A SERIOUS ACCIDENT.

Yesterday morning, Wilford Sunset, the 16-year-old son of the late Sunset, of A. O. Sunset, started to Eureka on the D. G. W. excursion train. His brother Parley was on the train and got to personate Wilford and to go which he finally did, and as the train was pulling out, the real Wilford came and jumped from the train. Wilford was thrown under a car, and his head was badly cut through coming in contact with the car. The scalp was torn loose from a large portion of the back of the head, and the outer layer of the skull was fractured or cut, although the inner layer of the skull was serious. Doctor Robinson dressed the wound, and the young man is progressing nicely. His escape from fatal injuries is considered almost miraculous by those who saw the accident.

MOAB.

Another Victim of Paramonia.

Special Correspondence.

Moab, Grand Co., March 4.—After a very brief sickness the youngest daughter, a bright child of three and one-half years, of Mr. and Mrs. Nons Olsen, was on the 5th inst. called from this earth by the visitation of death. The little one appeared at first to be troubled with only a slight cold, but in spite of all the care and medical aid that was bestowed on the afflicted one, pneumonia set in, and the little one was taken from the fond parent home.

The garden sake, hoe, plow and harrow, etc., is commencing to play an important part in our settlement once again.

The definite word has yet been received from the sheriff and posse, who left here some time ago in pursuit of horse thieves.

RANDOLPH.

Excellent Work Done in the Graded Schools.

Special Correspondence.

Randolph, Rich Co., March 4.—Messrs. H. J. Ransom and Andrew Kennedy, our school trustees, visited the Randolph district school and found the three departments in an excellent condition, Principal E. W. Cook, Miss Lillie Simonds and Mrs. Rhoda B. Cook having charge of the grammar, intermediate and primary departments respectively. Mr. Cook graded our school last fall, and was the first board of trustees to adopt the graded schools in Rich county. We find that the State outline of study has been followed, and that great improvement has been made by all pupils in each department.

The relations between trustees and teachers and children, and the attendance, is exceptionally good this term, there being an average of nearly most of one hundred and seventy-five, and an average attendance of one hundred and sixty.

PAYSON.

Old Fort Converted into a New Irrigation Enterprise.

Special Correspondence.

Payson, March 6.—The art folks of Payson were yesterday entertained by local talent. An interesting program was carried out, consisting of a drama and musical selections, which were much appreciated. The opera house was well filled by the aged, the widows and orphans, and the wives of absent husbands.

Business here is quiet, yet an excellent showing was made in this direction the last week. New business houses have sprung into existence, while a spirit of enterprise is apparent.

The city of Payson has been making a new ditch around Spring Lake carrying the water by a new ditch from that water source. The lake was drained out and the old wooden flume replaced with an iron pipe and fittings, so that the water can be held back until needed for irrigation. In digging the ditch quite a lot of curios were taken. Efforts are also being made to store water up in the mountains to recreate the lake, and a canal has been laid to be brought under cultivation around Payson.

The school teachers of Payson visited Spanish Fork today to attend a teachers' institute.

Many orchardists here are digging up the old and worthless apple trees to make room for something more profitable.

The farmers of Payson met last night and organized a farmers' union. Quite a lengthy meeting was held and a partial organization was effected, but they adjourned to meet again on Monday night.

PRICE.

Interesting Carbon County News.

Special Correspondence.

Price, Carbon Co., March 10.—The weather the last week has been pleasant and spring-like. Garden planting has begun on a small scale. Everybody is wishing for storms to moisten the ground, which is very dry and dusty.

The program rendered by the young folks in sunbeam session Sunday evening was a very interesting feature.

Peter Francis from Brock, who was charged with selling whisky without license, was fined $20 and cost of court, by Justice Holdaway.

The people of Spanish Indians were seen on our streets a few days ago. Where they get their fire water, most people do not care to know.

CONTEMPTIBLE WORK.

Some freighters undertook to haul some timbers from the Gilsonite mines to Price, at the old rate of 50 per cwt. They got as far as the Cockscomb bridge, when the next morning they discovered the burrs gone from the wheels of their wagons, and consequently found themselves unable to proceed any further. The owners of the different outfits swear bitter vengeance.

It is very hard to stand idly by and see our friends suffer while waiting for the arrival of the doctor. At Albany (N. Y.) dairyman called at a drug store for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy for a sick child, then very sick with croup. Not finding the doctor in, he left word for him to come when he came in his return. He also bought a bottle of Chamberlain's Cough Remedy, which he hoped would give some relief until the doctor should arrive. In a few hours he returned, saying the doctor need not come, as the child was much better. The druggist, Mr. Otto Shook, says the family has recommended Chamberlain's Cough Remedy to their neighbors and friends until he has a constant demand for it from that part of the country.

We have saved many doctor bills since we began using Chamberlain's Cough Remedy in our home. We keep a bottle ready all the time and whenever any of my family or myself begin to catch cold we begin to use the Cough Remedy, and as a result we never have to send away for a doctor and incur a large doctor bill. For Chamberlain's Cough Remedy never fails to cure. It is certainly a medicine of great merit and worth.—D. S. MIAR, Druggist and General Merchant and Farmer, Mattie, Bedford county, Pa.

PARK VALLEY.

Home to the Aged Pioneers.

Special Correspondence.

Park Valley, Box Elder Co., March 10.—On Friday, the 3rd inst., at 10 o'clock a. m., the good people of Park Valley and Rosette, and Bishop A. Goodliffe of Rosette, assembled in accordance with previous arrangement, on Saturday evening, March 4, 1899, at the Park Valley school house, to celebrate the golden wedding of Pioneer D. E. Beckham, an old soldier of the "Mormon" battalion, and his amiable helpmate, who is also a pioneer, both beloved and respected with Martha being in charge of everything in the valley more were absent, the heavy-headed autumn in whose honor the occasion was arranged, was confined at home, being too ill to attend the festivities which considerably marred the otherwise very pleasant affair.

Grandma Meeham (as we love to call him) was assisted by numerous relatives and friends with a fine oak, upholstered easy rocker, and numerous other presents too numerous to mention, the occasion was made the recipient of a solid silver pocket, gold lined, dollar watch, and a gold headed cane.

"Martha Meeham, with our love," which was presented by her children, the oldest being over 40 years of age, over whom Sister Meeham had so ably presided for nearly twenty years, but owing to ill health and advanced age was honorably released as our last ward relief society.

A nice little program was ably rendered, including speeches and the reading of letters of a better nature, from absent relatives and friends. In his address Bishop Goodliffe compared the make-up of the Mormon battalion to Cromwell's Ironsides, which years of close association, enabled him to do truthfully. During the course of his remarks he said, he is sold to their home, their hearts and hopes were ever centered, and they were a young people all in their power to make the day of the of happiness for those who had built up their homes in the wilds and smoothed the pathways for the young men and maidens of Zion. Presents were given the oldest parents.

PROSPERITY OF THE PEOPLE.

If our friends who feel such concern for the "Mormon" people could pass up and down, have intercourse with them and see the fine farms, pleasant homes, the peaceful, prosperous and happy people, ninety-eight per cent of them in their own homes and farms, they would sure themselves have to shed a tear, or, and might with profit to their sympathy be applied nearer home.

ANIMALS BRING INFECTION.

Evidence that cattle are infectious is furnished by what we observe among our domestic animals. Cats seem to be especially susceptible. Probably they also bring home from their nocturnal rambles those mysterious catarrhal affections which so rapidly run through the house. It is one thing, "the cat is moving, we shall all have colds." Dogs, too, are liable to have some nasty ailment, and may show that curious situation around the lips (herpes labialis) which we see in men only too well as one of the most unpleasant accompaniments of a bad cold in the head. On the farm cattle are liable, when the shearing season comes round, the more who contagious at the shoots are frequently affected with an illness of a catarrhal nature, which rapidly takes hold of them and often affects some 10 per cent, and the loss occasions very serious and may even develop into a fatal pneumonia. To all appearance it is caught from the sheep.—Spectator.

Last week my wife was taken with a violent headache for two days, she took one of your CASCARETS and was well next morning. We need no other medicine."—Rev. Wm. MORE TROUBLE FOR SPAIN.

Insurgent Menace of Palawan Island Rise and Murder the Spanish Governor.

Old, Old Story of Onerous Taxes and Other Burdens Cause the Native to Rebel.

Tacoma, Wash., March 12.—Advices by the steamship Victoria from the Orient state that Spanish avarice and misrule have again stirred up a rebellion. The insurgents have, of Palawan Island, on the edge of the Philippine group, north of Borneo, murdered the Spanish governor of Palawan, sending at Port Royalist and killed six soldiers. His head was severed from his body and carried away by the rebels to incite a rebellion among the natives, who had previously joined Spain's side against the Tagalos. Spanish buildings were burned after which the rebellious Moros retreated to the hills of Palawan, taking with them the natural dates, men, women and children, all Spaniards, as prisoners.

The news came from Singapore, where it was carried from Labuan, capital of British North Borneo. It was brought there by the British steamship Labuan, whose master, Captain Pitet, learned the news at Labuan and other borders inhabited by the Spanish had caused the natives to rebellion. Captain Pitet, who is a British subject, said that Spanish misrule and oppression had caused the natives to rise, and that the Spanish had commenced to make trouble. Port Royalist, where the governor's office, several other Spanish buildings and about 200 native soldiers, who were loyal to Spain, were burned at Sandakan.

LION AND EAGLE AT MALTA.

American Officers Hobnobbed by British Soldiers—Stirring Speeches.

New York, March 12.—A dispatch to the Herald from Malta, says:

At the luncheon given at the Club by the British navy and army officers to the officers of the Texas and Brooklyn, extensively U. S. infantry, now en route to the Philippines, Chairman Admiral Sidney Lloyd proposed the health of President McKinley. He said that in the present crisis he had the universal sympathy of Great Britain in the Cuban mission. In reply United States Consul General said it was a unique occasion. Troops had been sent to Malta by the kind permission of the governor. This was a unique stroke, giving the officers of inter-national the greatest pleasure of the world.

He drank the health of the queen and the chairman toasted "Our guests." He said it was a red letter day in the history of Malta that the American cousins visit was unprecedented. He extended them a hearty welcome and invited them again to the task accomplished.

Colonel Smith, of the Twelfth, responded to the toast and said he acknowledge "Westward the Course of Empire takes its way," was now changed to "Eastward" under the Polar star. Some of two flags for one cause. When they give the word all meet as.

The greatest harmony was shown throughout. The attendance was the fullest established. Among the British officers were Major General Orde, Colonels Spence, Nugent and Bridgeman, Captains Mordaunt, Hamilton, Hallett, of the royal navy, Major Hugh Brown, Captains Haskell and Weatherspoon, of the Twelfth United States Infantry, Major Gittens, First Lieutenants Hoart and Durfee, of the Seventeenth regiment, and Lieutenant Higgins, of the transport Sheridan.

The hall was decorated with English and American flags. Toasts were given to Queen Victoria Grandchi, and Admiral Sir John Hopkins, had previously entertained the American officers at the palace and admiralty house respectively. The Americans and British troops fraternized cordially.

New York, March 12.—A dispatch to the Herald from Copenhagen says:

Prince Henri Dolthorpe, who is the guest of Prince and Princess Waldemar, is here in order to obtain sufficient capital to enable him to start a Danish-Abyssinian commercial syndicate, something like the French-Abyssinian syndicate already existing.

The Danish Red Cross ship Dania, footed, which, besides being a steamship, carries a complete hospital and commercial establishments in Siam, lately ordered four more ten thousand ton steamers for the lines between the Baltic and the far east.
