The revising committee is pegging away at the House Journal. No very glaring errors have so far been found, but numerous comparatively insignifi-cant errors have been corrected. That Representatives Axton, McGregor and Chief Clerk Steele have not been let-ting the grass grow under their feet is evident by the fact that of the sixty days' minutes, fifty-nine have already been corrected. But the worst is yet to come. The sixtieth day was really four days, and with three session a four days, and with three session a day at that. It was then that the bills were piled up knee-deep on the House table, and all of these have to be traced through their various proceedure and final passage. It is doubtful, therefore, if the revising committee will complete its work this week.

SENATORIAL ASSOCIATION Beveridge and Kearns Get On Well Together-Will Take Outing.

The Washington correspondent to the St. Louis Globe-Democrat writes the

following to his paper: Strange affinities in some mysterious Strange amnities in some mysterious manner develop among senators. The scholarly Lodge, of Massachusetts, and Pitchfolk Tillman, of South Carolina, are great friends. So strong is the tle that when Tillman wanted the St. Louis World's fair bill to carry his Charleston appropriation, Lodge told him he would stay with him to the For some time after the polished talented Beveridge entered the Senate he was an odd one. He apparently found no congenial spirit. He seemed to care to cultivate nobody, and nebody cultivated him. It is different now Beveridge has found his senatoria chum. As usual, the case is a friend-ship of opposites. The senator in whom the Indiana genius has discov-ered comradeship is the new man from Utah, Kearns. While Beveridge was going through college and winning fame as a brilliant orator, Kearns was prospecting on a grubstake in the Rockies and the Sierras. Beveridge burned the midnight oil over dead lanburned the midnight oil over dead languages. Kearns carried a sack of flour, a flitch of bacon and a pick into the wilderness. About the time that Indiana awoke to the intellectual merits of Beverldge, Kearns struck it rich in abandoned workings of an old mine. Beverldge is famous, but brain-weary. Kearns is on Easy street, a United States senator, in search of a good time. The two senators are to spend a vacation together. Beverldge is goa vacation together. Beveridge is going to Utah to join Kearns. They wil take a wagon, saddle-horses and a camping outfit and plunge into the marvelous country southwest of Said Lake City. If the mood for the wild life lasts, they will go through to southern California, from 800 to 1,000 miles. Both are looking forward to the first genuine outing of their lives

mence at an early date.

The first meeting of the board of directors of the San Pedro, Los Angeles & Salt Lake Railroad company was held in the offices of United States Attorney C. O. Whittemore at 10:30 this morning.

The stock was represented by T. E. Gibbon J. Ross Clark, E. W. Clark, W. S. McCornick, Reed Smoot and C. O. Whittemore. J. Ross Clark of Los Angeles presided at the meeting. The meeting was in session for nearly an hour, during which time considerable business was transacted including the appointment and confirmation of a number of officials, the selection of offices for the company in Salt Lake and the passage of the by laws of the com-pany. After the meeting Mr. Clark stated that work would be pushed on the road, and that surveying parties would be sent out from this end of the proposed line at an early date.

COMPANY MEANS BUSINESS.

Mr. Gibbon and Mr. Clark will remain in this city for another day, af-ter which they will return home, doubtlessly feeling that during the last two days of their visit to Salt Lake much has been accomplished in the direction of setting at rest any lingering doubts that there might have been in the breasts of some of the residents of this State regarding the sincerity of the enterprise Contrary to the rumor that has been prevalent in some quarters that the road would terminate at the sugar and oil properties owned by Senator W. A. Clark in southern California and would not be extended to Utah, the road will be pushed right through to Sait Lake as an independent line. As far as the sugar lands, or any other lands owned by Senator Clark in southern California, are concerned, the route mapped out by the projectors of the company will not come within ten miles of them at any point in Califor-nia. Just what route is to be taken nia. Just what route is to be taken in Utah is at the present time uncer-tain; from obvious reasons the directors are not talking on that subject.
The company is experiencing
in several cases in California some opposition from property holders regard-ing the right of way, undoubtedly the company will have the same experience in Utah and Nevada, but it is not going to anticipate such things until it has secured the major portion of the right of way here. When this has been done then the public will know just which

route the new line will take. In the meantime the company has shown its sincerity by filing its articles of incorporation in Salt Lake City, se-lecting offices here and asking for terminal facilities, the donation of which will be decided by the voice of the public at the polls next November. The attendant fees and revenue stamps attached to the documents cost the company a cool \$7,500, while close upon half a million has already been spent upon construction, steel and ties for the new road with the prospect of heavy orders in the same direction in the near fu-ture. Such is the status of the big rallroad project to connect Salt Lake City with San Pedro.

OFFICERS APPOINTED. After the by-laws had been approved at this morning's meeting the appoint-ment of the following officers was indorsed by the directors:

General Manager-R. E. Wells. Auditor-F. K. Rule. Engineer-Hy Hawgood.

First Assistant Engineer-H. M. Mc-Cartney. General Counsel—T. E. Gibbon. Assistant Secretary—C. O. Whitte-

The offices of the San Pedro, Los Angeles & Salt Lake Railroad company were also selected and a lease signed with W. S. McCornick for several rooms adjacent to the offices of C. O. Whittemore on the fourth floor of the McCornick block. For the present the representatives of the corporation in Salt Lake will be personified in C. O. Whittemore and H. M. McMartney, who will occurs the offices selected. occupy the offices selected.

### ARTICLES FILED.

Long-Delayed Documents Perfected Yesterday before Secretary of State.

The articles of incorporation of the San Pedro, Los Angeles & Salt Lake Railroad company which were filed late yesterday afternoon are, to all intents, and purposes, the same as pub-lished in the "News" on November 23, with but two exceptions. The name has been changed by adding the words San Pedro to the title of the original proposition, also the life of the company has been extended to 100 years; otherwise the papers are identical with the text published on the date named. The capital stock is \$25,000,000, of which \$2,501,600 is subscribed and fully paid up.

purpose of the company is to build a line which is set forth as being estimated at a total of 1,100 miles divided into the main line from Salt Lake to the coast, also a branch to the Deep Creek country, another to Cedar City, the absorption of the Los Angeles Ter-minal road and the building of several small branches in southern California. The line is to pass through the counties of Salt Lake, Utah, Tooele, Juab, Millard, Beaver and Iron in Utah; Lincoln county in Nevada, and San Bernardino, Riverside, Orange and Los Angeles counties in California. The company has the right to purchase other lines and a special clause is also inserted in the articles to secure fran-chinses in Lincoln county, Nev. W. A. Clark and R. C.
