MINING, BUSINESS AND STOCKS.

PROVO COMPANY IS NOW IN GOOD ORE

Drift on 500 Foot Level Reaches Vein Containing Better Values in Silver —Standard Lets Contract.

A strike of considerable importance has just been made at the Provo Mining company property in East Tintic, and, according to advices from there this morning, the ore that is now being broken into promises to develop into one of the big things of the district. The ore was broken into late Tuesday night by the machine men. Wednesday morning the men began working on the vein, but thus far sufficient work has not been done to determine the extent of the ore body.

It is believed that the vein encountered is the west vein of the East Tintic Development, as the ore is almost identical and carries high values in silver. Some of the high grade galena ore has been sent to Eureka for assaying. Some time ago the company encountered ore on the 160-foot level, but this is believed to have been the east vein of the East Tintic Development.

At the East Tintic Development the shaft is now down 515 feet and a station is being cut on the 500-foot level. The shifts are now working at this and within a few days drifting will be started to catch the ore at this depth. The drift on the 330 level will also be pushed ahead in a few days. Manager Ralph Kellogg is confident that ore will be found on both the levels within the next 30 days.

The company is today loading three cars of ore for the market. This is being taken from the 235-foot level and is of the same high grade quality as in the past. It will net the company a comfortable sum, as a premium is paid on it by the smelter.

During the past two months the East Tintic Development company has been paying its own way and at the same time doing an enormous amount of development work. In that time the company has shipped 14 cars of ore netting $9,000. There are 24 men at work in the mine, but only six of this number are working on ore.

ANNUAL MEETING.

The annual meeting of the company will be held at Provo Monday. It is not anticipated that there will be any changes in the officers of the company.

The recent strike at the Provo has caused considerable excitement in East Tintic. The ore is believed to assay in the neighborhood of 65 per cent lead and several ounces in silver.

At the Grutli the men are now pushing the drift on the 200 foot level to reach the contact that outcrops to the north of the shaft. The drift is now close to 40 feet from the shaft and in a highly mineralized country. The small bunches of ore that are now making in the drift leads to the belief that a body of ore will be reached almost any day. What has been found in the face of the drift assays several ounces in silver and about 7 per cent lead. It is declared that the Grutli will shortly be one of the mines of that end of the district.

The Tintic Standard has now reached a depth of 620 feet in its shaft and Manager Raddatz today awarded a contract for the sinking of the shaft to the 800 foot level. It is declared that there are now many signs of mineralization in the shaft, and that depth will get beyond the leached condition.

TRADING IS MUCH SLOWER.

Only Slight Change Made in Prices of Stocks on Exchange.

There was little of interest on the local exchange this morning and stocks as a rule were slower. The volume of business was low and prices changed slowly. Throughout the entire session there were but few signs of activity.

There was considerable selling of Colorado at $1.27½, and the highest price reached was $1.30 for seven shares. Columbus Consolidated remained fairly strong at 80 to 83 cents. East Tintic Development showed no signs of moving up or down and the price remained unchanged at 7½ cents. Iron Blossom ranged from 68 to 70 cents and several good sized blocks of the stock were sold.

Grand Central was stronger but not what was expected. It was disposed of on the regular and open board for $2.25.

The total number of shares sold was 49,942, and the amount represented by the transactions was $15,957.85.

On the curb market a large number of stocks made their appearance but selling was slow. A block of 1,535 shares of Bingham Central Standard sold at 35 cents, while another block of 1,535 shares was disposed of at 35½ cents, seller 60 days. Federal Ely sold at 10 cents for a 1,000-share block and a 200-share lot. Ely Gibraltar was offered at 15 cents. Ely Resurrection received a bid of 3 cents and was offered at 9 cents.

ENLARGING SILVER PEAK MILL.

Grading has commenced for the enlarging of the mill of the Pittsburg Silver Peak mining company at Blair, Nev. The addition will mean the installation of 20 stamps, which will increase the present capacity of the mill by 20 per cent. With the additional stamps it is declared that $1,250,000 in gold will be turned out every 12 months. The mill now has a capacity of 450 tons per day, with an almost inexhaustible low grade ore reserve that Manager Juleen estimates can keep 200 stamps going for the next 50 years. This improvement at the Silver Peak may be finished in 90 days. The mill, which is modern in every respect, is connected with the Mary mine by an aerial tramway three miles in length. The company now has in its employ 275 men and they receive the highest rate paid in Nevada.

HIGH GRADE REPORTED AT CAMP OF ATLANTA

Los Angeles Company Said to Have Struck Body of Rich Ore—Tent City Is Growing.

Atlanta has been on the map for about six months past, and blossomed forth as the result of encouraging gold discoveries made by a Los Angeles, Cal., company, which became interested upon the persuasion of prospectors who had been over the country thoroughly and were convinced that the district was one of promise. Says the Goldfield News. Atlanta is situated about two miles east of the old Silver Park camp, which in the balmy days of early Pioche history had somewhat of a "boom." There has always been more or less prospecting going on in the district, for low-grade gold ore was known to exist there in no small quantity. Since the Los Angeles people have entered the field, however, by the purchase of a group of claims, for which it is said some $80,000 was paid, report has it that "high-grade" has been found, and in consequence there has been an exodus of mining camp pioneers from surrounding districts to the new fields.

The Los Angeles company, it is said sunk a shaft on its ground for a distance of 100 feet, and then drifted to the ledge, a distance of some 60 feet, at which point the gold values were found. The ore is reported to be so rich that no one is allowed to take samples from the mine. In every direction, during the interval since the new discoveries, locations have been made, and the tent camp of Atlanta, graced by a few frame structures, is said to be growing rapidly. It is understood that a postoffice will be granted the young town in a short time.

Stage, freight and passenger lines are running between Pioche and Atlanta, a distance of 50 miles, and the camp's population is increasing constantly.

PASSING OF AJAX MINE.

Tintic Property Will Soon be Absorbed By Gold Chain.

After having produced close to $1,000,000 in dividends for its stockholders, the Ajax Mining company in the Tintic district is shortly to be no more. This property, which in its day was one of the steady members of the Tintic district, is to shortly be consolidated with the Golden Chain Mining company which joins it.

Stockholders of the company are receiving notices of a meeting to be held on Nov. 26, at 3 o'clock in the afternoon at the company's offices. At the meeting the stockholders will pass upon the advisability of selling and conveying all the property of the Ajax Mining company to the Gold Chain Mining company, upon the transfer and delivery by the latter of share for share on all the outstanding stock of Ajax. The meeting is to also authorize the board of directors to execute a deed for all the real and personal property of the company. In case the transfer is not authorized it is understood that a proposition will be made for a cash sale of the company's property to the Gold Chain. The consideration will be fixed at the meeting.

The control of the Ajax Mining company recently passed into the hands of E. C. Loose of Provo who also controls the Gold Chain property. He intends to consolidate the two properties and work the Gold Chain through the Ajax shaft.

OPOHONGO IN BIG ORE BODY.

Vein Has Now Been Opened to Width Of Thirty Feet.

Conditions in the Opohongo property in Tintic have been improving rapidly in the past week and there is now a large body of high grade ore opened up. J. W. Hatfield one of the heavy stockholders in the property was in the city this morning from Provo. He declares that the company continues to ship some ore each week and that the vein is broadening as the drift advances. At present the width of the vein is declared to be 30 feet. The ore is of a high grade running from 10 to 25 per cent copper, 10 to 25 ounces in silver and from $1 to $5 in gold.

The development of the property is being prosecuted through the Black Jack shaft. A drift on the 200-foot level is able to attain a depth of about 700 feet in the Opohongo.

CONCENTRATES.

R. P. Coleman has returned from a business trip to Ely.

William H. Hatfield of Provo is in the city today on business.

George T. Bridges and Charles Parker are doing their assessment work on the Baltimore group at Tintic.

Lew Humphries, head of the Gunn-Thompson engineering staff, leaves Friday night for a short business trip to Montana.

John M. Dick of Boston, vice president of the Majestic Mines company, is in the city, looking after the affairs of the company.

A. V. Taylor of the Pittsburg-Salt Lake Oil company has just returned from a visit to the company's properties on the reservation near Vernal.

Frank A. Schirmer, vice pesirdent, secretary and treasurer of the Boston Consolidated company, is at Bingham today, looking over the work being done by the company.

M. E. Lindquist, who was recently promoted to the position of superintendent of the South Utah Mining company, formerly the Newhouse Mines and Smelters, is in the city today.

It is understood that an additional payment of $50,000 will be made Monday on the judgment secured against the Mammoth Mining company by the Grand Central Mining company.

J. W. Horne, treasurer of the Utah Apex Mining company at Bingham, is at that camp today looking over the affairs of the company. He expects to be in Utah several days before returning to his home in Boston.

F. Augustus Heinze is coming west this week according to reports from New York. It is declared that he has obtained permission from the district attorney to leave the jurisdiction of the court. It is expected that he will arrive in time to witness the opening of the Ohio Copper company mill.

David Morrison, superintendent of the Silver Island Coalition Mining company, came in from the property yesterday. He declares that better results are now being obtained at depth. In the lowest tunnel on the Emancipator claim, he says, there is a 15-inch vein of ore that carries the highest values yet found.

According to A. H. Spencer of Denver, the withdrawal from entry of all lands in the San Juan oil fields that are not already located will create a monopoly on one of the richest fields in the world. Mr. Spencer declares that he has just heard from Henry C. Demming, a well known oil expert, who declares that from his study of the San Juan district it is not less than 300 miles long and 50 miles wide.

Officials for the government are now busy preparing a list of the various incorporations of the state for the purpose of assessing a tax of 1 per cent upon all net earnings in excess of $5,000 a year. According to a measure passed by the last legislature. Uncle Sam makes it compulsory for every corporation to return a sworn statement within 60 days after the close of the year stating the net income. There are about 10,000 companies to be heard from in Utah.

PROPERTY CHANGES HANDS.

Benjamin F. Bates has purchased from Mrs. Matilda Lauer the attractive residence at Seventh South and Ninth East streets for $4,200. The sale was made by the J. P. Mahan Investment company.

TODAY'S MONEY MARKET.

New York, Oct. 28.—Money on call firm, 3@4 per cent; closing bid, 3¾ per cent; ruling rate and offered at 4 per cent.

Time loans much easier; for 60 and 90 days and six months, 4¾ per cent.

Close: Prime mercantile paper 5@5½ per cent.

Sterling exchange steady, with actual business in bankers' bills at 4.83.10@.25 for 60-day bills, and at 4.87.65 for demand.

Commercial bills, 4.82½@¾.

Bar silver, 50⅝ cents.

Mexican dollars, 43 cents.

STOCKS ANIMATED, PRICES HIGHER

New York, Oct. 28.—The opening dealings in stocks were quite animated and prices were higher all round, but the gains were limited generally to small fractions. Northern Pacific and Colorado Southern first preferred rose 1 and United States Steel, Pennsylvania, Colorado Fuel, Brooklyn Transit, Interborough-Metropolitan preferred and American Smelting preferred large fractions.

Buying operations in United States Steel and the railroad equipments gave a strong appearance to stocks of this class. Standard railroad stocks were all high in sympathy but their gains were restricted to moderate fractions. Some realizing reduced the advances before 11 o'clock. In about 20 specialties there were advances of from 1 to 1⅝, including U. S. Steel, Amalgamated Copper, American Car, Pressed Steel Car and Railway Steel spring. Only New York Central and Baltimore & Ohio of the important railroad stocks rose as much as a point.

Weakness of Union Pacific and the strength of Amalgamated Copper and American Smelting made the tone irregular. The speculative uncertainty threw the market into semi-stagnation. Railway Steel Spring, Amalgamated Copper and International Harvester rose 2 and American Smelting 1⅝. Lake Erie and Western preferred sold at an advance of 3, and Minneapolis, St. Paul and S. S. Marie preferred 2¾.

Bonds were firm.

There was scarcely any change in the market aside from the wide movement of a few less active stocks. New Haven run off 7 points following the decision on the new stock issue. Pacific Telephone gained 2¾ and American Hide and Leather preferred 1¾. The tone was easier at 1 o'clock.

The tone grew heavier with the course of the day, pressure again in individual stocks exercising an influence upon the wheat market. Consolidated Gas declined 2¾ and Atlantic Coast Line 1½. Union Pacific and Great Northern preferred ruled nearly a point under yesterday's closing and some of the other railroad leaders were also at their lowest.

The market closed strong and active. There was a brisk selling movement late in the day which carried the list to the lowest of the day. Union Pacific and Great Northern preferred showed losses of 1⅞. International Harvester rose 2½ and Vulcan Detinning preferred 4½. There was a vigorous rally when shorts covered. This placed Amalgamated Copper 3 points over last night and Kansas & Texas a point.

LIVE STOCK.

CHICAGO.

Chicago, Oct. 28.—Cattle—Receipts, estimated at 9,000; market steady to lower. Beeves, 3.90@9.10; Texas steers, 3.80@4.90; western steers, 4.25@7.50; stockers and feeders, 3.00@6.40; cows and heifers, 2.10@5.75; calves, 6.50@8.50.

WOOL.

CHICAGO.

Chicago, Oct. 28.—Weak cables and liberal receipts in the northwest had a slightly depressing effect on the wheat market here during the early trading today. A feature was the renewed selling of the December delivery by houses with northwestern connections.

The market opened with prices unchanged to ⅛ lower, December being at 1.04¼ to 1.04⅜. Later in the session December sold off to 1.04¼@⅛.

Corn continued weak, due to the ideal weather for the maturing of the new crop and the movement of the old one. Opening prices were ⅛ lower to ¼c higher, with December at 58½ to 58⅝. The December option held within that range during early trading.

Oats were easy on selling by elevator concerns. December opened a shade lower at 29½@⅝ and sold off to 29⅜@½.

Provisions were firm on account of a fair demand for lard due to decreasing stocks. Prices at the opening were 7½ to 12½c higher.

Wheat—The market was unsettled nearly all day but developed considerable strength late in the session on buying by influential buyers. The close was easy.

Corn—The market became strong in the final half hour. The close was strong with December ⅝@⅞ higher at 58¾.

Close—Wheat—Dec., 1.06⅛@¼; May, 1.09; July, 98¼.

Oats—Dec., 29⅞; May, 32¼; July, 28⅞.

Corn—Oct., 60; Dec., 58¾; May, 61¼; July, 60⅝.

Pork—Oct., 22.35; Jan., 19.42½; May, 19.12½.

Lard—Oct., 12.35½; Nov., 12.15@12.17½; Jan., 11.50; May, 11.30.

Ribs—Oct., 10.72½; Nov., 10.50; Jan., 10.12½; May, 10.10.

Rye—Cash, 73@74; Dec., 73@71½; May, 77.

Barley—Cash, 54@65.

Timothy—Oct., 3.75; May, 4.10.

Clover—Nothing doing.

ST. LOUIS.

St. Louis, Oct. 28.—Wool, firm. Territory and western mediums, 24@29; fine mediums, 22@26; fine, 14@20.

PRODUCE.

SUGAR AND COFFEE.

New York, Oct. 28.—Sugar, raw, firm. Fair refining, 3.36@3.81; centrifugal, 96 test, 4.30@4.35; molasses sugar, 3.36@3.80. Refined—Steady. Crushed, 5.85; powdered, 5.35; granulated, 5.25.

Coffee—Firm. No. 7 Rio, 8¼, nominal; No. 4 Santos, 8¾.

BUTTER AND EGGS.

Chicago, Oct. 28.—Butter—Steady. Creameries, 25½@30; dairies, 24@28.

Eggs—Firm, at mark, cases included, 18; receipts, 4,969; firsts, 24½; prime firsts, 26½.

Cheese—Steady. Daisies, 16@16¼; Twins, 15¾@16; Young Americas, 16@16¼; Long Horns, 15¾@16.

WESTERN MARKET LETTER.

(Special Correspondence.)

Kansas City Stock Yards, Oct. 26.—Cattle receipts here last week were liberal, 85,000 head, including 13,000 calves, and the market on western steers ranged from steady to a little lower, cows steady. Short fed steers from native territory declined 15 to 35 cents but this loss did not extend to westerns, which class held steady. Stockers and feeders met a good demand, prices steady to 15 cents lower. The cattle run today is 22,000 head, including 3,000 calves, market steady to 10 higher, cows showing 10 higher in many cases. One of the features of the market lately is the many large strings of Panhandle cows coming, and the readiness with which they sell, train loads going at 3.35 to 3.60. New Mexico cows brought 3.50 today, and wet cows from the Panhandle 3.00 to 3.20, veal calves 5.50 to 7.50 some killing steers from Higgings today at 4.25, stockers from farther down the Panhandle at 3.60 to 4.25. Colorado is shipping freely now, a big string of western slope steers here today at 4.75, weighing 1,077 pounds, feeders at 4.40 today, beef steers from the mountain country at 5.00, cows 3.80 and 4.00, some steers from eastern Colorado today at 4.35, and 4.50, weighing between 1,000 and 1,100 pounds. Country buyers are active, and they find there is a big crop of corn to be gotten rid of, and nearly 1,000 car loads of stockers and feeders were bought here last week and taken to the country.

Sheep and lambs have had a weaker tendency since the middle of last week, and the market is weak to 10 lower today. The run is fairly good, about normal for October, 14,000 here today, top lambs 6.90, bulk of the lambs at 6.75 to 6.85, yearlings worth 5.15, wethers up to 4.70, different lots of Utah ewes today at 3.90 and 4.00, with 4.25 about the limit on range ewes. Country demand is good and feeding lambs find a good outlet at 6.75 to 6.25, breeding ewes 4.50 to 5.25, a good string at the latter high figure last week. Total receipts here for October will fall a little below receipts same month last year, and dealers do not expect much change in the market soon.

ROAD INTO GRAND CANYON.

Company Formed Today for Development of Enterprise.

With a capital stock of $100,000, in shares of $100 each, the Utah Southern company was formed today and articles of incorporation filed with the secretary of state. The object of the company is to construct a railroad from Lund, Utah, to the Grand Canyon of the Colorado. The company accepts the report of J. C. White & Company on the feasibility of the project and a report of Frank A. Dudley on the same subject as a consideration of $10,000. The company officers are as follows: Frank A. Dudley, president; Victor E. Huntsaker, first vice president and secretary; H. C. Edwards, second vice president; A. H. Peabody, treasurer, H. P. Clark, E. C. Ashton and J. Milner, directors.

SUE FOR FALSE ARREST.

John Buell and Joseph Lake Sue for $5,000 Each Against Chief Barlow.

Suit for damages for false arrest was filed against Chief of Police Barlow, Detective Earl Ripley, Chief of Detectives George Sheets and Patrolman Riley in the Third district court this afternoon by John Buell. He seeks $5,000 as damages. Similar action was fil
