MADELEINE AT OGDEN.

Last evening the Salt Lake Opera company appeared at the Grand in Madeleine. There was a fair house to listen to the beautiful opera. The Salt Lake people have cause to be proud of their Opera company, their performance last evening was excellent in every particular, the soloists were especially worthy of praise, and in the future we can promise them a hearty welcome for which they are truly worthy.

Marriage license was issued to Henry E. Driver, 21, and Elizabeth K. Robertson, 21, both of Ogden.

NEW IMPLEMENT FIRM.

The Ogden Cash Stove and Implement Co. has filed its articles of incorporation, and it will begin business in Ogden City. The men connected with this company are all well and favorably known to the people of Ogden and vicinity. Mr. Arthur A. Steed is the president of the company, Mr. John D. Fife is vice president, Ezra C. Rich, secretary and treasurer, and E. T. Woolley, manager. It is well known that both Mr. Woolley and Mr. Fife have been connected with the Co-operative Wagon & Machine Co. for years, and have a full knowledge of the business in which they will now engage. The board of directors of the company is composed of the following well known gentlemen: A. A. Steed, Thos. M. Mumford, A. R. C. Smith, Ezra C. Rich, Edward I. Rich, E. T. Woolley and John D. Fife. The company is spoken of by those who have knowledge of the matter as being a strong organization, and one that will make itself felt in the business of our city. It is the intention of the company to sell goods for cash and to sell them cheap. Messrs. Woolley and Fife left for the eastern markets Tuesday morning, the 28th, to look over the field and buy such implements, stoves, wagons, etc, as they deem will be best adapted to the wants of the people in this section of country. They will probably be absent about three weeks, and during that time will visit the principal manufacturers and pass judgment on the adaptability of their wares to the western country. It being an Ogden institution and made up mostly of Ogden capital and Ogden men (with the exception of Mr. Mumford, who resides in Salt Lake and is a large sheep owner), there can be little doubt but that Ogden people will be pleased to do business with the new firm. The plan adopted by this company of selling goods for cash is an entirely new departure in this line of merchandise, and there is no doubt the plan will be fully appreciated by those who prefer to buy goods cheap for cash.

Prof. Josiah Hickman, of the Brigham Young academy of Provo, was present, and addressed the teachers at 10 a. m. on the subject of "Reading as correlated with literature and history." In the afternoon at 2 o'clock Prof. Hickman dealt with the subject of "School government—how best secured." A fair representation of citizens attended the morning and afternoon sessions, but in the evening they turned out en mass. The professor was at his best, and on the subject of "Character" delivered an oration that inspired his hearers with great enthusiasm.

The association adjourned to meet at the call of the county superintendent. Many of the teachers expressed their intention of attending the meetings of the State association to be held in Salt Lake City in December.

Doctors Can't Cure It!

Contagious blood poison is absolutely beyond the skill of the doctors. They may dose a patient for years on their mercurial and potash remedies, but he will never be rid of the disease; on the other hand, his condition will grow steadily worse. S. S. S. is the only cure for this terrible affliction, because it is the only remedy which goes direct to the cause of the disease and forces it from the system.

I was afflicted with Blood Poison, and the best doctors did me no good, though I took their treatment faithfully. In fact, I seemed to get worse all the while. I took almost every so-called blood remedy, but they did not seem to reach the disease, and had no effect whatever. I was disheartened, for it seemed that I would never be cured. At the advice of a friend I then took S. S. S., and began to improve. I continued the medicine, and it cured me completely, building up my health and increasing my appetite. Although this was ten years ago, I have never yet had a sign of the disease to return.

W. R. NEWMAN, Staunton, Va.

It is like self-destruction to continue to take potash and mercury; besides totally destroying the digestion, they dry up the marrow in the bones, producing a stiffness and swelling of the joints, causing the hair to fall out, and completely wrecking the system.

S.S.S. For The Blood

is guaranteed Purely Vegetable, and is the only blood remedy free from these dangerous minerals.

OUR NEIGHBORS.

FALL RIVER, IDAHO.

School and Meeting House Burned—Heavy Frosts—Delightful Fall Plowing.

Fall River, Ida., Nov. 27.—We have had a very severe season, frost being a frequent visitor during the past summer and fall. It damaged our crops badly. Frost has never before been known to prevail so late as it did this year, at least since the valley has been settled. We have one of the best countries in the Snake River valley. The weather has been fine this fall for plowing and the citizens have taken every advantage to get early crops for next year.

SCHOOL HOUSE BURNED DOWN.

Our school started on November 6 with splendid prospects but on the 23rd of the month, by some unknown means, the school house caught fire and was burned to the ground. It was used for the meeting house as well and furnished with school furniture. Also our Sunday school and Mutual Improvement library was in the house. It now leaves us without a public house of any kind to hold meetings in. The bishop has vacated one of his rooms to permit the holding of Sunday school and meeting.

The people have held a meeting to consider the building of another house and have started to work in full faith of soon having one and a place to hold school in for our children.

PRESTON, IDAHO.

Heavy Fall Planting—Thanksgiving Reunion—Big Canal Enterprise.

Special Correspondence.

Preston, Idaho, Nov. 28.—The poor crops and the frosts have not dampened the courage of the people in this north country. "These Mormons don't live in the past," they all say, especially the farmers. The beautiful fall rains and the fine fall weather has enabled us to plow thousands of acres, and the coming season will be one of great plenty.

The Stake choir gave a grand ball in the academy Monday evening. The visitors complimented Prof. L. D. Edwards and his talented choir many times during conference for their fine music and song. The Franklin brass and string orchestra was a fine feature. In fact it was a musical treat all through the conference.

THANKSGIVING REUNION.

On Thanksgiving day the Preston ward will have a reunion and a public dinner in the academy for all over 15 years old, with a ball in the evening. The turkeys and other poultry already see the ax.

BIG CANAL ENTERPRISE.

About seven years ago the people of Preston commenced to build a canal from Mink Creek, seventeen miles away, taking out part of the creek, which is a fine stream. The canal is built through the canyon and over many rocky points. The rock work alone cost $6,000. The canal when full will hold twenty-five feet of water, and is now completed to the edge of Preston, costing to date about $35,000. Preston has suffered greatly for want of water but this canal will give the town as great water facilities as Logan.

Conclusion of Oneida Stake Conference—Interesting Addresses.

Special per Deseret Telegraph.

Afternoon meeting of the quarterly conference continued at 2 p. m. Opening prayer by Dr. Cutler.

Elder Hooper of Clifton, recently returned missionary said: "I have labored in the New England States twenty-seven months. He found a Commodore Hooper who had been hunting family records since the Mayflower came over, and it was just the family record he wanted. Reported fully his mission which was very successful. I have just left Boston and the New England States and the Roberts' agitation is doing us a great amount of good."

Elder Thomas Croshaw, of Oxford, recently returned from the Southern States, made some remarks. Elder William McDormit, of Clifton, who had returned from a three and a half years' mission to the Samoan islands, bore his testimony in the native tongue. Elder Sant, also of Clifton, reported his mission to the Sandwich Islands. And he also bore testimony in the native language. Elder Hammond, of Preston, reported his labors in the Northern States and also Elder Joseph Davis, just returned from Europe. Each of these Elders showed how great was the spread of the Gospel of Jesus Christ and what the world calls the Mormon religion is making rapid progress in every part of the mission field.

Apostle M. F. Cowley said he had enjoyed the testimonies and experiences of the previous speakers, their missionary labor should be continued at home in every Stake. "Their experience and travel among the various nations of the earth is of such importance in their labors at home. It is the duty of all Elders not only to preach the Gospel while abroad, but learn everything pertaining to the laws and customs of the people to whom they are sent. A wonderful work is being done by our missionaries. I have just returned from a trip among the Elders in the United States. I had my first experience in street preaching in Chicago. I returned with Brother Crockett, part way home, and he states that the Roberts' agitation was doing a great amount of good in opening up opportunities for the introduction of the Gospel and is making us more friends than enemies. The conference adjourned for three months.

THANKSGIVING—ACROSTIC.

The fields of grain are garnered now,
High-heaped are stack and bin and mow
A wealth of fruit the cellars hide,
Nor is there lack of grain beside.
Kindred and friends who gather here
Shall swell the strain of mirthful cheer.
Great God, to Thee our songs of praise
In humble gratitude we raise.
Victorious over foreign foes
In peace our land triumpant grows;
No voice but Thine would we obey.
Grant us Thy blessing, Lord' today.

HARPER'S BIG FAILURE.

Mortgagee Takes in the Great Publishing House.

Total Liabilities $5,500,000, of Which $2,000,000 is Unsecured—Holders of This Paper.

New York, Nov. 28.—The State Trust company, as trustees of the first mortgage of Harper & Brothers, issued today the following notice:

"All persons will please take notice that the State Trust company, as trustees, under the first mortgage made by the corporation of Harper & Brothers to the State Trust company, as trustee, in pursuance of provisions of section 2 of article 3 of said mortgage, has entered into and upon all and every part of the property and premises, lands, rights, interests and franchises conveyed or intended to be conveyed by said mortgage, and each and every part thereof, including the publication of the periodicals known as Harpers' Magazine, Harpers' Weekly, Harpers' Bazaar and Harpers' Round Table, and that from this date and until further notice, neither the corporation of Harper & Brothers nor its agents or servants will have or will exercise any power to use, operate, manage or control said mortgaged property or premises, or to conduct the business thereof.

"The State Trust company has appointed Mr. G. B. M. Harvey to be its agent in the possession, operation and management and control of the said property, premises and business, and until further notice he will be respected accordingly."

This action on the part of the trust company was taken by request of the members of the Harper corporation. President Harvey of Harper & Brothers today made a statement, saying, in part:

"The action of the State Trust company was taken primarily at my instance, with the full consent and approval of the members of the Harper family and principal creditors. The simple fact is that either I or anybody else who ventured to assume the personal responsibility of the management of the company without first effecting a thorough readjustment of its finances, would have been confronted by a herculean, if not an impossible task. Every publication issued from the Harper press will now be strengthened in every possible way without hindrance, and I trust with the hearty co-operation of the thousands of friends of the great house, whose honor, dignity and prosperity it has become our duty to maintain."

It is said that the amount of the J. Pierpont Morgan mortgage is $3,500,000, making the firm's total liabilities $5,500,000, the creditors for $2,000,000 being unsecured.

New York, Nov. 29.—The Times quotes a well known New York banker as saying that about $1,500,000 worth of the Harper's commercial paper was in circulation. It was mostly held, he added, by country banks in Pennsylvania, Massachusetts and other New England States. It was two kinds, some signed with the firm's name, and some endorsed by two members of the firm.

Removing Troops from Cuba.

Washington, Nov. 29.—Gen. Leonard Wood, who reached Washington last night, had a two hours' conference with the secretary of war today. After the conference Secretary Root announced that his recommendations as to the removal of troops from Cuba had been approved and that orders would be issued putting them into effect.

ABOUT THE MANAUENSE.

War Department Officials Do Not Believe the Story from Manila.

Washington, Nov. 28.—War department officials are surprised at the information in the Manila dispatch concerning the condition of the transport Manauense. They are at a loss to account for the deplorable state of affairs which is said to have existed on the ship. The only information received here concerning the Manauense is that she arrived safely, and that there were no casualties aboard. The ship was under charter by the government, and no attempt was made to purchase her.

Secretary Root expressed himself emphatically as disbelieving the accuracy of the reported condition of the vessel when he arrived at Manila, taking the statements to be largely imaginative and growing out of the talk of some of the men who probably were unused to ocean hardships.
