Gem's Savings Bank and Trust Company

Does a general banking business, and receives deposits in sums as low as one dollar.

PATENTS

Obtained for new inventions, or for improvements on old ones, for method or other compositions, trade-marks and labels, etc. also, A. Interferences, Appeals, for infringements, and all cases arising under the Patent Laws, promptly attended to. Inventors who have made models or have invented something patentable, can ascertain by addressing the undersigned, that their cases are not patentable, or if patentable, whether it is worth the expense of securing a patent. In case we find a patent can be secured, we make a thorough search, and report the nearest patent, if any, and give our opinion of the chances of obtaining a patent, and the cost. Our charges are not more than those of other responsible agents who do not make any search for invention. Models should be sent by express, not by mail, and should be as small as possible. Send a sketch and description of the invention, and we will examine and report. Address

REJECTED CASES, that have been rejected by the Patent Office, in most cases, can be put through with success, by some other person than the U. S. Patent Department, and, if properly prosecuted, are generally worth from $1,000 to $10,000 to the inventors. We can make close searches, and render opinions promptly, and with fewer exceptions than those who make searching a specialty.

INVENTORS will find it to their interest to send a model or sketch of their invention, when we can ascertain and advise as to patentability, free of charge. All correspondence strictly confidential. Prices low, and NO CHARGE UNLESS PATENTS SECURED.

We refer to Hon. Postmaster General D. M. Key, Rev. Fr. D. Power, The German-American National Bank, to officials in the U. S. Patent office, and to Senators and Representatives in Congress, and especially to our clients in every state in the Union and to Canada. Address

BEAUTY:

OR, THE

Secret of a Fair Face

An Item of Interest to Every Lady who Desires to be More Beautiful than she Now is.

Unfortunately not one woman in a hundred, subjected to the influence of an American climate possesses that basis and starting point of real beauty—a pure and clear complexion.

What nature has thus denied, art must be called upon to furnish.

It can be done; it is done daily. Prof. W. E. Hagan placed beauty within the reach of every unblessed daughter of Eve when he discovered that surprising article known in fashionable circles as the true source of beauty, and called it

MAGNOLIA

BALM

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion.

It conceals all natural blemishes in the most surprising and effective manner.

It removes all roughness, eruptions, pimples, blotches, freckles, and the skin implies power.

It drives away all evidence of fatigue and excitement.

It imparts the blush of youthful health to the complexion a delicacy, purity and charm that no paint, face, and wrinkle cosmetic can impart.

It is the only article of its class that can be used with the most perfect safety and certainty of its effecting the desired result, and is the only one that can make an absolute certainty of it by using HAGAN'S MAGNOLIA BALM, and we know of no other way. It is the cheapest preparation in the world, all things considered, and may be had at any drug store.

Mrs. ELLIS R. SHIPP,

Physician and Surgeon.

OFFICE: Main Street, in the Old Constitution Buildings, opposite Z. C. M. I.

RESIDENCE: Brigham Street, on 7th Ward School Square, one block east and first south door.

Special attention given to Obstetrics and Diseases of Women. d198

ROMANIA B. PRATT,

Physician and Surgeon.

OFFICE—Above Dr. H. J. Richards & Co's Drug Store, nearly opposite Z. C. M. I. Co-operative Store.

Residence—Second door east of Post Office, South side of Street.

Special study has been given to Chronic Diseases of Women, and Diseases of the Eye and Ear. d199

THE WESTERN UNION TELEGRAPH LINE.

Last Night's Dispatches.

EASTERN.

The Postal Convention.

NEW YORK, 10.—The postal convention, to-day, discussed the following questions:

First—"At the time of the original establishment of the post office department as a branch of the government, were its operations intended to include anything beyond the transportation and delivery of correspondence and the dissemination of public intelligence?"

Second—"Since that time, have any circumstances arisen which would justify a departure in any direction, from the principle referred to in the preceding question, or to extend the functions of the post office beyond those limits?"

Third—"Is it in accordance with sound public policy for the post office department to assume or be required by law to undertake the functions of a common carrier, and so to enter into competition with private businesses and corporations engaged in that vocation?"

The Near Rossow.

A St. Petersburg dispatch says: "Twenty-three stone houses, thirty-one wooden houses and seventy warehouses, valued at over 2,000,000 roubles, were burned in Raizin near Moscow."

The Hodgdon Porter Case.

In the Fitzjohn Porter case, to-day, the cross-examination of over five hours was occupied in hearing the testimony of General McDowell. A large crowd was in attendance, and many persons were compelled to stand during the proceedings. Porter's counsel was in command. He had full knowledge of Long-street's movements on the morning of the 29th of August, and had no knowledge of what Pope's policy and plans were. He did not know of the intended battle, except what he inferred from seeing a note from Pope to McDowell, which the latter had. In his possession, but did not produce at the trial. He was very indignant with the counsel for asking him why he did not produce them, and said he had overlooked and forgotten all about them, though one of them, dated 6 p.m. of the 29th, shows that up to that time Porter had not received the 4.30 order. The dispatches were put in evidence, and will be read to-morrow, and the board, after the most important and exciting day's session yet held, adjourned at a late hour.

Mulvey and Carey.

The Strakosch opera troupe gave their first concert this evening in Mulvey's Hall to-night. Mulvey and Miss Carey were most enthusiastically welcomed on their first appearance, and both calls out and encored.

Destructive Fire—A Boy's Presence of Mind.

Just after the 900 employes of R. N. Meyer's cigar factory, 331 East Sixty-first Street, had resumed work this afternoon, David O'Kiefe, an errand boy, whispered to the foreman that the factory was on fire. So successful was the precaution on the part of the boy and the speedy action of the foreman that nearly every one of the hands was safely out of the building before the cause of the retreat was generally known. The factory was soon burned to the ground and the fire extended to tenement houses on First Avenue, burning along the row to Sixty-Second Street and there igniting another block of tenements, all of which were totally or partially destroyed. Loss $92,000; insurance $33,000.

Prairie Fire.

ST. PAUL, Minn. 10.—Advices from Benson, Swift County, report a prairie fire extending over 50 miles square, destroying many farms, with houses, barns, cattle and grain. Many farmers have lost all their worldly possessions and are reduced to a condition of destitution. There will be much suffering this winter in consequence.

Money and Freight Robberies.

ST. LOUIS, 10.—A dispatch from Dallas, Texas, says heavy robberies of money and freight from the Texas and Pacific and Houston and Texas Central railroads have been detected, and that many persons of high business and social standing including officers, conductors and agents are implicated. Arrests are expected to be made to-day or to-morrow.

Arrested for Embezzlement.

Kansas City dispatches say that State treasurer Elijah Gates was arrested there, to-day, on an indictment, found by a special grand jury, charging him with unlawfully deriving benefits from the deposits of public money. Ex-Treasurer Jos. W. Mercer was also arrested on the same charge and for embezzlement. It is expected the trial of these gentlemen will reveal all the operations financial and political, of the alleged treasury ring. The dispatches also mention the probable indictment of John F. Crisp, democratic candidate for Congress, Kansas City district, for acts in connection with this ring.

Who's to Blame?

SOUTH NORWALK, Conn., 10.—The jury, in the *Adelphi* boiler explosion case, find a verdict that "the victims of the disaster came to their deaths by the explosion of a defective steam boiler on board the steamer *Adelphi*, owned by the Columbia Steam Navigation Company, and we find that the said steam boiler exploded because of over-work, and over-pressure, the same being used by a United States station, and not an officer shifting the engine, and persistently used by the attendants in charge after a sufficient evidence of a dangerous defect.

The Indians.

CAMP ROBINSON, Nebr., 10.—Jas. Bates, a rancheman, living between Snake Creek and Running Water, on the Sidney road, arrived here at noon to-day, and said at 11 27 Indians passed within 400 yards of his ranch, going north. Oth their way [illegible]

A courier has arrived from Carlton's command, on Niobrara River, and reports that Carlton, up to the present time, has found no Indians, not even their trail. The Indians are supposed to have scattered on reaching the Sand Hills, some miles east of the Niobrara River.

Arrest of a Stage Robber.

DEADWOOD, D. T., 10.—A man, giving the name of Gough, supposed to be the leader of a gang of stage robbers who robbed the treasure coach on the 20th of last month, was arrested at Fort Thompson, a few days ago, and was brought into Rapid City and lodged in jail this evening. Search was made where the robbers had camped near Pine Springs, and a bar of gold bullion and some rebel, valued at $11,000, was found. Considerable cheap jewelry was found on Gough's person.

Yellow Fever Reports.

FORT GIBSON, 10.—Fever is spreading throughout the country. Total deaths in this township county, 130.

Vicksburg, 10.—Reports from the country continue discouraging. Many new cases are reported from all directions.

Memphis, 10.—Fourteen physicians of the Howard medical corps report 46 new cases.

Dr. H. Sauve will be sent, to-morrow, to Decatur. Ark. Eighteen thousand rations were issued to-day to families, by the citizens' relief committee.

Jackson, Miss., 10.—Col. J. L. Power, grand treasurer, makes an appeal to the Odd Fellows of the United States, for further aid for fever sufferers, to enable him to respond to calls from Meridian, Jackson and many small places and the urgent appeals from the Odd Fellows' relief committee of Vicksburg for the surrounding country.

WESTERN.

China and Japan Items.

SAN FRANCISCO, 10.—The steamer *Belgic* arrived at 12 m. with Hong Kong dates to Sept. 12th and Yokohama dates to the 22d. The difficulties between the foreign Christian missions and native fanatics continue in the province of Fu Kien. Churches and schools have been burned down by the rioters.

There are dangerous mobs in the district of Chusan in consequence of oppressive taxation. Twu hundred thousand peasants threaten to rise at Ningpo. The officials have only a few thousand troops in the neighborhood. Several lives have already been lost in desultory conflicts.

F. S. Huffam, deputy registrar of the supreme court of Hong Kong, has absconded to the Portuguese colony of Macao, with some $70,000 officially in his hands. He was finally arrested and is now on trial.

A proposal is urged to dispense with the English garrison at Hong Kong, and replace it with a Chinese regiment of picked men.

Yokohama.—The annual budget of the minister of finance for the fiscal year, ending July 18, 1878, to July 18, 1879, was issued early this month. The estimated revenue is a little over sixty three million dollars. The estimated expenditure is precisely the same. The finance minister now proposes to undertake the serious task of liquidation at the rate of twenty millions annually, so that if persevered in, will be wiped off in 28 years. Financial outlook is regarded as favorable.

The heaviest rains and floods in many years, fell within the 15th and 20th of September. The rice crops have been greatly damaged, bridges carried away, railway traffic stopped for two days, and a few lives lost. There is no estimate yet as to the amount of injury.

The signs of disturbance among the soldiery, reported by last mail have now entirely ceased.

The American bark *Justin H. Ingersoll* arrived from New York on September 10th. During the voyage, on July 6th, the chief mate, named Gaston, was stabbed and killed by a seaman named Lump, who is now on trial here.

Schools have been established by the Japanese government on Rauin Islands, in the Pacific Ocean.

FOREIGN.

GREAT BRITAIN.

The Afghan Trouble.

LONDON, 10.—Heavy firing has been heard at Peshawur, but it is not known whether the fight is going on between the British and Afghans or Afghans and Khyberees. It is rumored that the Russians have occupied Yarkand.

Russian Retreat Stopped.

A dispatch from Vienna states that Russia has informed the powers of the stoppage of the retreat of Russian troops, and has invited them to join in the energetic representations which Prince Lobanhoff is instructed to make in order to induce the Porte to take prompt measures to stop the outrages upon Christians.

The Anti-Socialist Bill.

A Berlin dispatch says: An agreement entered into between Bismarck and national liberals on the socialist bill has caused much speculation. It is not improbable that important cabinet changes will take place shortly.

Passage of the Russian Troops

A Vienna dispatch says: Russia is still urging Roumania to conclude a convention granting the right of passage for Russian troops through her territory for a minimum period of two years. Count Andrassy has so far, induced Roumania to withhold her consent. The Russian army in Roulcia and Bulgaria still amounts, contrary to the treaty, to 153,000 men.

BRITISH AMERICA.

The Australian Cricketers.

MONTREAL, 10.—The cricket match between the Australians and 22 Montrealers commenced to-day, the latter going to the bat first, making 94 for the Australians, C. Bannerman and Blacklock, when time was called, had made 55.

FRANCE.

More Aid for the U. S. Sufferers.

PARIS, 10.—The municipality of Bordeaux voted 2,000 francs for the relief of the yellow fever sufferers in the United States.
