TERRITORIAL PARAGRAPHS.

Items of Interest Culled From Various Neighboring Exchanges.

Moab Messenger: Sanpete county has an immense body of sage brush lands which can be reclaimed by the aid of water for irrigation. Why not construct a large canal diverting the entire area from Fairview south? The scheme is feasible and the property would be valuable. The bench land lying east of the Denver railroad would produce tons of alfalfa and crops of sugar beets every year if irrigated. One of the finest opportunities for creating large and lasting business can be found in Utah by getting water in Sanpete Valley.....What about the Denver plan in the minds of some in the city? We need an industry worth up to manufacturing our beets. To do so requires up to date capital. Let some one get a plan matured and see what can be done.

Corinne Utah Press: Seven sugar wagons passed through Corinne Friday evening, en route to Box Elder county. It was part of an train which left northwestern Kansas two months ago to raise money to pay for water by the Sugar Land Irrigation company. Fourteen families were travelling in the train of six hundred the Kansas party. The Kansans were disappointed in finding the greasewood area because of previous reports of year after year, and a total failure of their crops. They had heard of Utah and her wonderful resources, and they abandoned all and started on a long journey toward the setting sun.

Brigham Bugler Thursday: Tuesday and Wednesday Clift's Fort started for salt Lake with a drove of Bar herders. Last year three enterprises drove 1,800 head cattle to Salt Lake markets. This year the number will hardly reach that figure, the total footed up for the year being 1,200 to 1,300. At $20 a head (the price Clift drives would be worth $24,000. Nearly all of these cattle are purchased from stockmen and farmers in northern Utah and southern Idaho. This firm is doing a good business. Two or five hundred cows, recently purchased by Eastern buyers, are being fed at one place near Idaho City. Hundreds of head cattle are being fed in other parts of southern Idaho. Cattle and parts of Box Elder county.....Some one more of Utah's wonderful climate, another for Brigham City's great location, and still another for Thomas Smith's northern hotel architecture. Tuesday, November 13th, he brought a crop of sugar beets to the Bugler office. They had been pulled the day from his out-door patch in the northern part of town. The leaves were large and well flavored.....A multitude—1,000 people hardly frightened a boy driver from a wheelbarrow, narrowly escaping death, and a $500 guitar to the wrecked deal on the ground, in the rear of a take fire starts during the other evening during an out-door political meeting. When the innocent cause up the street it frightened the team Lee Jensen, son of J. M. Jensen, was driving. The horses wheeled around, to be the carriage tongue and dashed down Main street, throwing the lad out near Sauter's dentist's place. Two blocks north the team saw the team and two children, instantly killing one of the boys. Mr. Jensen has recently returned $500 for the horse. It was a joke, and it death caused great sorrow in the family. These practical jokes we don't think it is so much fun to they are found out and made to pay damages.

Park Record: As an illustration of the beautiful fall this section of Utah has enjoyed, and at this writing is still enjoying, it is only necessary to say that the quakeaspen trees and other shrubs on the hills around Park City are having a second growth. Many of them have swelling buds and are on the point of leaving out. It is a fine sight.

Handy Independent: The new school house in Fremont View is nearing completion, and it is expected the school will open on Monday, November 26th, with Miss Lawson as teacher. The building will be dedicated by a social hop to be given some evening of the coming week.

Park Record: The Utah Central has made an improvement on the office that will save much worry and trouble during the Winter months when the snow is deep and drifting badly on the summit. The company has stationed a car and placed therein a telephone, by means of which direct communication can be had with every station on the road, thus affording a quick and ready means of seeing of a snowslide whenever it may be required and keeping the central office posted as to the state of weather on the hill when trains are passing, each conductor carrying a key to the car and being required to report.

Ephraim Enterprise: While going up Wood canyon one day last week Willis Nielson saw an ox falling a wild cat by leaping it upon the back of such a ox stick. While a couple of boys who were standing in front of the team horseshoeing and drawing in admiration in various ways, Mr. Nielson walked upon the beast to be found out when a low well directed blow to the lay dead at his feet. It was found to be of a large species, measuring nearly as high as a common dog.

Coalville Times: A number of the young and enterprising men of Coalville have held a meeting for the purpose of taking the position any steps towards the organization of a savings and loan association, to be managed and controlled entirely as a home institution. About twenty-five signified their intention to identify themselves with the movement. A committee of five was elected to draft a constitution and by-laws, and they will submit the same to the members at the next meeting.

Do Not Like the Darkness.

The inhabitants in the southwestern part of the city who reside near or have owned a lot for the subject of Second West and Fifth South streets after evening falls are not taken kindly to the darkness in North that locality is planned by the idiotic to have the electric light system engineering. The street lamp in question is in the people to that township, and some time it changed to Union to bring equivalent light. It is in vain to the people of the locality, and it is hoped that the matter will be taken up at once. Sometimes there is no other place in the city so in need of light. It is urged that for the future since the future to light the city lamp posts should be placed on a high standard or gauge that would be within reach of the people.

Representatives of the Invincible Gold Mining Company the Opinions that if the City Council were to become a partner with the laws so to the middle of operation of the Invincible, as the whole district, that year it would be enough to pocket more than it and be on terms by the right. Its success Fort mention of that point.

Catarrh

In Its Worst Form

Life Almost a Burden

A Glorious Change Due Solely to Hood's Sarsaparilla.

Mrs. C. King
Geneva, Ohio.

Catarrh is a constitutional disease and there fore it can only be cured by a constitutional remedy like Hood's Sarsaparilla. Read what Mrs. C. King, constantly suffered in the worst form of catarrh:

"I, Hood & Co., Lowell, Mass.:

"Gentlemen—From a grateful heart I write what your great medicine, Hood's Sarsaparilla has done for me. Five bottles cured me of catarrh in its worst form. I think it was only matter of time, when it would have ended in

Bronchial Consumption.

I can honestly recommend it to sufferers. Hood's Sarsaparilla is the best medicine I can find. I am **Well and Happy**, gaining flesh and a new lease of life, and all owing to Hood's Sarsaparilla. I will never be without it. Very gratefully, Mrs. Clara King, Geneva, Ohio.

Hood's Sarsaparilla Cures

Hood's Pills cure all liver ills, jaundice, biliousness, sick headache and constipation. 25c.

Highest Award
FOR
Supreme Excellence,
TO THE
PUTNAM
HOT FORGED AND HARDER FORGED HORSE
NAILS.
At the World's Columbian Exposition at Chicago. A medal and diploma worded "Supreme excellence in material, method in manufacture, and quality of finished product; wearing qualities and smoothness combined with holding power in clinch. It allows the use of very small nails."

There is actually found excessive excellence in these nailing implements in a trade paper, stating that the material, "and quality of finished product," claim Nails of these "standard" qualities, are eighty or ten thousand of the best Nails that come to the market. In their "excellence," it is an example the nail knows to the nail, while their "superior workmanship" in "holding power in the clinch" enables them to lead the world in the highest service nail work.

If you want a "good" nail at times are offered and money saved to the nailer, this is well to state that the officers of the World's Columbian Exposition refuse to allow any other nails to be sold in a small board and that only the "Putnam" nailers were allowed.

How Sharper than a Serpent's Tooth it is to Have a Smoky Stove

That's so! But we can tell you a stove that will not smoke! However, we want to talk to you today about Fire-sets, not Stoves. It may be true that man was made to mourn, but that is no reason why he should submit to the daily annoyance of carrying coal all over the house, when we can put him up a wonderful Magic Furnace, Clover, which will make him feel warm for from four hours to a week's close, to most recent and even suppose that he never felt a warm hump. Try one. We guarantee your correct satisfaction. We also carry a full line of Fountains for the Economic and Famous Kong Furnaces.

Salt Lake Hardware Company,
43 AND 45 WEST SECOND SOUTH STREET.
