CANNON THE LEADER

Frank J. Will Head the Republican Hosts in November.

CHASE THE COMMITTEE CHAIRMAN

The Territorial Committee—Candidates for University Commissioners—Resolutions and Speeches.

Following upon the close of the News report of the Republican Territorial convention in Provo yesterday afternoon, the committee on permanent organization named for convention officers, in addition those mentioned, F. J. Hagenbarth, of Weber county, for sergeant-at-arms; assistant sergeants, Newell M. Knight, of Utah county, Andrew Morris, of Beaver county, and J. H. Porter, of Morgan county; for chaplain, John H. Murdock, of Beaver county. The order of business agreed upon was, nomination of candidate for Delegate to Congress, nominations for commissioners to locate university lands, and selection of the Territorial committee, one from each county. The committee report was adopted without division.

Chairman C. E. Allen was escorted to the platform by Judge C. W. Bennett, of Salt Lake, Hon. Joseph Stanford, of Ogden, and Judge J. D. Jones, of Provo, and made a speech appropriate to the situation.

THE RESOLUTIONS.

Ex-Governor A. L. Thomas, from the committee on resolutions, then read the following, which was adopted with cheers as the Republican platform:

In convention assembled the Republicans of Utah renew their fealty to the party of freedom and justice, the party of free speech and a free ballot, the party that believes in the protection of American industries, the party of American citizens and American citizens, and congratulate the people of Utah on the near approach to statehood, and declare:

First—In favor of the American doctrine of protection to home industries, established by the founders of the government, reestablished by the Republican party and which has prospered by the pioneers and people of Utah.

Second—We recognize the silver question as one of paramount importance to the people, and we believe that no full prosperity can be enjoyed until silver shall be restored, and we demand its remonetization on the old ratio with gold of 16 to 1.

Third—We favor the cession of the mineral non-mineral public lands to the states and territories respectively, to aid in irrigation and the public schools.

Fourth—We view with regret the increase of the great army of unemployed men and women of our country, and assign this unfortunate condition to the maladministration, legislation and mistake of the Democratic party.

Fifth—We advocate the establishment of a national board of arbitration, whose province it shall be to adjust all controversies between capital and labor, so that and that strikes, lockouts and other sort of disturbances may be authoritatively adjusted on principles of justice.

Sixth—We approve the creed and adjust the blacklisting of the employees who are discharged from or leave the service of the employer.

Seventh—We favor the eight-hour system of labor and believe that eight hours should constitute a legal day's work upon all public and private contracts.

Eighth—We favor the establishment of a postal telegraph system by the general government, thus extending to the people cheap and abundant facilities for the transmission of intelligence.

Ninth—We favor the exclusion from our country of the pauper, criminal and undesirable elements of other countries.

Tenth—The Republican party has ever been the friend of the free public school system of our country, and we pledge our unstinting support to every measure which shall serve to increase its power for good.

Eleventh—We believe that public officers should receive fixed salaries, and that fees should be paid into the public treasury, and we favor judicial legislation to this end, as far as practicable.

Twelfth—We denounce the Democratic party for its attitude on all questions affecting the material interests of our people, especially by placing our raw materials on the free list, and especially for its advocacy of free wool, thus compelling the wool growers of the Territory to compete with the cheap labor of the world, and destroying an industry the fifth in point of importance to the Union, for its advocacy of free sugar, thus compelling the sugar-beet growers of the country to compete with the cheap labor of Mexico, working for from 50 to 60 cents per day; because it advocates the placing of the farmer, the laborer and the mechanic in class and bitter competition with the cheapest labor under the sun.

Thirteenth—We arraign the Democratic party for the suppression of the Republican vote in the majority of the Southern States by fraud, violence and unequal laws, thus violating the sanctity of free ballot.

Fourteenth—We unite our kindred of Alaska with those of all other civilized people, when we contemplate the record of the present administration's treatment of the Hawaiian question.

Fifteenth—We arraign the Democratic party for its failure to enforce the Chinese exclusion law, and its refusal to enforce the purchasing clause of the Sherman law before its repeal.

Sixteenth—We arraign the Utah Commission for its partisan course in conducting the appointment of registration officers to one political party, in violation of the spirit of the law.

Seventeenth—We arraign the Democratic Territorial officials of Utah for gross and repeated violations of the civil service law, and each of the Democratic judges as have dragged their high offices down to the offensive partisanship level.

Eighteenth—We favor the granting of equal suffrage to women.

Nineteenth—We demand for the new State of Utah a wise, liberal constitution and an economical government, and pledge the Republican party, if given the power, to secure both.

Twentieth—We rejoice in the part of the Republican party, we glory in the fraternal no other political organization ever approximated to an equivalent organization, and look confidently for its early return to power and a renewal of its benefactions to the people of the United States.

Twenty-first—That we favor, so far as practicable, compensation of public officials by fixed salaries and the enactment of judicious legislation providing for the payment of fees collected into the public treasury.

Bishop Ferguson offered the following supplementary resolution, which was adopted:

We indorse the efforts now being made throughout the Territory to encourage the purchase of home-manufactured goods, and pledge ourselves to support such a policy.

THE NOMINATIONS.

When the chairman announced that nominations for Delegate to Congress were in order, Presley Denny, a Beaver county delegate, obtained the floor. He named the Hon. Frank J. Cannon for the position. Deafening and prolonged cheers greeted Mr. Cannon's name, and there was no doubt that he was the unanimous choice of the convention for the Republican standard bearer in November. Barlow Ferguson, of Salt Lake, moved that Mr. Cannon be nominated by acclamation. The motion was seconded by delegates from Summit, Tooele, Wasatch, Utah, Juab, Weber, Piute, Sanpete, Cache, Box Elder, Kane and other counties, and upon a call for a vote, the convention hall resounded with a unanimous "Aye!" for Mr. Cannon. A committee was appointed to notify him.

Nominations for three commissioners to locate university lands followed, John G. Robinson, of Salt Lake county, Daniel Thompson, of Millard county, James T. Hunter, of Utah county, Jas. Meikle, of Cache county, and Urvine R. Lyman, of Iron county, being placed before the convention.

At this point Frank J. Cannon, the nominee for Delegate to Congress, entered the hall, and was received with a perfect ovation. All business was suspended, and amid prolonged cheers Mr. Cannon came forward and made a felicitous speech, which was received with thunderous applause.

Balloting for university commission candidates was proceeded with when Mr. Cannon retired, and gave the following result:

D. Thompson	[illegible]
J. T. Hunter	[illegible]
John G. Robinson	[illegible]
James Meikle	[illegible]
U. R. Lyman	64

John G. Robinson, of Salt Lake, James Meikle, of Cache, and Urvine R. Lyman, of Iron, were declared the nominees for commissioners to locate university lands.

"Girlhood and Motherhood."

At the Thirteenth Ward assembly room tomorrow evening, at 7:30 o'clock, Miss Alice Cheatle will continue her lecture of last Thursday evening, to the girls and mothers of the Stake, on "Girlhood and Motherhood."

The subject is one of such vital importance to women, and the lecture is so well grounded in her work that we feel constrained to ask of the officers of the Primary, Young Ladies' and Relief societies of the Stake to have a good representation of their associations present.

The lecture is free and all interested are invited. MARY A. FREZEL, MINNIE J. SNOW.

Davis Co. Primary Fair.

In addition to the circular letter issued Aug. 3rd in the NEWS, and the Davis county Clipper, we desire to say a few words more concerning the primary fair. As before stated, the fair is to be held in Farmington, opening on Thursday, the 27th of this month, and continuing three days. Considerable interest is being manifested by the children in making creditable exhibits. In connection with those mentioned before, the following named gentlemen and ladies have offered special prizes (and we expect others will do so later on): J. H. Wilcox, J. F. Miller, E. T. Clark, Mesdames Julia Hess, Lizzie Brown and Minerva Knowlton, for the best male garden hoe, rake, broom, drawing, essay on Utah, etc. A prize will be given for strafing and matting children pallets; the girls will of course come prepared to do this work. A prize will be given to the girl who can dress a doll the neatest, making the clothes herself; also for the best hemming. A prize will be given to the girl or boy who can peel fruit, or potatoes, the thinnest in the shortest time. The above prizes are for children up to fourteen years of age. Prizes will also be given for other things not mentioned. We hope the people will patronize the Fair, and come prepared to purchase some of the articles for sale, which have been donated by the children and others, such as the cushions, iron-holders, shoeing bags, babies' knit socks, home made hats, etc. Only one meeting will be held at the Primary conference, which commences at 10 a.m. on Friday for this event we desire all to come early. An entertainment will be held Friday evening. The Fair will be open Thursday and Saturday evenings.

Respectfully,
ALBERTA S. BOWNS,

LUCY A. CLARK,
Committee.

DISCHARGED.

On motion of the prosecution in the case of the People vs. Joseph Warren (on the criminal calendar for the present term) the defendant was directed discharged, the grand jury having failed to indict.

NATURALIZATIONS.

It has been the custom of Judge Merritt the last week or so to hear all applications for naturalization at an early period of each morning's session, but today this rule was for once broken, and the portion of the business went over till 1:00 p.m.

NEW SUITS FILED.

Michael O'Connell has brought a damage suit for $15,000 against the receivers of the Union Pacific Railway company in the Third district court. It seems that O'Connell was superintending the loading of cars with waste from a mine at Ironton, when the brakes gave way and the cars dashed down a heavy grade, throwing him violently to the ground and injuring him. He alleges negligence on the part of the company. Powers & Straup are plaintiff's attorneys.

The Riggles & Tucker Company et al have instituted legal proceedings against the Utah Book & Stationery company, the National Bank of the Republic, E. W. Duncan, Joseph L. Barrow and the Western Book & Stationery company, in the Third district court. They ask that a preference to the National Bank of the Republic in the sum of $4,000 by the Utah Book & Stationery company at the time of the latter's assignment, be set aside on the ground that it was paid in fraud of the rights of creditors, as the note held by the bank was signed by the directors of the company in their individual capacity; that the sale by E. W. Duncan, assignee, to J. L. Barrow, and by the latter to the Western Book & Stationery company, be adjudged fraudulent, and that a receiver be appointed to take charge of the assets of the company. The defendants have been ordered to show cause on September 17 why the receiver should not be appointed.

Mary Ann Worthen has filed a suit for divorce against Walter Worthen in the Third district court on the grounds of cruelty and failure to support. The marriage took place in August, 1881, and there are seven children. Mrs. Worthen prays for the custody of the children and permanent alimony, and pending a hearing she asks that defendant be restrained from disposing of his property.

Golden Honors from the Golden Coast ...for...

Dr. Price's Baking Powder

California, empire of the Pacific, salutes the world. Her Midwinter Fair closed in a midsummer blaze of glory. Second only to the Columbian Exposition in extent, variety and splendor, the gold display was a veritable triumph. Out of her abundance the state poured her treasures—and the nations of the earth came to aid her in her noble exhibition.

Memorable were the exhibits—of gold and silver, of wheat and oil, of fruit and wine, of silk and wool—of all that man and nature could contribute to produce. And no exhibit attracted more attention or excited warmer approval than that of

Dr. Price's Cream Baking Powder

Official tests showed it to be highest in leavening power, purest in quality, and most efficient in results of all baking powders made. Accordingly, the Highest Award and Gold Medal were conferred on Dr. Price's at the Midwinter Fair.

The triumph at San Francisco confirms the victory at Chicago. The Midwinter Fair verdict sustains and vindicates the bestowal of highest honors on Dr. Price's by the jury of awards at the World's Columbian Exposition.

As to Retrenchment.

SOME ECONOMIC SUGGESTIONS TO THE "CITY DADS."

We notice that the City Council is endeavoring to fulfill their Pinafore election promises of rigid economy in the running of the municipal affairs of the city, which is certainly supported by all good citizens, and all hope they may succeed in saving many dollars to the over-burdened taxpayers. We would suggest, however, that they should avoid diminishing too much on the police force and in the fire department. This might result in the reverse of economy.

It might please the taxpayers just as well to dispense of extra sessions of the council and devote less time to discussing personal character and more time to genuine public benefit. In their efforts to stop the leakage at the spigot, we recommend that they see that the tap is securely plugged before they cut the barrel open.

Times are times when all should use their earnest efforts in the practice of true retrenchment, both in public and in private affairs, and nothing is this very land able purpose can individual step more a economist, and each community the commonwealth. Let each individual be earnest to make every dollar expended go far enough necessity and see that it is used where the purchasing power will be greatest, and all should try to prepare for the coming winter by providing themselves with necessary fuel, food and clothing while the opportunity exists, and before the increased demand increases prices. This is especially true with regard to clothing. During this slack season we are offering some great bargains, and those who are fortunate enough to be able to anticipate their need wisely and economically in clothing at this out-of-season time, can save enough to go a long way towards a ton of coal or other needed necessities.
