THE BOGUS COUNCILMEN

Expect to be Unseated by the Territorial Supreme Court.

HALL ELECTED CITY ATTORNEY.

The Paving, Guttering and Joint Building Questions Discussed.—Other Business.

Mayor Scott returned from California yesterday morning and presided at the regular session of the City Council last night. The following members were also in attendance: James, Hall, Pappas, Cohn, Lynn, Noble, Arm, Strong, Wohlenhaine, Heath, Kerrick, Spafford, Pendleton, Pemberton, Anderson and Pickard.

PETITIONS.

Policeman J. J. Roberts asked to be commissioned for damages alleged to have been sustained to his team, wagon and harness by a city gravel bed falling on them. Committee on claims.

Charles Jonchere asked for permission to erect a fruit stand opposite the Rio Grande Western depot on Second South Street. Committee on license.

Andrew Gelhardt et al. asked that Oscar Elson be appointed special policeman. Granted.

William Thompson asked for relief from defective drainage at 129 south Second West Street. Granted.

J. W. Goldthwait et al. asked to have Sixth South Street graded between Ninth and Tenth East streets. Committee on streets.

Charles H. Taylor, through his attorney, asked that the city purchase from him a strip of land 3 x 41 rods between the city and the military reservation, known as Third Street. Committee on public grounds.

The Union Pacific Railway Company asked that Henry Wenzel, James M. Cochran, Hugh Feeney and G. D. Edgar be appointed special policemen to protect its property. Granted.

Samuel Galeozzi et al. asked that an order be issued by the council compelling the Rio Grande Railway Company to grade and gravel Sixth West Street from North Temple to Fourth North Street. Committee on streets.

John W. Jones and Fred J. May asked for permission to pile building material at 44 and 56 st. of First South Street for 90 days. Committee on public grounds.

John T. Burkle asked to be allowed to pile building material on Seventh East Street between Third and Fourth South Streets. Committee on public grounds.

W. D. Gale asked permission to pile building material in front of 129 West First South Street for thirty days. Granted.

Israel and William C. Jennings asked for a corrected deed to part of lot 6, block 67, plat A. Referred to the city attorney.

L. Cassady et al. asked that Eighth South Street, between Third and Fourth East streets be graded. Committee on irrigation.

E. W. Taylor et al. asked for better police service in the southeastern part of the city. Referred to the city marshal.

The Board of Education asked that a sewer main be laid on Second West Street far enough north to allow connection to be made with the Fourteenth District school building.

"A FAULTY JUNIOR (?) BILL."

A. McDonald represented that on the morning of March 26th of the present year, one James Mitchell intercepted him on East Temple Street by seizing the bridle of a horse that he was driving at the time, and that after remonstrating with him and vigorously applying a horse whip to him, he was arrested by Policeman Randolph and taken to the City Hall and fined $10, while his assailant was nonsuited. This was entirely wrong and seemed to be the exercise of that discretion which measured the ability of the victim to pay. The information of the machinery of "such a justice(?) mill" in the manner mentioned was a violation of law, and ought to be investigated. Committee on police.

APPOINTMENT CONFIRMED.

Watermaster J. M. Harvey reported that he had appointed E. S. Multer as deputy watermaster for the Fourth Precinct. Confirmed.

OFFICE ROOMS RENTED.

City Engineer Dennison reported that he had rented and removed his instruments and office fixtures from the City Hall to the Deseret National Bank building. Adopted.

MAPS APPROVED.

The city engineer reported that maps and profiles of the Meeking and Fleming subdivisions had been made in accordance with law and asked for instructions regarding the same.

ASSIST DOG TAX.

Joseph Oliver, dog tax collector, reported the collection of $237 on seventy-nine dogs, for the month ending March 31. Adopted.

The city recorder reported the publication of ordinances with intention to curb and gutter First East Street. Received and filed.

CEMENT MACHINE, ETC.

The city engineer reported that the cement testing machine recently purchased by the city had been received and was in good condition, and recommended that it be paid for at once. Adopted.

PETITION DENIED.

The committee on irrigation reported adversely on the petition of L. R. Sharp et al. to have the ditch on Roper Street lowered from West Temple Street to the Jordan River. Adopted.

FREE COW ORDINANCE TO BE REVIVED.

The committee on sanitary regulations to whom was referred the petition of S. H. B. Smith, with reference to keeping more than three cows within the corporate limits of the city, recommended that the ordinance relating thereto be put in force at once. Adopted.

STREET SPRINKLING.

The street sprinkling committee reported as follows: Your committee on sprinkling respectfully report that the district created by ordinance at the last meeting of the Council covers thirty miles of streets both sides. We estimate the cost of sprinkling the same for the season will be $30,000, of ten cents per front foot on the property abutting on the streets within said district. Adopted.

FROM THE WATERMASTER.

Watermaster Harvey submitted the following report of expenditures in his department during the quarter ending March 31:

[illegible]	[illegible]
Carpenter	[illegible]
Jacob Smith, [illegible]	[illegible]
Fitzpatrick, [illegible]	[illegible]
Fitzpatrick, [illegible]	[illegible]
Fitzpatrick, [illegible]	[illegible]
Total	[illegible]

Received and filed.

FROM THE CITY ENGINEER.

The city engineer reports needed that the sum of Ripple Rice, for $162.90, be paid. Adopted.

The same officer reported that owing to unfavorable weather, he had been unable to complete his estimate of the cost of waterworks for the Capitol Hill and the Ivy bench, and he was granted further time.

The same officer reported that he has arranged for right of way for the Carey's Cutoff sewer, as follows: With Rice & Lewis for $125, with M. Benson, forty rods in E. B. Wells, for $5. Confirmed.

FROM THE COMMITTEE ON STREETS.

The committee on streets, to whom was referred the complaint of W. Kirkham and others residing east of the Jordan River, in regard to their having no police or fire protection, reported that the matter complained of could not be remedied at present. The committee recommended that the petition of J. W. Hallock, asking that Fifth North Street be graded, and also that the petition of E. E. Duffin asking that First Street, at the corner of Second, be graded, be granted. Adopted.

SIDEWALK CROSSINGS.

The committee on streets offered a resolution authorizing the member to publish notice of intention to construct sidewalks in the following districts:

District 3—Both sides of Third South, between West Temple and Third West.

District 4—Both sides of Third South between First and Second East. The material to be asphalt. Adopted.

The same committee offered a similar resolution providing for sidewalks on both sides of Third South, between East and West Temple, also both sides of Third South, between East Temple and First East, the material to be flagging. Adopted.

IN MEMORY OF REJECTED COUNSEL.

Councilman James then offered the following resolution, which was adopted:

Whereas, Our city attorney, owing ill health, and by the advice of his physician, finds that it will not be safe or prudent for him to continue his labors as city attorney, he therefore has tendered his resignation, and

Whereas, The retirement of our esteemed fellow citizen, Hon. S. A. Merritt, from the office of city attorney, presents a suitable opportunity for expressing the esteem in which we hold him as a faithful and courteous officer, therefore, be it

Resolved, That the City Council accept the resignation with regret; therefore be it

"Resolved, That the thanks of the City Council and citizens of Salt Lake City are due to Hon. S. A. Merritt for the able and impartial manner in which he has uniformly performed his public duties and that he carries with him on leaving the office the regret and good wishes of all who had occasion to transact official business with him."

PAVING ORDINANCE PASSED.

The ordinance "levying the tax and for the assessment of property on both sides of State Street, from the south line of South Temple Street to the north line of Fourth South Street, for the purpose of paving said street," was taken up and passed.

The estimated cost of the improvement is $87,138, and the tax levied against the abutting property is $14.50 per front foot, and the amount is instructed to levy the assessment. One-tenth of the total amount levied against each lot becomes delinquent within fifty days from the approval of the ordinance, and one-tenth each year thereafter until paid in full.

The ordinance levying the tax and for the assessment of property on both sides of State Street, from South Temple to Fourth South, for the purpose of curbing and guttering said street, was then taken up and passed. The estimated cost of the improvement is $11,116, or $2.15 per front foot on the abutting property. The tax is to be paid in the same way as for paving.

BALLOT STUFFING.

Mr. Hall—I move that the election of the City Attorney be proceeded with.

Mr. Pickard—I nominate Mr. W. C. Hall.

Mr. Noble seconded the nomination and the result of the ballot showed eighteen votes for Mr. Hall. This of course proved that some one had been guilty of ballot stuffing, and on motion of Mr. Pickard the member was instructed to cast the ballot of the Council for Mr. Hall. This was done and the gentleman declared elected.

HALL CONFERRED THE INDICATION OF OFFICE.

Mr. Pappas then moved that the committee on the Joint city and county building be empowered under the authority heretofore made with the county.

Mr. Pendleton—I object to any such proceeding, and move that an entirely new committee be appointed.

Mr. Hall—I am not a candidate for reappointment on that committee. For one I decline the nomination. One reason for doing so is that my right to a seat in this Council is in litigation, and the legality of the business I have transacted, and would be called upon hereafter, if I should, I am here questioned, and as the Territorial Supreme Court is about to meet and may, next week, decide to unseating me, in that event, of course, another man would take my place and the information in regard to the joint public building obtained by me would be lost. For this and other reasons I decline to act on the committee in the future.

Mr. James—I think this declination to act by Mr. Hall is entirely unnecessary. I am in favor of his reappointment.

Mr. Pendleton—With all due respect to the gentleman who comprises this committee, I must and do enter a most solemn protest against their reappointment. If this matter is put into new hands we will have quicker and better work.

Mayor Scott—If the matter was left to me I should certainly appoint the old committee, unless they positively declined nomination.

Mr. Hall—Well, I for one positively decline.

Other members of the Council appealed to Mr. Hall to withdraw his resignation, but he again refused, and in such emphatic language as to make himself plainly understood.

Messrs. Anderson, Lynn and Spafford were then elected, only Mr. Pendleton voting no.

MORE DELAY AND EXPENSE.

Mr. Parsons—The County Court has for several days been considering the advisability of appointing committees to Denver, and perhaps further east, to pick up public buildings, and I move that the Council explain some one to represent the city and accompany the committee.

Mr. Pendleton—I must object to this proposition also. If it is carried out it will prove the most ridiculous piece of work the public believe with reference to a mission being sent by certain parties to convince the members of our sister counties that it is necessary for us to be an expenditure of money that the city cannot well afford.

The motion carried, Pendleton voting no. The following committee was selected from voters:

APPROPRIATIONS.

The following appropriations were made:

[illegible]	[illegible]
[illegible]	[illegible]
[illegible]	[illegible]
[illegible]	[illegible]

Adjourned until Tuesday evening next.

TELEGRAPHIC NEWS.

THE ANSAN MASSACRE

Rumors Somewhat Vague and Doubtful.

LONDON, April 1.—A dispatch to the *Times* from Calcutta says: The fugitives' stories of the Manipur massacre are vague. It appears that a sudden attack was made on the residency on the night of March 23rd. The report that the ammunition was exhausted and that Commissioner Quinton gave the order, "Brave old men," appears of doubtful authenticity. It is not beyond hope that the party is still entrenched, and has been joined by Cowley's force of 200 men, and Maxwell and Grant's 60 men from Tamma, neither of which forces has been heard of. The *Times'* correspondent at Rangoon says: Commissioner Quinton was captured near Mow, where a narrow strip of track traverses the dense jungle. The lives of the prisoners, according to the fugitives, are not in immediate danger.

ESCAPE OF MRS. GRINWOOD.

CALCUTTA, April 1.—It is officially announced that Mrs. Grinwood, the wife of F. St. C. Grinwood, British political agent at Manipur, in company with Lieutenants Gurdon, Bolleau, Butcher, Woods, Lugard and Colvert has arrived safely at Lashipur with Cowley's detachment. Several other British officers are held prisoners at Manipur.

ALL SAFE BUT ONE.

SIMLA, April 1.—Six hundred Ghoorkas and Cowley's missing detachment arrived at Lashipur, a place route from Silchor to Manipur. It is believed that all the members of Chief Commissioner Quinton's staff are safe, except Brackenbury.

THE LEPROSY SCARE.

The Afflicted Chinamen Will be Hunted Up.

OTTAWA, Ont., April 1.—Medical men detailed to investigate the cases of leprosy recently discovered at Victoria, have pronounced it of the Oriental type. Immediate steps will be taken to hunt up the afflicted Chinamen and return them to China. It is stated that within the past year the scourge has made great headway in the Pacific provinces, and that it has reached a point that will imperil the settlement of British Columbia, unless the government take immediate steps to wipe it out.

Brickmakers' Strike.

PHILADELPHIA, April 1.—Because of the reduction of 10 per cent, in their wages, 500 brickmakers struck today. The strike will involve 3000 men.

Financial Crisis at Genoa.

PARIS, April 1.—The *Journal des Debats* says that Genoa is threatened with a financial crisis, and that a large and influential shipping firm has already suspended.

Bulgaria Procures Guns.

BERLIN, April 1.—The Cologne Gazette says that the Bulgarian government has made a contract with the Krupp works for a large supply of war material to strengthen the Bulgarian frontier.

American Securities Weak.

LONDON, April 1.—The stocks are dull. American securities are weak in consequence of the recall of the Italian minister at Washington.

Additional Restrictions on Immigration.

WASHINGTON, April 1.—The act passed at the last session of Congress imposing additional restrictions on immigration goes into operation today.

Little Decrease of The Public Debt.

WASHINGTON, April 1.—Owing to heavy disbursements during March it is estimated that there has been a slight decrease in the public debt. The expenditures were mainly on account of the refunding of the direct tax, the settlement of Pacific railroad claims, the balance relate claims, etc.

The National Real Estate Congress.

BIRMINGHAM, Ala., April 1.—The National Real Estate Congress which has been in session here for two days, has adjourned to meet on the 10th of next November, at Nashville, Tenn.

Midway Looking Up.

A correspondent (Leo Hamill) writes from Midway, Wasatch County, Utah, under date March 24th, as follows:

Easter has brought a nice big egg for the people of Midway. In unusually quick response to an urgent summons, ably signed petitions by our citizens the Postoffice Department at Washington has granted us the long-sought for boon of a daily mail from Heber. In lieu of our slow tri-weekly postal connection. The new service goes into operation on Wednesday.

In a couple of weeks the public free school will close, having been open for three terms, with three teachers and an aggregate of 240 pupils. There have been many absentees owing to bad weather, ugly roads and ill health; but now things are all on "the mend," and spring work will soon begin in good earnest. We have good hope for a fair crop, as the water supply is plentiful.

NEWS IN A NUTSHELL.

The Pocatello City Council has fixed the price of liquor licenses in that city at $1000, payable in advance.

The Evanston, Wyo., News has passed into a new management, but it will continue Republican.

Denver is the goal-mover of a project whose outcome is a railroad from the City of Mexico to the coast.

Queen Victoria recall-it is the color in the regions of Pa., on yesterday, March 31, last, it would, the fire is only smouldering.

The Dutch people consume nine ounces per head, USA the people of any other country.

On the day April 1st, 1891, the new S. L. C. M. I. building in Salt Lake City was first opened for business.

A New York grand jury indicted a number of prominent citizens recently on the charge of bribery, among the indicted was Chauncey M. Depew. He was called out by Comptroller Fassett.

The Rev. T. J. Bryant of Little Rock, Ark., attempted a bed lodge that he was the Messiah. He attempted to convert a real woman. He is now confined in a lunatic asylum.

Philosophers say that 40 per cent of the Germans committed suicide, 10 per cent of the French, and one per cent of the Britons. It looks as if Britons drew the long straw a little too much in his estimate.

At a Democratic rally in Peoria, M. A. Kaiser, of the Peoria Herald, said he worked with the People's party last year, because there was no Democratic ticket, and the People's party was better than the Liberal.

The highest locality in the United States nobles is Bloomington, Illinois. Quite recently a man in that city divided $20,000 between his children. They took the money and then put him in the workhouse. The old man had better have held on to the reins.

The Carson (Nevada) Appeal says there are many of the men who were elected to the Nevada Legislature who ought to graze a gaunt, lean man in black tacks in the penitentiary, and that many of those who aspired to party honors and honorably were thirsty, successes and pelagies than justice.

Lord Mayor Savory has delivered a speech in London which is found to consist in part of an extract from Spurgeon's sermons. The Lord Mayor says quite truthfully that he had never seen the sermon, and he unhesitatingly whines he could say so much for the unprincipled hireling who wrote the speech for him.

Are we to have cheap sugar in future? The sweet article goes on the free list on the day, April the 1st. Thousands of tons of sugar have been kept in bond for the past few weeks, awaiting this day, when it can be taken from the customs offices free of duty. Under this arrangement sugar can be delivered in Salt Lake City at 45 to 50 per 100 pounds. Utah, it is estimated, consumed in 1890, $1,500,000 worth of sugar.

In Detroit a sleep-fasting match opens on the night of the 15th inst., at a museum in that town. A discussion arose some time ago that a human being could not do without sleep for a period of 168 hours. One lady, a Mrs. Jones of Ohio, has entered the contest. A railroad watchman named Flynn has also entered. If this man wins all the existing opinions as to the soporific achievements of railroad watchmen will be upset. There are eight contestants in the field, and the Judges are three well known doctors.

Mountain Home (Idaho) Bungo says that the best steers sold by Geo. Harvey and Al Loveridge to Mr. Clark grossed them $40 per head. This is not so much as was realized a year ago, as those sold at that time averaged $52 per head, but it will be remembered that last winter was a very severe one, while this winter was mild and open, and very fair feed was left on the ground up off the range all any time. But at the price paid, $40, a very good profit is made from the sale and not only on the best steers, either, but from the hog feed in them.

Speaking on the New Orleans tragedy, the Boston Transcript says: "It is pitiable to see the governor of a great state like the Italians citizens in their defiance of the majesty and supremacy of law. They all claim that the victims Italians were killed because the jury would not convict, and yet harm has come to the jury, directly or indirectly. The whole affair is but further evidence of the fact that New Orleans "does not appreciate the principle upon which our whole civilization is based," as the Post well says. There is something infinitely wrong in Louisiana, as well as in New Orleans."

A doctor was determined to cure his patients of a bad habit. They have that if they stopped him in the street there would be no hope for them. One day he met a man driving along, and one of his patients stopped his wife and said, "Oh, doctor, I have such a pain in my side, can you give me anything?" The doctor looked rather disgusted and said, "Shut your eyes and put out your tongue." The silly patient did so. The doctor instantly lashed the horse and left the fool with his tongue out before a crowd of people.

Rider Haggard, the novelist, and his wife went to Mexico last fall in search of a lost child. They invested a good deal, by cause and sage, in Vera Cruz they wound up their wanderings a few weeks ago. They arrived in Mexico the first week in New York. While waiting Mr. Haggard amused himself by taking a sail in a coasting schooner. Meantime the steamer arrived, and Mrs. Haggard embarked for New York. When Rider returned his wife was gone, but he did not kill himself, but came on to New York and found his wife in a hotel there.

The Los Angeles Herald says that some days ago a Frenchman who lives at Pasadena was astonished to see one of his best cows giving apparently lying in front of the barn. The animal by there inert, with open eyes, oblivious of everything. The man called a veterinary surgeon, who could not diagnose the case, and a butcher was sent for to bleed the animal. He was some time in arriving, and when he did come the cow was found sitting in a haystack, but with legs a little uncertain. An investigation followed, and it was found that the cow had eaten copiously of the refuse at a neighboring winery. This refuse consisted of grape skins and stems, had fermented and induced a state of intoxication.

Paris has a lawsuit in the way of uniqueness in criminality. The subject is a young woman who has married forty-three husbands and so indited all but one, within three hours after the ceremony was performed. Her name is Eveline Lust, daughter of an English farmer, she married a Frenchman about six years ago. He died about a month after marriage leaving her heavily in debt. She was twice in Paris, she resorted to the marriage trick. She advertised for a husband of quality, stating that she owned 1,000 francs. She got suitors by plenty. After selecting a victim she then worked on him, getting proposals and profusions of affection in abundance. She always erased the second to get married. Three hours after the ceremony, the groom found himself alone in the hotel, all the valuables, presents and cash gone with Eveline. She would go back at Paris, change her name, her residence, and her appearance, but remains the marriage trick. She was caught at last by a jilted paramour. She has fortyfive Frenchmen now bearing around her which a specialist may there forms frog-eaters and one cash, gentlemanly English-woman.

DRESS GOODS.

EVERY DRY GOODS HOUSE KEEPS DRESS GOODS, BUT scarcely a house in America can show the collection of superb things we are prepared to offer this Spring. They are strung along from New York to Salt Lake, and SOMETHING NEW IS ARRIVING DAILY. The purchases of six past seasons would not equal the selections of this season's line, and Ladies cannot form the faintest idea of how elegantly and tastefully they can dress, except by calling and examining our choice stock of French Novelties and the other artistic effects in our Dress Goods Department.

We shall show a line of French Challies, the patterns and colorings of which are pronounced works of art.

Our Combination Plaid Robes are the most tasteful, at a moderate price, ever produced; and about two hundred patterns of European Novelties, of which no two dress patterns are alike, are something to be proud of.

The Wool Plaids embrace colors never before attempted, and, together with the patterns, are simply immense, and in styles suitable to all ages.

Our Black Goods stock is very complete, in which we are showing many novelties that are offered at the very low prices we place on Henriettas, Serges, Cords, Diagonals and Twills.

WASH DRESS GOODS.

THE TERMS APPLICABLE TO OUR WASH DRESS GOODS are handsome, pretty, sweet. These three styles of beauty are all embraced in the choicest line ever offered in any one house. The cream of all importers and manufacturers are collected in this one grand display.

We load with the great European Novelty, Korah Moire, in printed goods, a new weave made from Egyptian Cotton and Combed Yarns, combined with the Moire effect, producing a richness only to be found in the highest class silks. Every house advertises Scotch Ginghams and Zephyrs, and show more ugly than pretty patterns, but with us it is different; we have an immense assortment, and every pattern is a beauty, the colors rare and rich, producing effects never before witnessed in this class of goods, and are perfectly fast.

We are also showing stylish patterns in American Ginghams.

The old stand-by, Printed Sateens, is largely represented in all qualities, and the new Canton Cloth, made by Simpson & Sons, deserve special mention for its richness of design.

The patterns in Prints this season are so very pretty we must speak of them.

WHITE GOODS and EMBROIDERIES.

WHITE BLACK GOODS IS THE ONE NEW THING UNDER the sun; you want to see them; they are in Embroidered Flouncings, India Linens, Nainsook Checks, Lace Effects, Cords and Stripes. Ladies of more advanced years can have all the comfort there is in wearing a white muslin dress and yet be dressed in black. You should buy them early, the novelty being so great, there are doubts of there being enough to supply the demand.

We have a more extensive line than ever in White Embroidered Flouncings in forty-five-inch goods for Ladies, and twenty-seven inches for children. You will, of course, see Flouncings in other stores, but if you want style combined with cheapness, you will buy them of us.
