THE SEAL FISHERIES.

Prompt Action in the Matter Necessary for the Protection of Our Interests.

WORK ACCOMPLISHED BY THE U. S. SUPREME COURT.

The Treasury Circular in Regard to the One and One-half per Cent. Loan.—The Sejnorage Fund.

By Telegraph to the News.

WASHINGTON NOTES.

The Seal Fisheries Matter Considered by the Cabinet.

WASHINGTON, May 26.—The seal fisheries matter was considered at the cabinet meeting today at length, but no decision is reached. Secretary Foster and Assistant Secretary of State Adee will have a special conference with the President tomorrow, with the view of determining a plan of action. The President fully appreciates the necessity of prompt action in the matter and is doing all in his power to straight it so that there may be no further delay in the departure of the revenue cutters to Behring sea for the purpose of protecting the interests of the United States. If these vessels start now their will not reach the fisheries until the middle of June, or fifteen days after the closing season, and it is understood that forty-nine poaching vessels are now in the vicinity of Behring sea, threatening pursuit and slaughter of seals. The North American Commercial Company's steamer left San Francisco for the seal islands about a week ago, and will probably arrive there by the end of the month, when the employees of the company will at once proceed to take seals and continue to do so until the entire number allowed by law is secured, unless some order is received from the officials at Washington to the contrary.

THE UNITED STATES SUPREME COURT.

during the term ending tomorrow, exceeded the previous high record of cases disposed of at any one term, by setting 317 cases against 470, which has heretofore been the largest number passed upon at a single term. The number of cases presented was unusually large, but of them only fifteen which have been argued go over until next term for decision, and it is probable that opinions in these cases will be written for announcement soon after the court convenes.

THE TREASURY CIRCULAR

in regard to the 4½ per cent. loan will probably not be issued before next Monday. In it the department will give notice of its readiness to receive on the 1st of September, the $50,000,000 4½ per cent. bonds outstanding in all cases where the holders are not willing to extend them at an interest rate of 2 per cent.

SILVER CERTIFICATES.

Attorney General Miller has decided that the secretary of the treasury has no authority under the act of July 17, 1890, to issue the notes provided for by that act, except in payment of dollars government, but that the gain or seigniorage arising from the coinage of bullion under the act, when paid into the treasury, becomes part of the general cash and may be used like any other. The seigniorage fund now amounts to $1,000,000, and under this decision the issue of silver certificates may be increased to that extent. The secretary of the treasury is also considering a proposition to issue silver certificates against the $50,000,000 silver bullion now in the treasury.

Lieut. Grant Decorated.

CALCUTTA, May 26.—Lieut. Grant, of Mauser celebrity, who showed such skill and bravery in defending his entrenched position, has been decorated with the Victoria cross and promoted to the rank of major.

Wool Rates Not Satisfactory.

CHICAGO, May 26.—Wool rates are anything but a satisfactory shape. The tariff rate from Utah common points to Chicago is $1.75 per hundred pounds. Today the lines from Utah, in connection with Kansas City, Fort Scott, the Gulf of Memphis, the Southern roads from Memphis to Savannah, and the ocean routes from Savannah to Boston, announced a through rate of $1.87, or only 12 cents higher than to Chicago. Tomorrow the Lehigh Valley lake and rail line will make rates from Chicago to Boston of 42 cents; to New York, 35 cents, and to Philadelphia, 34 cents. So the rates from Utah via Chicago, both east and west, have not broken their agreement to maintain rates.

The Policy of Goschen Attacked.

LONDON, May 26.—On the second reading of the budget bill in the Commons today, Harcourt attacked the policy of Goschen, claiming that it was a subversion of the settled principles of English finance. The house was full, he said, that the government's free education plans would absorb one or millions pounds, but the house was not informed as to the method by which the money would be applied. Again, the financial system which the government had followed in borrowing from future revenues for naval expenditures was essentially erroneous and destructive of sound finance. He wanted to know the intention of the government in regard to the coinage of gold, and also what part the government took in connection with the Baring guarantee. In course of the latter he thought a dangerous precedent.

Goschen, in reply, said the government had promulgated for its financial policy in connection with naval expenditures in the course taken by the Boards in regard to army localization. Touching on the subject of the Baring guarantee, Goschen said no part of this guarantee was undertaken, directly or indirectly by the government. The coinage question would not involve an additional burden upon the treasury.

The Condemnation of Maxwell.

CHICAGO, May 26.—The confirmation of Maxwell as chief of the Revenue marine still hangs fire. The opposition to his appointment reached Commissioner Dr. Young while in San Francisco that the statements made against Maxwell were given to Secretary Foster. Dr. Young has made no investigation since his return to the coast, and Uncle Sam's dog will be let loose upon the matter. Maxwell has had powerful influence in Republican circles, and is undoubtedly the man for the place.

The Christian Missions at Nanking.

SHANGHAI, May 26.—The news of that Christian missions at Nanking were attacked and pillaged by native heathen. The inmates managed to escape. All the European women and children have left Nanking. The Methodist school was burned and looted. A British cruiser is ordered to Nanking to protect the British interests. Chinese troops were also dispatched to the scene.

Outside Anarchist Arrested.

SAN FRANCISCO, May 26.—Captain E. L. Kellogg, Fifth United States artillery, stationed at Presidio, and inventor of the Zalinski dynamite gun, has been ordered under arrest by General Graham, his commanding officer, for violating orders prohibiting officers or enlisted men from appearing upon the Presidio reservation without dress. A continuation of investigation may follow.

A Jewish Colony in New Jersey.

NEW YORK, May 26.—W. A. Schuman, general agent of the United Hebrew fund, said the trustees of the fund had decided upon purchasing a large tract of land at Harrison, N. J., whereon it is contemplated to build from 200 to 300 cottages for the use of recently arrived Jewish immigrants. Each house will have a small parcel of land attached to allow the raising of vegetables, etc., for the actual consumption of the occupants.

Sixteen Chinamen Killed.

SAN FRANCISCO, May 26.—Advices from China state that nineteen Chinamen were beheaded at Kowloon City, April 17th, by order of the authorities, nine of them were known to have participated in the Nomoa piracy tragedy.

The President and the Thayer-Boyd Controversy.

LINCOLN, Neb., May 26.—Governor Thayer today received a letter from President Harrison in relation to the case of Lieutenant Colonel Thayer, setting 317 cases against 470, which has heretofore been the largest number passed upon at a single term. The number of cases presented was unusually large, but of them only fifteen which have been argued go over until next term for decision, and it is probable that opinions in these cases will be written for announcement soon after the court convenes.

THE TREASURY CIRCULAR

Disgusted with the Federation.

PITTSBURG, May 26.—The river miners of Pittsburg district met today and after censuring the local officers, formally withdrew from the United Mine Workers' Association of the federation of labor. In taking this action the resolution stated that they would rather have stuck for eight hours and lost on May 1st, than to parties to the backdown of the federation of labor, and that the district will at once enter the Knights of Labor.

Joy Gould and Helena.

HELENA, Mont., May 26.—It is reported here that Jay Gould, during his coming visit here, will look into the matter of extending the Union Pacific system, so as to give a direct entrance into Helena. Last fall he was thus, by way of the new line and Utah Northern to Pocatello, the short line to Chicago and the Union Pacific proper to Omaha, the shortest line to Kansas City. Now the shortest line to Chicago would have the most direct line from Chicago to this point of the Northwest.

French Tariff Duties.

PARIS, May 26.—The Chamber today adopted tariff duties of eight francs per 100 kilograms on swine, ten francs per head on cows and oxen and fifteen and one-half francs per head on sheep. The protective proposals of the tariff committee were generally approved over the more moderate tariff of the government.

GOVERNOR PATTISON

Appoints a City Treasurer Instead of Bardsley, but the City Commissioners Elect Another.

Surprising Testimony Given by Former Banker Bardsley a Heavy Operator in Stocks.

By Telegraph to the News.

THE PHILADELPHIA TREASURER.

Richard Ollers Elected and the Governor's Appointment Ignored.

PHILADELPHIA, May 26.—The city commissioners met this morning and, ignoring the appointment by Governor Pattison of a successor to City Treasurer Bardsley, proceeded to elect Richard C. Ollers, business manager of the *Record*, to fill the office. The commissioners claim the power to fill the office of city treasurer has given rise to much controversy and will undoubtedly be left for the courts to decide.

Bardsley is under guard at his house, his condition still being too serious to warrant his removal. He is unable to obtain the $50,000 bail.

Before the city council committee investigating the affairs of City Treasurer Bardsley today, National Bank Examiner Dwee testified as to what he knew regarding the affairs of the Keystone bank.

The most surprising testimony given yet was that of George Hume, of the firm of Robert Glenn sons & Co., bankers and brokers. Hume said Bardsley, from January to September last, was a heavy operator of stocks through his firm. In that time they purchased for him between $200,000 and $300,000 worth of stock of various companies. It was purchased outright by Bardsley and never on margins. During December Bardsley closed all his holdings in these stocks. Hume was unable, without his books, to give the amount lost or gained by Bardsley in the transaction, but as far as he remembered, it was small either way. Hume's firm owed Bardsley $270,000 at the time of the Thayer-Boyd controversy. The President says simply that it is unnecessary to make an explanation, as he could not have acted with less indulgence in discussion of the governmental muddle while a guest of the people of Nebraska.

THE CHILIAN REBELS

Said to Receive Aid, Secretly, from the Mexican Authorities Because of Conflicts.

THE "ESMERALDA" HAS GOT THE THE COAL SHE WANTED.

Rumors of a Secret Treaty Between Mexico and Salvador Against Guatemala.

By Telegraph to the News.

MEXICO AND CHILE.

The Insurgents Believed to be Aided, Other Rumors.

NEW YORK, May 26.—A private letter received today from the City of Mexico, written May 15th, by a business man who has access to sources for getting correct information, says there is much reason to believe that the Mexican authorities are quietly giving aid to the Chilian insurgents. The "Esmeralda" was then able to get all the coal she wanted, and private advices from Honolulu report that coal material brought from San Francisco was transferred early this morning to a ship bearing the Chilian insurgent flag. The same letter confirms the news of a secret treaty between Mexico and Salvador against Guatemala.

CITY OF MEXICO, May 26.—[Associated Press.]—[Translation of a letter from Arequipa, which says the Chilian insurgent steamer "Esmeralda" on May that performed the Mexican flag, and the Mexican government, which refused the "Esmeralda's" flag, then making it an open question whether this was recognition by Mexico of the Chilian insurgents.] In an interview at Arequipa a few days ago, said it was not his intention to take coal by force or he would have done so before. He also said he was not in a hurry to leave the port, but was waiting further instructions.

The Kansas Farmers Will Satisfy.

TOPEKA, May 26.—The Farmers' Alliance of Kansas is making preparations for a grand enthusiasm of the Chautauqua enthusiasm work at the regular meeting of three thousand suballiances of the State, at which the platform will be considered, a vote taken and the report forwarded to headquarters and to the reform papers. The suballiances are charged to be very deliberate in action, and to give every proposition a thorough examination and discussion.

A Large Fire Falls.

ATLANTA, Ga., May 26.—The largest dry goods firm in the South, John Ryan & Sons of this city, was closed by the sheriff today. The liabilities are estimated at over $1,000,000, with assets probably approaching $600,000. The house is one of the oldest in the South. Stephen A. Ryan is sole proprietor. Two or three months ago there were rumors of his being financially embarrassed and will, it is said, be bought by Solinas & Co. of New York, which consult exists. Ryan was the salt and silverside man of the New York firm of Solinas & Co. Ryan seeks member of the Solinas firm and a personal creditor, in which Ryan owes of cost. Ryan claimed that the salt assault by Solinas was the cause leading to the failure, as it induced many to buy from Solinas.
