MINING, BUSINESS AND STOCKS.

MAY DAY MUCH STRONGER TODAY

Yankee Con. Was Traded in at Better Than $1 per Share.

STAR CON. A LITTLE FIRMER

Martha Washington Declines—Lower Mammoth Stationary—Ben Butler Weake g—Emerald Sells.

The features of the exchange today were the sharp advances in May Day and Yankee Con. From $1 at the opening, May Day went up to $4 at the close of the call. This is the highest price reached since the slump over a year ago. Yankee sold as high as $1.02½ today. Ajax fluctuated between 1.01½ and 1.04, while Con. Mercur hung around $3.50. Lower Mammoth opened at $4.41½, but weakened immediately to $4.36. From that figure it advanced to $4.39 on the closing sale. Mammoth dropped 200 at $2.50, while Northern Light declined to 9¼. Sacramento responded at 42. Star Con. was active between 60½ and 62⅛, while Ben Butler hung around 11⅝. Boss Tweed continues to do business at 15. Martha Washington was very much weaker today; sales being recorded as low as 12⅝. Tetro sold at 7 while West Morning Glory responded at 4. Emerald was traded in at 5½.

R. K. THOMAS DRY GOODS CO.

Autobiography of Capt. James S. Brown, 520 pages, bound in cloth. Price $2.00; for sale at the Deseret News. Special terms to agents.

Nearly every person needs a tonic medicine at this time of year to brace up and invigorate the nervous system to cleanse the bowels, liver and kidneys. HERBINE is the best and safest remedy to do this, as it will cure constipation, regulate the liver and enrich the blood. Price, 50 cents at Z. C. M. I Drug Dept.

"THE GREAT SALT LAKE PRESENT AND PAST."

By James E. Talmage, PH. D. F. R. S. E., F. G. S., professor of geology, University of Utah, a book of 116 pages, beautifully illustrated. The first complete and authentic work on the renowned saline sea. Price 25 cents, postage prepaid. For sale by the Deseret News and all news dealers.

IMPROVEMENT IN THE DALY-WEST.

Higher Values in Silver and Lead Are Being Obtained.

NEW SMELTER TO BE BUILT.

A. F. Holden Says United States Co. Will Build It This Year—Yankee Con. Looks Well.

Superintendent John A. Kirby of the great Daly-West came down from that property last night and reports a general improvement in the condition of the mine. This is largely owing to the increased values in the ore which ran higher during the month of March than they did all last year. The principal change is in the silver, which run several ounces more to the ton during April than it did at any time last year. The percentage of lead has also increased slightly.

Conditions are excellent on the 700 and 900 and intermediate levels, where the ore reserves are steadily increasing notwithstanding the steady extraction. The winze is down 255 feet on the vein below the 1,400 level, and good ore is still in sight. Drifting is now being pushed both ways on the vein at this point and a very good grade of milling ore is being developed. The mill is handling about 140 tons per day though this will be slightly increased as soon as more water is obtainable.

TO BUILD A SMELTER.

A. F. Holden Says the United States Company Will Do So This Year.

Managing Director A. F. Holden of the United States and Centennial Eureka mining companies returned to the city yesterday from an extended trip to Europe. When seen by a "News" reporter late yesterday afternoon, he said that the affairs of the two companies are now in first class shape. The proposed consolidation of the Tintic and Brigham companies is still being considered and it is not improbable that it will be decided on at a meeting to be held shortly in Boston. Mr. Holden anticipates the erection of a smelter by the United States Mining company, though it depends to a certain extent on the consolidation. The ores of the Centennial Eureka and United States properties are necessary in the new plant, as they are said to be perfectly adapted to each other. The success of the Bingham Copper and Gold company's new plant has inspired the United States directors with the belief that they can be quite as successful and it looks as if an early completion of the much-talked of smelter will be recorded. Mr. Holden says the work will in all probability be pushed to competion this year.

Regarding the application for a receiver of the Niagara property by the minority shareholders of the company Mr. Holden says the move does not disconcert the United States company in the least. If a receiver is appointed and the property is sold the proceeds will probably go those holding bonds for the payment of which the United States group stands as security.

INFLATION OF YANKEE CON.

Dr. Franklin Says it Will Yet Pay Dividends on a Two Dollar Basis.

Dr. P. A. H. Franklin, who represents the syndicate which now practically owns the Yankee Con., says that his company is still purchasing stock. Some is said to have been bought yesterday as high as 96. The doctor says it is good for $2 a share, on which basis he expects it to pay good dividends. It sold today on the basis of $250,000 for the property, or almost as much as the Star Con. is quoted at. At today's quotations it would bring one-quarter of the price of the Mammoth, with its big ore bodies, hoisting plant, mill and valuable water rights. It seems out of all proportion but it is possible that the history of the Humbug may be repeated in the Yankee Con. At any rate, good reports are received from the property and a body of ore some 9 or 10 feet thick is now in sight, on which Dr. Franklin says the company is now drifting.

Big Gold Ledges in Harney County.

P. E. McNish is in the city from the Pueblo mining district in Harney county, near the Nevada State line, usually referred to as the Stein Mountain district, says the Sumpter, Ore., correspondent o fthe Spokane Review. He is exhibiting some excellent specimens of copper ore and some free gold ore taken from near the surface. He is enthusiastic over that section and predicts a bright future for it.

The gold ledges are wide, averaging about 20 feet, with values of from $5 to $8, while the upper ledges are from six to eight feet wide, carrying values in gold and silver as well as copper. They are nearly all tunnel propositions. The country is well watered and timbered and the climate is good, winters being very short and mild.

James Ashdown is erecting a six-stamp mill at the mouth of Denio Creek and G. C. O'Connor is operating an arastra successfully. The nearest railroad point is Winnemucca, Nev., on the Central Pacific, 100 miles south over a good road.

Capt. De Lamar Sells Bully Hill Mines

A dispatch from Redding, Cal., states that a deed was made of record there yesterday in which Capt. Joseph R. De La Mar, the millionaire mine owner of New York and Paris, transfers to the Bully Hill Copper Mining and Smelting company, in consideration of $2,249,000, the Bully Hill mines and smelting plant near Copper City, twenty-six miles northeast of Redding. The Bully Hill mine is a great copper property, at which a complete smelter and convertingplant has just been installed.

The property was transferred from Capt. De Lamar to the company recently organized by the captain, and in which he has nearly absolute control.

New Mining Company.

The Sivirijoa Mining company today filed articles of incorporation with a capital stock of $200,000, in shares of the par value of $1 each. The officers are O. R. Nelson, president and treasurer; P. J. Donohue, vice president, and Grant C. Snyder, secretary, and they with Henry P. Barbour and T. Ellis Crown form the board of directors. The company has been incorporated with a view to developing some 63 mining claims called the Sivirijoa group, in the state of Sinaloa, Mexico.

Work at Tarbet's Smokehouse.

At A. H. Tarbet's Smokehouse mine night and day shifts are working on an excavation at the corner of Wyoming and Broadway, says the Butte Miner. The space is to be used to install a battery of boilers for the purpose of installing a steam power plant instead of the electricity now in use. A steam plant has already been put in to work the pump. A huge smokestock will also be built. The smoke from the present stack is already quite a nuisance, and the new one is likely to be more so. Sinking still continues, but nothing of value has yet been encountered.

Tooele County Items.

Grantsville, April 11.—J. P. Mecham and John Peterson of this place have bonded a mine to the Bell Mining company of Park City, and the company has let a contract to A. H. Peterson of Salt Lake to run a 300 foot tunnel.

Mr. Robert Bowling of this place has secured a contract to run a 200 foot tunnel from the Goldbug Mining Co. on the Goldbug mine. Both mines are located in the Timpay canyon, about ten miles northwest of Grantsville.

Location Notices Filed.

Special Correspondence.

Provo, April 12.—George Golding, J. McNally, J. Farrer and Wm. Keyting have filed notices of location of seven oil claims, situated at the head of the second left hand fork of Kyune canyon, about five miles northwesterly of Kyune station, on the R. G. W. railway in Spanish Fork canyon.

MINING NOTES.

Con. Mercur was quoted at $3.50 on the Boston exchange today.

A car of silver ore was on the market today from Tuscarora, Nev.

The Swansea of Tintic was on the market today with five cars of ore.

Thomas Weir came in from Tintic last evening, but reports no change at the Ajax.

The Erie of Bingham had three cars of crude ore on the market today from the Palmer lease.

It is reported that the Showers Con. has been shut down temporarily owing to the big flow of water.

Col. Wall returned from the Lower Mammoth last evening. He says the management has not yet reached the vein on the 900 level.

C. H. Weeks is now acting as secretary of the May Day Mining company in place of F. W. Muhlenbruck, who has resigned.

Director J. D. Wood of the Daly West spent yesterday in looking over the Park City bonanza, which he reports in first-class condition.

A great deal of excitement has been caused in Tekoa, Wash., by the discovery of rich placer ground on Santa Creek, a tributary of St. Maries river.

W. S. Brown has returned from Cherry Creek after putting three or four men to work on the North Mountain property. He expects to start up the mill later in the season.

It is stated that about 100 men have been employed in the Buffalo Hump district, Idaho, all winter. There is still 10 feet of snow in places, and it not expected that the season will open much before June 1st.

Considerable excitement is said to have been created by the discovery of oil and gas indications about six miles southeast of Fairfield, at the head of Rock Creek valley and near the Idaho line.

A car load of crude ore from the Ben Butler of Bingham was sold this afternoon on controls, showing 41.5 per cent lead, 6 ounces silver, $1 in gold, and 10 per cent iron excess per ton. Another carload is promised on Monday.

Box Elder News: Survevor H. D. Page went up last week to look over the mining prospects near Portage for which so much was claimed a few weeks ago. He says he found nothing very encouraging, and the excitement had all blown over. There is some good copper ore found, but it does not appear to be in paying quantities.

Wm. H. Child, Stock Broker,

Eliza M. Snell to Patrick A. Largey, quit-claim deed, southeast quarter of northwest quarter and southeast quarter of southwest quarter, etc., section 19, township 1 north, range 2 west	1
L. A. Arnold to C. B. Arnold, quit-claim deed, half interest lots 3 to 12, block 18, etc., Kinney & Gourlay's plat	1
Ina C. Kennelly to Frank E. Gregg, quit-claim deed, south half and north half of northwest quarter section 26, township 1 south, range 1 east	5
Total	$7,623

INFORMATION WANTED.

In reply to the query that appeared in the "News" on April 4th in regard to Mrs. Bengta Peterson one of the heirs of the Westrand estate, A. F. Rosdahl of Lund, Idaho, writes that his mother-in-law is of that name and that she had a near relative in the old country many years ago and has not been heard of since.

Anyone who is interested in the Thayer family will please correspond with B. F. Barrus, Grantsville Tooele county, Utah.

WHITE'S CREAM VERMIFUGE not only effectually destroys worms, it also increases the appetite, aids assimilation and transforms a frail infant into one of robust health. Price, 25 cents at Z. C. M. I. Drug Dept.

MARKET WAS UNSETTLED.

The General Tendency Was Downward With Contests at Some Points.

This Was Arrested by Bids for Enormous Amounts of Various Stocks—Bonds Quiet.

New York, April 12.—The tone of the stock market at the opening was unsettled. The general tendency was downward, but it was contested at some points. The southwesterns were notably depressed. Amalgamated Copper was forced down 1⅛ after a few irregular fluctuations. Northern Pacific, on sales of 4,000 shares was quoted at 97 to 97½ compared with 97⅛ last night and afterward fell back to 97. Burlington was lifted ¾ but broke 1¾. The rapidity with which the downward move was arrested by bids for enormous amounts of various stocks suggested the cooperation of strong interests against the bears and the shorts ran up prices rapidly to cover. The opening losses were more than recovered, the rise from the lowest reaching 3½ in Anaconda Mining, 2⅝ in Amalgamated Copper, 2½ in Burlington and Rock Island and 2¾ in Texas & Pacific preferred. Improvements in many other stocks were between 1 and 2 points, including St. Paul, Atchison and some of the industrials, trunk lines, southwesterns and Pacifics. General Electric's annual statement caused a 2 points' rise, but profit taking broke it 3½. Northwest opened off 1⅞ at 205, rose to 207 and fell to 203¾. St. Louis & San Francisco met stop-loss orders on a scale down, falling 3¼ to 37¾. Prices were off all around from the best at 11 o'clock. Stocks of local municipal corporations were heavily absorbed on reports of a possible favorable revision of the franchise tax law. Consolidated Gas bounded up 6¾. Brooklyn Union Gas and the tractions from 1⅞ to 3½ points. The strength of the stocks permeated the general market and caused a renewed rise which, however, did not bring the list up to the earlier best prices except in Burlington, the Pacifics and Amalgamated Copper. Southern Pacific, which had been recently neglected, advanced 1½ and General Electric and St. Louis & San Francisco rallied 3 points each. Bonds were quiet and irregular.

Profit taking caused recessions of 1 to 2⅝ points in the grangers, Delaware & Hudson, Union Pacific, Consolidated Gas, Amalgamated Copper and Anaconda. The closing was moderately active and rather heavy.

CLOSING STOCKS.

Atchison, 64¾; do. preferred, 95½; American Tobacco, 129; Smelting, 96¾; do. preferred, 91; C. B. & Q., 191; C. C. C. & St. L., 81½; C. F. & I., 74½; C. Barley—No sales; cash, 77½.

ST LOUIS WOOL.

St. Louis, April 12.—Wool—Quiet; Territory and western medium 14@16; fine 11@15; coarse 11@14.

NOTICE OF ELECTION.

Notice is hereby given by the board of education of Salt Lake City, Utah, that an election will be held and is hereby called of such qualified electors as shall have paid a property tax therein during the year 1900 to vote upon and determine the following questions, to-wit:

"Shall the board of education of Salt Lake City create and incur an indebtedness of thirty thousand dollars additional to the amount now limited by law for the purpose of the support and maintenance of the public schools of Salt Lake City for a part of the eighth and ninth month of the school year 1900-1901?"

The election will be held on Tuesday, the 16th day of April, 1901.

There will be five polling places for such election, one in each of the five precincts of Salt Lake City, at the following places:

First precinct polling place, Ninth ward church annex, corner Fourth South and Fifth East streets.

Second precinct polling place, No. 304 south West Temple street, opposite the Metropolitan hotel.

Third precinct polling place, East room in Union school, old University block, corner Third West and First North.

Fourth precinct polling place, Taggart's hall, 876 First street.

Fifth precinct polling place, Thirteenth ward school house, Second South, between State and Second East.

The names of the judges to conduct such election at each of said polling places are as follows:

First precinct, W. H. Wilkinson, C. E. Stokes, John J. Peterson.

Second precinct, W. P. Appleby, William L. Binder, S. M. T. Seddon.

Third precinct, Joseph Bull, Jr., George Pugsley, James Bishop.

Fourth precinct, James Maxwell, William M. Woolley, Henry P. Richards.

Fifth precinct, Alexander McMaster, William B. Short, C. O. Farnsworth.

The polls for such election will open at 7 o'clock a. m., and close at 7 o'clock p. m.

The amount of the indebtedness which the board proposes to create and incur is thirty thousand dollars, and the purposes for which said indebtedness is to be incurred and created is the support and maintenance of the public schools of Salt Lake City for a part of the eighth and ninth month of the school year 1900-1901.

BOARD OF EDUCATION,
WM. J. NEWMAN, President.
J. B. MORETON, Clerk.
Dated Salt Lake City, April 4, 1901.

It's a long time since we said anything about our $3.00 shoes for men. We're still building them.

And building them as good as ever.

R·I·P·A·N·S

Did you ever hear of R.I.P.A.N.S
Wondrous little tabules brown?
Many persons who have tried them
Gladly add to their renown.
You should never be without them,
For in fact and to be frief,
When dyspepsia's pains attack you,
Just one tabule gives relief.

Burlington Route

Coming and Going.

In a recent issue of the Quarterly Review, Bishop Leonard says:

"When one comes to this part of the west he will do wisely to come by the Burlington and Rio Grande railways. Their tracks are well ballasted, cars comfortable, and the scenery along the way is really magnificent."

Yes; and when one leaves this part of the west he will do well to take the same railroads. Through sleepers for Omaha and Chicago leave Salt Lake City 3:15 p. m. daily.

Tourist sleepers 8:30 a. m. Thursdays, 8:20 p. m. Fridays.

Glad to answer letters of inquiry.
