

or Denmark. The bill provides, however, for charges d'affaires to represent the United States in Portugal, Greece, Denmark and Paraguay, at annual salaries of \$5,000 each. The following consulates, not provided for, are practically abolished: Swatow, Southampton, Malta, Vladistock, Oporto, Santa Cruz, Nantes, La Rochelle, Port Mahon, Valencia Station, Maranham, Cyprus, Bucharest, Venice, Milan, Gaboon, Turk's Island, Hakadodi, Goderich and Windsor, Canada West. The bill as it now stands saves \$208,000 from the appropriation of last year.

AMERICAN.

CHEYENNE, 10.—The government courier, who left Fort Laramie for Red Cloud agency on Monday, was attacked before daylight on Tuesday morning, near Running Water, by six Indians, who fired from a distance of fifty yards, drove him into the sandhills and chased him twenty miles, when his horse being wounded, he left him and hid in a gulch all day, and at night returned to Fort Laramie.

Company E, 4th cavalry, arrived at that post to-day, and will leave for Camp Robinson to-morrow.

PHILADELPHIA, 19.—The bark *C. E. Jans* has arrived here, and brings the second officer and three of the crew of the ship *L. W. Beleschel*, of Yarmouth, N. S., from Baltimore for London. They were rescued from a piece of floating wreck, and report that the ship capsized in a hurricane, on July 31. They had been fifty-six hours without food or drink.

FORT HALL, Idaho, 10.—A sad occurrence happened here yesterday. Private Frederick Lutz, of company A, Fourteenth Infantry, while out hunting, accidentally shot himself and died from the effect of his wounds last night. He was a good soldier and beloved by his comrades.

NEW YORK, 10.—The first wires were strung over the eastern tower of the Brooklyn Bridge to-day. They will be brought into position early next week, when a temporary foot bridge will be completed as soon as possible, some think in a month. The immense ship *Three Brothers*, formerly the steamer *Vanderbilt*, yesterday passed the East River, when observations taken showed her topmasts at least ten feet under the lowest part of the projected bridge, thus dispelling the idea that the bridge will disturb navigation.

At the workmen's demonstration, to-day, about two hundred men were in the procession. When they arrived at the City Hall they sent the committee into Mayor Wickham, who presented the address, asking for work, and relating their distress. The Mayor said the city was now doing all that was possible in the way of supplying labor. He sympathized with them, but held out no hopes. The committee then returned and reported to the full body, after which speeches were made denunciatory of the Aldermen and the officials, and one man, who had a broom in his hands, declared he had come down to sweep the Mayor and other officials out. The crowd then dispersed, evincing no disposition to create any trouble.

CINCINNATI, 10.—From sixty-five to seventy brakemen on the Ohio and Mississippi Railroad have struck, and hold the freight trains along the road by uncoupling the cars and throwing away the pins.

NEW YORK, 11.—The *Sun's* Washington special says Gen. M. C. Butler has addressed a letter to Congressman Jones, thanking him and other gentlemen in Congress for the vindication they have made of his connection with the Hamburg affair. Butler says the residents of the north do not understand to what extent the people adjacent to Hamburg and in Hamburg have been bedeviled by the negro character, or the vexation and wrong which the negro character is capable of, and with what patience the white folks have submitted with scarcely a remonstrance. He says there is something in human nature which will not always endure oppression. After describing the exact situation of the young men in the carriage on the Fourth of July, and the determination of the negroes to drive them back, he makes the point that this company, supposed to be a legalized militia company, had long since ceased to be a militia company, under the State laws; that the State arms that had been given had been turned in and stored away for return to the State

arsenal; that two months ago they were secured either by force or on a forged order, and distributed anew, so that the company which obstructed the highway of the main street of Hamburg on the 4th of July was not a military company at all, but was an armed mob which, at the time, was in unlawful possession of the State arms, and in gross and open violation of the State laws, by having induced the property of the State without sufficient authority. It was not until this unlawful company or its leaders were commanded to appear before the proper legal officers, that it was discovered that they determined to resist the law in the same manner that they had obstructed the highway with force of arms illegally in their possession. Gen. Butler then makes the point that any man may lawfully defend his life and liberty and his person, and that when this mob company entrenched itself in a building, fortified with ball cartridges and musket bayonets, and had shown a determination to resist all lawful authority, it became necessary to dispossess them of their arms and show them that they could not override the law. He says, in conclusion, whether an outlaw meets me face to face in the road to drive me out of it by force, or throw himself in a brick house where his musket commands the road from the window, the issue is the same. I have a right to defend myself, and this is all that was done by the whites at Hamburg in firing on and dispersing the military autocrats who set themselves above the law, and resolved society then and there into its original elements of armed aggression on the one hand and armed resistance on the other.

O'Leary completed 333 miles before midnight. Public interest increases as success becomes probable.

WASHINGTON, 11.

Four companies of the Fourth Artillery at San Francisco have been ordered to Cheyenne.

BATAVIA, N. Y., 11.—Thomas Burton Quackenbush was hanged this morning for the murder of Mrs. Sarah Norton on the 3d of December, 1875. He confessed the deed, but denied the murderous intention, he having been under the influence of liquor when he killed her.

PHILADELPHIA, 11.—Wool—Colorado washed 18 @ 22, unwashed 15 @ 18; extra and merino pulled 23 @ 32; No. 1 and superfine pulled 28 @ 32; California fine and medium 18 @ 27, coarse 18 @ 22.

ST. PAUL, Minn., 11.—A dispatch from Bismarck transmits the following from Terry's camp at the mouth of Rosebud, Aug. 8th:—Col. Otis, with six companies of the fifth reached camp on the next day. Besides the new arrival the entire command is being refitted and assembled on the south bank of the Yellowstone. The march will commence on the 7th. Gen. Terry, in an order dated July 26th, expresses his thanks to privates James Bell Evans and Benj. Stewart of company E, 7th inftry, for their bravery in taking despatches to Gen. Crook and returning. These, among others, volunteered to go through the hostile country when the Indian scouts refused.

WASHINGTON, 11.—The President in his message concerning the Indian campaign strongly urges the necessity of providing for a possible contingency, during the vacation of Congress, for more troops in the Indian country. It would seem more economical and better, he says, to authorize an increase of the present cavalry force by 2,500 privates; but if this is not deemed advisable, the President should be authorized to call out not over four regiments, each 1,000 strong, of volunteers for six months. He would not order out volunteers unless reports from the scene made it absolutely necessary, and then only the smallest possible number.

The following is General Sheridan's letter to Gen. Sherman:

"I have not yet been able to reinforce the garrison at Red Cloud and Spotted Tail, or at Standing Rock, to be strong enough to count Indians, or to arrest and disarm those coming in. I beg of you to see the military commission of the House and urge on it the necessity of increasing the cavalry regiments to one hundred to each company. General Crook's total strength is 1,774; Terry's is 1,873, and to give this force to them I have stripped every post from the line of Manitoba to Texas. We want more mounted men. We have not exceeded

the law in enlisting Indian scouts; in fact we have not as many as the law allows us. The whole number in this division is only 114. The Indians with General Crook are not enlisted or even paid. They are not worth paying. They are with him only to gratify their desire for a fight, and their thirst for revenge on the Sioux.

(Signed)

"P. H. SHERIDAN, Lt. Gen."

The letter of General Sherman to the Secretary of War endorses the recommendation of General Sheridan, and the letter of the Secretary of War recommends the same to the President.

James G. Hill, of Boston, was today appointed Supervising Architect of the Treasury. He has been draughtsman and assistant for several years.

The President, to-day, sent a message to Congress urging, in view of the possible contingency during the vacation, that provision be made for more troops in the Indian country, and suggesting that if an increase of the present cavalry force by 2,500 be deemed inadvisable, he be authorized to call out five regiments of volunteers, each one thousand strong, for a period not exceeding six months.

OTTAWA, 11.—A letter from the northwest mounted police force, dated Bismarck, July 19th, says our party came across four hundred Sioux on the war path one hundred miles from the scene of Custer's massacre. We anticipate trouble with the Indians before we reach our destination.

AUGUSTA, Ga., 11.—The parties accused of complicity in the Hamburg riot, before Judge Maher, at Aiken, yesterday, gave bail in \$1,000 each.

NEW YORK, 11.—The independent labor party, William A. Corsey presiding, met to-night and nominated James Gordon Bennett for Mayor of New York. A committee of three was appointed to wait on Bennett and tender him the nomination.

FORT SCOTT, 11.—Advices from the Cherokee nation, Indian Territory, report the government unsettled and the administration of Chief Thompson unsatisfactory.

MONTREAL, 11.—A premature explosion occurred at Acton mines to-day, dangerously injuring several men.

ST. JOHN'S, N. B., 11.—The boiler of Whitmore's mill, at Carlton, exploded to-day, knocking out the ends of the mill; three men, named Harwood, Lord and Stockhouse were badly scalded.

NEW YORK, 12.—The *Times* Washington special says—A man by the name of DeHaven made a claim for the loss of a vessel destroyed by the United States, fixing the amount at \$50,000. The claim was before a committee of the Senate and quite favorably considered. On the papers presented the claimant, among other acts, had made oath to his loyalty during the war. It happened that the case was searched out in the archives, and it was discovered that DeHaven had sold his vessel to the Confederate Government, and the signature, proved to be his own, by comparison with his present handwriting, was discovered upon the vouchers for payment. Moreover, he had received pay for the use of the vessel as a freight boat.

The *Tribune's* Washington special says whatever action the Senate may take it seems very probable that there will be no quorum of the House after to-day. Already 120 members are absent, most of them on leave, and it will be difficult to retain a quorum in the House even to-day. Should the House find itself without a quorum before the Senate passes the resolution of final adjournment, the result will be that no business can be transacted without unanimous consent, and that Congress will be obliged to remain in session until a sufficient number of members return to make the majority of the House. Another matter which may cause delay is the request sent to Congress to-day for additional troops for the Indian service during vacation. The House does not seem disposed to act upon this request.

The *Times* Cincinnati special says the situation at Seymour, Ind., is exceedingly grave. The number of workmen now out will reach 500. The strike, which was at first against the reduction of wages, has now become rather a demand for back pay, of which nearly three months earnings are reported due,

than opposition to the proposed reduction. The strikers are largely indebted to butchers, grocers, etc., and many have not tasted meat for a number of days. The citizens of Seymour raised \$2,000 dollars for their relief. No violence has been committed.

WASHINGTON, 12.—General Porter was before the sub-committee on the whiskey frauds, to-day. In reference to Bluford Wilson's testimony he said he did not allude to "Sylph" as a lewd woman in speaking of her to McDonald. Witness denied that he told Wilson the greatest favor he could do the President was to shield Babcock. He said he never heard Babcock referred to as concerned in the speculation, except from newspaper representation. Wilson did say to him in the course of conversation that Babcock should be fairly dealt with, and no injustice done him. Witness did not assist Babcock in getting up his defense. He had not, since he had been summoned as a witness, been to see the President, but had purposely avoided calling on him at the present; nor had he consulted with anybody, but had read some of the evidence, and had a general idea of it.

ELIZABETH, N. J., 12.—This morning a loaded oil train on the Central road broke in two one mile west of Roselee. The detached cars stopped and the second oil train ran into them in a fog near the depot. The locomotive was disabled and the caboose and three oil cars were thrown off the track and took fire. Four cars, a caboose and wooden tank were consumed.

ST. ALBAN'S, Vt., 12.—Leon Vandney and Arthur Rovert, of Montreal, fought a duel at Richford yesterday, two shots being exchanged. Rovert was wounded. Six of the participants were arrested.

SAN FRANCISCO, 12.—Four companies of the Fourth Artillery left for Cheyenne this morning to guard the railway line, and supply the place of the companies sent to Crook.

Earl and Countess of Dufferin sailed on the British corvette *Ame-thyst* this morning for Victoria.

One company of the first cavalry, stationed at San Diego, has been ordered to hold itself in readiness to leave for service on the overland route.

The San Diego *Union*, to-day, says—This force is necessary to protect citizens on the border from pillage and murder. Their withdrawal will cause the settlers to abandon their homes. Real danger confronts the numerous body of American citizens on the frontier in this county, and the removal of the troops will be a serious calamity.

CHEYENNE, 12.—Fifteen horses were stolen by the Indians from Boyd's ranch on Blue Creek, twenty-five miles north of Ogallala, Neb.

A man who arrived at Cheyenne this evening reports having crossed a fresh Indian trail between that point and Eagle's Nest. The prairie is on fire towards Chimney Rock, supposed to be fired by them.

James B. Hickock, alias Wild Bill, known in Kansas and the territories as a scout of some prominence in early days, was killed in a saloon at Deadwood on the 2nd inst., by one Bill Sutherland, who, in justification of the act, alleges that Bill killed his brother at Fort Hayes, Kansas, some years ago.

A man named James Maguin, formerly a private watchman in this city, was found dead on the railroad track, one mile west of this station, this morning, the whole train having passed over his body.

NEW YORK, 12.—O'Leary, of Chicago, who began in the rink at midnight on Sunday to walk 500 miles in six days, finished his task ahead of time.

WASHINGTON, 12.—Speaker Kerr's condition is such as to alarm his friends, and it is now believed that he will not long survive. A dispatch received from him, dated yesterday, from Rock Bridge, Alum Springs, says: "I am much worse, and hope is growing weaker."

The legislative, executive and judicial appropriation bill, as passed by both Houses to-day, contains, among other items, the following—

The salaries of governors, chief justices and assistant judges of Washington, Montana, Idaho, Utah, New Mexico and Arizona Territories are fixed at \$3,000 each. All the Territories are given \$2,000 each. The item of \$20,000 is inserted for the expenses of the Montana Legislative Assembly.
