanson and Mr. Lyon have performed their part of the work without complaining and with commendable energy. It would be difficult to find two better men for the positions. Notwithstanding our efforts to keep the docket clear, the work has always crowded us until at times the help in the office has been entirely insufficient, especially of late.

JUVENILE COURT WORK.

"Another fact that contributes to the work of this office is the juvenile court. The Legislature made the county attorney counselor for this court and it has entailed upon me a great deal of work. 'Tis a pleasant labor, too, because the institution is in line with the advanced thought of the age, is doing and will continue to do, a great service to the state. When the vacation is over and the juvenile work in the county, outside of the city, is attended, as it should and will be, I will probably be compelled to have one man give his exclusive attention to this department. However, we will cross that bridge when we come to it.

"The relations between this office and the other branches of the executive department are most pleasant, especially between our immediate neighbors, the sheriff's office and the police department. Sheriff Emery and his deputies and Chief Lynch and his men have done most creditable work during the six months just passed, and no doubt their splendid services are being appreciated."

Croup.

is a violent inflammation of the mucous membrane of the wind pipe, which sometimes extends to the larynx and bronchial tubes, and is one of the most dangerous diseases of children. It almost always comes on in the night. Give frequent small doses of Ballard's Horehound Syrup and apply Ballard's Snow Liniment externally to the throat. 25c, 50c, $1.00. Sold by Z. C. M. I. Drug Dept. B

BICYCLE EXCURSION

H. D. Sabin, formerly a resident of this city, has returned from New York with his wife and daughter, and thinks of remaining here.

Miss Littlehale of Syracuse, N. Y., a cellist, and friend of Miss Mary Louise Anderson of this city, is at the Wilson, en route to Portland to attend the fair.

Landlord Fred Wey of the Wilson hotel, with Mrs. and Miss Wey, will leave this week for a trip to the Portland fair, British Columbia, San Francisco, and San Diego, being away for several weeks.

Pure Food, Good Health and Burnett's Vanilla are synonymous. No compromise ever questioned the purity of Burnett's.

WHERE POCAHONTAS IS BURIED

The church shown in the picture is not the one which served the parish of Gravesend, England, when Pocahontas visited that country, but the churchyard is the same, and somewhere within its limits the body of the gentle Virginia princess has sepulture. According to the generally accepted account,

Pocahontas was taken ill with smallpox on the day that she and her husband, Major Rolfe, had intended to sail for America. At her death she was buried in the rector's vault in the churchyard. The present church is the third to serve the parish, and the location of the original vault has been lost. It has been proposed to remove the body of the princess to her native Virginia, but it is doubtful if it could be found.

In South Australia it costs the railway companies $80,000 a year to keep their lines free from vegetation of various kinds.
