MINES AND MINING.

Mammoth the Chief Attraction at the Stock Exchange.

QUERY MADE AS TO THE BILL.

The Exchange Will No Doubt Enter a Protest—Mining Notes From Exchanges.

The chief interest of today's mining sale was centered in Mammoth, 400 shares changing hands at substantial figures—300 at $2.10 and 50 at $2.15. The stock was in demand at the latter figure, and had there been offers of it at that price, it would have been published up with a rather reminiscent of a hungry eagle at a load of "raved liver and pumpin."

East Golden Gate stood to the successes of the day and 100 shares were unloaded at 55 cents, while Dolly West could have repeatedly taken at $6.85, but it was not offered at that price, the bulkers of it demanding $6.75. Mayor was quite active in the mining, although no transfers were made and much of the stock could have been disposed of at $7.40 had it been offered at that figure. Dollars was in demand at $15.50.

The unlisted stocks fared better in the variety of selections for some time past. Dalton was in the lead, with Little Pittsburg and Natural Gas a straw for second place. Morgan (Park City) also campaign for recognition.

At the close of the listed call, one of the brokers propounded the query as to whether or not anything had been done by the exchange as an organization in protesting against the incorporation for 50% now pending in the Legislature. "If nothing has been done," said he, "it should be looked into immediately." This remark prompted the suggestion of a number of the sticks that the Legislature will no doubt hear from the Salt Lake Stock and Mining Exchange in a short time.

The closing figures were as follows:

Mining Notes from Exchanges.

Bingham Bulletin: J. C. Anderson, A. W. Hagblom and John Carlson, working a lease on a group of claims in Potosi (or galena) belonging to a Salt Lake company, recently cleared out an old tunnel in one of the claims and began drifting from it north and south, following a vein. In the south drift is opened up twelve inches of good quality silver-lead ore mixed with quartz, and in the north drift is a similar streak of the same character. Ten tons have cut over sixty tons of high-grade shipping ore, and are feeling pretty good.....Owing to the material reduction in smelter charges many properties in this district are paying better than when silver and lead were quoted much higher—a fact which is the cause of a number of mine properties to start up this spring that were idle last year.....The Atlantic tunnel is being driven about eight feet per day, being now in over 200 feet. It is to be run 1800 feet and is aimed to tap three parallel veins to Atlantic ground—the first at 500 feet. These veins have been opened up shafts, which have been sunk to considerable depths, but had to be abandoned on account of water. Water is intended to be tapped by the tunnel, the Atlantic property will be extensively developed. The first vein will be tapped at 500 feet depth.

Nephi Blade: The mining men of Nephi held a meeting in the court house Thursday evening for the purpose of organizing a mining district west of Nephi. The district shall be known as the Farmer Mining district; by-laws were adopted, and E. H. McCune was elected recorder. Parties owning prospects in the new district are doing considerable development work and expect to commence shipping ore in the near future.

Park Record: As summer draws nearer interest in the new mining district on Beaver Creek, above Kamas, increases and a number of Parties are preparing to thoroughly prospect the district as soon as the snow will permit. Some very fine specimens have been brought in from there, and there is no doubt but that there is no doubt but that the mass of mineral lode has not yet been uncovered, and predict that when it is it will show high value.....Park City people shall be demonstrate their faith in the future of the Mercur mining district by making investments both by purchase and by bonding. A fine group of claims was this day bonded in Rock Valley by Park City men, who feel that that part of the district is bound to come to the front in the near future, as the developments are proving that the ore unquestionably extends over that way; in fact, it appears to be believed, it grows better as it travels westward.

Pioneer (Eng.), Feb. 29th: Saturday evening Wm. Sims and Brooks Fortunes returned from the Bardon mine, which is located in Smithwick N. Mex., near the California line. Mr. Sims informed us he worked in the mine and found a very flattering outlook for the property. A five-stamp mill has been put up and is doing the right and day. Some of the ore is very rich in gold, a lot of which, which yield a million per the average runs about ten to the ton. They contemplate sending down another freight wagon before long.

Wonder Gold Mining Company.

This company has just completed its organization with a capital stock of 1,000,000 shares of the par value of $1 each, to wit: G. Cannon is president, Angus M. Cannon, vice-president, Lewis M. Cannon, secretary, John W. Dunsmore, treasurer, P. J. O'Leary, manager and superintendent. The properties of the company form the eastern boundary of De Lamar's Golden Gate group, and also join on the eastern line of the Brooklyn group at Mercur, and are on the dip of the great ore chute which has been developed by about 9,000 feet of drifts on the Golden Gate, upon which it is estimated that at least five million ounces in gold has been already produced and blocked out within a few hundred feet of this property, on trend of these immense ore bodies being directly towards Wonder Group. The Wonder Group consists of the following claims, viz: the Wonder, North Star, Mary E. No. 2, Old Grover, and fractions of the Navigator, containing about 70 acres. Title perfect.

There is one shaft, 100 feet deep now within a steam hoisting plant is being now erected. A double compartment working shaft is being started. Three hundred thousand shares of the stock is reserved for the development of the property and building a mill, one-half of which is subscribed for. Mr. Queary, the manager, is one of the most successful superintendents in the country. He and his associates have made a large cash investment in this, and he will devote his best energies to the rapid development of the great mine. In addition to the cash advances by Mr. Queary and his friends, the management have deemed it expedient to save ample funds on hand to push the work so fast as ores and means can accumulate, and have caused to place on the market a limited number of shares of the treasury stock at the price of 50 cents per share, but reserve the right to raise the price at any time without notice. Messrs. Kenneth Dunnigan and George Downey have been appointed as the sole agents for the sale of this treasury stock.

Special Notice.

Tickets for the complimentary entertainment to the old folks and widows, 60 and upwards, at the Lyceum theater on Wednesday, are going rapidly. The house will seat 800 persons—we shall distribute that number of tickets only. First come first served. The usual courtesies extended on the street cars to the old folks will be omitted on this occasion. Friends of the veterans will kindly interest themselves in seeing after their transportation to and from the theater. Performance will commence at 2 p. m. We stand ready on hand to receive you. This invitation knows no distinction as to race, faith or color; all are welcome whose ages entitle them to enjoy the proferred treat. Tickets at C. R. Savage's from 10 to 4 p. m. Tuesday.

OLD FOLKS' COMMITTEE.

AMUSEMENT NOTES.

Lad Astley is now off at the Grand this week with Mr. Edwards in a leading role. The play should prove a great success.

At the Lyceum, the Two Orphans will be played this week. A special feature will be the free entertainment at the old folks on Wednesday afternoon at 2 p.m. Tickets have been distributed today and will be distributed again by the ex-Mayor at Savage's Art Rooms on Tuesday, March 3rd, between the hours of 10 a.m. and 4 p.m. First come first served.

On Wednesday Palmer will appear at the Tabernacle and on Friday evening and matinee afternoon Rose's band will play at the same place.

There was a big rush for reserved seats to the Rose concerts at the opening of the sale of tickets late morning and D. S. Elliott is handling the tickets at Cowles & Rodgers's store. Popular prices are charged. The center tiers of seats down stairs and the whole gallery are being reserved.

Paderewski's show still proceeding at Calvin's. D. G. Calvin, the local manager, says the demand keeps about up to up.

Tickets for the abernacle shoot's California excursion are being sold for every day. The low rate, $50 for one, sleeping car and board, and the opportunity of making a visit to the "land of Sunshine" is excellent enough, are the inducements.

JEWS OF THE STATE.

Manti school trustees gave a warm welcome to the county teachers on Saturday.

The editor of the Manti Messenger, who has been severely ill, is again at his post of duty.

ROE INSPECTOR SWINGER.

The following communication was received from the county tax collector, John C. Sawyer:

I herewith tender my resignation as roe inspector of Salt Lake county, reason for so doing being that I cannot work for so long and board myself on the wages I am now receiving and I have no reason to believe that I will get my pay. My experience of two years ago leads me to believe that you will do nothing that will give me assurance of justice in the matter.

Accepted with thanks.

MR. LOVEN APPOINTED.

A communication was received from the Roe Keepers asking that Salt Lake county be memorialized that E. S. Loveen be appointed as county inspector. Granted.

The court then took a recess until 2 p.m. to consider the survey question.

MINOR MENTION.

Street cars are not yet prepared to do effective service on the first of March.

Several changes in the personnel of the guards have been made at the state prison.

The early gardener had his offers nipped in the bud by sunday morning's snowstorm.

A stay pole for the street car service was tripped over late morning at the corner of Second West and Fifth South streets.

Remember the old folks' and widows' entertainment at the Lyceum theater on Wednesday. Tickets at C. R. Savage's from 10 to 4 p. m. Tuesday.

It is now unlawful to allow chickens to run at large, and in a few days it will be also exceedingly unsparing to keepers of horses and geese.

There are now 140 prisoners at Wardens Dow's point in the Bill-the-Bible-in-one. Only one is a woman. Two are now serving under sentence of death.

Today was date set for the Utah Water Supply Company, and about $2,000 was distributed among the boys as the second installment for work a short time ago.

On Friday a well known coal dealer was going about with a long face, wishing the thermometer would drop down to the second notch on the ladder.
