EVENTS IN THE WEST.

A Record of Occurrences in Neighboring States and Territories.

FIFTEEN SAILORS SUE FOR DAMAGES.

Scene of the Ballots in California—Fatal Shooting at Butte—Death of a Veteran—Burlee Drowned.

Wednesday morning Edward Brown and Edward Burlee went over the falls of the Willamette, Oregon, in a row boat. They passed one of the boat locks in the first march of rock and saved the launch, while Burlee went over the dam with and was drowned.

Judge Theodore C. Sears, government at Kalama and Washington, died at Tacoma, Wash., July 2[illegible]. Mr. Sears was one of the Washington delegates to the Republican convention in 1888 and was prominently mentioned for the office for United States district from Washington.

The steamer Australia has arrived at San Francisco seven days from Honolulu and is in quarantine. Among her passengers are thirty soldiers afflicted with malarial fever. The majority of the sick men are recipients of pensions and have been detailed on various duty during their stay in the islands. The invalids are to be sent to Fort Hamilton, where they will be cared for. Major Chase of the Nineteenth infantry, sick of whom are ill, the victims contracted the condition of the victims of the malarial fever in the islands. There is considerable sickness among the troops at Honolulu and the prevailing fever is generally of a mild type.

From allusions of the steam whaling fleet in Behring Sea, it is learned that the United States cruiser Bear, Capt. Tuttle, is now in the Arctic ocean. They added that they expected to remain beyond whaling time so as to carry supplies to the Arctic ocean, near Point Barrow, and that when the vessel arrived and entered Port Clarence at the entrance of their term of service they asked to be discharged. They are told the Bear, Captain Millard, will only return to comply with their request, and that virtually prisoners on board the ship for eight months longer. Cases of cruelty are also made and injury are demanded.

Alaska's complete returns have not yet been received from all the counties of the territory, but it is now clear that the majority of Henry T. Gage (Republican) for governor will be nearly 300. His opponent on the state ticket are yet to be heard from, but it is possible a majority of Curry for secretary of state, the only ticket and may have been lost by Thompson, Republican, for congress. The majority of the expected vote of Porland (Republican) and Taylor (Democrat) are in the lead and on which side of the ticket is to be heard from are not expected to change the relative position of the opposing candidates. Mayor Pinkham is re-elected in Portland by about 1,000 majority, but with the exception of the county and city officers, judges and constables, the entire Republican ticket will be elected. The legislature will be Republican. The next session will have a large Republican majority in both houses, including the choice of a Republican United States senator.

Henry Adam's attack Wednesday morning while two judges were counting the vote in the Dublin Gulch district in Butte, two men with bulldogs ran over their force and stood at the door of the polling place. The bulldogs growled in their leads. The chief in charge of the ballots was given, they were five judges, two clerks, two tickets, a deputy sheriff and several private deputies, several there up and down. Dennis O'Leary, the deputy sheriff, jumped at one of the men who came bring. John Daly, who at the time, was shot in the stomach and Cleary's shoulder was shattered. Daly's man received at once, and at which time there have been no shooting both wounded men were sent to the hospital. Daly died on the 1st of the month. The prisoner where the shooting occurred is a strong Democratic district, and some think it was an attempt to steal the ballot box. The prisoners are in the county jail charged with assault and robbery, as some of the men in the place were known to have considerable money.

Girls' Pin Money.

There are very few schoolgirls, whose parents are in moderate circumstances, who would not gladly give every Saturday morning to regularly earn fifty cents or a dollar.

Yet each one of these fortunate individuals can earn, or earn, fully this amount by devoting half of her holiday time to selling her mother some household remedy, teaching and attending the cutting and sewing class, and buying drawers, and selling them to her friends. Nothing like Dr. Pierce's Favorite Prescription, unexcelled, unparalleled, and, taken all for little squeamish in perfect order.

After the season of corn-taking is over will come way, it is a question if it would course all of Saturday morning even. The hours of the process by which probably the fifty subscribers, and not only add in materially reducing household expenses, but will prove a pleasant and profitable occupation throughout the coming work.—Demorest's Magazine.

GHOST YARN FROM GREENLAND.

Relates to Skull Secured by Lieutenant Peary for Chicago.

The startling remarkable story of the supernatural is told by a member of Lieut. Peary's Arctic expedition. The circumstances were partly published by several scientific societies on the understanding that skulls and skeletons and botanical and geological specimens would be secured for their museums. Sufficient specimens were secured for the Chicago World's Fair exhibition and in future for a great toward the Peary expedition. Lieutenant Peary, the leader of the expedition, and H. Parland (Republican) and Taylor (Democrat) are in the lead and on which side of the ticket is to be heard from are not expected to change the relative position of the opposing candidates. Mayor Pinkham is re-elected in Portland by about 1,000 majority, but with the exception of the county and city officers, judges and constables, the entire Republican ticket will be elected. The legislature will be Republican. The next session will have a large Republican majority in both houses, including the choice of a Republican United States senator.

FRANCE STILL BROILING.

The New Ministry Cannot Quell the Excitement and the Crisis May Be a Long One.

M. HILBISON.

The Fall of His Ministry Was Due to a Belief That He Was in Favor of a Dreyfus Revision.

It would be hard to find in the history of any nation a man who has been the cause of so many sensational political and social imbroglio than Captain Alfred Dreyfus. Nothing has, however, quite equaled the dreadful scene and violent excitement which attended the fall of the Brisson ministry. When the portfolio was hand one of office with a majority of 12 votes for no other cause than that he was in favor of a revision of the Dreyfus case, the chamber was a scene of unknown tumult.

The course of events for the past two weeks has been stormy and no one can explain them or any even hypothesis, prominent politicians are said to have expressed the belief that the days of the Third French Republic are numbered, and that its downfall is not a thousand years off.

M. Dupuy, the present premier and successor of M. Brisson, has already been been premier. He has never expressed himself in the Dreyfus case, and not even his most intimate friends know his views upon the matter. He succeeded his colleagues on Tuesday, but Saturday, and, though in the prime of life, his career is overclouded in poor health. In fact, it was a surprise to many politicians when he accepted the premiership because his suffering at times is so intense.

M. Brisson succeeded M. Meline, who recently surprised the world by delivering a speech in which he said that the enemies of France would be useless to wait until the provinces forced before breaking the country.

A WOMAN EXTRADITED.

Mrs. Nance Gulliford of Bridgeport will be the first woman in eight years extradited to this country for murder. Telegraphic papers have been issued and "Old Nance" is being sent on the arrival of the papers in London. It is expected that she will be brought back to America within the next ten days. Her alleged crime is that of killing Thomas Gill, the victim of the Yellow Mill Pond tragedy. One peculiar feature of the case is that Nance Gulliford is an exact replica of Mrs. Nack, who is serving a nine years' sentence.

LITERARY NOTES.

Archibald R. Colquhoun, author of the recently published work on "China in Transformation," contributes to the North American Review for November an interesting article entitled "The Far Eastern Crisis," in which he deals with the aspirations of the Chinese empire at the hands of the diplomatic and military agents of European nations. Attention is drawn to the number of "National Public Health Legislation," by U. O. H. Wingate, M. D., secretary of the Wisconsin state board of health. "Is Our war Business?" Mr. Edward Gosse presents to the readers his impressions of that country after an absence of six and twenty years. Mr. Maurice of Jamaica, whose recent attempt at an uprising caused those again into notice, reviews the Jamaica for an article by Lady Blake. Prof. Maurice Francis Egan contributes a clever essay on "The Passion for Decoration." He recently were "in our country nothing richer for grotesque or effectual position

JESSE JAMES A CHIP OF THE OLD BLOCK.

Jesse James, who is now on trial in Kansas for the alleged robbery of an express train, is believing in his father's fate, and is proud of it. He recently had a picture taken standing by his father's grave, with a large bouquet of roses in his hand. In all of his photographs he is coupled with his father in some way, and it is said that his favorite photographs are those which call to mind the relationship of the outlaw Frank James, the man who fired the ticket taker in a St. Louis theater, and is one of the accomplices of that city.

Was It Consumption?

Doctors are often wrong.

The local doctor is an overworked individual. He hurries from a case of scarlatina to a case of diabetes and from that to the amputation of a leg. He must act quickly—sometimes hurriedly. It is not strange that he makes an occasional mistake. But mistakes are dangerous and should be avoided.

Mrs. G. E. Kerr, of Fort Dodge, Iowa, recently had some experience. She says:

"Last spring I was taken with severe pains in my chest, and weeks were I could hardly walk about the house. I thought I had consumption. Before I had taken the first bottle of Dr. Pierce's Golden Medical Discovery, I was very much better. I was five bottles of it and have not yet had any return of the trouble."

Was it consumption? Probably not.

The "Golden Medical Discovery" has been sold to cure consumption. It surely and infallibly cures all bronchial and throat troubles. It strengthens weak lungs and cures lingering coughs. It is healer of bleeding lungs. It cleanses and enriches the blood—regulates the heart action—puts the whole body in tune with nature.

Mrs. Kerr's trouble was probably bronchial. It was painful—dangerous if let run—dangerous in the hands of an incompetent doctor. Don't take a local doctor's word for everything. Write to Dr. Pierce. Tell him your symptoms. For over thirty years he has been chief consulting physician at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Consultation with him will cost you nothing.

GUN POWDER

Get him now about who cares what before, and has who always also now about the mark.

If We Could Sell

This suit for less than $7.50 we would mark it as at the start. It's giving the public full value for their money that has built this great clothing business, that's why we mark our goods as close as we can at the start, and sell them that way until they're gone. $7.50 suits, and not worth $10 here today and $7.50 tomorrow—See the point? These suits at $7.50 are the very best garments that can be put together for that money; the goods are all wool, the patterns are neat and the tailoring is as good as you could get in a made-to-measure suit at $25. They come round cut, square cut or double breasted. Other Suits from $6 to $25. Overcoats from $6 to $45.

JUST AS GOOD CLOTHES FOR YOUNG MEN AS BOYS.

ONE PRICE J. P. GARDNER, 170-176 MAIN ST.
