REACTION IN STOCK MARKET.

Star Con., Tesora and Mammoth Stronger Today.

BEN BUTLER IS CLIMBING.

May Day a Little Softer—Boss Tweed Active—Petro Stiffens Up—Con. Mercur is Weaker.

A slight reaction was seen today in a number of stocks which have suffered declines during the past week. This was especially true of Tesora and Star Con. The former strengthened to 66 today after weakening to around 62 yesterday afternoon. Star Con. started out at 52 and climbed to 55 though it weakened to 52½ on the closing sale. Ben Butler was also much stronger, as high as 11¼ being obtained on the last sale. Boss Tweed was quite strong around 11½, while South Swansea weakened to 69. Sacramento was traded in at 44½, while Petro opened at 16¾ and advanced to 18. Ontario was traded in at $10 flat. Lower Mammoth was active as high as $4.46½. Mammoth sold up to $2.47½, while May Day, which has been sliding up towards the old prices for several weeks, was eased off to 71 today. Nothern Light weakened to 10¾ after opening at 11⅝. Con. Mercur dropped 100 shares at $3.25, while Ajax sold at 98. Ingot was released at 3½, while Yankee Con. was unusually active around 26½. Martha Washington sold up to 18½. Little Pittsburg dropped 1,000 at 2.

MAMMOTH GETS A NEW TRIAL.

Privilege Given by Judge Marioneux at Nephi Today.

FIGHT WITH GRAND CENTRAL

Court's Opinion Was That Judge Higgins Erred in Refusing to Admit Proof on Rebuttal as to Apex.

(Special to the "News.")

Nephi, April 4.—Judge Marioneux today granted a new trial in the case of the Mammoth vs the Grand Central Mining company. It will be recalled that Judge Higgins refused to grant the Mammoth the opportunity to rebut proof given by the Grand Central as to the question of the location of the Apex. Judge Marioneux held that his predecessor had erred in this refusal and granted the new trial as indicated, after which court adjourned until the 4th day of June.

Opinions have been quite freely expressed that the motion of the Mammoth company for a new trial would not be granted, and it was generally thought that the case would go to the higher court on an appeal. The above decision opens the case anew and the recent developments at both properties will probably throw new light on the Apex question when the case comes up for consideration again. Mr. McIntyre, of the Mammoth, is quite jubilant over the decision, and he says he expects to win the case when it comes up for trial. The decision does not present things in quite so favorable a light for the Grand Central as the battle, the first bout of which was so favorable to it, will have to be fought over again as if nothing had been done. It was not expected to weaken the stock greatly owing to the fact that the option calls for the payment of $8 per share. Rather than go to the expense of further litigation it is considered very probable that the parties who have the option on the Grand Central and Mammoth mines, will come together and settle the dispute.

BLACK BESS COMPANY.

Cottonwood Corporation Will Develop 4 Claims This Summer.

Articles of incorporation of the Black Bess Mining company were to be filed with the county clerk this afternoon. The company is capitalized at $75,000, in 300,000 shares of the par value of 25 cents each. The officers are: A. Hanauer, Jr., president; S. H. Lewis, vice president, and J. W. Langley, secretary and treasurer. The other directors are R. C. Chambers, Joseph Oberndorfer, E. C. Coffin and E. W. Genter. The property is located in Big Cottonwood canyon and comprises four claims, one of which is known as the Black Bess, the others being owned by the Oregon company. W. H. Hood has been placed in charge of the property and he intends to start work as soon as supplies can be hauled to the mine. Some very good ore is said to be in sight in the Black Bess claim and the company intends to reach the ore by drifts from the shaft which is now down about 350 feet.

GRAND CENTRAL ASSAYS.

Duncan McVichie Expects to Finish the Examination This Week.

W. S. McCornick has just come back from a trip visit to the Grand Central of Tintic, with the condition of which he expresses much gratification. He did not go below the 900 level, but that level and those above are said to be looking well indeed.

A streak of high grade gold ore was tapped on the 800 level, which has been followed down 15 feet. It shows about $100 per ton in gold on an average. The work of examining the bonanza is steadily progressing under the direction of Duncan McVichie. Several hundred assays have been made and while there is still a lot of work to be done, Mr. McVichie expects to get through his work by the end of the week.

CON. MERCUR LISTED.

The Stock Will be Called on Boston Exchange in a Few Days.

A telegram was received at the offices of the Consolidated Mercur Mining company today from Boston which conveyed the cheerful news that the listing of the company's stock had been passed on favorably by the committee of the Boston Exchange. Everything is now in readiness for calling the stock as soon as the transfer office is ready for business. This will likely be two or three days as the transfer books are now on the way to Boston, where they are expected to arrive tomorrow.

JESSE KNIGHT'S INTERESTS.

Well Known Mining Man is Giving More Attention to Cattle Raising.

Jesse Knight, the well known cattle and mining man, came up from Provo today on business connected with his various interests. Regarding the Uncle Sam mine of Tintic, Mr. Knight says it is not looking quite as well as it did a few months ago. The Humbug has improved and the ore from both properties has been mixed in the five-car lots which have been marketed during the past few months.

At the Rising Sun group, where so much work was done in the attempt to cut the ledge in the lower tunnel, a small force of men is now engaged in development work near the surface.

Mr. Knight is giving more attention to his cattle and land interests now than to anything else. In connection with his sons he is preparing to stock his 32,000 acre ranch in Canada, with 3,000 head of cattle. Part of the stock will be taken from this State, where Mr. Knight has about 1,000 head. The big ranch will be fenced this season with a barbed wire fence and before the next winter approaches several buildings will also be built on the property for the use of the men.

MINING NOTES.

The Grand Central of Tintic had 9 cars of ore on the market today.

Four cars of ore were on the market today from the Horn Silver of Frisco.

Dr. Franklin has returned from the Yankee Con. and reports a change for the better.

The Silver King of Park City will pay its regular dividend of $100,000 on the 10th inst.

The Daly West Mining company will distribute its monthly dividend of $45,000 on the 15th inst.

Manager Weir of the Ajax has returned from camp, but reports no change.

A shipment of cyanides was expected to reach town today from the Horseshoe mine at Fay, Nevada.

The Taylor-Brunton Sampler reported 9 cars of ore from Tintic, 1 from Bingham and 4 from Frisco today.

A car of concentrates was on the market today from the Queen Mill at Bingham, owned by the Butterfield Mining company.

The management of A. W. McCune's Watseca mine in Madison county, Mont., is drifting from the 320 level and pumping about 700 gallons of water per minute.

P. T. Farnsworth returned from the Horn Silver today, but had nothing to say regarding the statements that a number of men had been laid off because of their refusal to board at the boarding house run by relatives of Mr. Farnsworth.

The news that a new trial had been granted in the Grand Central-Mammoth law suit caused a great deal of stir in mining circles this afternoon. The "News" was called up repeatedly to verify the report which reached the street soon after noon. It sent Grand Central stock to $7 per share.

MARKET VERY IRREGULAR.

There Was Eager Buying at Opening With Tendency Altogether Upward.

Railroads Were the Great Feature—Alternately Advanced and Reacted—Some Violent Rebounds.

New York, April 4.—There was eager buying all through the list at the opening which carried prices buoyantly upward from 1 to over 3 points in the most prominent stocks. London buying helped the advance especially in the trunk lines, St. Paul and Louisville, in which the advances were from 2 to 2¼ on running sales at varying quotations. Rock Island sold a point below last night's close and on a parity with last night's figure on simultaneous sales at advanced tendency. There were large blocks taken of Missouri Pacific at an extreme advance of 2⅝. Illinois Central was carried up 5¼ by rapid stages. There were gains of 1 to ½ scattered all through the list of railroad stocks and the high priced industrials and specialties. The only conspcuous exception to the upward tendency was United States Steel stocks, the preferred yielding 1⅜ and the common rising only a fraction. The market continued very buoyant after the opening at further notable advances, but Northern Pacific broke sharply after a fractional advance. The rapidity and violence of price movements during the first hour was bewildering. About every stock of prominence fluctuated wildly and relapses and recoveries of a point or more were frequent. Heavy realizing caused a set-back in the stocks which had the most substantial gains at the opening. Meanwhile the industrials and some of the steel stocks and minor railroads were rising vigorously. Rock Island jumped to 155⅝, which caused the other grangers to harden again. Before the 11 o'clock hour, the market was breaking again wildly in spots. The declines from the best were Rock Island 4¼, Burlington 4⅝, Delaware & Hudson 5, Tobacco 3½, Illinois Central 3½, Northwestern 2⅝, Missoudi Pacific 2½ and a long list of others about two points. There were some violent rebounds again at the end of the hour. Trading became more moderate in volume and prices more stable. Prices worked upward throughout, Burlington rallying 3⅜ to 186⅛, Delaware & Hudson 4½ and the active list generally from 1 to 2½ points. The local traction stocks became buoyant under the leadership of Metropolitan, which rose 3⅝. Stocks of the investment class continued to be absorbed at notable advances over preceding sales. American coal sold 12½ above the last sale, St. Paul and Omaha preferred 10, Northwestern preferred 3¾, New Haven, 2½, and St. Paul preferred 2 points. Colorado Fuel was up 8 points. Outside of the tractions the active list failed to recover to the best prices. The market yielded before noon except for an advance of of 2⅛ in Amalgamated Copper. Bonds were irregular.

The fluctuations in prices became violent and erratic again during the final hour. The heavy profit taking was supplemented by bear drives and sudden drops in prices were followed by quick rebounds. Rock Island rallied 4½, and other stocks, which had been raided, from 2 to 4 points. Colorado Fuel preferred rose 10¼ and others 1½. Liquidation was renewed on the rally, and the market broke again. A flurry in call money aggravated the weakness. Some stocks made lowest prices of the day on this break. The reaction extended to 3 points in some of the trunk lines and grangers. Amalgamated Copper continued to advance an extreme 8⅝ points. The closing was excited and extremely irregular at sudden rebounds in some stocks and with others breaking violently.

CORN MARKET CORNER.

Decline Checked Without Any Effort on Geo. W. Phillips' Part.

Chicago, April 4.—The decline in the corn market, begun Monday and continued yesterday under enormous pressure which threatened to crush George Phillips' part. The young operator bought 200,000 bushels of May corn at the opening and then retired to his office. The pit was jammed, however, with his opponents, who were wildly endeavoring to cover their short lines put out yesterday. Liverpool's market failed to respond to the weakness on this side yesterday and this combined with unfavorable weather in parts of the country and a smaller proportion of contract corn in the day's receipts, frightened shorts and relieved Phillips of any attempt to hold prices firm. May corn at the opening sold from 42 to 43⅝ to 1⅜c higher than yesterday's close, and held firm during the forenoon. A little before noon Phillips again came into the pit but bought only 400,000 bushels of July corn. Many bears were changing their May corn over to July. The fact that tomorrow is a holiday induced some of the covering.

May wheat opened at 72⅝@72½, broke to 71¼ on country selling, but recovered part of the loss.

Oats opened ⅛@¼c higher at 25 to 25⅛ and held steady.

BOSTON WOOL MARKET.

Boston, April 3.—The American Wool and Cotton Reporter tomorrow will say: The week just passed has been remarkable, not only because of the large wool sales which have been made, but because these sales have been made with no quotable effect upon the price in either direction. There is felt to be a certain amount of firmness, due to a refusal on the part of sellers to make any great concessions; but, on the other hand, there is equal determination on the part of buyers not to pay any more for wool than they have been giving for the past few weeks.

The bulk of the buying of the past week has come from worsted mills, and they have confined themselves pretty largely to fine and medium territory. Buyers have included such concerns as the American Woolen company, which has been a large buyer; Arlington mills, Pacific mills and the Wanskuku company. They have bought largely but carefully, with an eye to quality as well as to price. The sales for the week in Boston amounted to 11,325,000 pounds domestic and 160,000 pounds foreign, making a total of 11,485,000, as against a total of 6,997,000 for the previous week and a total of 2,714,000 for the corresponding week last year.

Sales since January 1 amount to 65,126,900 pounds, as against 43,729,000 pounds for the corresponding time last year.
