George Cutler	27,900
S. C. Wilson	29,[illegible]

SALARY RAISED.

The committee on teachers recommended that the salary of Miss A. E. Buchanan, of the high school, be increased from $80 to $100 per month, and stated that the lady was doing excellent work. Adopted.

BILLS ALLOWED.

The committee on finance recommended that the bill of A. Stiefel for $15.60 for freight be paid. Adopted.

SANITARY HEATING AND VENTILATION.

The committee on sites and buildings reported that in the case of the Jackson school the surface water is within six inches of the surface, and that the system of toilet rooms if connected with a cesspool only, would be totally useless, and recommended that the building be healed and ventilated by the fan system, and that the same system of dry sanitary cremating closets be substituted for water closets. This would save the board $119. Laid over for one week.

The committee on sites and buildings reported, recommending that the contract drawn up by the attorney of the board for extra foundation required for the Jackson school amounting to $[illegible] be entered into. Adopted.

Laid over for one week.

MISCELLANEOUS.

Young moved that in the matter of the compensation to the Salt Lake Building and Manufacturing company, for stoves furnished to the Washington school, be referred to the committee on sites and buildings and the finance committee, with power to order the issue of the warrant upon the proper execution of vouchers and such other papers as may be necessary. Adopted.

Baldwin moved that the teachers' pay rolls submitted by the superintendent and approved by a majority of the committee on finance be paid after the teachers have signed a contract with the board, which contract shall first be approved by the committee on teachers. Adopted.

The matter of making a new room in the high school building, to be used as a drawing room, was referred to the committee on sites and buildings, with power to act.

Adjourned for one week.

ADDITIONAL TELEGRAPH.

THE WORLD'S FAIR.

Preparations for the Dedication Getting On.

CHICAGO, Oct 13.—The work of decorating the buildings and otherwise actively preparing for the World's Fair dedication is fairly under way. The police are making strenuous efforts to get possession of all the streets and place them in confinement until after the ceremonies. Arrangements are being made along the route of the parade for the establishment of temporary hospital stations, etc.

There is much comment over the announcement that the Illinois National Guard will not participate in the great parade. This is owing to the fact that no provision was made and no money is available to pay the cost of transporting the several regiments outside of Chicago to this city. The Chicago newspapers think it looks poorly to see only a portion of the state represented and therefore decline to appear in the parade unless their rural comrades are brought in. A movement is on foot looking toward the raising of the necessary amount by subscription.

A TRIENNIAL BARBECUE

Thirty Thousand People Take Part in the Feast.

QUINCY, Ill., Oct. 13.—The largest crowd that ever gathered here assembled today, on the occasion of the triennial democratic barbecue of Illinois, Missouri and Iowa. It is estimated that nearly 30,000 people took part. Many beeves and sheep were slaughtered and roasted in outdoor ovens for the replacement of the multitude. Four grand stands were erected in as many points at once. The principal speakers of the day were Hon. Adlai Stevenson, William Springer, Senator Roger Q. Mills, General John C. Black, ex-Commissioner of Pensions.

Meeting of the Pullman Car Company.

CHICAGO, Oct. 13.—At the annual meeting of the Pullman Palace Car company today the old directors were re-elected. The usual quarterly dividend of $2 per share was declared. The revenues last year were $19,012,-[illegible]. The disbursements were $9,751,-[illegible], leaving a surplus for the year—$9,260,579. The total assets are $[illegible], and the liabilities are $11,251,-[illegible].

Trouble in India.

CALCUTTA, Oct. 13.—Trouble has again broken out among the Chins in the northern Chin hills. A body of Chins entrenched themselves at a point six miles from Fort White and fired upon the escort of a number of native officers, killing seventeen of them. A small force under command of Captain Caulfield was sent out in search of the bodies for the purpose of burying them. The force found that the Chins had destroyed a village and were laying in ambush only two miles from Fort White. The knowledge prevented another massacre.

An Interrupted Fight.

Burt Revier and Charlie Lennard, of Dunlow, Minn., were both in love with the same girl, and they agreed to settle the matter of rivalry by a fight in the presence of the young woman. She was watching the battle from a hedge, when the lovers took fright and ran, throwing her out and causing fatal injuries.

Prodigious Fall of Rain.

In the twenty-four hours from 5 a.m., July 26, to 5 a.m., July 27, the rainfall at Minneapolis was 7.86 inches—the greatest fall of water ever recorded by the weather bureau, and probably the heaviest ever known here.—Minneapolis Tribune.

WHY THE DESERET NEWS SHOULD BE SUBSCRIBED FOR IN PREFERENCE TO ANY OTHER PAPER.

1.—It is the organ of the Church of Jesus Christ of Latter-day Saints, and the authorized medium through which its views, wishes and instructions of the Church Authorities are expressed and given to the Saints.

2.—It may always be relied upon as advocating or defending the right side of every question proper for public journals to treat upon.

3.—It is devoted to the interests of the Latter-day Saints, and has, from its inception, valiantly defended their rights and advocated the principles in which they believe and every Latter-day Saint should therefore feel under obligations to do his part in helping to sustain it.

4.—It is not published for speculation, and never has been, but for the good which it is capable of accomplishing; the profits, if any there be, derived from it, being devoted to extending its sphere of usefulness and benefiting the community.

5.—It is doing its utmost to establish home industries, among which are paper making and type founding, stereotyping and electrotyping—branches necessary to the development and independence of the community, but which, during their infancy (which in this Territory they have not yet passed), can only be carried on at a pecuniary loss.

6.—There is no danger of any subscriber to the News failing to get what he subscribes for through failure of the home mills and a suspension of the publication—a result in the case of hundreds of newspaper readers every year.

7.—It is printed in readable type, so that even the aged can peruse it without difficulty or danger to their eyesight.

8.—It is free from objectionable advertisements, so that no parent need fear that his children will have their minds corrupted from having access to it; in fact, it rejects thousands of dollars worth of the best paying advertisements annually, because it is devoted to the moral and spiritual interests of the readers instead of to getting gain at their expense.

9.—Its tone is not regulated by public opinion nor the hope of gaining subscribers or advertisements. It advocates that which is right, and condemns that which is wrong, regardless of results, financial or otherwise.

10.—It never nauseates its readers by palming off columns of self-praise for news items.

11.—The News practices no deception and resorts to no subterfuges to induce people to subscribe; but on the contrary, prefers to stand on its own merits, as the people's newspaper, which promises only to do its utmost to give to patrons the full value of their money—a promise which it has endeavored to faithfully keep in the past.

12.—In conclusion, if a Latter-day Saint can afford to subscribe for only one newspaper, that paper should be the Deseret News; and if more than one, the News should invariably be the first.
