DESERET EVENING NEWS.

Wednesday, - - October 25, 1893.

FRAGMENTS.

HIGH COMMISSIONER MERRITT this evening at 7:30 sharp.

NOTHING of importance has been done by the Utah Commission today.

THERE was no business transacted in the Probate court up to noon today.

A SPECIAL session of the County court will be held as soon as Substitute Bailiff Badger and Coburn return from Chicago.

EX-UNITED STATES COMMISSIONER MARTIN has old turnout in Salt Lake City and goes to reside at Los Angeles, Cal.

TAXPAYERS are now beginning to hurry up. County Collector Lennon and his staff are kept pretty busy now, as taxes become delinquent on the 31st inst.

U. S. MARSHAL BRAGNAN is expected back from his eastern trip at some time between the 1st and 5th of November. He is "holding in" the World's Fair on his journey.

NOT MANY TO HEAR.

Referee Baldwin Removed One "Non-Resident" From the Register This Morning.

The ruling of Referee Baldwin on the personal service of voters question has reduced his labors to a minimum in regard to the hearing of objections. Only one case came under his notice this morning—that of Fred Schmidt, whose name appeared on the register as a voter in the Fifth precinct. The objection raised against him on the ground of non-residence was sustained and he has disappeared from the list.

The European Mission.

[Editorial Nov. Oct. 24.]

ARRIVALS.—Elder Albert J. Sears of Salt Lake City, arrived on the Guion Line steamship Arizona, Monday, September 25, 1893. He was accompanied by his wife and two children, whom will visit relatives during their absence from home. Elder Wm. J. Simmonds also arrived at the same time and will spend some time in England on a genealogical research.

The following Elders arrived Monday, October 9, 1893, per Guion Line steamship Alaska: Charles F. Hyting, of Grantsville; William Sorensen, of Glenwood; Peter C. Peterson, of Elsinore; Lorenzo Ostander, of Santaquin; James Christian, of Brigham City, for the Scandinavian mission; Isaac Bauman, of Providence, for the German mission; George Bigby, of Newton; Charles Williams Jr., of Tremonton; Isaac Langton, of Salt Lake City, for the British mission.

APPOINTMENTS.—Elder Albert J. Sears has been appointed to labor as traveling Elder in the London conference.

Elder George Bigby has been appointed to labor as traveling Elder in the Newcastle conference.

Elder Charles Williams Jr. has been appointed to labor as traveling Elder in the Cheltenham conference.

Elder Isaac Langton has been appointed to labor as traveling Elder in the Manchester conference.

MUNICIPAL MATTERS.

Want Ten Teams to Sprinkle the Streets With.

NO SPECIAL TAX REFUND YET.

The Usual Windy Rehash on Retrenchment. — Another Heavy Appropriation.

The regular session of the City Council was held last evening. At five minutes past eight Councilman Moran was called to the chair, Hill and Evans were the only councilmen absent.

THE PROCEEDINGS.

A petition was read from T. A. Wickersham asking the Council to purchase 4,000 paving blocks at $1.75 per square yard F. O. B. cars at Salt Lake City. Referred to the board of public works.

A petition, signed by Robert Cheyburn and others, was read, asking the appointment of A. H. Davidson as a special policeman without pay. Committee on police.

A claim from Caleb Lisker was presented asking $300 for damage sustained by him from sewer running through his land and cutting off water connections for carp pond. Committee on claims with mayor and engineer associated.

The Metropolitan Store company sent in the following communication, which was referred to the committee on finance:

We the undersigned Metropolitan Store company do hereby respectfully petition you to authorize the city treasurer to withhold the sum of $5,000 from the amount to be paid to he paving blocks (mentioned on contract of August 28, and to pay from the same contract as we shall specify in notice signed A. A. Raby, superintendent, on said city treasurer, in favor of block-layers now working for us, and all portions of the said remaining in treasurer of said city treasurer after all of said orders have been paid to be refunded to us on presentation of an order from the secretary of branch No. 1 of the Paving Cutters' union of the United States and Canada, certifying that all claims and demands of members of said branch of Paving Cutters' union against contractors from members.

This request is made by virtue of an agreement between said Paving Cutters' union and contractors to secure some payment of their work.

BY SIMON BAMBERGER,
President.

A communication was received from the Paving Cutters' union joining in the request that the above mentioned sum be disposed of as requested by the company for the reason that by the rules of the union no member is allowed to work beyond a certain period without receiving pay or security for later performed and that said period has now been reached in the case of those working for the Metropolitan Store company.

A petition from George B. McClure et al residents of Green street asked that money paid for extension of water mains on said street be refunded as said extension had not been made. Committee on water works.

FRANCHISE WANTED.

A petition from William H. Rowe and others was read asking for a franchise for an electric railway from the southeastern part of the city to the central part of the city, and also to extend to Big Cottonwood canyon. Referred to the committee on streets.

Petition from S. W. Eccles asked to lay sewer track on Third West between Second and Third South. Referred to committee on streets with the city engineer associated.

D. P. Thomas et al asked that an ordinance be put in force for changing the name of Green street to West Capitol street. Referred to city engineer.

A petition was presented for the grading of Sixth North street between Fifth and Eighth West, the improvements not to exceed $200.

Lawson and Henry favored the improvement, but were opposed by Rich who insisted that the street committee should investigate the matter.

A motion was made to refer to street superior with authority to do this work from Sixth to Seventh North and from Sixth to Seventh West, costs not to exceed $200.

SPRINKLING.

A communication from the street superior recommended that ten teams be employed with sprinkling carts in the business district and on streets leading to depots. Referred to committee on sprinkling.

APPOINTMENT OF SPECIAL POLICEMAN.

A report from committee on police recommended that the appointment of David Callahan as special policeman without pay be sent to the Mayor for his signature. Adopted.

The same committee recommended that a petition that the mounted police be increased to two men be referred to the Mayor. Adopted.

TAX REFUND.

The sewerage committee recommended that the superintendent of sewerage be instructed to extend the sewer upon First street three and a half rods, and that the tax of R. H. Pierce for the First street frontage be remitted. Adopted.

The sewerage committee reported regarding a refund asked of the board of equalization of money advanced for constructing a sewer on E street. The committee recommended the refund to be made. Laid over.

PLUM ALLEY PAVING.

The committee on municipal laws reported regarding the paving of Plum alley, that if the council thought it desirable on the part of the city to take jurisdiction over Plum alley as a public thoroughfare, they (the committee) considered it proper to accept the dedication. By so doing the city would have to be at the expense of paving the north half of Second South street, opposite Plum alley, and would need that part of the paving tax. Referred to committee on streets.

SEWERAGE MATTERS.

The sewerage committee reporting in the matter of the petition of Hannah Phillips et al asking that the improvements on Second South be removed or that the tax be refunded, recommended that the work remain of the taxes refunded. The matter underwent a brief discussion and was postponed until next meeting.

The committee on sewers reported they estimated the cost of future sewer extensions in district No. 1 at $2.50 per front foot of abutting property, and recommended that future assessments be made at that rate. The committee also recommended that all property owners assessed for extensions since January 1, 1887, are entitled to a rebate of such amount as they have paid in excess of $2.12 per front foot. The committee reported the cost for aging the extensions since 1887 as follows per front foot of abutting property: 1888, $4.03; 1889, $3.37; 1890, $3.12; and including the cost of the Fifth south street main, the pumping plant and the main sewer west of the river. Adopted.

SEWER REIMBURSEMENT TAX.

A motion was made by Wandell that the special retrenchment committee be instructed to bring in a report at the next council meeting and that said committee be empowered to suspend any part of the capital work being done which they, in their judgment, might deem necessary, to place men from on a winter basis, the recommendations to be submitted for approval.

Rich was called to the chair. Moran took the floor and strongly expressed his disapproval of giving any committee power to suspend men from work in any department, and moved to strike out the portion of the report recommending such authority.

Kerrigan moved that it lay over for future consideration, but his motion failed to carry and Moran again took the chair.

Rich disapproved employing men and appointing them to a kind-give fashion for doing nothing, while poor working men were going without employment. He believed that needless expenditure has been incurred in keeping so many foremen in positions.

Kerrigan was in favor of retrenchment. He was opposed to giving employment to men who came here as strangers and who have no intention of making Salt Lake City their permanent home. Let men go in the places they belong to and find employment. He believed in giving work to men who are permanent residents.

Wandell said he was just as anxious as Mr. Kerrigan to give citizens work. The speaker was in favor of retrenchment. He considered this a straightforward business arrangement by which the citizens would be benefited.

Simonds—I am in favor of throwing out some of the furniture of the gravity sewer and would rather give work to those who need employment.

Kelly—I am not opposed to dispensing with those men who need work. I favor a report to be made and presented to the Council that we may know better where to retrench. I favor retrenchment as much as possible, but would have such work done as is necessary.

The following motion was carried: "That the special retrenchment committee report at the next meeting of the City Council the employes they think can be dispensed with in the city government in all departments where ever retrenchment can be made."

An appropriation for $21,000 was passed after which the Council adjourned.

November Weather.

The chief of the weather bureau officers the publication of the following data, compiled from the record of observations for the month of November, taken at this station for a period of 18 years.

It is believed that the facts thus set forth will prove of interest to the public, as well as the special student, showing as they do the average and extreme conditions of the more important meteorological elements and the range within which such variations may be expected to keep during any corresponding month.

TEMPERATURE.

Mean or normal temperature, 43 degrees.

The warmest November was that of 1891, with an average of 44 degrees.

The coldest November was that of 1880, with an average of 36 degrees.

The highest temperature during any November was 72 degrees on November 5th, 1893.

The lowest temperature during any November was 4 degrees on November 18th, 1880.

Average date on which first "killing" frost occurred (in autumn), Oct. 12.

PRECIPITATION.

(rain and melted snow.)

Average for the month 1.43 inches.

Average number of days with .01 of an inch or more, 7.

The greatest monthly precipitation was 5.81 inches in 1875.

The least monthly precipitation was a trace in 1890.

The greatest amount of precipitation recorded in any twenty-four consecutive hours was 1.68 inches on November 18, 1893.

The greatest amount of snowfall recorded in twenty-four consecutive hours (period extending to winter of 1884-85) was 8.7 inches on November 24, 1892.

CLOUDS AND WEATHER.

Average number of cloudless days, 12.

Average number of partly cloudy days, 10.

Average number of cloudy days, 8.

WIND.

The prevailing winds have been from the northwest.

The highest velocity of the wind during any November was thirty-five miles an hour, November 8, 1887.

GEORGE E. BENNETT,
Observer, Weather Bureau.

Funeral of James A. Lowe.

The remains of "Uncle Jimmy Lowe," as he was familiarly called, were laid to rest yesterday afternoon in Mt. Olivet cemetery. The funeral services were conducted by the Masonic fraternity, and were very affecting. Mr. Lowe was well and favorably known in the community during his many years residence in Salt Lake, and he will be long remembered in connection with the local office, for his untiring zeal in securing to settlers their rights.

SAFE AND EFFICACIOUS.

BRANDRETH'S PILLS are the safest and most effective remedy for Indigestion, Irregularity of the Bowels, Constipation, Biliousness, Headache, Dizziness, Malaria, or any other disease arising from an impure state of the blood. They have been in use in this country for over fifty years, and the thousands of unimpeachable testimonials from those who have used them, are their constantly increasing sale, is the irrefutable evidence that they possess all that is claimed for them.

Sold in every drug and medicine store, either plain or sugar coated.

A Sore Throat or Cough, if suffered to progress, often results in an incurable throat or lung trouble. "Brown's Bronchial Troches" give instant relief.
