obtained for new inventions, or for improvements on old ones, for medical or other compounds, trade-marks and labels. Caveats, Assignments, Interferences, Applications for Infringements, and all cases arising under the Patent Laws, promptly attended to—inventions that have been rejected by the Patent Office may still, in most cases, be patented by us. Being opposite the U. S. Patent Department, and employed in Patent business exclusively, we can transact business more promptly, and with greater success than those who are remote from Washington.

INVENTORS would do well to bear in mind that we make examinations and advise as to patentability free of charge. All correspondence strictly confidential. Prices as low as those of responsible PATENT AGENTS can be. We refer to Hon. Postmaster General D. M. Key, Hon. J. H. Paine, The Comptroller of the National Bank, or, The Chief Clerk of the U. S. SAVE YOUR HAIR

TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S

KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled.

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

Wool Market.

BOSTON, 7.—The wool market is dull with no indications of immediate improvement, leading manufacturers bearing down prices evidently with no intention of stocking with sufficient wool to bridge over until the new clip again makes its appearance. A number of clean lots have been up in neighboring markets, and these sales quoted to influence prices here, but as yet they have failed to convince leading holders that the market is not already low enough. Holders are still free sellers at current rates, but sales can only be secured at concessions, which most holders are unwilling to make. Sales include Ohio and Pennsylvania fleeces, X, XX and XXX at at 34 @ 36½; Michigan, 31½ @ 33½; Wisconsin fleeces, 32 @ 34; western fleeces, 22 @ 31; combing and delaine, 36 @ 40; unwashed combing 25; unwashed and unmerchantable fleeces, 19 @ 26½; Territory, 17½ @ 24; eastern Oregon, 22; fall and spring Texas at 16½ @ 25; scoured at 50 @ 60; fab washed, 33 @ 35; superfine and X pulled at 27½ @ 30. In California wool the sales of the week include 287,000 lbs of fall and spring at 16 @ 25, of which more than one-half was good spring wool, at 25. The total sales of domestic for the week was aggregated at 1,067,700 lbs.

The Great Financial Problem—Specie Resumption.

NEW YORK, 7.—The question of the resumption of specie payments is attracting more attention as the time draws near for this important event in the history of the country. There is a growing fear in the public mind that resumption will not be accomplished as smoothly as we generally expected some time since. There are undoubtedly many contingencies that may arise tending to disturb monetary affairs in the operation of passing from a paper to a gold basis, and there is an increasing disposition among all classes to pursue a very conservative policy, tending the solution of this great financial problem. This is particularly the case with those thoroughly conversant with the finance in Great Britain, where the efforts of the Bank of England to resume were not successful until after financial distress and panic had ensued. The antagonistic position of the New York City banks on the silver question has produced an unfavorable impression on the minds of many who, previous to the action of the Clearing House supposed that resumption would be an easy matter.

The Treasury now has about $138,000,000 in gold for resumption, with legal tenders outstanding to amount of about $348,000,000. The amount of gold for resumption will be reduced by the payment of interest on bonds due on January 1st, by about $21,000,000. This would leave about $118,000,000 in gold for resumption. Should the amount current in greenbacks be reduced this amount, it would, of course, have an unfavorable effect on business transactions.

The money market during the week was active at intervals, with an advance in rates 3 @ 4 per cent. Speculation in gold is active, and the price declined to 100½, closing at that. Government bonds were fair active early in the week, but closed depressed. Stocks, after some activity, closed depressed.

The Roxantic County Riot.

CHICAGO, 7.—The *Tribune's* Louisville, staff correspondent, just returned from a 150 mile ride to Jackson, Breathitt County, reports a terrible state of affairs prevailing there. Every person is armed, with the probability of a collision any moment. Matters are worse even than during the war when the bushwhackers and home guard filled the hearts of the strongest with terror and dismay.

The Presidential Election.

The *Tribune's* Washington special says: Senator Edmunds will press his bill, regulating the Presidential election, to an early passage. It deprives the House of the power to elect a President, and to restrict that power almost entirely to the States. It is believed that Thurman will oppose it strenuously in the House, as once before, years ago.

The Yellow Fever Relief Committee.

MEMPHIS, 7.—The citizens relief committee wound up their affairs to-day, distributed the balance on hand, $7,253, pro rate among the four Orphan Asylums of this city. By order of quartermaster General Meigs, upon the advice of the surgeon general, 1,560 tents, shipped to Memphis during the yellow fever epidemic will be burned.

The Army Reorganization Committee.

WASHINGTON, 7.—Referring to a previous dispatch to-night, concerning the joint congressional committee on the army re-organization, the following additional statements can be made on very reliable authority: The majority of the committee, some time ago, agreed to recommend, as the main features of their report, that the total number of rank and file of the army be limited to 22,000 men, and that a system of interchange of ability of line and staff officers be substituted for the present system of regular staff departments, excepting the engineer department. These features were agreed to, although with some hesitation by Senator Burnside and representatives White and Strait, three of the four republican members of the joint committee. Senator Plumb, the remaining republican member, did not attend any of the meetings until yesterday. Meanwhile, many other republican senators and representatives, receiving private information of these unexpected concessions made by Burnside, White and Strait to the demands of their democratic colleagues on the committee, had begun to protest very strongly, and reinforced this pressure with the emphatic declaration that no such extremely radical measure should become law if strenuous opposition could prevent it. Senator Plumb, at the meeting, to-day, took a similar ground, and Messrs. Burnside, White and Strait are understood to have expressed an intention to withdraw their previous assent to several important provisions of the above indicated sweeping character. Thus the whole subject was reopened, and an inharmonious session ensued.

The result cannot at present be ascertain, but it seems to be certain that no final agreement was reached to-day, and that nothing positive will be known concerning the forthcoming bill until it is presented to Congress. There is said to be considerable probability, however, that the majority of the committee will agree to a compromise on a total of 22,000 or 23,000 men, for the rank and file of the army, and that material modifications will be made in the provisions concerning staff corps, so as to provide, among other things, that no vacancies shall be created in them except by death or by court-martial convictions of military offences.

It should be understood, nevertheless, that even with such modifications the recommendation of the joint committee will not, by any means, necessarily ensure the enactment of their bill. It is now believed, by the most well informed persons in Washington, that the majority of the House of Representatives, including Texas, Colorado, Nebraska and the Pacific members, will not consent to any reduction of the army below the present maximum of 25,000 men, and in view of the votes cast by an overwhelming majority of both the democratic and republican Senators, last session, there is no apparent reason to expect that an army bill can pass the conservative Senate this winter which proposes either to reduce the rank and file or to make sweeping innovations on the present staff organization that has not only proved its military efficiency during so many years of trial, but has also, in many similar emergencies, demonstrated its possession of personal and social influence to obtain in the upper branch of Congress, just consideration.

Senator Sargent Improving.

Sargent is much better and hopes to be able to leave here next week for a trip to the Bahama Islands, where he will remain until after the holiday recess.

O'Leary the Pedestrian.

PHILADELPHIA, 7.—O'Leary had 45 minutes to spare in his match to walk 400 miles in 124 hours.

FOREIGN.

GREAT BRITAIN.

A Denial.

LONDON, 7.—A telegram from the captain of the British troop ship *Orontes*, dated Malta, says there is no truth in the report cabled from Halifax, that a boat's crew from that ship has been lost in attempting to rescue a man who had fallen overboard.

TURKEY.

The New Grand Vizier.

CONSTANTINOPLE, 7.—The new Grand Vizier, Kheireddin Pasha, has drafted a law proclaiming ministerial responsibility. Kheireddin, in replying to the congratulations of the Armenian Patriarch, declared that to all Ottoman subjects equal justice would be administered impartially, and all government post, would be filled without reference to religion. In conclusion, he said, "We will pray to the same God; we in mosques, you in churches."

An American Arrested.

An American has been arrested on the charge of conspiring against the Sultan. The American legation immediately demanded his release. The charges are serious; and it is believed the representations of the legation will prove fruitless.
