

Under Law Recently Enacted a State is Not Allowed to Pay Their Passage.

### DOES NOT APPLY TO HAWAII.

#### Louisiana Commissioner of Immigration Thinks the South Will be Affected Adversely.

Washington, March 8 .- It was au-Goritatively stated today that the resent opinion of the attorney general, in which he held that it is unlawful ander the recently enacted immigration law for a state to pay the passage of intending immigrants or to assist immigration, except by advertisement, will not apply to the island of Hawaii. In that country the decision has already caused considerable agitation, as under the auspices of the Territorial Immigration society immigrants are

Immigration society immigrants are being brought to the island from Eu-rope and the Azores to take the place of Japanese laborers upon the sugar plantations. This has been sanctioned by the United States government, and a shipload of immigrants recently brought from the Azores have proved very satisfactory. A conference was held today at the department of confinerce and labor on the opinion recently submitted to the president by Atty. Gen. Bonaparte on the South Carolina immigration case. It appears clear that the attorney gen-eral sustains the opinion of the depart-ment that the immigrants landed in Charleston, S. C., last November are lowever, that other immigrants whose passage to this country. It is not clear however, that other immigrants whose passage to this country is paid by either states or individuals acting for states may be landed in America be-fore July 1 next, when the new immi-gration law goes into effect. Those who participated in the con-ference today are Secy. Strauss, Solid-tor Earle and Mr. Parker and Mr. Larned of the department of commerce and labor, and Asst. Atty. Gen. Cooley of the department of justice. It was not until today that the full text of Arity. Gen. Bonaparte's opinion was available. The department of com-merce and labor desires to obtain a definite interpretation of the law, be-cause several southern states have dele-gated to agents the work of securing immigrants who will locate within their borders. It appears problematical whether the states have the right to in-duce immigration, except by advertis-ing. It is quite certain that after July they will not have this right. THE SOUTH AFFECTED.

#### THE SOUTH AFFECTED.

New Orleans, March S .-- Charles Schu-New Orleans, March S.—Charles Schu-ler, state commissioner of agriculture and immigration, today expressed the opinion that the decision of Atty, Gen. Bonaparte regarding South Caroling immigrants will seriously interfere with the plans of his department to induce white immigrants to come to Louisiana. Six hundred Italian agriculturists were being arranged for, the state to pay the expenses of the newcomers and the employers of such labor to reim-burse the state.

New York, March & -Oscar Hammer-stein, in the United States court, today filed a complaint and ab application for an injunction to prevent Alessandro Bonei from singing at any other the-ater other than complainant's during the next two years. The complaint, which was served on Bonei at the Man-hattan 'Opera House tonight, alleges that the tenor demanded and obtained \$10,000 in advance from Hammerstein before coming to America, in considera-tion of which the tenor agreed to eliminate a certain clause in the orig-inal contract by which both parties would have been barred from taking court action in this country. Before the opening of the season the complaint states, Hammerstein, acting on a clause in the agreement, notified the tenor that he would retain him for the ensuing season, but received shortly ensuing season, but received shortly afterward notice that Bonci intended going over to the Conreld management. ## CAN'T GET TRANSPORTATION.

#### Such is Complaint of the Lumbermen Of the Puget Sound Region.

Of the Puget Sound Region. Washington, March & --Lumbermen in the Puget sound region have com-plained to the interstate commerce commission that they have been un-able since Jan, 2 to obtain transporta-tion of their products to eastern points because of the stated inability of the Great Northern and Northern Pacific railroads to bandle the traffic. Tommissioner Lane of the interstate commerce commission has received let-ers from lumberen west of the Cas-cade mountains saying that it is im-possible for them to get their products to Missouri river points and asking whether the commission cannot afford some relief. Commissioner Lane has suggested that they can make formal complaint; to the commission requesting it to prant them a through route from the Puget sound region via Portland. Or, over the Northern Pacific railroad and thence via the Oregon Short Line or the Union Pacific to Missouri river points.

The Great Northern and the Northern The Great Northern and the Northern Pacific admit that they cannot carry more than one-third of the lumber that is offered, but heretofore they have re-fused to permit the Oregon Short Line or the Union Pacific to make a through route or a joint rate with them. It is expected the lumbermen will act on the suggestion of Commissioner Lane.
