MINING, BUSINESS AND STOCKS.

MARKET NOT IN GOOD TONE

Such Was the Condition for Mining Shares Today.

DALY-JUDGE WAS STRONG.

That Stock Being an Exception—The Quotations and Sales of the Forenoon Session.

During this forenoon's session of the stock brokers' down on Second South street a total of 23,700 mining shares were sold, which brought $14,531.75. The market was not in first class tone today; the range of prices was generally lower with only a few exceptions noted. Daly-Judge was one of them and it appeared in good order, selling at $10.52½; Daly-West was a shade better than yesterday. Daly appeared in the pit weaker; the stock was started off at $4.95; it sold down to $4.89½, while at the close a bid of $4.85 was registered. Some expected to see Grand Central stronger, but that stock took to the toboggan at a lively rate. This condition was probably influenced by the ruling of Judge Marshall yesterday in the Federal court, which indicates that the litigation with the Mammonth company is yet far from being settled. Lower Mammoth and Martha Washington were both slumpish; California was not in any better shape, while New York fell from 26 to 24½ cents.

The industrial and bank stocks did not paricipate in any deals.

The quotations and sales of the forenoon were posted as follows:

FORENOON QUOTATIONS.

Engines Arrive at Milford.

Word received from the offices of the Majestic Copper company, at Milford, conveys the information that the two 24-horse power gasoline engines shipped to that company from this city last week had arrived at Milford and are being hauled out to the mines.

MACHINERY FOR BEAVER COUNTY

Gasoline Hoist for Copper Mountain Mine.

PLANT WAS SHIPPED TODAY

Everything New and Complete—The Equipment is to be Installed Without Delay.

The shareholders of the Copper Mountain Mining & Milling company, whose properties are located in the Copper belt of Beaver county, have good reasons to rejoice over a new turn in the affairs of that corporation. Several days ago Manager Ben T. Lloyd purchased of C. P. Mason, the local manager of Fairbanks, Morse & Co.'s establishment, a new 12-horse power gasoline hoisting engine which was delivered to the Oregon Short Line Railroad company today for shipment to the mine. On the same car was loaded the timbers for the new gallows frame, also lumber for the construction of a building in which the machinery will be enclosed, with enough additional to erect a commodious carpenter shop, also a blacksmith shop. Other equipment has been shipped, so that when it is all landed at the mine the Copper Mountain will have one of the finest plants in Beaver county. The engine may not be as powerful as some in use at the Majestic Copper company's properties, yet it will answer for all needs to a depth of more than 600 feet.

The shipments have been consigned to Solus switch, nine miles west of Milford, and Supt. Smith has been advised to have teams in readiness to haul the plant to the mine, where it will be installed without delay.

The gallows frame was designed in this city. It will be constructed of 10x10 Oregon fir timbers and will stand 20 feet high in the clear. It will be set upon a solid rock and concrete foundation and will not be excelled by any other in the district where it comes to strength and durability. The timbers were also cut according to design, so that it will be an easy matter to put them together, when they reach the scene of future usefulness.

Up to the present time all the hoisting at the Copper Mountain mine has been done by means of a Buffalo whim, but the developments have reached the stage that it is impracticable to continue it in service any longer, so it will be displaced to make room for the new and more powerful gasoline hoist.

Manager Lloyd has announced that it is the intention to inaugurate a most rigorous campaign at this property, which has long been considered to be one of the gilt edged propositions of Beaver county.

The mine has been explored, but little below the 200-foot level, but in an incline drift run off from that point, some fine bodies of high grade copper ore have been exposed. It is the intention to continue the shaft to a point at least 200-feet beneath the present lowest workings, by which time it is expected that some still higher grade sulphide copper ores will be encountered.

While the sinking is in progress, it is the intention to run various drifts and cross-cuts, so that by the time the 400-level is reached with shaft, sufficient ore will be available on the upper levels to insure regular contributions to the local markets.

There is every reason to believe that the Copper Mountain will, sooner or later, become one of the great copper producing mines of the state and it is the judgment of competent mining men that, whenever an equal amount of development is executed, it will compare favorably with the O. K. and Old Hickory of the Majestic group of mines in the south end of the district.

The Copper Mountain has a wonderful showing of surface croppings; in fact no part of the great copper belt displays more favorable indications. The veins have been opened up along the surface for the full length of the property and at no time in the sinking of the shaft or in running of the drifts, has barren ground been encountered. The veins are generally large and are found in the granite and in the contact between lime and granite.

It is surprising to some that this portion of the Beaver Lake district has not developed more rapidly, but there is a very good reason for it; incompetent management explains it all, and Copper Mountain was among the list burdened in that respect. But the drawbacks have been lifted and this year promises to be one of unprecedented activity in the northern part of Beaver Lake.

Manager Lloyd states that the Copper Mountain shaft will be timbered with sets of 8x8 stulls thoroughly lagged.

With the Copper Mountain leading with the initial first class hoisting plant in the north end of the camp, the Wasatch and other properties, which are to be operated extensively, are likely to follow suit during the present year.

On the car shipped to the south today was a sufficient quantity of paint with which all the buildings about the Copper Mountain mine will be beautified and preserved.

GRAND CENTRAL FIND.

An Ore Body Eighty Feet in Width Opened.

The report of a somewhat sensational strike in the Grand Central mine at Tintic was brought to Salt Lake yesterday afternoon by Lafayette Holbrook, one of the directors of that corporation. Mr. Holbrook hunted up Senator C. E. Loose, the manager, and last night the latter departed for camp to "take a look" at things.

For several weeks the ore has been followed along the strike of the vein, but not until Mr. Holbrook imparted the news to the manager did he realize the magnitude of the vein, which bears a width of about 80 feet.

The news came as a complete surprise to the public in general. Much of the ore is very rich, carrying values in gold, silver, copper and lead.

Mining Incorporation.

The Hibbe Gold & Copper Mining company, with a capital stock of $75,000, to operate in Hibbe county, California, was incorporated yesterday. The officers and incorporators are: N. H. Kaichner, president; James French, vice president; George Grutman, secretary and treasurer, all of Sheridan, Cal.

COMPETITION FOR THE TRUST

Smelter to be Built at Sand Point, Costing $250,000.

WORK HAS COMMENCED

On the Excavations—First Independent Plant to Relieve Situation In Northern Idaho.

Special Correspondence.

Butte, Mont. Feb. 23.—The Panhandle Smelting & Refining Co., composed principally of Minnesota men, plan the erection of a smelting plant at Said Point, Idaho. Plans have been drawn and it is the intention to have the works in operation by next September. A force of 15 men commenced the work of excavation several days ago and will be pushed to an early completion. It is proposed to install but one furnace of 300 tons daily capaciay, of a type similar to those in use in the Granby smelter. Gold, silver and copper ores will be reduced.

A waterfall 300 feet high, within a mile and a half from the smelter site, will furnish 1,000 horse power, with which to operate the plant. According to Supt. H. M. Williams, the company proposes to expend $250,000 in the construction of the smelter and make it one of the most modern in existence in the west. As the amount of ore to be handled increases the capacity of the plant will be enlarged.

Besides smelting the ore from the properties of its own, the Panhandle company has closed contracts for the reduction of the ores from over a dozen mines in Idaho and Montana.

The conditions at Sand Point are such as to peculiarly favor the establishment of a smelting plant, and with moderate success this proposed smelter bids fair to become a formidable rival of the American Smelting & Refining Co., in the smelting of northwest ores. The Queen Ann mine, owned by the Panhandle company, contains immense deposits of iron ore, averaging 18 per cent. Mixed with this ore is considerable lime spar, making it an almost ideal flux for the silver and lead ores, in which Idaho abounds. This property is located on Trestle creek within easy access of the smelter. Water transportation is so cheap that the company has purchased a number of boats and from the various mines of the northern districts ores can be shipped across Lake Pend O'Reille at a cost not to exceed 50 cents.

STRIKE IN THE SAPPHIRE.

W. G. Adamson Departed for Property Last Night.

After spending a vacation lasting over a period of a couple of weeks, W. G. Adamson departed for Nevada last evening to look after his mining interests in the Sagebrush state. Before leaving he received advices of an important strike of ore in the Sapphire mine, located in Humboldt county, in which he is extensively interested. The receipt of this information hurried him back to the diggings.

CASE OPENED AGAIN.

No Telling When Mammoth - Grand Central Suit Will End.

In the federal court yesterday afternoon the Mammoth Mining company, which has been mixed up in litigation for several years with the Grand Central Mining company over apex rights, scored an important point. Judge Marshall made an order allowing the Mammoth to amend its bill of complaint. This was done upon the affidavit of Samuel McIntyre, president of the company, in which it is alleged that the state court, in denying the right to amend, had been misled by counsel for the Grand Central. At the same time, and on the agreement of counsel, a restraining order was issued, the same to be in force until next Monday, when the matter will come up on its merits. Under the order allowing the Mammoth to amend its bill the plaintiff is permitted to incorporate in the bill an affirmation, in which it alleges that when Judge Marioneaux refused to allow the Mammoth to amend he was induced by the arguments of counsel for the Grand Central to believe that the judgment rendered by the jury and verified by the court would not be a bar to any further action.

The result of Judge Marshall's ruling is that the case will be reopened again and the probabilities are that the entire case will be retried. The litigation has already cost the companies involved enormous expense. In rendering his decision at the close of the last trial, Judge Marienoux practically conceeded that had the Mammoth company claimed in its pleadings that the apex to the vein in dispute was in the Bradley claim instead of the Mammoth, the Mammoth would have stood a better show in the case. As soon as the Grand Central reincorporated under the laws of another state, and the case was transformed to the federal court, the Mammoth company's attorneys endeavored to get the complaint amended and succeeded.

PRECIOUS STONE INDUSTRY.

Figures Prepared by Mr. Kunz of The Geological Survey.

In his preliminary report of the precious stone industry for 1902, Mr. G. F. Kunz of the United States geological survey says last year was remarkable for the industry in America in a number of particulars. He notes the finding of a new locality for sapphire in Montana—a new creek, in the bed of which sapphire is found associated with gold, as in the Rock Creek region at Yogo Gulch, and on the Missouri near Helena; the further development of a new mine of the blue sapphire in Fergus county; and the continued workings of the other two mines in the same state. Then comes the mining and development of the '" beryl localities in Mitchell county, N. C., and the development of the beryl locality at Grafton, N. H. An amethyst mine has been opened in South Carolina, and two new amethyst deposits have been found in the state of Virginia. The mining of rubellite in San Diego county, Cal., continues, and a new deposit near Banner in the same region has been found. The further development of chrysoprase in Tulare county, Cal., and the discovery of a new locality in Cuncombe county, N. C., are to be noted. A deposit of vesuvianite (idocrase) has been discovered in central California. The output of turquoise from eight or more western localities continues, and it has been discovered at two localities in Alabama, the most easterly region yet known for that gem.

Mr. Kunz states further that last year was the greatest on record for the importation of diamonds, pearls and other precious stones.

He places the production in the United States last year at $318,300, as compared with $289,050 in 1901 and $233,170 in 1900.

Sapphire $115,000, beryl $4,000, emerald $1,000, tourmaline $15,000, peridot $500, quartz $12,000, quartz, smoky, $2,000, rose quartz $200, amethyst $2,000, gold quartz $3,000, rutilated quartz $100, agate $1,000, moss agate $500, chrysoprase $10,000, ellicified wood $7,000, rhodolite $1,500, garnet (pyrope) $1,000, amazon stone $500, turquoise $130,000, chlorastrolite $4,000, mesolite $1,000, pyrite $3,000, anthracite ornaments $2,000, catlinite pipestone $2,000.

BLUE ACRE ORE.

Good Showing Reported at Depth of 120 Feet.

In the office of the BlueAcre Copper company is a sample of copper ore taken from the principal workings of that corporation in the Beaver copper belt. The ore will assay about 20 per cent in the bronze metal. It came from a depth of about 120 feet.

Work Suspended Temporarily.

Special Correspondence.

Provo, Feb. 25.—J. T. Williams 13 over from Tintic where he has had charge of the Groesbeck-Whitney-Transvaal mine for some time. Work on the proprety has been temporarily suspended, but Mr. Williams reports the mine in a very promising condition.

Progress Delayed Some.

The installation of the machinery at the Pioneer sampler at Sandy, has been delayed somewhat by the recent cold weather. Manager Jenson said this morning, however, that he thought the work would be completed soon after the 15 of March, when the plant will go into commission.

MINING CONCENTRATES.

J. W. Langley has gone to Chicago on mining business.

One car of Tonopah ores is at the samplers today.

A. L. Jacobs has returned from a business trip to California.

W. R. Wilcox, a well known Idaho mining man, is in the city.

The Horn Silver mine of Frisco has two cars of ore at the samplers today.

A. J. Orem expects to depart for the east this evening on mining business.

Manager George Dern of the Con. Mercur left for that big bonanza this morning.

The Carisa mine at Tintic is being equipped with a new four-drill compressor.

The directors of the Binham Con. are scheduled to meet in Boston on the 12th of next month.

Sam Levy of the Western Exploration company's staff, departed last night for Beaver county.

The ore and bullion settlements reported late yesterday afternoon were as follows: Ores, $43,190; base bullion, $87,000.

Capt. Duncan McVichie is in Tintic today making an inspection of the reported strike in the Grand Central mine.

Charles S. Vadner, who has been engaged in the persuit of mining in Nevada for some time, is in from the diggings.

The Taylor & Brunton sampler reported the arrival of 13 cars of ore today: One from Marysvale, six from Tintic, three from Bingham, one from Nevada and two from Frisco.

A carload of ore from the Wedge mine at Marysvale, which recently passed into the hands of the Franklin syndicate, was sold on today's market. The returns are said to be quite satisfactory.

The 34 horse power gasoline engine shipped recently to Modena for the use of the Manhattan Mining company at Pioche, has arrived at the former point, and will be conveyed to the mine within a few days.

T. D. Van Dervort, one of the best newspaper men in the state of Nevada, has retired from the management of the Tonopah Miner, to engage in the mining business. He has been succeeded by James Morris, of Reno.

Reports received from Mt. Pleasant infer that the Mt. Pleasant Oil & Gas company is meeting with success in the extraction of oil from the shale found upon that corporation's property. The result of an extraction made recently was an ounce of partially refined oil from a pound of shale.

PRICES OPENED UP SOME BETTER

New York, Feb .25.—Prices generally advanced a sharp fraction at the opening. The exceptions were among the Gould stocks and Metropolitan Street railway. There were heavy dealings in Copper, and Anaconda rose 2 in sympathy with Amalgamated. When the opening demonstration of strength failed to increase the demand for stocks, traders took profits and put out short lines of specialities. Liquidation of Metropolitan Street railway, which fell below 136, accentuated the selling at other points. The U. S. Leather stocks were sold freely, the preferred losing 1⅝. St. Louis and San Francisco lost a point net, but the movement otherwise was unimportant in the railroad. Heavy orders came into the market for Rock Island and carried it up over a point and the market made a general rally. The Gould group hung back. Rock Island preferred, St. Paul, D. & H., Sugar, National American and Tennessee coal gained 1 to 2. Leather preferred recovered its loss. The market eased off again before noon.

The bond market was easier at noon.

Renewed selling orders appeared in Metropolitan when it had recovered to near 137. Their appearance encouraged more free offerings by the bears and the stock broke to 135, a loss over night of 2½. Metropolitan securities fell 1¼ and the other tractions weakened decidedly. Reactions occurred elsewhere, reaching about a point in Amalgamated, Sugar, St. Paul, Rock Island and Wabash preferred.

MONEY AND BONDS.

Money on call steady at 3 per cent. Prime mercantile paper, 4¾@5¼ per cent.

Sterling exchange, easier with actual business in bankers' bills at 4.87½@4.87¾ for demand, and at 4.84¼@4.84½ for 60 days. Posted rates, 4.85@4.85½ and 4.88½; commercial bills, 4.83½@4.84.

Mexican dollars—38.

Government bonds steady. Refunding 2s registered, 107½; refunding 2s coupon, 107½; 3s registered, 107; 3s coupon, 107¾; new 4s registered, 134½; new 4s coupon, 135½; old 4s registered, 109¼; old 4s coupon, 109¼; 5s registered, 102⅝; 5s coupon, 102⅝.

Bar silver—48⅝.

SUGAR.

Sugar—Raw firm. Fair refining, 3¼; centrifugal, 96 test, 3¾; molasses sugar, 3. Refined unsettled. Crushed, 5.45; powdered, 4.85; granulated, 4.75.

Coffee—Quiet. No. 7 Rio, 5½.

LIVE STOCK.

CHICAGO.

Chicago, Feb. 25.—Cattle—Receipts, 21,000. Steady. Good to prime steers 5.25@5.75; poor to medium 3.25@4.75; stockers and feeders 2.35@4.60; cows 1.40@4.50; heifers 2.00@4.75; canners 1.40@2.60; bulls 2.25@4.25; calves 3.25@7.75; Texas fed steers 3.25@4.25.

Hos—Receipts, today, 36,000; tomorrow, 30,000; left over, 8,500. Mixed and butchers 6.80@7.10; good to choice heavy 7.10@7.30; rough heavy 6.80@7.05.

Sheep—Receipts, 22,000. Sheep steady, lambs lower. Good to choice wethers 5.00@5.75; fair to choice mixed 4.00@5.00; western sheep 4.75@5.75; native lambs 4.75@7.00; western lambs 4.75@7.00.

OMAHA.

South Omaha, Feb. 25.—Cattle—Receipts, 4,500. Market steady to easier. Native steers 3.75@5.25; cows and heifers 3.00@4.00; Canners 1.75@2.75; stockers and feeders 3.00@4.50; calves 3.00@6.00; bulls, stags, etc., 2.25@3.75.

Hogs—Receipts, 8,500. Market 5c lower. Heavy 6.80@6.95; mixed 6.75@6.80; light 6.70@6.75; pigs 6.00@6.70; bulk of sales 6.75@6.80.

Sheep—Receipts, 9,500. Market steady. Fed mutton yearlings 3.25@3.75; wethers 5.00@5.40; ewes 3.75@4.50; common and stockers 2.00@4.25; lambs 5.00@7.00.

KANSAS CITY.

Kansas City, Feb. 25.—Cattle—Receipts, 700, including 300 Texans. Steady to 10c lower. Native steers 3.50@5.25; Texas and Indian steers 3.10@4.20; Texas cows 2.00@3.00; native cows and heifers 1.50@4.25; stockers and feeders 3.00@4.90; bulls 2.25@3.90; calves 2.75@7.00.

Hogs—Receipts, 9,000. Market weak to 10c lower. Bulk of sales 6.85@7.00; heavy 6.85@7.05; packers 6.65@6.90; medium 6.80@6.95; mixed 6.40@6.80; yorkers 6.75@6.80; pigs 5.90@6.20.

Sheep—Receipts, 3,000. Market steady to lower. Muttons 3.50@6.00; lambs 3.60@6.75; range wethers 3.00@5.70; ewes 3.25@5.45.

PRODUCE.

CHICAGO.

Chicago, Feb. 25.—Close: Wheat—May, 77⅛@77¼; July, 73⅝; September, 71¾.

Corn—May, 46@46⅛; July, 44⅝.

Oats—May, 35½; July 32⅞.

Pork—May, 17.72½; July, 17.20.

Lard—February, 9.65; May, 9.65; July, 9.55.

Ribs—May, 9.72½@9.75; July, 9.57½.

Flax—Cash N. W., 1.17.

Rye—May, 51.

Barley—Cash, 44@56.

Timothy—Feb, 3.95.

Cash: Wheat—No. 2 red, 75@76; No. 3 red, 71@75; No. 2 hard winter, 71@73; No. 3 hard winter, 68@71; No. 1 northern sprin, 79@80; No. 2 sprin, 78@79; No. 3 sprin, 71@79.

Corn—No. 2, 44; No. 3, 42@42½.

Oats—No. 2, 34½; No. 3, 34.

NEW YORK.

New York, Feb. 25.—Wheat — Receipts, 30,400 bushels. Opened easier on cables, but rallied on the strength in corn and small northwest receipts. May, 80 13-16@81⅛; July, 78 1-16@78 3-16; Sept., 76⅝@76½.

SAN FRANCISCO.

San Francisco, Feb. 25.—Wheat—Steady; May, [illegible]½; Dec., 1.23⅞; spit, steady, 1.45@1.52½.

Barley—Steady; May, 1.15⅝; cash, 1.20.

LIVERPOOL.

Liverpool, Feb. 25.—Close—Wheat—March, 6s 3¾d; May, 6s 2d; July, 6s 1½d.

CHICAGO MAY WHEAT.

Chicago, Feb. 25.—Wheat opened easier on lower cables and generally bearish statistics and May was off ¼@⅜ at 76⅞@77. With light offerings the market became firmer, May selling up to 77¼.

WOOL.

ST. LOUIS.

St. Louis, Feb. 25.—Wool—Lower; territory and western mediums, 16@18; fine, 13@16½; coarse, 13@15½.

BUTTER AND EGGS.

New York, Feb. 25.—Butter — Receipts, 7,100 packages; firm. State dairy, 15@25; creamery, 28; June creamery, 18@27.

Eggs—Receipts, 18,000 packages; easier. State and Penna., 16½; western, uncandled, 16.

Coal Car Condition Very Bad.

Pittsburg, Feb. 25.—While the car situation at the mines in the Pittsburg district has not been good for several months, the conditions just at present are pronounced by coal operators the worst in history. Outside of the river mines and those along the Pittsburg and Lake Erie and the Monongahela division of the Pennsylvania railroad fully 70 per cent are idle. Of the 28 mines in the Pittsburg Coal company on the Panhandle road, 16 are shut down today and the others have but a fair supply of cars. Six of the largest mines on the Baltimore & Ohio out of 15 owned by the combination are idle. This is said to be a good showing compared with the conditions at the independent mines.

Burlington Route
FAMOUS MEN AND WOMEN
from all over the world travel on the Burlington's Chicago Special.
No matter who the man is, where he comes from, or whither he is bound, the probability is that some day, he will pass through the gates of the Union Depot in Denver and be directed to "the train on the sixth track."
Talk about famous trains, the queen of them all is the magnificent express which pulls out of Denver at 4:15 every afternoon, arriving at Omaha next morning and Chicago next evening.
St. Louis at 2.30 p. m. and and 10 p. m.
R. F. NESLEN, Gen. Agent,
79 W. Second South Street, Salt Lake City.
P. S.—Thro' sleepers for Chicago leaves Salt Lake City 3:15 p. m. daily.
