TELEGRAPHIC NEWS.

BERING SEA PATROL.

The Season's Work Not Regarded as Satisfactory.

NOTWITHSTANDING THE EXPENSE.

Great Britain Said to Be Shirking Its Duty in Protecting the Seals.

PORT TOWNSEND, Wash., Sept. 19.—Unless radical changes are made in the arrangement existing between Great Britain and the United States in the matter of protecting seals, it is more than likely that the Bering sea fleet next year will consist only of one or two revenue cutters. Ever since the joint patrol arrangement was entered into, Great Britain has shirked its duty and thrown about seven-eighths of the work on the American fleet. This year, as was the case last season, the work of patrolling the sea against poaching sealers was performed by nine American vessels, while not a Canadian man-of-war was taken after any one small poacher. The entire result of this year's work resulted in two British sealers having been seized by American cruisers and their release speedily followed the bearing of the case before the British admiral at Victoria, who ruled that the seizures were improper. The vessels referred to were the Victoria sealers Wanderer and Favorite, the latter having been released on February last. The inadequacy of the patrol can be easily understood when it is known that $100,000 were expended in maintaining a squadron of seven vessels as large if not larger caliber than those of preceding seasons. It is a notorious fact that ever since the joint mode was put into force has been established, the poachers entered upon the work with more than a half-hearted interest. Their ships spend a goodly part of time at Sitka and Unalaska, with their officers off on hunting and fishing expeditions. Their neglect has enlisted seven-tenths adverse comment, and it is now clear probable that next year our fleet will be made up of one or two revenue cutters, if private information received today is correct.

STABBED HIMSELF.

A Postmaster Who Prefers the Grave to the Penitentiary.

SPRINGFIELD, Mo., Sept. 19.—J. H. Johnson, ex-postmaster at Marshfield, Webster county, is in custody charged with the theft of $. The warrant was returned with the statement that little was done. When Deputy Johnson arrested the postmaster he asked to be allowed to change his clothes and on returning was greeted by a loud report of a pistol. This he gave to the deputy, saying that it was the last instrument and requested that he be allowed to take a nap for two hours, stating that at the end of that time he would be dead. The deputy granted the request but guarded him with a revolver. At the end of two hours the officer went to wake his prisoner whom he found dead. He had unknown a stiletto sache in his clothing and had stabbed himself.

Struck a Cripple.

YANKTON, S. D., Sept. 19.—Col. Hughes Lash, assistant to the department in charge of the U. S. weather bureau, who is here on a vacation and Edward O'Brien secretary of the Democratic state committee, created a sensation late night by indulging in a fist fight. O'Brien accused Lash of having prevented his (O'Brien's) appointment to the Yankton postmaster and words last started to reply, slapped him. Lash, who is a cripple, raised his cane to strike O'Brien, but friends interfered and separated them. It is stated that further trouble will follow.

SOLD TO ENGLISH CAPITALISTS.

Bonds of the Proposed Road from Honduras to the Gulf.

DALLAS, Tex., Sept. 19.—News is given out here by representatives of the Farmers' state alliance, which organization is very strong in Texas that $3,000,000 worth of bonds of the proposed railroad from the Honduras line to the Gulf have been sold to English capitalists and that negotiations are nearly closed for the sale of $5,000,000 worth more, etc. The line, as surveyed through Texas was contemplated to run east of Dallas, but the English capitalist insisted before agreeing to purchase the bonds that the road must be built through the larger cities of the states in which it runs, as it would not be good policy to antagonize those communities. The parties interested are preparing to have the Texas charter amended as suggested and the same policy will be pursued in other states.

THE NAVAL QUESTION.

Resolutions Transmitted by the Deep Waterways Convention.

TORONTO, Ont., Sept. 19.—The deep waterways convention resumed business today. Vice President Stanley occupied the chair, and President J. E. Thompson read a paper which was characterized by Mr. Foster as an able, practical, patriotic, liberal and concise, leaving no phase of the question unnoticed. The speaker referred to the two greatest men in the Western hemisphere, U. S. Horn, a Yankee in Canada, and Hill, Canadian in Yankeedom, and thanked their establishment of steamship lines as practical evidence that they would not type as the scheme to hem. O. A. Howland explained the terms and effect of the Washington treaty of 1871 in his remarks upon the treaty. Mr. Howland was approved, and speaking of war between the United States and Canada as simply raging the impossible, he urged the selection of an international court to settle every pacific question that can arise in the future. Other delegates made comments on Mr. Howland's address and the unanimous conclusion of the Washington treaty was especially noted. The convention decided to make a report and recommendation to an international court. Delegate Cooley, of Chicago, read a paper on canal navigation. Mr. Cooley spoke of one underlying theory of waterways in this continent, viz., that Chicago was 1,000 miles from the Gulf of Mexico and 1,200 from the Gulf of St. Lawrence, and the ultimate plan of continental waterways would be a right angle, with Chicago at the angle. He said Chicago was doing some work for Goshen of the size of the Suez, and Western cities would sooner have a ship canal 10 feet waterways than twenty feet, even if it involved some delay. The convention took a recess until 3 p. m.

Big Interest at Bisbee.

BOSTON, Sept. 19.—The wounded Indian spoke, sent from Bisbee, arrived this evening with a large number of passengers. Capitalists interested report. Another interest at Bisbee Bisbee have been poorly protected and that United States capitalists will take twenty million dollars as a result. Americans are leaving there as fast as they can secure passage on steamers, which is still difficult now. Property is being abandoned or sold for mere.

Debs and Hanahan.

HARRISBURG, Pa., Sept. 19.—The convention of the Brotherhood of Locomotive Firemen is still debating the proposition to raise funds for the relief of the Debs firemen who were out in the Lehigh Valley strike last year. The opponents of Vice Grand Master Hanahan are working hard to prevent his reelection, and it looks doubtful if they might succeed. Debs is doing all he can to prevent Hanahan's defeat.

SENATOR JONES'S FUTURE.

His Course Outlined in His Immediate Events.

SAN FRANCISCO, Sept. 19.—C. C. Powelsig, of Reno, Nev., is in the city and in an interview tonight stated that Senator John P. Jones had indicated his future course to his friends. He says that Jones has not joined the Populist party but has gone over to the Silver party of Nevada. In the meantime Jones will disregard the demands of the Republican state committee, that he resign at once, because that would give Governor Colcord an opportunity to appoint a Republican to Jones's successor. For that reason he will wait until the Nevada legislature meets and then resign, offering himself as a candidate to serve out his own unexpired term. Powelsig predicts the success of the entire Silver party ticket and says that Jones's reelection will be an endorsement of his course.

NEW YORK REPUBLICANS.

Levi P. Morton Unanimously Nominated for Governor.

SARATOGA, Sept. 19.—The convention reassembled at 2:30 p.m. Hon. Warner Miller was made permanent chairman.

Congressman S. E. Payne, chairman of the committee on resolutions, presented the platform, which extends greetings to the Republicans of Pennsylvania, Oregon, Rhode Island, Vermont and Maine, "for their prompt and just judgment of an incompetent Democratic administration."

The state Democratic administration is denounced for their extravagants.

General B. F. Tracey, in an extended speech, placed in nomination ex-Vice President Morton.

There was a storm of applause as General Tracey finished his speech, and several members were on their feet waiting for recognition to second the nomination and set for a vote by acclamation, but Colonel Baxter threaded his way up the tie and lost the platform. The Fassett men saw him and there was a tumult. Quiet was restored and Mr. Baxter began his speech, placing in nomination J. Sloat Fassett for governor. When the name of Fassett was reached there was the most remarkable scene of the session, reminding one faintly of the scene in the Republican national convention in Minneapolis when Blaine received the applause and Harrison the vote. The people stood on their feet and waved handkerchiefs and yelled themselves hoarse.

Silas V. Dutcher, of Kings county, nominated Stewart L. Woodford.

John S. Wise, of New York, formerly of Virginia, also seconded Morton's nomination.

E. A. Nash, of Cattaraugus, named General Butterfield.

Ex-Congressman Parker, of Lawrence county, presented the name of Judge Lewis W. Russell.

Cries for a vote followed and the chairman ordered the roll to be called by counties. Before Oneida was reached Morton had been nominated, and when the vote was finished the clerk announced: Morton, 502; Fassett, 69; Woodford, 40; Butterfield, 28; Russell, 20; Bliss, 45, and Arkell, 1. The nomination of Morton was made unanimous.

Porter Addresses the Soldiers.

PARIS, Sept. 19.—President Carnot-Perier today gave breakfast to the higher officials who are taking part in the military maneuvers at Maujouy and made a speech in his guests. He said:

"By my presence here I wish to give proof to the valiant general who directs the maneuvers and to all those who recorded him of my deep sympathy with the youth of France turned here alike for peace as war. Love of our country, respects for its laws and submission to authority are at once virtues of the soldiers and citizens. To you but reputation outside is honest. Your soldiers lost future and her flag to those who like you, cherish all that makes hearts generous and wills strong and presents soldiers for release and citizens for liberty."

The Hocking Valley Case.

COLUMBUS, O., Sept. 19.—Arguments in the Hocking Valley $2,000,000 case continued all day in the circuit court from point on the demurrer to the petition of the trust company. Judge Stevenson, Roller Rosser for argument in sustaining the demurrer. The contention of counsel for the state was that the Hocking Valley Railroad company was the only party which contains and that it had already exhausted its right of action.

Judge Burke created a sensation by making an attack upon the judges of the supreme court of New York, who he charged with having made misstatements in an opinion delivered in the case in the courts of that state.

Judge Crawford, of New York, opened the argument for the trust company.

The Plate on a Large Scale.

BOSTON, Sept. 19.—The Daily News says one of the wealthiest men was selected commissioners in England when he and several of his friends are so satisfied with the prospects of his plan making in the United States that they are forming a private company to carry out the making of the plate on a large scale.

THE ELY INVESTIGATION.

Charges Against the Professor Found "Absolutely False."

A Teacher Cannot be Dismissed Because His Views by Some May be Regarded as Visionary.

MADISON, Wis., Sept. 19.—The report of the Ely investigation committee was submitted to the full board of university regents this afternoon. It finds Dr. Ely had no connection with the printers' strike, did not advise or aid the strikers and was willing to delay, or make demand on proprietors that their office should be made union. It further finds there is no foundation for the charges that Dr. Ely believes in strikes or boycotts or any of the charges that were made by Superintendent Wells, that the charge, "a case of moral justification for attacks upon life and property is supported by the teaching or practice of the university of Wisconsin," is absolutely false. The committee say they are surprised to find that during the last eighteen months nearly 200 books and articles have been published by professors and students on various subjects. The committee state that they cannot for a moment think of recommending the dismissal of a teacher even if some of his opinions should be considered by regarded as visionary. They say they would feel themselves unworthy of the positions they hold if they did not believe in progress and in the spread of knowledge. They believe the great university of Wisconsin should ever encourage that continual and fearless sifting and winnowing of ways by which alone truth can be found.

In closing the report the committee says: "We regret that our appointment of such an investigation should have been considered necessary. . . . We now state that we entered on it with a sole desire to ascertain the truth in regard to the charges preferred. We are pleased to say that the result is a complete vindication of Dr. Ely and the institution and practices of our university."

Indian Wars a Thing of the Past.

WASHINGTON, Sept. 19.—General Schofield, assistant commissioner of Indian affairs, speaking of the charges of Indian states troops and the abandonment of several military posts in the West, says it will have no effect whatever upon the bullion.

"There is more danger," he said, "from anarchists in Chicago than from all the Indians in the West. Indian wars are a thing of the past. With the railroad facilities troops can be transported from the large posts more quickly than they can march from any of the little posts which have been abandoned.

"Current History."

To the reader who is too busy to spend the time required for sifting out the facts bearing on all the important questions of the day, *Current History* can be truly recommended. Every three months it comes from the press crowded with information on any topic one is likely to be reading or talking about. Each topic is the subject of a separate, carefully written article. The facts are not scattered here and there through the book, but are gathered together and presented in such a way as to show their relation to each another and to the broader movements of which they are exponents. The book should be preserved, as it is liable to be needed for reference at any time; and its back in the library will be of more permanent use, as it preserves for the reader accurate information on all events happening in his own day. The present number (3d quarter, 1894) deals with topics in all parts of the world, prominent among which are the tariff question in the United States and Canada, the Pullman boycott, the great coal and railroad strikes in the United States, Corea, the assassination of M. Carnot and the development of anarchism and socialism, the Corean imbroglio, Canadian affairs, political movements in Europe and the final settlement of the Hawaiian question. (Published by Harrison, Cox & Co., Buffalo, N. Y., $1.50 a year, single numbers 40 cents, sample copies, 25 cents; specimen pages sent on application.

Colonel H. G. Prout, in his article on English Railway Travel, which will appear in the October *Scribner*, shows that the English are far superior to American railways in point of safety. He says: "In six recent years the railroads of the United States killed sixteen times as many passengers as those of the United Kingdom in proportion to the number carried," but the journey of each passenger was longer in the United States.

A WELL-KNOWN WOMAN.

Mrs. Phebe J. Ellis, nee Phebe Clark, a Forty Years' Resident of Utah.

Makes a Public Statement of the Great Benefit Received From Drs. Shores & Shores New Treatment.

MRS. PHEBE J. ELLIS of Bountiful, whose maiden name was Phebe Clark, has lived in this forty years, and numbers friends and acquaintances in all sections. Mrs. Ellis is a grand-daughter of Patty Sessions and a niece of Iowa's famous Wet prophet, she is married to Samuel J. Ellis, whose throat so recently is still mentioned in the whole nation. In a recent interview, Mrs. Ellis said:

"I have had heart trouble since childhood; that is nearly forty years. Since I contracted catarrh, which ruined my general health and aggravated my other trouble to such an extent that when I went to Drs. Shores & Shores for relief I was certainly just as badly off as any one ever was. I did so poor the grave so much I could still live.

"Besides all the misery resulting from catarrh, I suffered and was continually alarmed with my heart trouble. I could stand no exercise or exertion. I was very weak, the least exertion but that the slightest was too much for life. For whole months at a time my head would pain to every and I would be like one dead.

"Drs. Shores & Shores have certainly done wonders for me. I was alarmed (to speak) weak and now I feel as if I had where been on life. My friends are so much how much better I look for the treatment they are on. The success performed a very skillful operation in removing a polypus from my nose without pain or bleeding.

"I am very grateful, indeed, to recommend Drs. Shores & Shores to my friends and the public."

If You Cannot Come to Salt Lake

Write for the most treatment. Consult the physicians by personal charge superintendents the mail department and by a system of home correspondence combined these out of the city quite as well as those who come to the office. Send for symptom blank. Medicines shipped carefully. Try this treatment.

Office hours—10 to 4 p.m. Sundays, 10 to 12. Sundays, 10 to 12 only.

Free dollar a month for all Catarrh Remedies. Medicines furnished free from any advertisement.

BACK VOLUMES

—OF THE—

DESERET WEEKLY.

The sixth volume of the DESERET WEEKLY in the present form is now bound. A limited number of copies of these six volumes can be obtained at the DESERET NEWS Office, Salt Lake City, in board form at $2.50 per volume. It is the best history of current events to be obtained, and by far the Gospel, and the time is not far distant when they will be eagerly sought after by students of history, students to be informed of the stirring events which have transpired within the past three years—the most interesting period of the history of the Latter-day Saints. Every person who can afford it should secure these volumes while they are to be had for future reference, and especially should they be obtained for every Sunday School, Improvement Association and Ward library. Apply early to make sure of getting them.

Highest Award

FOR

Supreme Excellence,

TO THE

PUTNAM

HOT FORGED AND HAMMER POINTED HORSE

NAILS.

At the World's Columbian Exposition at Chicago. A medal and diploma awarded. "Superior excellence in material, method in manufacture, and quality of finished product; machinery and assembling combined with holding power in clinch. It allows the use of very small nails."

There is absolutely no other exposition at which a horse shoe nail could be made a subject of such high honor. Nails, of course, are the smallest and most common of all articles of iron and steel. Whole tons are used in a single year. Hence the importance of a nail which shall hold the horse to its work, and the horse to the road. Hence there are hundreds of factories devoted to the manufacture of nails. Hence there are hundreds of thousands of people who have to use nails, and who have had to use them for years, who know just what they want in a horse shoe nail, and who will not be satisfied with anything else than the PUTNAM. Insist upon your horse shoer using the PUTNAM. Take no other nail. Insist upon your hardware dealer keeping the PUTNAM. Write to the manufacturers for their pamphlet, "Shoeing Horses," which will be sent free to any address.

PUTNAM NAIL CO.,
