TELEGRAPHIC.

CURRENCY SCARCE.

One of the Principal Subjects of Discussion in New York.

PREMIUM OFFERED FOR GOLD

An Abundant Supply of Currency at the Sub-treasury. — Clearing House Certificate Issued.

NEW YORK, Aug. 7.—Aside from the meeting of Congress and its possible action on the silver question, together with its probable effect on business in general and the stock market in particular, the principal subject of discussion today was the continued scarcity of all forms of currency, notes and specie. In fact, according to well informed bankers, that was the most serious question of the day. The money brokers today were paying as high as 1 to 2 percent for currency, and were getting as high as ½ per cent for it in big lots.

One peculiar feature today in connection with the scarcity of cash was that the money brokers were bidding from ¾ to ⅞ of 1 per cent for gold to arrive, nevertheless that the rate of foreign exchange today did not warrant the importation of gold. Sight sterling was in demand today in consequence of the offering of a premium for gold.

At the sub-treasury today it was said that there was an abundant supply of currency on hand, which the banks can have in exchange for its equivalent. The clearing house took communication issued $1,015,000 gold certificates today making the total amount now outstanding $85,000,000.

GOLD IN THE TREASURY.

The Reserve Daily Increasing—Customs Receipts Decreasing.

WASHINGTON, Aug. 7.—The gold in the treasury is daily increasing. It stands today $103,291,000, or $2,291,000 above the reserve. The net balance in the treasury, however, from the treasurer's statement issued today shows a decrease, attributable largely to the falling off in customs receipts.

Repeal Seems Sure.

NEW YORK, Aug. 7.—The World's Washington correspondent has polled Congress upon the proposed silver legislation. One hundred and forty-three representatives favor repeal, eighty-three declare for a substitute and nine will not talk. Twenty-two senators are for a substitute and twenty-two will not talk. Three senators declare against repeal of the Sherman act. Many members of both houses who won't talk will undoubtedly vote for repeal. A large number of those who want substitutes are for free coinage or are against the demonetization of silver.

GREAT CONFUSION.

The Lady Managers Hold Another Interesting Meeting.

CHICAGO, Aug. 7.—For four hours this afternoon the lady managers had another hot wrangle over the trouble which grew out of Mrs. Hale's remarks about Mrs. Meredith Saturday. Tears were tears, blows, stamping of feet and great confusion generally.

Mrs. Meredith precipitated the row by reading a report from her committee, of which she is chairman, and Mrs. Hall is secretary, stating that every member of the committee had signed a letter to Mrs. Palmer, asking that Mrs. Hall be excused from further service on the committee.

Then followed trouble. One parliamentary question after another was flung at the chair, until even the man who sits as parliamentary expert was adviser Mrs. Palmer, was bewildered. As the debate grew heated, a large number of outsiders crowded into the room and seemed to take keen enjoyment in the proceedings.

None of the many propositions made succeeded in muzzling the gauntlet and the meeting finally adjourned, with the ladies in a very ruffled frame of mind and the question of the day unsettled.

At a meeting of the national commission today Commissioner Goodell of Colorado precipitated a lengthy and heated debate by a resolution reducing the salaries of Commissioners Gt. Clair and Massey, members of the council of administration, to $2500 a year. Now they are getting $500 per month.

H. Brenzis, accused by the Swiss World's Fair commissioners of embezzlement, from the Geneva exhibit, was discharged today, the Swiss consul, Hallinger, declining to prosecute.

AMONG THE RAILROADS.

Business Before the Directors' Meeting at Boston.

OMAHA, Neb., Aug. 7.—The eyes of every Union Pacific employee, from general manager down, will be directed to Boston tomorrow, looking for the action of the board of directors called in extraordinary session. Among other things the directors will consider the issuance of $5,100,000 sinking fund bonds, which mature next month. The report that Oliver W. Mink will make to the board will also receive attention.

An impression that the recommendation that Mink will probably make will take the form of a decided reduction in wages actively prevails about headquarters.

WORKING DAYS REDUCED.

SAN FRANCISCO, Aug. 7.—The Southern Pacific railway today issued an order reducing the working days of all shop employes from six to four. The entire shop force, numbering over 1500, will hereafter be laid off Fridays and Saturdays. It is said the order will save the Southern Pacific $100,000 a month.

THE NEW YORK CENTRAL.

NEW YORK, Aug. 7.—Chauncey Depew is authority for the statement that the New York Central will begin a policy of retrenchment Monday. Four trains each way between New York and Chicago will be abandoned.

A RECEIVER APPOINTED.

NASHVILLE, Tenn., Aug. 7.—Alfred Cox of Louisville was today appointed receiver for the Louisville, St. Louis & Texas railway by United States Judge Lurton, upon application of Post, Martin & Co., New York.

AN ILLINOIS CENTRAL DIVIDEND.

NEW YORK, Aug. 7.—The Illinois Central has declared a dividend of 1½ per cent in cash on the capital stock, payable September 1, 1893, to the stock of record August 31st.

FREE COINAGE.

The West and South Against the East.

CHICAGO, Aug. 7.—Colonel A. C. Fisher, Colorado, delegate to the silver convention, has remained in this city in consultation with delegates from all sections of the country, perfecting plans to urge Congress to give the million free coinage of silver and some measure of justice to the debtors and producers. He stated to a press reporter that a determination had been reached to use every possible argument to convince the East that it was to the interest of all classes to remove silver and give the country a proper per capita circulation which is to be done, he said, if the East persisted in removing the volume of money, which would enslave the West and South, that a combined effort would be made by those sections to wipe out the protective tariff and legislate every dollar which served in aid of the Federal or Confederate armies, their widows and orphans, and to enact a graduated income tax for that purpose.

A Comet on the Sun.

SAN FRANCISCO, Aug. 4.—Professor E. S. Holden, director of the Lick observatory, telegraphs the Associated Press as follows: Two Lick observatory photographs of the sun, taken about 4 p. m. yesterday, Pacific time, by C. D. Perrine, show an object like a comet on the sun's disc. If any observer has a photograph or a drawing of the sun at that hour the observatory will be glad to see copies of them.

Silver Purchases.

WASHINGTON, Aug. 7.—The offers of silver today aggregated 350,000 ounces, and of this amount 21,000 ounces were purchased at 70.75c and the same price tendered for the remainder.

A Town on Fire.

HARRISONVILLE, Del., Aug. 7.—The town of Gumwhill, Md., is on fire, with every indication that it will be entirely destroyed. The fire department from Salisbury, Md., has been called on. The origin of the fire is unknown.

A New Line to Europe.

TOPEKA, Kan., Aug. 7.—Governor Lewelling today appointed Silas Rathbone, Benjamin Hillman, W. Jackson and Tipps Bogard, Dalton vice-consul at Kansas City, commissioners to Chicago to confer with the representatives of foreign governments attending the World's Fair, in the interest of steamship transportation to Europe by way of the Gulf of Mexico.

Indians Killing Deer.

DURANGO, Colo., Aug. 7.—From La Plata City comes the report that the Southern Ute Indians are slaughtering deer in that vicinity just for their hides. They leave the reservation with impunity and refuse to desist in their massacre upon game when told to by the settlers. Six Utes killed twenty deer Friday in two hours near La Plata and left most of the venison to rot on the plains, merely taking the hides.

To Succeed Blatchford.

NEW YORK, Aug. 7.—A report was current in this city today that the President had practically decided to nominate William B. Hornblower to fill the vacancy on the United States Supreme court caused by the death of Judge Blatchford.

Chinese to be Deported.

PORTLAND, Or., Aug. 7.—In the case of the twenty-eight Chinese held on the steamship Royal Netherlands, United States Commissioner Deady this afternoon decided that under sections two and six of the Geary act, eighteen were entitled to land and the remaining ten must be deported.

GENERAL FOREIGN NEWS.

Considerable Excitement in the House of Commons Yesterday.

Parliament's Loss by the Stoppage of Silver Coinage—Anarchists Excluded—Cholera Reports.

LONDON, Aug. 7.—There was considerable excitement among the conservative members at the opening of today's session of the house of commons. The report stage of the home rule bill was reached at an earlier hour than was expected and Balfour, who had an important amendment to offer to the bill was not present to present it. The conservatives were very desirous of having the amendment submitted. George Dalby, conservative, requested to be permitted to act as a substitute in offering the amendment.

Speaker Peel ruled that at this stage substitutes could not be allowed. A number of new clauses were then proposed by other members of the opposition, but the speaker ruled them out on the ground that one notice had not been given of their submission.

The moment stood upheld as they saw the report sweeping through with lightning speed. Their fright was stayed when James Park Smith (liberal unionist), after having eight new clauses proposed by him ruled out, moved that the boundary commissioner under the bill be instructed to inquire as to the better division of the Irish electoral districts.

The debate on this motion was taken up and thus gave the opposition time to breathe. Conservative and liberal unionists whips were at once dispatched in search of the absentees to summon them to immediate attendance at the house.

Balfour and other members of the opposition appeared in the house in time to take part in the debate on Smith's motion. Eventually the motion was defeated by a vote of 195 to 152.

Smith moved two further clauses dealing with elections in Ireland. After debate each clause was rejected.

INDIA AND SILVER.

The People Unable to Find a Market.

LONDON, Aug. 7.—In the house of lords today, the Earl of Northbrook, for some time governor general of India, called attention to the existing obstacles to the importation of manufactured silver from India, arising from the compulsory Hall marking law in England. He said that the silver in the hands of the people of India was estimated to amount in value from $1,000,000,000 to $750,000,000. Owing to the stopping of the free coinage of silver by the Indian government, the people were unable to find a market for their metal, and were continually carrying more. The addition of the Hall mark law in England, together with free trade in articles manufactured from silver would, he declared, mitigate the evils brought about by the stoppage of coinage.

Civil in Brazil.

LONDON, Aug. 7.—A cablegram from Buenos Ayres states that Governor Costa of the province of Buenos Ayres has resigned and fled to Colonia from La Plata. In his farewell message to the legislature he charged the national government with abetting the revolution and supplying the rebels with arms.

Anarchists Not Anarchists.

PARIS, Aug. 7.—Twenty members of the Universal Socialist congress, prior to meeting by a great deal of excitement. First there was a heated debate on the question whether the anarchists and independent socialists should be invited to attend. A resolution was carried to admit delegates only from societies recognizing the necessity of the organization of labor concurrently with political action.

The adoption of this resolution, which was tantamount to the exclusion of the anarchists, led to a great uproar. The avowed anarchist delegates positively refused to withdraw, and several of them had to be ejected by force.

Another French Sensation.

PARIS, Aug. 7.—A sensation has been caused here by the publication of an article in which M. Dupuy, a former official of the detective service, declares that Jibot and Leonet, detectives, connived at the escape of Artus, the Panama lobbyist.

Cholera Reports.

VIENNA, Aug. 7.—Cholera is spreading in Roumania and Galicia. Several cases have been reported in Lemberg, the capital of Galicia.

ROME, Aug. 7.—Alexandria is officially declared to be free from cholera and the epidemic is decreasing in Naples.
