MINING, BUSINESS AND STOCKS

FORENOON ON MINING EXCHANGE

Uncle Sam Consolidated Displays Considerable Strength During the Regular Call.

COLUMBUS CON. ON OPEN BOARD

Stock Advances to $2.28 and Was in Big Demand at the Close—Quotations and Sales.

The total forenoon sales on the floor of the Mining Exchange today amounted to the transfer of 10,278 shares, for which was paid the sum of $4,879.07.

During the regular call there was displayed quite a spirited demand for Uncle Sam Consolidated, which closed stronger.

On the open board Columbus Consolidated caused quite a lot of spirited bidding, but the brokers only succeeded in bringing out 700 shares, the first lot bringing $2.23½, while the last sold at $2.28. Lower Mammoth began with the transfer of 100 shares at 18 and advanced to 20½, the closing sale price.

Little Bell continued strong in the bidding, but the stock being closely held, it is difficult to induce anyone to loosen up, even at present figures. The developments in the mine are so encouraging that a higher market for the stock is anticipated.

The closing quotations and sales were:

Ladies Only.

It Is Women Who Need Most Relief From Little Irritating Pains and Aches.

Dr. Miles' Anti-Pain Pills are for women.

Woman's delicate nervous organism tingles to the least jarring influence, and some ache or pain is the result.

The remedy is at hand—
Dr. Miles' Anti-Pain Pills

They act most marvellously on woman's nervous organism, and relieve and cure the pains to which she is a martyr.

Headaches, neuralgiac pains, monthly pains, and all kinds of pains disappear, as if a gentle hand had lightly soothed them away. Dizziness, Rush of Blood to the head, Toothache, Backache are all cured by these "Little Comforters."

Cured without danger of disagreeable after-effects; cured quickly; cured without unnatural action on liver, stomach, or other internal organs.

Dr. Miles' Anti-Pain Pills please the women, and the children take them because they are easy to take and soothe all their sufferings.

"For years I had spells of sick headache, at times suffering untold agonies. I could not endure any excitement. Going to church, and even visiting, brought on these terrible spells. I tried numerous remedies without relief until I tried Dr. Miles' Anti-Pain Pills, and they have cured me. When I feel symptoms of sick headache I take a pill and ward off the attack. When I am tired and nervous, a pill soothes me."—MRS. SARAH WATKINSON, Blairstown, Ia.

Price, 25c a box. Never sold in bulk.

AJAX ANNUAL.

Company Marketed 5,077 Tons of Ore During Fiscal Year.

The annual meeting of the Ajax Mining company was held yesterday afternoon in the office of Thomas Weir, the result of which was the election of the old board of directors, which organized as follows:

President, Thomas Weir; vice president, H. G. McMillan; treasurer, L. H. Farnsworth; secretary, J. M. Burt; these with Charles Reid, W. F. Colton and John Weir, Jr., comprise the board of directors.

President Weir's report showed that the company had marketed during the year a total of 5,077 tons of ore, carrying average values of 326 ounces gold, 8.85 ounces silver per ton, and 3.57 per cent copper.

These shipments have paid all expenses of development work, of which a little more than 1,200 feet has been done, have steadily reduced the mortgage indebtedness until now only $5,000 remains to be paid, and there is now in bank, after paying all current bills, a surplus of $4,500.

Ore has been taken from every level of the mine on which the work had been prosecuted, some good new ground has been opened up and in the opinion of the management the property presents the best showing that it has in several years.

REVIVAL OF AN OLD CAMP.

Operations of U. S. Mining Company at Eureka, Nev., Attracts Attention.

The old camp of Eureka, Nev., judging from present indications, is going to enjoy a decided revival. With the United States Mining company thoroughly entrenched there the future of this once famous district looks bright again.

In San Francisco yesterday the annual meeting of the Eureka Consolidated was held, and the presumption is that the deal through which that property passes to the United States company, received ratification.

But the Rocco-Homestake, a majority of the stock of which was tied up by the big mining and smelting concern several months ago, is one of the most important of the several deals made in this noted Nevada district.

The Rocco contains some big bodies of lead ore and of a grade greatly desired by the smelting companies operating in the Salt Lake valley. The mine is shipping regularly and paying dividends.

Of the movements of United States officials the Sentinel of Eureka says:

J. Fewsen Smith, a mining engineer, arrived from Salt Lake Monday and is now engaged in making maps of the underground workings of the Eureka Consolidated and Richmond mines on Ruby hill.

TARIFF ON ZINC.

American Operators in Mexico Will Ask Congress for Relief.

El Paso, Tex., Oct. 17.—With the increasing inability of the state of Missouri to supply the zinc demand of the United States, the importation of ores from Mexico is increasing, and with this increase the miners of the sister republic are discussing the matter of duties. They want the duty taken off the the zinc ores to enable them to be imported on an equality with silver, copper, and gold, and with this idea in view, they are going to send a delegation to Congress this fall to ask for modifications of the tariff law and will also have a big delegation present at the American Mining congress in this city on Nov. 14.

J. M. Buchanan is in the city from Sonora, and discussing the matter he said the miners of Mexico were in earnest in their intention of asking to have the present tariff on silver and lead ores revised. Lately the matter was brought to the attention of the authorities at Washington and the position taken that lead-silver ores should not be subject to the same rules as lead ores alone, and the treasury department is now looking into the matter.

Mr. Buchanan states that a number of American miners in Sonora are arranging to send a delegation to Washington to urge a revision of the present rules, and to have an exception made in the case of the former class of ores and have the law on the subject clearer and better defined.

Mr. Buchanan adds that if the desired object is accomplished it will be a great help to the American operators interested in Mexico and enable them to work a number of properties that cannot be operated at present to any advantage in cases where they are shipping the ore to the United States.

Mining Congress Delegates.

El Paso, Tex., Oct. 17.—Among the first lists of state delegations sent in for the American Mining congress to meet here on Nov. 14 for a week's session, is that from Michigan, the great copper and iron state 2,000 miles from here.

The governor has named a delegation from prominent men, first exacting a promise from each that he will be in attendance. The gathering is considered of great importance to the mining industry of the country, and, that the delegates from his state should attend, was considered of paramount importance by the governor in naming them.

Other states are fast sending in their lists of delegates and many of them will be headed by their governors, especially the states of Sonora and Chihuahua, Mexico, Texas and the territories of Arzona and New Mexico.

NO DIVIDENDS FROM MONTANA.

Directors Suspended Payments Indefinitely at Board Meeting Held in Tonopah.

PREST. KNOX'S FUTURE PLANS.

Is Going to Do a Lot of Development Work—Stock Has Suffered Some Declines.

A bulletin from San Francisco over the Pollock wires during the day announced that the directors of the Montana-Tonopah Mining company had passed a resolution indefinitely postponing the posting of further dividends.

The meeting was held in Tonopah yesterday, which was the first gathering of the board chosen at the recent annual stockholders' meeting.

It is the evident intention of President Knox and his supporters to carry on a vigorous campaign of development for awhile and not undertake the paying of dividends until the company is better prepared to keep them up regularly.

In San Francisco Saturday last, in anticipation of the action of the directors, 10,000 shares were sold in one lot at $2.50 per share, and a perfect avalanche of it came out at even a less figure than that.

LETS A CONTRACT.

Manager Craig Arranges to Extend Upper Tunnel 300 Feet.

The campaign of exploration at the Kennebec mine in Big Cottonwood canyon is to be pushed more vigorously than ever.

Manager Craig, after making a thorough trial with a patent gasoline drill, has decided the machine is not a success at the Kennebec and has let a contract to some experienced miners to extend the upper tunnel, where all energy is being centered at the present time, 300 feet.

It is the intention of the company, probably early next year, to install a power plant, which is very much needed.

PARVENUE TUNNEL.

Adit in Utah Apex Property is Now in Six Hundred Feet.

The work of extending the Parvenue, or main tunnel into the heart of the mountain on Utah-Apex ground in Bingham is progressing favorably. The length of the adit is now about 600 feet. Ultimately, it will be 3,000 feet long and will become the avenue through which all the ore broken in the mine will be brought to the surface and thence forwarded to the smelters.

TO U. S. COMPANY'S MINES.

What Eureka and Palisade Engineers Are Doing at Eureka, Nevada.

Special Correspondence.

Eureka, Nev., Oct. 15.—A party of engineers in the employ of the Eureka & Palisade railroad are now engaged in completing the survey of a line of railroad from the present terminals at Eureka to Ophir hill, where some of the mines recently taken over by the United States Mining company are located. This extension will be about four miles in length. It is believed the road will be extended to Hamilton, where the Rocco-Homestake mine is situated at no distant day.

Tonopah Ore Shipments.

The ore shipments via the Tonopah railroad for the week ending Oct. 13 were as follows: Tonopah Mining company, 630 tons; Montana-Tonopah, 220 tons; Belmont, 115 tons; Midway, 66 tons; Tonopah Extension, 475 tons; West End, 33 tons.

CONCENTRATES.

P. W. Madsen, manager of the Century mine of Park Valley, has gone to Montana.

W. J. Lawrence went up to the Scottish Chief mine at the head of Big Cottonwood today.

Acting Manager C. E. Allen of the U. S. Mining company, returned from Eureka, Nevada, today.

The ore and bullion settlements reported late yesterday by McCornick & Co. were as follows: Crude ore and concentrate, $20,500; base bullion, $36,400.

At a meeting of the stockholders of the Halifax Tonopah Mining company held yesterday the capital stock was increased from $1,500,000 to $3,000,000. New pumping equipment is to be installed and the mine subjected to a vigorous campaign of development.

C. E. Mayne, a brother of Capt. A. H. Mayne, came in from Joplin, Mo., the fore part of this week and expects to make this camp his future home. Mr. Mayne is a mining man of many years' experience, having spent the past 15 years in the zinc mines in and around Joplin. While as yet he has not seen much of the district he is very favorably impressed with it and thinks there is a great future before it.—Goldfield Review.

A deal of no small magnitude, which has been on tapis for the past 20 days, and which is supposed to be a profound secret at this time, was "accidentally" tipped to a Goldfield Review man recently. It is none other than the optioning of 542,000 shares of Jumbo Extension stock by Albert S. Watson and T. G. Lockhart to an eastern syndicate. The stock is optioned at approximately 25 cents a share and the option runs for 60 days. Ten thousand dollars were paid was, the balance, 125,500, to be paid at the time of the expiration of the option.

Cures Chills and Fever.

G. W. Wirt, Nacogdoches, Texas, says: "His daughter had chills and fever for three years; he could not find anything that would help her till he used Herbine. His wife will not keep house without it, and cannot say too much for it." 50c. Sold by Z. C. M. I. Drug Dept. B

HARD TO KEEP THE MARKET UP

Opening Very Dull, Depression in London Having a Very Depressing Effect.

METAL STOCKS GENERALLY FIRM

Lower Rates for Call Loans Had a Beneficial Tendency—Bonds Irregular.

New York, Oct. 17.—The opening trading in the stock market was very dull. Some of the specialties made small gains, but other portions of the list were affected by the depression of the London market. Anaconda sold at an advance of 4⅝. Pressure relaxed against special stocks and the entire market developed an advancing tendency, which, however, did not reach significant proportions in the active list outside of Amalgamated Copper. Most of the metal stocks were decidedly firm, but there was some inclination to market U. S. Steel preferred. Central of New Jersey recovered its dividend and 2½ additional on immensely large transactions. Wisconsin Central preferred gained 2. Minneapolis and St. Louis 1¾ and the Kansas & Texas, Reading first preferred, Toledo, St. Louis and Western preferred, Amalgamated Copper and Republic Steel suffered to 1½. Reading second preferred and Hide and Leather preferred receded 1.

The lower rates for call loans helped the market and the coalers made conspicuous movements. Central railroad of New Jersey advanced 5½, Delaware & Hudson 3½ and Reading, New York, Ontario & Western, L. & N., Illinois Central, Northwestern, New York Central, Northern Pacific, Steel Foundries and People's Gas 1. The rise in Amalgamated Copper reached 1⅝. The effect on the general list was moderate. Minneapolis, St. Paul and Soo Ste Marie lost 1 and Union Bag preferred 1¾.

Bonds were irregular at noon.

Some holders of the high priced coalers were content with the record prices prevailing and the offerings caused a setback of 1½ in central of New Jersey and Delaware & Hudson. Other stocks were sympathetically easier but there was no evidence of concerted selling. Central of New Jersey rallied again to 6½ over last night.

Speculative operations outside of the coalers and local tractions were of a nominal character scarcely enough being done in the remainder of the hour to keep quotations fresh. Buying of coalers slackened after Reading reached 153. Prices were lower all around at 2 o'clock.
