ATTACK ON HAVANA.

Insurgents Use Dynamite to Cut Off the Water Supply.

TWO SUCCESSIVE EXPLOSIONS.

The Rebels Preparing to Enter Upon a More Aggressive Plan of Action.

HAVANA, June 14.—This city was startled and alarmed last night at a quarter by the noise of two successive explosions which shook the ground for a long distance and was heard for several miles. Consternation prevailed for a time, and it was feared this was a prelude to an attack or a series of similar explosions. Excited throngs rushed to the street, while an armed party proceeded in the direction from which the detonation had been heard. It was found that the close bridge of Chanitas and Cuesta and the aqueduct of Fernando Espinosa were the points that had suffered from the dynamite. The bridges were partially destroyed, and the pipes on the aqueduct, upon which the city is dependent for its water supply, were much damaged. It cannot yet be stated how extensive is the damage done or how long it will require to remedy it.

The windows in many houses in the city were shattered by the jar of the explosion, and some market structures were also badly damaged.

There is no doubt that the dynamite which caused this week was placed by agents of the insurgents. It has been their determination, announced some time since, to cut off the water supply of Havana and to serve to make this city as nearly uninhabitable as possible.

The greatest apprehension is felt on account of the secrecy and effectiveness with which the insurgents have been able to carry out the outrage. Last night was spent in fear and dread of immediate danger. These fears were largely dispelled by the return of daybreak.

It is believed the insurgents are bent upon inflicting Havana by cutting off as much as possible the supply of necessities, though not by actually besieging it. All fruits and vegetables and fresh meats are unprecedentedly high-priced and difficult to obtain. There is much fever, and smallpox has broken out here, and in the suburbs some state of affairs threatens to become epidemic. Many are suffering from nausea, and there is much intestinal trouble among the inhabitants of the city owing to poor and insufficient food. The failure of the water supply under these conditions is a dire calamity.

It is the announced intention of the authorities to continue the campaign against the insurgent in spite of the unhealthy rainy season having set in, and additional troops are in the field to Punta del Hio, with the purpose of running down and surrounding Antonio Maceo. It is evident, however, that the insurgents themselves are preparing to enter upon a more aggressive plan of action, and the gathering of insurgent forces in Puerto Principe and Santa Clara is believed to be a prelude to another raid westward to force by Maximo Gomez. The presence of these combined insurgent forces in the neighborhood, and even in the outskirts of Havana, in the next month, is a condition that probably must be counted on.

WOMEN OUTRAGED.

KEY WEST, Fla., June 14.—An American citizen writing to a friend here, gives an account of outrages perpetrated on Cuban women who obeyed Weyler's order requiring them to present themselves at the Spanish forts and camps. He was an eye-witness of one of the outrages.

Recently Senora Martinez and her fifteen-year-old daughter appeared at a Spanish camp. After undergoing insulting remarks to them, the officer in command tore the clothing from the girl and exposed her to the gaze of the soldiers. The mother of the unfortunate girl was forced to march in front of the remainder of the girl.

The escape of about hundreds of Cubans by men are joining the insurgent army.

Events of the Contests.

ST. LOUIS, Mo., June 14.—An analysis of the work of the national conventions in regard to the 196 contests which were originally filed with it, showing that 125 cases were settled, some of the original contests having been stamped out, while several, notably those of Delaware and a portion of the Texas delegation, were rejected by the committee. In many cases both contestants and contestees were undecided to be McKinley men, notably in all of the Mississippi and South Carolina districts, and certain districts from Tennessee, Virginia and elsewhere.

In the 130 contests rejected by the committee, 62 are avowed McKinley men. The majorities which prevailed during the consideration of these cases that the committee was sending a large majority of the cases in favor of McKinley, which has given out of the fact that in nearly all of the states where there were a large number of contests, both the contestants and contestees were avowed McKinley men, and as a natural result, made McKinley men were necessarily given each than anti-McKinley men.

FOR THE BEET INDUSTRY.

Utah, California and Nebraska United on the Matter.

ST. LOUIS, Mo., June 14.—California, Nebraska and Utah will urge the adoption of a declaration in favor of encouraging the beet-sugar industry. National Committeeman M. H. de Young of California says he expects his promotion to receive the support of all the states where cereals are produced, because the beet industry will give a crop paying $20 an acre, where corn and wheat pay only $5 and $10. Last year California produced 40,000,000 pounds of beet sugar.

The following is a draft of the plank to be proposed:

The practicability of economical growing sugar beets throughout the United States having been clearly established, we believe the expansion of this industry will materially add to the wealth of our farmers and increase the value of our farming lands. And we therefore favor such a measure as will increase the production of domestic sugar to the limit of producing all of the $125,000,000 now sent to foreign countries in payment for this indispensable article.

We advocate sufficient protection to develop a national sugar industry.

We view adequate protection to any new industry which will help our agricultural class. For instance, a national sugar industry.

UTAH DELEGATION.

U. S. Meteratah President—Other Officers.

ST. LOUIS, June 14.—The Utah delegation here today was organized as follows: Chairman of the delegation, W. S. McCornick; member national committee, O. J. Salisbury; member committee on resolutions, Senator Frank J. Cannon; member committee on credentials, C. E. Allen; member committee on permanent organization, Senator Arthur Brown; vice president, and member of the committee on rules and order of business, Thomas Kearns. The State delegation is, of course, for silver, and some of them can be depended on to act with Teller and Dubois in the interest of the white metal. Senator Cannon, who has been selected as a member of the resolutions committee, is one of the five members who voted against taking up the Bingley tariff bill, and declared that hereafter any protection must be linked with silver.

Spaniards Will Take a Rest.

MADRID, June 14.—A council of Spanish generals in Cuba has decided to suspend operations against the insurgents, owing to the rains.

Barnitzer Acquitted.

ROME, June 14.—A dispatch received here from Massowah confirms the report of the acquittal of Gen. Barnitzer by the court-martial, which board outrage against him connected with the defeat of the Italians by the Abyssinians.

AN ARBITRATION PLANK.

Railway Employes Ask to Be Put in the Republican Platform.

PEORIA, Ills., June 15.—The railway brotherhoods of engineers, firemen, trainmen and telegraph operators, within recently moved their headquarters to this city, have decided to ask the Republican committee on resolutions for an arbitration plank in the platform.

The following resolutions were forwarded to St. L. on last night:

"More than 800,000 railway employes in the United States, a majority of whom are members of organized bodies, representing their different craftings, demand that a plank be inserted in the platform of the Republican party indorsing national arbitration of differences that may arise between employes and employers engaged in interstate commerce. We believe the public desire it; we are sure that railroad employes want it, and we know of no one who opposes it.

"We deplore strikes and strife and urge that it is impossible to be employed to bring about an amicable settlement of dispute by arbitration. We believe the bill now pending in the National House of Representatives known as the Erdman bill is a long stride in this direction and we ask the support of the convention in having this measure made a law."

WILL PRACTICE LAW.

Cleveland, Reed and Carlisle the Name of the firm.

CHICAGO, June 15.—A special to the Times-Herald from New York says:

A rumor which comes from the offices of a well known law firm, with the first of which President Cleveland is now in close relations to the office that Grover Cleveland, Thomas B. Reed and Secretary Carlisle will, after the fourth of March, 1897, re-establish a law firm to be city as well known as Cleveland, Reed and Carlisle. The announcement of the formation of the above firm will, it is said, effectively answer the question regarding President Cleveland's intention as to fourth nomination. It may be that this is to be the President's method of answering those who have so persistently demanded the course he intends to pursue. The announcement will be, democratic Secretary Carlisle's interpretation of the case. One incident that gives a bit of color to this remarkable rumor is that Speaker Reed made requests calls at the White House before the adjournment of Congress. Before his last nomination for the Presidency Mr. Cleveland was a member of a prominent law firm of this city. Two things concerning that partnership are known. The first is Mr. Cleveland surprised all who came into contact with him by his intimate knowledge of the law. The second is that the partnership proved lucrative to all concerned. It was stated today that if Reed and Carlisle would, should he fill in his personal capacities, refuse a nomination for Congress and remain in this city for the purpose of practicing law. At that time neither was and concerning any connection he might make were.

Once a Millionaire, Died Poor.

BOSTON, June 15.—Sidney Fish, who was once a millionaire and who lost his all on Wall street, died today at a lodging house in Scollay Station. Two of three years ago he took account was for $4,200,000. Young Fish was a nephew of Jacob Fisher. Fisher remembers Fish in his prime well. Sidney graduated at the Exeter academy, Cambridge, high school. Later he went to Andover, where he graduated for Bowdoin. Joined Fisher in Chicago and tried his fortune in speculation. He leaves three brothers in Southern California, one of whom, James, is a candidate for Congress.

Pan American Congress.

WASHINGTON, June 15.—Practically all of the South and Central American republics have notified Secretary of their acceptance of the invitation sent out by that government to be represented at an international congress to be held on August 1st next to promote international arbitration. The United States has not yet accepted the invitation.

Boys, boys's shirt Bosoms for $.15 at Freed's Red Letter Cash Sale, this week.

Barnum said

"The American people like to be humbugged."

The history of the tea business bears him out. You like to pay thirty or forty cents for an ounce fifteen cent tea, doctored and weighed and painted so as to look like fifty-cent tea.

But is it so? Do you like to be humbugged? Would you, or would you not, buy a tea if you knew it to be pure?

You can try *Schilling's Best* without risk—the grocer will give you your money back if you don't like it.

Schilling's Best coffee, soda, baking powder, spices, and flavoring extracts are very good in their way—and moreover, they are honest.

A Schilling & Company San Francisco

Your Doctor will tell you that Scott's Emulsion of Cod-liver Oil will make better, richer blood, bring back color to your cheeks and put on flesh where health demands it; that the Hypophosphites in it will tone up the nervous system, and relieve exhaustion.

He will tell you that you must be sure to get Scott's if you want sure results.
