\$1,000 Reward!

One thousand dollars is offered by Dr. C. W. Higgins for any cancer that returns after his treatment with one of his vegetable cancerous plasters. There is no danger in applying these plasters, as they only destroy the cancer and the cancerous matter that is in the blood. They will restore health and happiness to those who are afflicted with that dread disease, cancer. Dr. H. makes a specialty of chronic diseases. Dr. H. has performed some wonderful cures since he commenced his practice in this city. He is receiving testimonials every day from patients that have been cured by his new method of treating chronic diseases. Afflicted, call and see for yourselves. Office one door north of the Walker House. Consultation free.

BE WISE IN TIME.—Consumption is a disease that the victims seldom believe in until too late. It is one of the surest symptoms of the malady, for the patient to insist that the cough "amounts to nothing"—that there is no danger. Beware of this fatal incredulity. Stop the cough before it reaches a fatal point, with that most wonderful of all pulmonics, Hale's Honey of Horehound and Tar. Even when half the lungs are gone it may save the other half and prolong life.

PIKE'S TOOTH-ACHE DROPS.—Cure in one minute.

OVERSHOES, Rubber Boots, etc., soled, heeled and repaired at the Workmen's Co-op., 90 Main St. d62

NOTICE.—T. G. M. Smith, custom Boot and Shoemaker, respectfully informs his numerous friends that he has removed from First South Street to first door south of J. McDonald's and second door north of Stevens & Co., East Temple St. He thanks them for past favors and solicits a continuance of their patronage. d61

ADOLPHE HAUBERBACH, practical Watchmaker, has removed next door to Thomson and Lyberg's, First South Street. d61

IMPORTANT TO THE TRAVELING PUBLIC.

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and pleasantest to travel. We take pleasure in stating that the CHICAGO & NORTH-WESTERN RAILWAY is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the past two years the road bed has been put in admirable condition, and almost the entire line has been re-laid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making Eastern connections. Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburg, Fort Wayne & Chicago, Kanaback Line and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets by the Old Pioneer Route—

The Chicago and North-Western. You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second-Class Cars now on any road in the United States.

Particular information, with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal or written application to J. W. Irwin, Ticket Agent, Salt Lake City, A. H. Earl, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Stennett, General Passenger Agent, Chicago. d54

CHAMBER'S ENCYCLOPEDIA.—Messrs. J. B. Lippincott & Co., of Philadelphia, announce that, by a recent purchase, they have become the sole proprietors of the American Revised Edition of "Chamber's Encyclopedia," and are thereby enabled to offer the work at much lower rates than hitherto. In the course of its recent thorough revision, the American edition was edited with the special view of supplying the wants of American readers. It also possesses a special attraction in containing a series of over seventy-five full-page engravings not contained in any other edition. d50

REASONS WHY.—The reasons why Dr. Price's True Flavoring Extracts, Lemon, Vanilla, etc., are superior to all others is because they are prepared from the choicest selected fruits and aromatics, without coloring or poisonous oils, that all the flavoring principles are retained unchanged by chemical action, highly concentrated, requiring less to flavor, that there is no deception in bottles as they hold one-half more than those sold for the same size. That they are in every particular like his celebrated Cream Baking Powder—perfect.

Don't Hack, Hack, Cough, Cough! Cough is a symptom by which various diseased conditions of the throat, bronchial tubes and lungs manifest themselves. But whether it arises from the irritation produced in the throat and larynx by taking cold, from an attack of Bronchitis, from incipient Consumption, or from other causes, nothing will allay it more speedily or cure it more permanently than Dr. Price's Golden Medical Discovery. It does not matter whether it be a recent attack, or a lingering cough, the Discovery is in either case equally well adapted for its relief and permanent cure. It fact, it will cure a cough in one-half the time necessary to cure with any other medicine, and it does not, not drying it up, but by removing the cause, subduing the irritation, and healing the affected parts. No time should be lost in commencing the use of a proper medicine for the relief of a cough, for unless this course is pursued, serious and dangerous disease of the lungs is liable to result. Golden Medical Discovery is sold by all dealers in medicines.

EVENING NEWS.

Mon. Ev. Feb. 6, 1875.

Local and Other Matters.

THERMOMETER 42 degrees F in the shade at 1 p.m. to-day. Fine.

Born.—To the wife of Mr. David McKenzie, of this City, Feb. 7th, a daughter.

Back From Washington.—Marshal George R. Maxwell got back on Saturday night from his log-rolling expedition to Washington.

Third Quorum.—The members of the Third Quorum of Seventies are requested to meet at the residence of Auriluis Miner, 14th Ward, on Sunday evening, February 14th, at 7 o'clock. A punctual attendance is solicited by request of the President of the Quorum.

District Court To-day.—Court met at 10 a.m. this morning and, after disposing of a few matters of business of minor importance, took a recess till two o'clock, at which time it was expected that the trial of George Lewis, the three card monte man and jail-breaker would move.

Parties.—Before us is a complimentary invitation to attend a social party, at the 11th Ward new School-house, on Thursday evening, Feb. 11th.

Also another to attend a calico ball, at the Fourteenth Ward Assembly Rooms, on Friday evening, Feb. 12th.

Coming from St. George.—A special dispatch from St. George, received last night, states that President Brigham Young and Geo. A. Smith expect to leave there for this City on Wednesday, Feb. 10th. Should they travel right along, without any protracted or unusual stoppages, they may be expected to arrive here on or about the 20th.

Missionary Appointments.—We are requested to publish the following appointments of Home Missionaries for Sunday, Feb. 14th:

South Cottonwood, 10 a.m.—Elders L. D. Young, R. F. Neslen, G. Tensdale and C. H. Wilken. Big Cottonwood, 2 p.m.—Elders L. D. Young, R. F. Neslen, G. Tensdale and C. H. Wilken.

West Jordan, South Branch—Elders S. B. Young and C. W. Stagner.

Verdict of Guilty.—In the case of the People vs. Charles L. Williamson, and John Smith, indicted for larceny, the jury returned a verdict on Saturday of "guilty as charged," with a recommendation to mercy. The counsel for the defendants gave notice that they would move for a new trial and to set aside the verdict, which is expected to come up next Thursday.

Severe Accident.—At seven o'clock on Saturday night attorney Burmaster was examining a revolver, when two of the shots were accidentally and simultaneously discharged. One of the bullets was split by hitting the upper edge of the barrel part of the weapon, and a small detached portion of the leaden missile entered the palm of his left hand, passing nearly across it internally, and lodging near the root of the thumb, inflicting a very severe and painful, though perhaps not dangerous wound. He received surgical aid from Dr. White. The fragment of lead still remains in the injured hand. Owing to the close proximity of the member to the chamber of the pistol, the

wrist and a portion of the hand were considerably powder burned.

That Lecture.—Prof. O. H. Riggs will lecture to-night, at the Fourteenth Ward Assembly Rooms, under the auspices of the Literary Institute of that Ward, on "Education." Doors open at 7 o'clock. The public are invited. No charge for admission.

Theatre.—Miss K. Rogers appeared in two fine characters on Saturday—"Julia" in the "Hunchback," and "Rosalind" in "As You Like It," playing in each in her usual admirable style, and delighting the numerous and appreciative audiences. "As You Like It" went off charmingly.

This evening the popular Australian comedian "Mr. Willie Gill" will make his first appearance as "Col. Mulberry Sellers," a gentleman of speculative habits, in the new and popular four act play, adapted from Mark Twain's novel of "The Gilded Age." Mr. Gill will be supported by Miss Walters as "Laura Hawkins," Mrs. Douglas as "Mrs. Selby," Miss Cogswell as "Mrs. Selby," Miss Lindsay as "Senator Dilworthy," Mr. Forster as "George Selby," Mr. Madden as "Washington Hawkins," Mr. Wilton as "Mr. Trollop." The following are the acts—

ACT I.—In Hawkeye Sellers' Eye Water, and Turnip Repeat.

ACT II.—Stones Landing. Sellers' New Railway Route.

ACT III.—At Washington. Laura's Revenge.

ACT IV.—The trial. Sellers' resolve. "My Dear Boy." "There's Millions in It!"

Brutal Treatment.—There have been some rough times in the somewhat notorious District of Bingham lately. Last Thursday, while a number of men were at work on the Henry M. mine, a party of over half a dozen men went up there, armed to the teeth, and ordered the workers off, but they did not go, the muddle of course proceeding from a dispute as to the ownership of the claim. Those demonstrations were, we understand, repeated the following day on Mr. Samuel Moore and others, while they were at work on the Omaha mine claimed by a Kentucky company. This air passed off without the occurrence of a serious collision. But yesterday afternoon, as Mr. Moore was leaving the Griffiths Hotel, Bingham, some members of the same crowd were standing around, when one of them, named Campbell, struck him, and knocked him down, rendering him insensible. When he recovered consciousness he found that some one was lifting him from the ground. His head and face were fearfully mangled, his eyes being so badly bruised and swollen that he can scarcely see out of them now. Mr. Moore came to town by rail, the affair having happened just before the leaving of the Bingham train for this City yesterday.

Fire.—At the early hour of 2 o'clock this morning the stillness of the night was suddenly broken by the ringing of the fire alarm bells at the City Hall and the "Wasatch" engine house. Fire had broken out in a building of two stories and an attic, occupied by Olef Johnson, furniture maker, Commercial Street. The fire originated from what may now be called "the usual cause"—a projecting stovepipe, a cause of fire so prolific as to need the immediate and strict attention of the inspector of buildings.

Salt Lake City is noted for being one of the most fortunate places in the world in the matter of fires, and this occasion was no exception to the rule. The flames burst out in the roof of the building, which, like nearly all others on the same street, is a perfect tinder box; apparently needing but a single touch to set the whole agog in first-class bon-fire fashion. The members of the fire department showed their usual alacrity, the Pioneer engine, Hook and Ladder, Alert Hose, and Wasatch Engine Companies being soon on the spot, with their apparatus, and did splendid work. Without giving details of their operations, it should be sufficient to say that they managed to get the fire under control within half an hour and completely extinguished in an hour, the roof and a portion of the attic being all that was consumed by the flames. The damage done was probably about \$500, for which amount we understand the building was insured.

Had a strong wind been blowing and the fire got fairly under way, about one-half the business part of the City might have been laid in smoking ruins.

A Fine Sketch.—On Saturday we were shown, by Mr. E. S. Glover, a beautifully executed view of Salt Lake City, drawn by himself, in Indian ink. It is not exactly a bird's-eye view, being midway between that and a perspective, thus relieving it from that flat, mappy appearance which sketches drawn exclusively on the first named principle invariably have. The initial point of the picture, which shows the whole and correct plat of the City, is north-west of the City, including a part of the U. C. railroad and Nichols' smelter, and the sketch takes in the full sweep of the Wasatch range of mountains north and eastward, terminating south of the mouth of Cottonwood Canyon, and includes a large scope of the valley south-east and south, with the settlements, more conspicuous buildings and smelters. Nearly every building in the City is shown, and taken altogether it is an unusually complete sketch, which is to be lithographed and sold, on subscription, at \$5 a copy. Mr. Glover made and disposed of a similar view of Ogden.

No Injunction.—There was a good deal of talk on Saturday and this morning of serving an injunction on Willie Gill to prevent his playing the "Gilded Age" in this City, but up to the hour of our

going to press no injunction has been served. The matter is doubtless dropped for to-day, and the play will be presented to-night.

Our Country Contemporaries.

Utah County Times, Feb. 6.—We understand that the rails have been laid on the Utah Southern railroad to Santaguito, and that trains will run to the terminus of the road, Yorkville, the shipping point of a Tintic Mining district about the last of next week.

On last Thursday the first car load of machinery, purchased in the East by Hon. A. O. Smoot, for the Provo Manufacturing Company, arrived in this city in good order, consisting of nine Clippier looms and one self-acting spinning mule. Three car loads more, containing six Crompton looms, one cloth dyeing machine, seven Clippier looms, and other articles arrived in this city to-day. All of which will be put up and in operation before the next clip of wool comes off.

During the month of January the factory has turned out 14,300 yards of cloth, 350 blankets, 2,500 pounds of yarn, and 100 shawls; and the receipts for the last quarter, ending December 31st, 1874, amount to the nice little sum of \$63,000. The prospects are now, with the addition of new machinery, of a large increase of business in future, as they will be able to work to much better advantage and manufacture a larger variety and finer article of goods than they have been able to present to from fifty to seventy-five hands, but that number will be increased as soon as the new machinery is put in operation.
