Rublee, who has been transferred to the conwho has been transferred to the con-sulate at Havana. The plan to trans-fer the general has been in contem-plation for almost three months. It was fully decided that it was necessary to make the change, and the only question was where Gen. Bragg could be placed without substantial loss to himself, for it is difficult to find in the consular service a position paying as well as this. The official salary of the place is \$5,000 per annum, but there are fees attached, much of which go to the consul general, which swell the total compensation to about \$7,000 a year.
Although it is realized that Gen.
Bragg has been guilty of a lack of

riticism of the Cuban people, in view of the fact that he was not directly responsible for its publication, the president decided to look on his case with a lenient eye. Early In July Gen, Bragg wrote a letter to his wife at her home in this country, in which

he used this language: "Uncle Sam might as well try to make a whistle out of a pig's tall as to try to make something out of the Latin race

The letter was published on July 14. A few days later the Cuban govern-ment asked Mr. Squiers, our minister to Havana. If the quotation was authentic, intlinating that if it were so, Gen. Bragg probably had destroyed his usefulness at Havana. By direction of the state department,

Mr. Squiers called on Gen. rBagg for an explanation. He at once admitted the authenticity of the quota-tion, but held he had a right to write

Chicago, Oct. 9 .- The cost of living has been discussed before the arbitration committee sifting the grievances of the employes of the Union Traction company. Tables, presented in behalf of the men showed that the price of 37 necessary articles had gone up, and 15 decreased, while the street car men have worked at the same wage for 16 years.

The average advance in the cost of of living was given at 40 per cent in five years. Meats showed an advance ranging from 15 to 65 per cent; house rents ran from 40 to 66 per cent; while no estimate could be placed on coal. The men urged that this heavy increase in the cost of living, and the advances made in other trades, should be weighed when the question of giving them a higher wage scale is taken into consideration.

#### After G. A. R. Encampment.

Washington, Oct. 9.-The three ac-tive candidates for the honor of entertaining the G. A. R. at the next annual encampment are Saratoga Atlantic City, and San Francisco. There seems to be quite a sentiment in favor of choosing a city between the Ohio and Mississippi rivers, and it is said that the encampment may go to neither of the three cities named if a city in the middlewest activaly nucleas its claims. middlewest actively pushes its claims, The leading candidates for command-er-in-chief are Gen. Stewart of Penn-sylvania, Gen. John C. Black of Illi-nois, Col. McElroy of Washington, and Gen. Daniel Sickles of New York. Gen. Stewart is thought to have the lead at present, though Gen. Black's friends claim about an equal number of dele. gates pledged. For senior vice commander the race apparently lies be tween J. M. Smith of Ohio, and H. M. #### TRUE FOOD Always Cures Dyspepsia.

Wrong food brings penalties. A lady in Lone Tree, Okla., found this out. After suffering for years with dyspepsia, she says:

"Many times I could not eat any-thing; sometimes I drank a little hot milk, at other times the lightest food distressed me so that death would have been gladly welcomed as a relief. I was weak and listless and unable to work for want of strength.

Two years ago a dear friend earnestly recommended me to try Grape-Nuts as she had found it a most valuable food. I commenced to use it immedi-ately and the benefit I received in an incredibly short time was almost mar-velous.

Words cannot express the joy and thankfulness I felt when I found I was relieved of that dreadful distress from indigestion that I had been experiencing after each meal. After continued use, health and
