THE GOVERNOR'S MESSAGE.

The message of Governor Heber M. Wells to the Legislature of the State of Utah is given in full in another part of this issue of the "Deseret News." It is preceded by a summary of its contents, for the convenience of persons who have not time to read the full text. Every member of the Legislature, however, should carefully examine the document, as it conveys much information of value to the law-makers, and many recommendations that they should study with care. EUROPE'S PEACE ARMIES.

[illegible]

... [illegible] cannot fail to lead to [illegible] what the immediate result may be. If it should be supported by the United States and Great Britain, the dream of universal peace would be nearer its realization than ever before in the world's history.

MATAAFA IS KING OF SAMOA.

The "speck" on the horizon which at one time made international trouble possible over the Samoan islands has disappeared, and it seems that everybody is pleased. Mataafa has been elected king, and of course the United States and Great Britain are gratified, since both were desirous that this chief, or some one equally friendly to their interests, should be chosen. Their sympathies in this regard were so well known that those powers were even accused of exerting an influence in King Mataafa's behalf. On the other hand, the Germans were giving ostensibly [illegible] support to Tanumafili, so much so that it was claimed that force would be used if necessary to put him on the throne. But he has been defeated by an overwhelming majority, and the Germans are clapping their hands and declaring that the result is just what they wanted. [illegible] Samoa's affairs should be buried for many years if not for all time.
