THE LIBERTY BELL.

To Be Exhibited in the Principal Cities of the World.

GRAND RECEPTION IN MEXICO.

And Then It Will Be Heard in England, France, Germany and Other Civilized Countries.

TERRE HAUTE, Ind., Aug. 23.—The Standard Wheel company, of this city, has begun work on a truck on which the Columbian Liberty bell, the duplicate of Independence bell, made of moneys and art treasures contributed by the educational institutions of the country, will make a tour of this country and nearly all foreign lands. The workmen at the wheel works will donate their labor. The truck is a big affair as the bell weighs seven tons. The flanges of the hubs have been made of the overflow at the time the bell was cast. The truck is to be constructed so it can be used in the street or can be run on a railway car now being made out in St. Louis. The bell will go from Chicago next month to the U. A. R. encampment at Pittsburg and from there to Mexico, where President Diaz is arranging for a grand reception. Afterward it will be exhibited in the principal cities of this country, when it will go to England, France, Germany, Russia and wherever civilization has set its foot.

WILL BE RETURNED.

Three Chinamen Caught Violating the Exclusion Law.

CHICAGO, Aug. 23.—Three Chinamen sat in a cell meditating on destiny today. They were Mock Coon, Mock Sing and Lum Bishop. Only a few weeks ago these three men were in China. They had no liking for war so they left their country, landing at Vancouver, B. C. The United States was their Mecca, but Federal officers caught them when they crossed the line at Plattsburg, N. Y., in defiance of the Chinese exclusion act. The deserters were brought here this morning in charge of a deputy United States marshal who is taking them to Fort Townsend, Wash. There they will be shipped back to China. As deserters death will be their portion when they arrive in China.

The Fleming Family.

MUNCIE, Ind., Aug. 23.—The Fleming family association of the United States closed their reunion in Muncie last night. There was a good attendance, representatives being present from fifteen states. West Virginia, North Carolina, Ohio, Illinois, California, Utah and Indiana sent the largest number representatives. Hon. R. S. Gregory, of Muncie, and ex-Governor A. C. Fleming, of West Virginia, made addresses. New officers were elected. J. W. Cleff, of Utah, is one of the vice presidents.

They decided to hold their next reunion at Newark, Ohio, in 1897. They trace their family back to 1040 A. D. A Fleming resided in Scotland in 1011. Four brothers emigrated from Ireland to America, and it is said they now have a thousand descendants living in the United States.

THE STRIKE INVESTIGATION.

Witnesses for the Company Will Soon Be Called.

CHICAGO, Aug. 22. — Chairman Wright announced that the commission has concluded its inquiry into the strike from the side of the employes and will now hear the statements of police officials and those who wish to testify on the part of the employers.

Mayor Hopkins, Chief of Police Brennan, Fire Chief Swenney and other city officials have been summoned and Governor Altgeld will probably be called upon. The commissioners refuse to say whether or not Mr. Pullman will testify.

Alexander Lundgren, an employe of the Pullman company for the last thirteen years, was the first to take the witness chair in the afternoon. He said in all his years of service for the company he had no complaint to make as to wages or treatment. He had advised against the strike, although he was a member of the union, and had gone back to work when the opportunity offered, surrendering his membership in the union and signing a contract to keep out of it.

"We drew large wages for the first seven or eight years," he said, "and did well. A year ago in June I was making $2.50 a day. We used to make as much as $4 on piece work, but they cut us down until now no one can make more than $2.25, even though he works very hard."

Fire Marshal Joe Fitzgerald appeared with a record book and a copy of reports, which showed the following loss in incendiary fires during the strike: 108 freight cars, eight switch towers, six freight depots, five switch shanties and one hay barn.

"I attended pretty nearly all of these fires myself," explained the marshal. "The only fires we saw kindled were by boys, the oldest of them not more than 15 years of age."

The examination had expected Chief of Police Brennan during the afternoon session, and was compelled to adjourn for lack of witnesses when the chief failed to appear. It went word through his private secretary that he would be ready for the commission tomorrow to tell what he knows as to the nature of the rioting and the efforts made to prevent it.

As Sovereign Views It.

BALTIMORE, Aug. 22. — General Master Workman Sovereign of the Knights of Labor addressed a large meeting of workingmen last night, in the course of which he said:

"In America today there are 5,000,000 men willing and ready to work who are idle for want of work to do, molding themselves, or rather being molded, into idiots and beggars. Charity has been strained as it was never strained before, but still the cry for bread from starving throats is heard all over the land. These men are being turned into tramps.

"The tramp has been described as a cross between poverty and crime, but I think the cross, a product of our civilization, can justly be described as a cross between nobody and nothing. Both are the results, the outcome of monopoly—the monopoly that unless it is throttled will cause the death of the Republic."

More Spinners Strike.

FALL RIVER, Mass., Aug. 22.—In the mills here today there is an increase of 200 idlers over yesterday and 1,000 over Monday. The Cornell mill did not open this morning and the Tecumseh stopped at noon, while the Osborne will not shut down tonight. The gain in looms is in the Merchant, Sagamore and Pocasset mills. The spinners in the Globe and Sagamore mills struck at noon today.

STRUCK BY A TRAIN.

Five Persons Killed and One Injured.

MEMPHIS, Tenn., Aug. 23.—As the southbound train of the Paducah, Tennessee & Alabama railroad was nearing Hazel, Ky., late this afternoon, it struck a wagon loaded with people, killing five of the occupants and injuring one.

The unfortunate persons were crossing the railroad track as the train came thundering down. The team became frightened. The train was stopped and the bodies taken to Hazel.

Went Through His Head.

HUNTINGTON, W. Va., Aug. 23.—Charles Peyton, a switchman in the Chesapeake & Ohio yards, went between two cars to make a coupling today. He did not see a bolt head that had become loosened and projected so that it went entirely through his head, suspending the body while the train moved a car length.

For Soliciting Campaign Money.

WASHINGTON, Aug. 23.—The civil service commission has been investigating for some time back charges that J. H. Taylor, recorder of deeds of the District of Columbia, had been soliciting campaign funds for the government employes, contrary to the provision of the civil service law, and will, within the next two days submit a report to the President on the matter, which report, it is said, will find that Taylor has been connected with solicitation of campaign contributions and will recommend Taylor's dismissal from office.

Indians Troublesome.

EL RENO, O. T., Aug. 22.—Reliable information has reached here that the Kiowa and Comanche Indians are becoming exceedingly troublesome because $60,000 due them by settlers on leaves of strip country has not been paid them. The Indians are assuming a warlike attitude toward the settlers and in some sections of the range the shooting element has destroyed range horses and slaughtered cattle.

More Trouble in Brazil.

NEW YORK, Aug. 22.—A special to the World from Rio Janeiro says:

The city is under military patrol. Peixoto's secret police are everywhere. The Brazilian warship Constant has been ordered back from Uruguay and the harbor is patrolled by warships. The city has the appearance of a military camp. A strict censorship has been established over the press.

A New Bicycle Record.

SPRINGFIELD, Mass., Aug. 22.—J. P. Bliss made a new world's bicycle record, half-mile flying start, of 54 seconds, also world's standing start of 58 1-5 seconds, at Hampden Park this afternoon.

Mahone Renominated.

SHELBYVILLE, Ind., Aug. 22.—Congressman Wm. H. Holman was renominated in this the fourth district today on the first ballot.

At the expiration of this term Holman will have been a member of Congress thirty years.

CANNOT REACH GEN. EZETA

The Federal Officers Tangled Up in Government Red Tape.

Captain Newlson, of the Navy Yard, Refuses to Furnish the Marshal With Transportation.

SAN FRANCISCO, Aug. 22.—The singular international complications involving the liberty of General Ezeta and his fellow refugees, which have been so prolific of opera bouffe sensations, developed a new tangle of conflicting authority today. Warrants were finally issued for the arrest of the refugees, but the local Federal authorities got tangled up in government red tape and the warrants could not be served. U. S. Marshal Baldwin, armed with the authority of the Federal courts, set out to have the refugees brought within the jurisdiction of the law, but he ran up against Captain Howison, the naval officer, who commands at Mare Island navy yard. Captain Howison declared that he had no authority to furnish transportation to the United States marshal and he refused to place that official on board the Bennington. Without the assistance of the navy department the marshal could not reach the gunboat. In the first place the law allows the marshal but $5 for serving each warrant, and under this compensation he could not afford to hire a tug boat. All this afternoon the marshal and Captain Howison have been in telegraphic communication with their superiors at Washington, and if they succeed in establishing harmonious relations between the departments of the government which they represent it is probable that tomorrow the navy department will bring the refugees in to the United States marshal or will permit him to go to sea on board the Bennington before she arrives within the three-mile limit.

Judge Morrow of the United States District court issued the warrants for the arrest of the refugees this morning. The writs were authorized from Secretary Gresham, which bears date of August 11th, and which was mailed from Washington, was placed in the hands of Judge Morrow by Executive Calderon, who now represents the government of San Salvador at this port as consul. The complaint calls for the extradition of Antonio Ezeta, Lucio Bolanos, Jacinto Colocho, Juan Chelo Vargas and Orbelino Bustamante. The accused are charged with being criminals and fugitives from justice.

The Tariff Bill Errors.

WASHINGTON, Aug. 22.—The legislative and engrossing clerks of the senate have been comparing the statement of errors in the new tariff bill made in various papers today, and say there are only three errors that need give the officers of the treasury any concern. These are the paragraphs relating to free admission of alcohol in the arts; the diamond schedule and perhaps the inclusion of a period in the paragraph relating to stamping foreign manufactures.

Even in the case of diamonds they believe the construction placed will be that intended by Congress and that they will pay the duty imposed on precious stones.

The Seating Question.

WASHINGTON, Aug. 22.—The state department has initiated the next phase of the seating question by addressing an identical note to all maritime powers, inviting them to adhere to the agreement reached by the United States and Great Britain relative to the protection of seal fisheries. This was made necessary by the award of the Paris arbitration, which found the United States had no exclusive jurisdiction over the seal waters, and that these could be protected only by mutual agreement. There were instances that certain enterprising merchants were making ready to conduct a raid on the seals under other flags than our own and Great Britain, notably the Hawaiian and German flags, and it was felt to be the only practical course to avoid any disagreeable incidents in the future by securing the adhesion of the remaining maritime nations to the agreement.

INTERNAL REVENUE.

Receipts Exceptionally Large—The Gold Reserve Increasing.

WASHINGTON, Aug. 22.—Receipts from internal revenue sources are abnormally large, with every prospect of continuing so until the new tariff goes into effect. During the last seven working days from August 15th the receipts have reached the unprecedented sum of $11,000,000, and it is confidently expected that by next Saturday night, at midnight, when the new act will become operative, the aggregate receipts for the preceding ten days will have reached $15,000,000. These large receipts under the circumstances are depreciated by the treasury officials, who liken the situation to that of the poor man paying 10 per cent per month on money on which to live. The reason for this is that the add coming to the treasury this way is only temporary at best, and will add to the deficit later on, for on every gallon of whisky now being withdrawn the government, sooner or later, is bound to lose 20 cents.

As soon as the tariff bill goes into operation the receipts from this source are expected to drop down to merely a nominal amount, and so continue some months, until the new supply, now being laid in, is exhausted. Times are normal receipts have wasted the cash balances of the treasury is nearly $121,000,000. At the same time the gold reserve is slowly increasing until it has now reached about $64,000,000.

Cominetti Renominated.

SAN FRANCISCO, Aug. 22. — The Second Congressional Democratic convention met here this afternoon and renominated Congressman Cominetti.

The Seventh Congressional district convention nominated W. H. Alvord of Tulare, a member of the state legislature. This is the district now represented by Congressman Bowers.
