Notes.

A small appeal case, Malcolm S. Hughes vs J. G. Malcolm, to collect a book account of $57.50 has been occupying the time in the First district court.

Marriage licenses have been issued to George Peet and Margaret Miller, of American Fork, and William Sandell and Mont Mahlmann, of Springville.

Henry Watterson, editor of the Louisville Courier Journal, is booked to lecture at the Provo Opera House on May 12.

Joseph Bates, charged with stealing a pony, was acquitted in Justice Weigwood's court.

Postmaster Roberts has received his papers and last night took charge of the postoffice. W. J. Bowman is deputy postmaster.

Deputy Marshal Berry has gone to Ephraim, it is said to arrest Maggie Erickson, city marshal of that place, on the charge of bribulation.

A case of woodwork, and the tools used for manufacture, was yesterday shipped from the B. Y. Academy to San Francisco, for exhibit at the Mid-winter Fair. The work consists of a wreath, a carved box, brackets, frames, toy tables, etc., and is intended to show what can be done by pupils of the district schools with a few pieces of steel and and wood for material and the following tools: Pocket knife, plyers, tack hammer, three-cornered file and a sheet of sandpaper. With these the pupil is taught to manufacture other tools for himself, such as a small plane, scroll saw, etc., and such work as above enumerated is turned out. The work at the B. Y. Academy was done by the students of the school under the direction of Pr. Lo ar Townshend, who has charge of the mechanical art department.

CARBON COUNTY REPUBLICANS.

Their Convention will be Held at Price on April 24th.

E. W. McIntyre, chairman, and A. E. Gibson, secretary, of the Republican central committee of Carbon county, have issued a call for a convention to be held at Price on the 24th inst., on Tuesday, at 2 o'clock p. m. for the purpose of nominating candidates for the following county officers: Clerk, recorder, treasurer, prosecuting attorney, assessor, collector, sheriff, surveyor, coroner, three selectmen, and for the election of a county central committee for the ensuing year.

The convention will consist of 21 delegates. The apportionment between the several precincts will be one delegate for every ten votes cast or a fraction thereof, for Hon. Orange Seely at the last election. The several precincts are entitled to the following number of delegates: Castle Gate, 4; Minnie Maud, 1; Price, 2; Spring Glen, 2; Scofield, 4; Winter Quarters, 2; Wellington, 2.

The several precincts will hold primaries for the election of delegates on Saturday evening, April 21st, at 8 o'clock.

FIRST ANNUAL CONFERENCE

Of the California Branch of the Church of Jesus Christ of Latter-day Saints.

The first annual conference of the California mission was held in the Latter-day Saints meeting house, Mission street, San Francisco, on Sunday, April 8th at 10:30 a.m. and 2 and 7:30 p.m. At the forenoon meeting there were on the stand Elder Hart H. Mower, presiding; Bishop George Romney of Salt Lake, and Elders L. Hawkins, Salt Lake; J. T. Clark, Farmington; William Wright, Ogden; E. Bennett and A. L. Nelson of the California mission; and other Mormons, president of the San Francisco branch. The audience, consisting of members of the San Francisco branch and sisters from Utah, and many strangers, nearly filled the hall.

After the usual opening exercises Elder K. G. Maeser and Bishop Romney addressed the congregation. One of the strangers present arose and indulged in cursing language against the work of God. Being requested by the president of the meeting to either keep quiet or leave the room, he refused, offering violent imprecations.

The meetings in the afternoon and evening were attended by the usual congregations the Saints numbering in San Francisco, Joseph Morris, Clark, Wright, Stevenson, Bennett and Keller took their best hundles in the mission of Joseph Smith, the Book of Mormon and the Latter-day work. The general authorities of the Church were presented and sustained, and the sacrament administered. The conference was a short summary of the statistical and financial condition of the San Francisco branch, as complete returns from the other parts of the mission having not yet been made.

We have been favored from time to time of late by visits from Apostles Teasdale and Lyman, and Elder B. H. Roberts, as well as other brethren from Zion, and hope to be blessed in a similar manner in the future, as by these visits the Saints are encouraged, strengthened in their faith, and instructed in the things pertaining to their eternal welfare. The interest thus awakened begins to attract the attention of many honest in heart, so that our meetings are constantly increasing in attendance. Our Sunday school meets every Sunday at 10:30 a.m. and we are endeavoring to make it near the pattern set us by our elder institutions in Zion as circumstances will permit. Even a relief society is in process of organization.

The efforts of the president of the mission, Brother K. G. Maeser to move the branch of the Church a number of selected missionary labors in California are ably and faithfully seconded by his fellow missionaries, Elders J. D. Cummings, E. Bennett, H. B. Williams, Geo. H. Mysson and S. A. Kellar, and the president of the branch, Brother Hortenser.

California is not a very populous field for missionaries. Religion here seems to consist mainly in contentions between the various religious denominations who are struggling and scrambling for power and influence, while the rest of the people appear to know only three things worth living for, which are, money, pleasure and politics, each of these being subservient to the other two. The labors of the servants of God are thus like a "voice in the wilderness."

W. H. PRIDGEN,
Clerk of Conference.

AUSTRALIAN NOTES.

CAVE DISCOVERIES IN NEW SOUTH WALES.—Two fresh caves, Bisel will bewaitin stalactites, have been discovered at Jenolan. New chambers have also been found in the Abercrombie caves. The first of these is said to be 120 feet in length, and from 80 to 10 feet in height. Another chamber was found but not followed, on account of insufficiency of rope, but, to try the air, a lighted candle was lowered 35 feet, which burnt clearly.

POPULATION OF AUSTRALASIA.—New South Wales has the largest population of any of the Australasian colonies, the estimated figure at the end of 1893 being: New South Wales, 1,225,876; Victoria, 1,174,000; Queensland, 482,380; South Australia, 345,875; Western Australia, 65,064; Tasmania, 154,424; New Zealand, 672,285; total, 4,169,817. From these figures it will be seen that considerably more than one-fourth of the whole Australasian population is found in New South Wales.

AN AUSTRALIAN SAVINGS BANK.—The annual report of the Savings Bank of New South Wales shows that at the end of 1893 the number of depositors was 75,037, having at their credit a sum of £3,302,403. The amount to the credit of the reserve fund was £237,102. The number of depositors of £20 and under was 55,197, or a little more than 73 per cent. Deposits of £100 or £20 and upwards 5,840, with £368,232. Of between £50 and £100, there were 7,311 depositors, having £548,595. Thirty depositors had over £500 for £1,000, and there were 4 depositors owing £500 and £300, with £1,200. The aggregate of the £300 depositors was, having £296,455.

OPAL MINING IN NEW SOUTH WALES.—Considerable excitement is now on foot at White Cliffs, on the River Darling, about 37 miles from Wilcannia, on the telegraph line. Two nuggets of opal in the rough have of late been found, and the report was widely spread within the last few years, but since its minerals have been found in the district, there seems to be a prejudice in the minds, based on experience, against the opals. A few years ago a rush to the spot took place, and there are a couple of hotels, as well as several stores. A police camp and a racing club have been established, together with a post office. The opal is found in thin veins in sandstone, the various hues being varied phosphorescent on the infinite opalon, the silicate in solution holding being supplied with lime and soda, and gelatine half the quantity of the gum. Some £17,000 worth of opal was sold from the field during last year.

A Great Number.

A great Grant number, scrips of General Grant's birthday is now issued by the editors of McClure's Magazine for May. With an exquisite series of portraits of Grant, covering the whole period of his manhood from the cadet days at West Point to his closing days at Mount Gallegos, will be presented a series of stories and reminiscences from Sir Wm. Vol. Francis D. Grant, and his friends and fellow-soldiers, General Horace Porter, General O. O. Howard and Colonel Ely S. Parker. An autograph letter by General Grant's father, written in 1855, gives new glimpses into the general's career and character, will appear in the single.

GETTING OVER A DIFFICULTY

Is sometimes a puzzling problem. You may have a difficulty in getting a hat to fit you, at a price within your means.

You may be as cold as a public building that didn't cost more than the original appropriation and your resources as slender as a rail, we can meet you all the same.

You will be sure of comfort and sure of something else—the man who is a millionaire won't have on a more stylish Hat than you. We have every shape in Soft and Stiff, and at all prices. Do you doubt? Well, show your figure and we will do the rest.

ONE PRICE.

RACING MEN

Think twice before deciding to ride another wheel than the "Yellow Fellow." A man here wrote to his college mate in Ohio, who is now in the Bicycle business, selling a wheel well known here but not the "Stearns," as to what wheel he should get for his best mount. His friend replied, saying, "Get the 'Stearns,' it is unquestionably the speediest and stanchest Bicycle made today, and if there is a 'Stearns' on the track and you are not on it you won't be in it." No man can drive an "ox wagon" to the front, and what will it matter to you, my boy, whether you have the good will or the ill will of the interested Bicycle agent? What solace will you find in the spacious premises of a man with a wheel to sell, the premises of the man who got his "bread and butter" by cracking up this wheel, when you rig the other fellow on, paradox though it be, the wheel that "leaves others behind" is coming, in the races next May? Think over it and you will use the wheel to win, so at least you will have a fair chance to, that holds today fourteen (14) World's records—the Stearns "Yellow Fellow."

"GENDRON"

Cycles, suitable for medium weight and heavy riders, the best wheel that can be made by one of the very highest reputation in the mechanical world, aided by one of the most perfectly equipped plants for the making of Cycles in the world. Only best stock to sell at fair prices. Then the price will be $100.00 for the "GENDRONS," then $100.00 for the "GENDRONS," then $100.00 for the year.
