TELEGRAPHIC.

FROM THE CAPITAL.

Congressmen in the Dark as to the Date of the Caucus.

PUBLIC DEBT STATEMENT.

Importance of Enlarging the Circulation of the National Banks.—Troops Released.

WASHINGTON, D. C., Aug. 1.—The members of the House now in Washington are still in the dark as to the date of the Democratic House caucus necessary to perfect a scheme of organization. The fate at the House post-office show very few new arrivals. For this reason the contest for the House's offices lacks vitality.

It is impossible that there be a caucus of the majority of the Senate this week. The Senators in the city up to this time are Call, Cockrell, Gorman, Harris, Martin, Mills, Mitchell of Oregon, Pugh, Quay, Stewart, Vest, Voorhees and White of Louisiana.

THE PUBLIC DEBT.

The debt statement, issued this evening, shows a net increase in the public debt, less cash in the treasury, during July of $4,424,075. The cash in the treasury decreased $4,574,722. The balance of the several classes of public debt at the close of business July 31st were:

Interest bearing debt, $865,037,440; debt on which interest ceased since maturity, 2,018,130; debt bearing no interest, $374,062,046; total, $1,241,117,616.

The certificates and treasury notes, offset by an equal amount of cash in the treasury, outstanding at the end of the month were $347,302,501; a decrease of $7,191,329; total cash in treasury, $732,041,707; gold reserve, $80,292,933; and a net cash balance of $18,684,034.

In the month there was a decrease in gold coin and bars of $1,641,869, of silver there was an increase of $2,510,673; of the surplus there was in the national bank depositories, $17,044,000; against $21,920,000 at the end of the previous month.

THE NATIONAL BANKS.

With reference to a New York dispatch about the banks taking advantage of the low price of government bonds to increase their circulation, Commissioner Eckles said this evening that in July the circulation of the national banks increased over five millions of dollars. In the quarter ended July 31st the net increase was over eight millions, and he thinks in this month it will be increased at least that much more. Government 4 per cents are now quoted at $1.05, which is quite a fall from the maximum rate.

Harvey, Fish & Sons, who make a specialty of government bonds, today sent a circular to national bank officers, urging the importance of enlarging their circulation. They said: There is room for over $40,000,000, provided the bonds can be secured for deposits. The banks can perform a service by increasing their circulation, and receive a reward in the shape of large profits. Bank currency is the best which the country can have, because it expands when needed and contracts when not needed. Instead of to the latter case remaining in circulation, to induce foolish speculation, which hastens and intensifies panics, such as we are now passing through."

CAPTAIN CARPENTER RELEASED.

An order was issued at the war department detaching Captain Carpenter and the troops under his command from further duty at the Pagadup Indian reservation.

THE FINANCIAL SITUATION.

A New Element of Relief Injected into It.

NEW YORK, Aug. 1.—A new and unexpected element of relief has been injected into the financial situation. United States bonds have reached such a low figure that the national banks see their way clear to make a profit by issuing circulation against them. An arrangement has therefore been made by several of the more prominent banks to increase their circulation from the minimum limits at which it now stands to such an amount as will materially relieve the present tension. It is estimated that eight or ten million dollars will be added to New York's supply of currency within a very short time. Orders have already been placed with the comptroller of the currency for part of the new bills, and some of the banks have bought bonds preparatory to depositing them in Washington.

The shipment of gold from England to New York by today's steamer reached £500,000. Arrangements are also said to have been made in Chicago for the import of $1,250,000, it being engaged against the forwarding of wheat and produce to England.

The total gold now afloat from Europe for America, most of it due here within a week, is between seven and eight millions.

About the only difficulty the banks now have to contend with, it is said, is the great scarcity of currency.

Corrigan Goes to Rome.

MINNEAPOLIS, Aug. 1.—The Journal publishes a long article in which it asserts, as a result of Archbishop Corrigan's repeated refusals to obey the orders of Papal Delegate Satolli, the latter will go to Rome and lay the matter before the Pope, with the recommendation that a coadjutor be appointed to assist the archbishop of New York. This would mean virtually the removal of Corrigan from the actual management of the affairs of his archdiocese, and the Journal hints that if such action be taken by the Holy see Archbishop Ireland may be the coadjutor.

NEW YORK, Aug. 1.—A morning paper says Archbishop Corrigan has left the city secretly for Rome, the Propaganda summoned him for a personal interview.

A Robber at Prayer.

COUNCIL BLUFFS, Ia., Aug. 1.—The latest scheme in the way of robbery developed here tonight. A man entered a prayer meeting of Free Methodists in the city and completely fooled the entire congregation by using their hands. Charles Hall, who was praying at the time, arose from his knees and grappled with the stranger. A severe tussle followed, and a revolver was discharged. The ball struck a cross worn by Hall and was deflected, doing no serious injury. The robber then fled.

A Bertal Fusilade.

GOSHEN, Ind., Aug. 1.—A mill was fought here in the opera house this evening by La Blanche of Caldwell and Dwyer, champion middle-weight of Cheyenne, for a purse of $500. Dwyer led the fighting, which was fierce and hard, up to the fifth round, when La Blanche assumed the aggressive and severely punished Dwyer for three rounds, when he laid him unconscious with a terrific right-hander on the jaw, winning the fight.

Architects' Conference.

CHICAGO, Aug. 1.—The formal opening of the congress of architects occurred today. The American Institute of Architects elected D. H. Burnham president.

Edison Talks.

ORANGE, N. Y., Aug. 1.—The shot down at the Edison Phonograph works is only partial. Edison today issued the following statement: "The Phonograph works are shut down because we have nearly completed all orders on hand and the proprietor, seeing that the country has resolved itself into a national lunatic asylum, decided to wait until the wave subsided somewhat."

Poisoned at Supper.

WEST POINT, Aug. 1.—Sixty-five cadets were poisoned by something they ate at supper in the mess hall last night. Members of all the companies were stricken, but D company seems to have suffered most. None of them are seriously ill.

Fatal Boiler Explosion.

COLUMBUS, Ohio, Aug. 1.—At Utica last night John Cattle, two men named Bell, and two others named Bowers and Philion were killed and Joseph Sulp fatally injured by an explosion of the boiler of a threshing machine.

Other Gunboats in the Mouth.

BANGKOK, Aug. 1.—The English and German gunboats entered the Menam river today and came to anchor off the city.

Siam is Accommodating.

PARIS, Aug. 1.—The Siamese minister informed the government today that Siam has proposed to give the supplementary guarantee required by France for the fulfilment of the terms of the ultimatum pending the formal settlement of the question involved. The blockade is still in force.

Horses to Be Sold.

SAN FRANCISCO, Aug. 1.—It has been decided by the managers of the Leland Stanford estate to dispose of over a thousand blooded horses from his ranch, a set of famous stallions and high blooded mares.

Another Blow Against Silver.

CHICAGO, Aug. 1.—A Washington special says: Silver is likely to receive another blow before long severer than that of closing the Indian mints to silver coinage. Information from confidential sources says the dissolution of the Latin union is threatened.

Five Days for Silver Deliveries.

WASHINGTON, Aug. 1.—Secretary Carlisle today ordered the acting director of the mint to notify sellers of silver bullion that from and after this date deliveries on sales to the government must be completed within five days of the date of acceptance. The time heretofore has been ten days. It is explained that five days is sufficient time for silver deliveries.

To Close Out.

CHICAGO, Aug. 1.—John Cudahy, of the noted Provision Company has notified the secretary of the board of trade to close out all their outstanding contracts.

Cudahy is largely interested in the North American Provision company and when its failure was announced that of Cudahy was looked for and it was not long to wait till it came. After that the failure of Wright and Hanghey was not unexpected, as they were interested with Cudahy in his deals. Cudahy has been carrying a large amount of lard and has dealt rather heavily in ribs. The sudden Slump in pork this morning caught him unprepared to meet the decline in lard and ribs and he was forced to the wall. It is impossible yet to say how much is involved but Cudahy was a very large dealer and interested in a packing company with a quarter of a million capital. Probably the failure is a heavy one. Cudahy is owner of the John Cudahy Packing company of this city, Louisville and Nashville, but it is said his account was separate from those of the company and there is nothing yet to indicate that it is seriously affected by his downfall. In the rush to cover the contract with heaviest firm September lard plunged down to $6, a loss compared with the opening of $.75. There was a recovery to $6.87. At the close September rib fell to 5.30 against 7.15 at the opening, recovering to 6.22½.

Sarratoga Races.

SARATOGA, Aug. 1.—The first race, six furlongs, selling, 1—Leonardo, 11 McLaughlin, 2; Mallinger, 3. Time—1.16.

Second race, six furlongs, selling, Jack Richelieu, 1; Tigress, 2; Kind, 3. Time—1.16.

Attendance yesterday was the latest, and they are well worth a thorough trial.

An even temperature of 50 degs. is a good one for the winter business.

There will be a boosting for stock show at the World's fair next fall anyhow. Begin to put your cattle ready now.

The American Cotton Oil association adds ten dollars to every prize offered at the World's fair for Columbia. Vol. 1, the last reunion book issued by the Columbian association had reached No. 5,400 in the list of subscribers.

When hogs are first allowed to run out after confinement for the winter, if they have not had an abundance of green food or good clover hay they will sometimes eat so greedily of the grass that it will pack their crops and they become "crop bound." There is but one remedy. Cut open the crop with a sharp knife, remove the hog and sew up the wound. But a hearty feed of cabbage leaves is a preventive of the trouble, and that is better than a cure.

GENERAL FOREIGN NEWS.

The Argentine Insurgents Steadily Gaining Ground.

Russia Wants China to Explain.—Advices from Hawaii.—The Flying Dutchman.

LONDON, Aug. 1.—A dispatch from Buenos Ayres says the revolution continues in the provinces of Buenos Ayres, San Luis and Santa Fe, the insurgents having taken many towns. Much anxiety also results from the conflict that has taken place at La Plata, in which about 600 men participated. The city of Santa Fe is besieged.

The railroads at the head of the revolutionary movement now in progress declare their object is to effect an complete a revolution as that of 1880, and to destroy the surviving elements of the regime of ex-President Colman.

LONDON, Aug. 1.—The Argentine minister has communicated to the press a dispatch from his government at Buenos Ayres, asserting that the revolutionary movements are entirely local. The national authorities are awaiting the sanction of the congress to bring a powerful influence to bear.

NEW YORK, Aug. 1.—The Herald's Buenos Ayres correspondent says: The revolutionists are steadily gaining ground. An attack was begun on La Plata, and the city at Santa Fe is threatened. Rosario has already fallen. Forty towns in the province of Buenos Ayres are now held by the revolutionists. In the province of Santa Fe they are seizing many towns. Notice has been given Governor Gallegos that unless he surrenders the city of Santa Fe tomorrow and gives up control of the province a bombardment will begin.

Russia and China.

LONDON, Aug. 1.—The Vienna correspondent of the News says Russia has resolved to ask China for an explanation of her attitude in the Pamir question, in view of the enormous masses of Chinese troops concentrated in the vicinity of Pamir.

Bismarck Returns.

SAN FRANCISCO, Aug. 1.—Authentic advices from Hawaii state that Minister Bismarck has determined to sail for the United States on August 8th. He will leave office in charge of Chancellor Emmerich of the United States steamship Boston. His report to the President is said to have preceded him.

The Flying Dutchman Spoken.

NEW YORK, Aug. 1.—The British ship Versjean arrived here today and reports having spoken on July 19th, the little boat Flying Dutchman with her single occupant, which sailed from Shelbourn, N. S., July 19th, to cross to Falmouth. Heavy gales crippled the little craft and deprived the occupant of food and water. The Versjean supplied his wants and he put off again to accomplish his purpose.
