Philadelphia Sporting Writers Give Muproe Credit for Winning.

HE WILL SURELY MEET JEFF.

Generally Conceded That Miner Far Outclassed the Sailor in Their Recent Battle in Quakertown.

There can be no doubt that Jack Munroe, the Butte miner, had all the better of the fight with Tom Sharkey Saturday night. He outclassed him in every particlar, and undoubtedly earned the right to a fight with big Jim Jeffries for the honor of the world's championship. The accounts of the fight, as published by five Philadelphia papers on Sunday morning, prove conclusively that Munroe outclassed Sharkey. Following is what they have to say:

Lost His Ferocity.

(The Record.) (The Record.) Last night's contest proved that Shar-key is a back number at the puglilitic game. He has lost the ferocity which made him dangerous in former days. His judgment of distance is bad and his wind is broken. The terrific beating which Jef-fries gave him has left its effect, and he cannot stand body punishment without beiraying the fact that he is being hurt. As to Munroe, while he has improved in his boxing, he has not leagned enough to make him a fit opponent for a top-notcher. Jeffries, Flizsimmons, Marvin Hart and other men would beat him, barring accidents. He is a big, strong fellow, and that lets him out.

Has Passed Away.

(The Inquirer.) (The Inquirer.) In only one round—the first—did Shar-key have the better of it. Then he gave a suggestion of the Sharkey who stopped Ruhin in almost record time. The bout proved that Sharkey as a heavyweight partist has passed away, but it did not demonstrate that Munroe possesses the stuff of which champions are made.

Jack Clifford and Tommy Markham Con-clude Their Training. Jack Clifford and Tommy Markham are all ready for their twenty round contest at the Grand theater this evening, for the lightweight championship of the state. Betting among local fight fans has been quite lively during the last two days. Clif-ford is the favorite, owing to he belief that he is in better condition than is Markham. The latter says, however, that his condition is first class and that he hes no fear whatever for the result. Markham has had but seven fights in all, but he came out victorious in each, whi-ning by the knockout route. The most important contest he has had were with Young Donovan and Roy Condie. He whipped the former twice, and knocked out Condie in the seventh round. Clifford's record as follows: Knocked out Charles Davey in one round, knocked out Jack Madden in one round, knocked out Jack Wade in thir-teen rounds, knocked out Jack Wade in four rounds, knocked out Jack Tack Wade in four rounds, knocked out Jack Wade in four rounds, knocked out for a fifteen-round bout, knocked out by Herrera in nine rounds, twenty-r

Chicago, March 3 .- After paying Maj. William Bell more than \$32,000 as interest on a loan of \$4,000 for four years, Charles E. Rand, a real estate dealer,

surprise he found that Maj. Bell still held his checks for \$7,950, none of which had been presented to the bank.

Judge Kavanaugh has ordered that a decree be entered compelling the return of the security and checks, but has denied the petition for the return of excess interest.

On the last day of December, 1895, Charles E. Rand borrowed \$1,000 from Maj. William W. Bell, father of Lillian Bell, the author, and gave his check for \$1,000 and took MaJ. Bell's it for \$957. The former check was not to be presented at the bank until the expiration of one week. Before that time elapsed he found he would be unable to pay the

check and told Maj. Bell so. The lat-ter loaned another check for \$957 secured on Maj. Bell's check for \$957 and \$43 from his own pocket, he paid his first check for \$1,000. As the days, weeks, months and years went along, Mr. Rand still found himself unable to close up the deal.

The amount of interest rated at \$43 each week for each \$1,000 ran up so rapidly that soon he was borrowing more than \$4,000, and he swore in court that this was about the average during the four years his dealings with Mr. Bell lasted.

In 1898, Mr. Rand made a new ar-rangement with Maj. Bell whereby his checks for \$1,000 each were to be discounted by Maj. Bell at the rate of \$5 a day interest for each \$1,000. Early in January, 1900, Mr. Rand alleged, he was informed that Maj. Bell held checks signed by him which had not yet been presented to the bank, amounting to \$7,950, and that Maj. Bell also held notes signed by Rand and his

father for \$8,000. Bell declined to call the deal off, it is said, except by giving Rand \$50 and collecting the money represented by the notes for \$8,000. This Rand would not agree to, and as a result he immediate-ly petitioned the court to issue an injunction restraining Maj. Bell from col-lecting the notes or from disposing of the checks.

Made a Poor Impression.

(The Press.)

(The Press.) Munroe proved so decisively that he was the better man of the two that there can be no question but that he will be select-ted to meet Jeffries in a 20-round bout in San Francisco for the championship. Bar-fing a few seconds in the first round, when he scored a clean knock-down with a right swing on Munroe's jaw, Sharkey made a very poor impression. He was slow, even slower than Munroe, and that is saying considerable.

Munroe Escaped Beating.

(The Ledger.) . Jack Munroe, the miner puglikst, com-pletely outclassed Sharkey. The miner marcowy escaped a decisive beating in the first round by running info a vicious right hand lead. From this round until the finish of the contest it was all Mun-roe, and had a decision been rendered the miner would have been justly entitled to it. Munroe showed a great improvement over all his provious contest. The tu-telage of Kid McCey had shown its re-sults, as the miner used his left and right in a straight fashion which met the rough buildeg tactles of a boxer of the Baarkey type. My Breath. Shortness of Breath Is One of the Commonest Signs of Heart Disease.

Notwithstanding what many physicians say, heart disease can be cured. Dr. Miles' New Heart Cure has permanently reatored to health many thousands who had found no relief in the medicines (allopathic or homocopathle) of regular practicing physicians. It has proved itself unique in the history of medicine, by being so uniformly successful in curing those diseases. Nearly always, one of the first signs of trouble is shortness of breath. Wheth-

er it comes as a result of walking or running up stairs, or of other exercises, If the heart is unable to meet this extra demand upon its pumping powers-there is something wrong with it.

The very best thing you can do, is to take Dr. Miles' New Heart Cure. It will go to the foundation of the trouble, and make a permanent cure by strengthening and renewing the nerves. Harry Payne Whitney Will Keep Up His Father's Establishment.
New York, March 4.-Harry Payne Whitney will continue practically intact the racing stable of his father, according to the Tribune. The thoroughbreds prob-ably will, until the usual period of mourning shall have passed, be entered in the name of Frank K, Hitchcock. This, it is understood, was the desire expressed by Mr. Whitney during his last illness.
Direct announcement of the plans have mot been made because the stable, being an asset of the estate, could only be re-tained as an asset by the consent of all the heirs. The latter will meet shortly. Should any heir object to the retention of any part of the stable, this must be sold. In this contingency Harry P. Whitney will, it is stated, bid in the animals.
If Jockey Shaw is successful in secur-ing his reinstatement it is likely he will ride for the stable.
Papers setting forth that Harry Payne Whitney had obtained the service of Shaw are now on file at the office of the Jockey club. It is supposed that the con-tract is effective only if Shaw has the ban litted this year. For some time it has been intimated that the stewards think Shaw's license should be renewed and some action is now looked for.
Shaw's supernsion last May, elimeter to accept any further entries from George E. Smith, to whom Shaw was un-der contract, was perhaps the most wide-ly discussed incident of the turf year.

A WIFE'S ALLOWANCE.

A lady writes: I think it is a disgraceful state of affairs when a wife days. has constantly to beg from a husband for money for household expenses. Too Mail company, and three by the Occi-dental and Oriental company. The many wives have to do it, alas, and it is equally bad when the wage earner hands over his entire cash to his wife. In the one case the wife is robbed of her just rights, in the other too much responsibility is cast on her shoulders, and, as I view matters, the husband shirks part of his duty. Of course there is the wife's personal allowance. but that hardly comes within the scope of this article; however, I may be allowed to say a word concerning it. Every young wife should stipulate for a certain sum monthly for her own pocket; she does not require to spend this

money if she gets ample allowance for domestic purposes; it ought, in fact, to be carefully laid aside or banked if there be sufficient; one never knows what is going to happen, and it is best to be as fully prepared for emergencies as possible.

I have known a case where a wife annually paid a month's bills out of her allowance, and naturally such an action not only saves a man's money, but increases his respect and love for his wife. This was perhaps an exceptional case, but no doubt many wives could do the same if they but made up their minds.

THE WINDOWS OF THE SOUL.

The most important of all our physical faculties is sight. The merest suspicton of failing eyesight will bring terror to the bravest soul. Our vision is almost as precious to us as life itself. There is no possession more coveted by women than beautiful eyes. Yet the owner of the ugliest or most repelling eyes imaginable is more to be envied if she can lay claim to better vision. The eyes which possess clear sight, whatever their color may be, are verily the windows of the soul. What instinctive confidence we place in a frank, sincere gaze! We feel that those eyes which spell goodness and even holiness of life in every glance are the faithful mirrors of the character beneath. All the great generals or leaders of men have possessed in a pre-eminent degree the calm, clear glance that magnetizes, a sure symbol of an iron will. Great orators have swayed vast audiences quite as much by the magnetism of their eyes as by the golden harmony

St. Petersburg, March 4.—The offended dignity of 167 girl students out of 1,000 who attend the university extension classes has resulted indirectly in closing the university temporarily and in the par-tial closing of the technological institute. THIRSTY BABIES.

Thirst in children's ailments is generally a conspicuous feature and one that most people treat erroneously. Nature cries out for water, but milk is given instead. If mothers would bear in mind that milk is a food and not a drink then there would be less suffering induced by mistaken kindness. Boil the water first and allow it to cool; it can be given frequently, and the result will not emanate from the entire student body.
